SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2018 (unaudited)

(in Canadian dollars)

1. NATURE OF OPERATIONS

Since its creation in 1994, Sirius Resources Inc.'s ("Sirios" or "the Company") goal is to discover world-class gold deposits in the James Bay region, in Quebec. Over the years, Sirius has developed extensive expertise in the exploration of this region.

The Company is incorporated under the Canada Business Corporations Act. The address of the Company's registered office and its principal place of business is 1000 St-Antoine West, Suite 410, Montreal, Quebec, Canada. The Company's shares are listed on the TSX Venture Exchange, under the symbol "SOI".

2. SUMMARY OF ACCOUNTING POLICIES

Basis presentation

These interim financial statements of the Company were prepared in accordance with IFRS, as issued by the International Accounting Standards Board (IASB) under International Accounting Standard (IAS) 34 - Interim Financial Reporting. These interim financial statements were prepared using the same basis of presentation, accounting policies and methods of computations outlined in Note 4, SUMMARY OF ACCOUNTING POLICIES, as described in our financial statements for the year ended June 30, 2018. The interim financial statements do not include all of the notes required in annual financial statements.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Company.

Management anticipates that all of the pronouncements will be adopted on the Company's accounting policies for the first period beginning after the effective date of each pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have an impact on the Company's financial statements.

IFRS 9, Financial instruments

In July 2014, the IASB published IFRS 9 which replaces IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 introduces improvements which include a logical model for classification and measurement of financial assets, a single, forward-looking "expected loss" impairment model and a substantially-reformed approach to hedge accounting. IFRS 9 is effective for annual reporting periods beginning on or after January 1st, 2018. The management has determined that no impact will result from the adoption of this standard on its financial statements and the Company will apply retroactively with restatement of the comparative periods.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

IFRS 16, Operating lease agreement

In January 2016, the IASB published IFRS 16, Leases which will replace IAS 17, Lease. IFRS16 eliminates the classification as an operating lease and requires lessees to recognize a right-of-use asset and a lease liability in the statement of financial position for all leases with exemptions permitted for short-term leases and leases of low value assets. In addition, IFRS 16 changes the definition of a lease; sets requirements on how to account for the asset and liability, including complexities such as non-lease elements, variable lease payments and option periods; changes the accounting for sale and leaseback arrangements; largely retains IAS 17's approach to lessor accounting; and introduces new disclosure requirements. IFRS 16 is effective for annual reporting periods beginning on or after January 1st, 2019 with early application permitted in certain circumstances. The Company has yet to assess the impact of this new standard on its financial statements.

3. JUDGMENTS, ESTIMATES AND ASSUMPTIONS

When preparing the interim financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. Information about significant judgments, estimates and assumptions that have the most significant effect on the recognition and measurement of assets, liabilities, income and expenses are discussed below.

Significant management judgment

The following are significant management judgments in applying the accounting policies of the Company that have the most significant effect on the financial statements.

Recognition of deferred income tax assets and measurement of income tax expense

Management continually evaluates the likelihood that its deferred tax assets could be realized. This requires management to assess whether it is probable that sufficient taxable income will exist in the future to utilize these losses within the carry-forward period. By its nature, this assessment requires significant judgment. To date, management has not recognized any deferred tax assets in excess of existing taxable temporary differences expected to reverse within the carry-forward period.

Estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are provided below. Actual results may be substantially different.

Impairment of exploration and evaluation assets

Determining if there are any facts and circumstances indicating impairment loss or reversal of impairment losses is a subjective process involving judgment and a number of estimates and assumptions in many cases.

When an indication of impairment loss or a reversal of an impairment loss exists, the recoverable amount of the individual asset or the cash-generating units must be estimated. If it is not possible to estimate the recoverable amount of an individual asset, the recoverable amount of the cash-generating unit to which the asset belongs must be determined.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2018 (unaudited)

(in Canadian dollars)

3. JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular whether an economically viable extraction operation can be established, the probability that the expenses will be recover from either exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after, expenditures is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

For the three-month period ended September 30, 2018 and 2017, there were no impairment. No reversal impairment losses has been recognized for the reporting periods.

No impairment was conducted on other properties. The Company has sufficient funds to respect its short-term obligation. Additionally, claims will not expire in the near future or are expected to be renewed, work was performed during the last three years and/or promising results were obtained on these properties.

Share-based payments

The estimation of share-based payment costs requires the selection of an appropriate valuation model and consideration as to the inputs necessary for the valuation model chosen. The Company has made estimates as to the volatility of its own shares, the probable life of share options and warrants granted and the time of exercise of the share options and warrants. The model used by the Company is the Black-Scholes valuation model.

Tax credits

The calculation of the Company's refundable tax credit on qualified exploration expenditures incurred and refundable tax credit involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until a notice of assessment has been issued by the relevant taxation authority and payment has been received. Differences arising between the actual results following final resolution of some of these items and the assumptions made could necessitate adjustments to the refundable tax credit and refundable tax credit, exploration and evaluation assets, and income tax expense in future periods.

4. TERM DEPOSITS

Term deposits presented in the statement of financial position (\$50,000 on September 30, 2018 and June 30, 2018) are redeemable annually, bearing interest at 1.90%, maturing in June 2023.

(a) Aquilon

This 104-claim gold property, owned at 100%, is located near LA-1 hydro-electric complex in the James Bay area (Qc) and is fully owned by the Company since August 2016.

Soquem Inc. retains a 1% NSR royalty, half of which is redeemable for \$500,000.

(b) Cheechoo

The Cheechoo gold project consists of 145 claims owned at 100% by the Company. The property covers 7,400 acres in two distinct blocks adjoining the Eleonore gold deposit owned by Goldcorp Inc. It is located at approximately 13 km east of the discovery area of the Eleonore mine which is itself located 320 km north of Matagami (Qc).

Golden Valley Mines Ltd. will retain a royalty on gold production ranging from 2.5% to 4% NSR, depending on the gold price and 4% NSR on the production of any other minerals.

(c) Cheechoo-extension

The project, owned at 100%, consists of 11 claims in the James Bay area (Qc). It is located about 15 km southwest of the Eleonore gold deposit owned by Goldcorp and is adjacent to the west block of the Cheechoo property.

(d) Pontax

The property, owned at 100% by the Company, consists of 70 claims, divided in two-continuous blocks of 69 and 8 claims. It is located in James Bay (Qc), approximately 350 km north of Matagami.

(e) 33F06

The property consists of 18 claims and covers 10 square-km in the James Bay area (Qc). It is located about 50 km southwest of Radisson and about 20 km south of the LG-2 hydro-electric complex.

(f) Goldorak

The property, owned at 100%, consists of 115 claims in the James Bay area (Qc) located about 15 km northwest of the 33F06 property.

7. EXPLORATION AND EVALUATION ASSETS (continued)

(g) Keoz

The property, owned at 100%, consists of 66 claims in the James Bay area (Qc) located about 70 km north of the Cheechoo property.

(h) Amikap

The property, owned at 100%, consists of 169 claims in the James Bay area (Qc) located about 70 km north of the Cheechoo property.

8. OPERATING LEASE

The Company's future minimum operating lease payments are as follows:

	Minimum lease payment due		
	Within 1 year	1 to 5 years	Total
	\$	\$	\$
September 30, 2018	72,144	54,108	126,252

Interest included in minimum lease payments	(4,777)
Balance	37,793

10. PROVISIONS

Provisions relate to various taxation claims. The Company is not eligible for any reimbursement by third parties in this regard. Usually, these claims are settled between three and eighteen months for initiation, depending on the procedures used for negotiating the claims. As the timing of settlement of these claims is to a large extent dependent on the pace of negotiations with various counterparties and governmental authorities, the Company cannot reliably estimate the amounts that will eventually be paid in settlement after more than twelve months from the reporting date. Therefore, the amount was classified as current.

Balance, at the end	<u>666,666</u>	0.45	<u>666,666</u>	0.45

On August 2, 2017, the Company recorded an amount of \$86,667 in issuance costs when it issued 666,666 warrants to intermediaries. Fair value was recorded as an increase in contributed surplus and deficit. The weighted average fair value of \$0.13 for these warrants was determined using the Black-Scholes model and based on the following weighted average assumptions:

Share price at the date of issuing	\$0.41
Expected dividend yield	0%
Expected weighted volatility	75%
Expected interest average rate	1.25%
Expected average life	1.5 year
Average exercise price at the date of grant	\$0.45

The underlying expected volatility was determined by reference to historical date of the Company's share over the expected average life of the warrants.

The number of outstanding warrants which could be exercised for an equivalent number of common shares is as follows:

	September 30, 2018

12.2 Share-based payments

The Company has a share-based payments plan for eligible directors, officers, employees, consultants and service suppliers of investors' relations. The most important terms of the plan are as follows:

- i) the maximum number of shares that may be issued under the plan is limited to 10% of the issued shares at the time of the grant of the option, maximum of 13,630,440 on September 30, 2018 (maximum of 13,630,440 on June 30, 2018);
- ii) the maximum number of shares that can be reserved for a beneficiary is limited to 5% of issued and outstanding shares;
- iii) the maximum number of shares that can be reserved for a consultant during a 12-month period is limited to 2% of issued and outstanding shares;
- iv) maximum number of shares that can be reserved for a supplier of investors' relation services during any 12-month period is limited to 2% of issued and outstanding shares; moreover, the options granted maybe exercised by steps over a period of 12 months after the grant, at the rate of 25% per quarter;
- v) the options granted to directors, officers, employees and consultants may be exercised entirely at the date of the grant.

The options' term cannot exceed ten years. The option exercise price is established by the Board of Directors and may not be lower than the market price of the common shares at the time of the grant.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options in cash.

17. CAPITAL MANAGEMENT POLICIES AND PROCEDURES

The Company's capital management objectives are:

- To ensure the Company's ability to continue as a going concern;
- To increase the value of the assets of the business; and
- To provide an adequate return to shareholders.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flows, either with partners or by the Company's own means.

17. CAPITAL MANAGEMENT POLICIES AND PROCEDURES (continued)

The Company monitors capital on the basis of the carrying amount of equity.

The Company is not exposed to any externally imposed capital requirements except when the Company issues flow-through shares for which an amount should be used for exploration work. See all details in Notes 11.1 and 18.

The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its activities or may slow its activities until conditions improve.

18. CONTINGENCIES AND COMMITMENTS

The Company is partially financed through the issuance of flow-through shares and, according to tax rules regarding this type of financing, the Company is engaged in realizing mining exploration work.

These tax rules also set deadlines for carrying out the exploration work, which must be performed no later than the earlier of the following dates:

- Two years following the flow-through placement;
- One year after the Company has renounced the tax deductions relating to the exploration work.

However, there is no guarantee that the Company's exploration expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in the regard. Refusal of certain expenses by the tax authorities could have a negative tax impact for investors.

During the reporting period ended September 30, 2017, the Company received \$5,000,000 following flow-through placements for which the Company will renounce tax deductions on December 31, 2017. The management is required to fulfill its commitments within one year from the date of renunciation.

The product of unspent funding related to flow-through financings total \$0 (\$4,070,554 on September 30, 2017).

19. SUBSEQUENT EVENTS
