SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

1. NATURE OF OPERATIONS

Since its creation in 1994, Sirios Resources Inc. ("Sirios" or "the Company") goal is to discover world-class gold deposits in the James Bay region, in Quebec.

The Company is incorporated under the Canada Business Corporations Act. The address of the Company's registered office and its principal place of business is 1400, Marie-Victorin, Suite 210, Saint-Bruno-de-Montarville, Quebec, Canada. The Company's shares are listed on the TSX Venture Exchange, under the symbol "SOI" and on the OTCQB under the symbol "SIREF".

2. MATERIAL ACCOUNTING POLICIES

Basis of presentation

These interim financial statements of the Company were prepared in accordance with IFRS, as issued by the International Accounting Standards Board (IASB) under International Accounting Standard (IAS) 34 - Interim Financial Reporting. These interim financial statements were prepared using the same basis of presentation, accounting policies and methods of computation outlined in Note 4, MATERIAL ACCOUNTING POLICIES, as described in our financial statements for the year ended June 30, 2024. The interim financial statements do not include all of the notes required in annual financial statements.

Standards, amendments and interpretations of standards which are not yet in force and which have not been early adopted by the Company

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Company.

Management anticipates that all of the pronouncements will be adopted on the Company's accounting policies for the first period beginning after the effective date of each pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have an impact on the Company's financial statements.

3. JUDGMENTS, ESTIMATES AND ASSUMPTIONS

When preparing the financial statements, management undertakes a number of judgments, estimations and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results are likely to differ from the judgments, estimations and assumptions made by management, and will seldom equal the estimated results. Information about the significant judgments, estimations and assumptions that have the most significant effect on the recognition and measurement of assets, liabilities, income and expenses are discussed below.

Significant management judgment

The following are significant management judgments in applying the accounting policies of the Company that have the most significant effect on the financial statements.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

3. JUDGMENTS, ESTIMATES AND ASSUMPTIONS (cont'd)

Recognition of deferred income tax assets and measurement of income tax expense

Management continually evaluates the likelihood that its deferred tax assets could be realized. This requires management to assess whether it is probable that sufficient taxable income will exist in the future to utilize these losses within the carry forward period. By its nature, this assessment requires significant judgment. To date, management has not recognized any deferred tax assets in excess of existing taxable temporary differences expected to reverse within the carry-forward period.

Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances. See Note 2 for more information.

Estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are provided below. Actual results may be substantially different.

Impairment of exploration and evaluation assets

Determining if there are any facts and circumstances indicating impairment loss or reversal of impairment losses is a subjective process involving judgment and a number of estimates and assumptions in many cases.

When an indication of impairment loss or a reversal of an impairment loss exists, the recoverable amount of the individual asset or the cash-generating units must be estimated. If it is not possible to estimate the recoverable amount of an individual asset, the recoverable amount of the cash-generating unit to which the asset belongs must be determined.

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular whether an economically viable extraction operation can be established, the probability that the expenses will be recovered from either exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after expenditures is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

For the three-month period ended September 30, 2024 and 2023, there were no impairment. No reversal impairment losses has been recognized for the reporting periods.

There was no testing impairment required on the Company's properties. The Company has the capacity to keep these properties because it has sufficient funds to respect its short-term obligation. Additionally, claims will not expire in the near future or are expected to be renewed, work was performed during the last three years and/or promising results were obtained on these properties.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

3. JUDGMENTS, ESTIMATES AND ASSUMPTIONS (cont'd)

Impairment of property and equipment

Evaluation facts and circumstances that demonstrate the existence of any indication that an asset may have depreciated or recover in value is a subjective process that involves judgment and often a number of estimates and assumptions.

As of September 30, 2024 and 2023, no impairment was recorded on property and equipment.

Share-based payments

The estimation of share-based payment costs requires the selection of an appropriate valuation model and consideration as to the inputs necessary for the valuation model chosen. The Company has made estimates as to the volatility of its own shares, the probable life of share options and warrants granted and the time of exercise of the share options and warrants. The model used by the Company is the Black & Scholes valuation model.

Tax credits

The calculation of the Company's refundable tax credit on qualified exploration expenditures incurred and refundable tax credit involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until a notice of assessment has been issued by the relevant taxation authority and payment has been received. Differences arising between the actual results following final resolution of some of these items and the assumptions made could necessitate adjustments to the refundable tax credit and refundable tax credit, exploration and evaluation assets, and income tax expense in future periods.

4. TERM DEPOSIT

Term deposit presented in the statement of financial position is redeemable annually, bearing interest at 3.80% (3.70% in 2023), maturing in June 2028.

(a) Aquilon

This 140-claim gold property, owned at 100% by the Company, is located near LA-1 hydro-electric complex in the James Bay area (Qc).

Gold Royalty Corp. Inc. retains a 1% NSR royalty, half of which is redeemable for \$500,000.

A private investor holds a 0.25% royalty.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

7. EXPLORATION AND EVALUATION ASSETS (cont'd)

In December 2022, the Company signed a property option agreement with Sumitomo Mining Canada Ltd. ("Sumitomo"), pursuant to which has agreed to grant to Sumitomo an option to acquire up to an 80% interest, following an investment totaling \$14.8M on the property. Sumitomo can earn an initial 51% interest by incurring an aggregate \$4.6M in mineral exploration expenditures over a period of 3 years. Sirios will be operator during this earn-in period. A firm commitment of \$1.6M will be spent on the property during this earn-in period and Sumitomo reimbursed in January 2023 an amount of \$200,000 to the Company in connection with the repurchase of threequarters of the royalty from a private investor. Sumitomo can earn an additional 29% interest in the project, for an aggregate of 80% by incurring an additional aggregate of \$10M in mineral exploration expenditures over a period of 3 additional years. Following the earn-in of an 80% interest, a joint venture will be formed. In the event a joint venture, participant's interest is diluted to below 10%, it will convert its joint venture interest to a net smelter return royalty of 2%.

As of September 30, 2024, an amount of \$265,932, received from Sumitomo, was reserved for exploration work on the Aquilon property.

(b) Cheechoo

The property, located 320 km north of Matagami in Quebec, is composed of 306 claims, covering an area of 157 km², divided into three non-contiguous blocks, 100% owned by Sirios. The main block, composed of 231 claims, is located 7 km east of the Eleonore gold mine of Newmont Corp. The second block, the "West block", is composed of 35 claims and is located approximately 20 km west of the main block, while the "South block" is composed of 40 claims. Twenty-four claims in the West block as well as 121 claims in the main block are subject to a gold royalty to Gold Royalty Corp., which varies between 2.5% and 4% ("Net returns") for gold depending on the price of gold and which is 4% net return for all other substances extracted from these claims.

On March 18, 2024, the Company signed an option agreement on the south and west blocks of the property with Electric Elements Mining Corp. ("EEM"). Pursuant to the agreement, Sirios granted EEM the option to acquire up to a 100% interest in each of the south and west blocks in return for an investment of \$0.5M, over a period of two years, as follows: pay to Sirios an amount of \$100,000 upon signature (received), carry out a minimum of \$50,000 in exploration work on each of the two blocks and pay an amount of \$150,000, on both blocks, in cash and/or shares, with a minimum of 50% in cash, per block at the request of Sirios. Sirios will retain a 1.5% NSR royalty on the southern block. In addition, if the option is exercised, Sirios will be able to recover, at no cost, 100% of the claims on which gold mineralization in bedrock reaching a minimum metal factor of 10 g/t per metre has been identified.

(c) Niska

The property, owned at 100% by the Company, consists of 150 claims and covers almost 100 km² in James Bay, Quebec.

A private investor holds a 0.5% NSR royalty, half of which is redeemable for \$200,000.

In December 2023, the Company signed an option agreement on Niska with Bullrun Capital Inc. ("Bullrun"), a private investment company. Sirios has agreed to grant Bullrun an option to acquire up to 100% interest in the property, following an investment of \$2.475M, i.e. \$2.25M in exploration expenses, \$25,000 in cash on closing (received), \$100,000 on or before the first anniversary as well as \$100,000 in cash or in shares. In addition, Sirios will receive a payment of \$250,000 either in cash or in shares upon the successful confirmation of drilling results indicating a lithium concentration of 1% or more over a minimum of 25 metres.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

7. EXPLORATION AND EVALUATION ASSETS (cont'd)

If the option is completed, Sirios will retain a 1.5% NSR on the property. In addition, Sirios will keep the right to buy back 100% of the mining rights on the non-critical minerals, which comprise among other metals, gold, silver and PGE (Platinum Group Elements) and tungsten, by paying back to Bullrun its incurred exploration expenditures capped to a maximum of \$2M.

(d) Tilly 2

The property, owned at 100% by the Company, consists of 86 claims in the James Bay area (Qc).

A private investor holds a 0.5% NSR royalty on 76 claims, half of which is redeemable for \$200,000.

(e) Maskwa

The property, owned at 100% by the Company, consists of 424 claims. It is located approximately 100 km southwest of Radisson and approximately 120 km east of Wemindji in the James Bay area (Qc).

A private investor holds a 0.5% NSR royalty on 393 claims, half of which is redeemable for \$200,000.

In December 2023, the Company signed an option agreement on Maskwa with Hertz Lithium Inc. ("Hertz"). Sirios has agreed to grant to Hertz an option to acquire up to 100% interest in the property, following an investment of \$2.25M, i.e. \$2.25M in exploration expenses, \$100,000 in cash on closing (received), \$100,000 on or before the first anniversary as well as \$100,000 in cash or in shares. In addition, Sirios will receive a payment of \$250,000 either in cash or in shares upon the successful confirmation of drilling results indicating a lithium concentration of 1% or more over a minimum of 25 metres.

If the option is completed, Sirios will retain a 1.5% NSR on the property. In addition, Sirios will keep the right to buy back 100% of the mining rights on the non-critical minerals, which comprise among other metals, gold, silver and PGE (Platinum Group Elements) and tungsten, by paying back to Hertz its incurred exploration expenditures capped to a maximum of \$2M.

(f) Li-52

The property, owned at 100% by the Company, consists of 710 claims for an area of more than 364 km². It is located approximately 20 km south of the Maskwa property, in the James Bay area (Qc).

In December 2023, the Company signed an option agreement on Li-52 with Bullrun Capital Inc. ("Bullrun"), a private investment company. Sirios has agreed to grant Bullrun an option to acquire up to 100% interest in the property, following an investment of \$2.525M, i.e. \$2.25M in exploration expenses, \$75,000 in cash on closing (received), \$100,000 on or before the first anniversary as well as \$100,000 in cash or in shares. In addition, Sirios will receive a payment of \$250,000 either in cash or in shares upon the successful confirmation of drilling results indicating a lithium concentration of 1% or more over a minimum of 25 metres.

If the option is completed, Sirios will retain a 1.75% NSR on the property. In addition, Sirios will keep the right to buy back 100% of the mining rights on the non-critical minerals, which comprise among other metal, gold, silver and PGE (Platinum Group Elements) and tungsten, by paying back to Bullrun its incurred exploration expenditures capped to a maximum of \$2M.

(g) Fagnant

The property, owned at 100% by the Company, consists of 96 claims in the James Bay area (Qc).

Total cash outflow for the lease for the three-month period ended September 30, 2024 totals \$10,448 including additional rent expenses (\$1,761 for the three-month period ended September 30, 2023).

The Company has chosen not to recognize any rental obligation under short-term rental contracts (duration of less than 12 months). Payments made under this lease are recognized on a straight-line basis and totaled \$0 for the three-month period ended September 30, 2024 (\$8,146 for the three-month period ended September 30, 2023).

9. PROVISION

Following flow-through financing agreements entered into with subscribers in 2022, the Company committed to incur \$999,999 in Canadian Exploration Expenses ("CEE") before December 31, 2023. At that date, the Company incurred an amount of \$880,310. Consequently, a balance of \$119,689 in exploration expenses renounced to investors has not been incurred in CEE as of December 31, 2023. The reason for the work not carried out is due to forest fires which made access to the mining sites impossible during the spring-summer 2023 period. Extension requests to carry out the missing exploration work will be made. In the meantime, amended renunciation forms will be filed with the federal and provincial tax authorities, which could result in the issuance of new assessment notices for affected subscribers for the 2023 tax year. In this regard, the Company has recorded, as of June 30, 2024, a provision of \$84,396 in the statement of financial position and an expense of the same amount was recognized in the results.

10. EQUITY

10.1 Share capital

The share capital of the Company consists of fully paid common and preferred shares.

Authorized

Unlimited number of common shares without par value, voting, participating, dividend as declared by the Board of Directors.

SIRIOS RESOURCES INC.

Notes to Interim Financial Statements

For the three-month period ended September 30, 2024 (unaudited)

(in Canadian dollars)

10.1 Share capital (cont'd)

Unlimited preferred shares, issuable in one or several series, composed of the number of shares, rights, liens, conditions and restrictions as determined before issuance by resolutions of directors of the Company, without par value. The preferred shares, series A, are redeemable at the Company's option at their issuance price, non-voting and not entitled to dividends.

	Number of shares	
	Three-month period ended September 30,	
	2024	2023
Common shares issued and fully paid at beginning and at the end	308 916 342	268 331 213
Preferred shares, serie A	100 000	100 000

10.2 Warrants

Outstanding warrants entitle their holders to subscribe to an equivalent number of ordinary shares, as follows:

	Three-month period ended September 30, 2024		Year ended June 30, 2024	
	Number of warrants	Weighted average exercise price	Number of warrants	Weighted average exercise price
		\$		\$
Balance at beginning	47 684 664	0	19 588 749	0,10
Issued	-	-	28 095 915	0,13
Balance at the end	47 684 664	0	47 684 664	0,12

The number of outstanding warrants which could be exercised for an equivalent number of common shares is as follows:

Expiry date	September 30, 2024	
	Number of warrants	Exercise price
		\$
July 28, 2025	19 588 749	0,10
December 28, 2025	6 250 000	0,15
April 30, 2026	21 845 915	0,12
	47 684 664	

SIRIOS RESOURCES INC.

11. EMPLOYEE REMUNERATION

11.1 Salaries and employee benefits expense

Salaries and employee benefit expenses recognized are analyzed below:

	Three-month period ended September 30,	
	2024	2023
	\$	\$
Salaries and benefits	243 837	353 373
Share-based payments	-	9 000
	<u>243 837</u>	<u>362 373</u>
Less: salaries and share-based payments capitalized in Exploration and evaluation assets or presented in Project generation expenses	<u>(149 032)</u>	<u>(182 587)</u>
Salaries and employee benefits expense	<u>94 805</u>	<u>179 786</u>

11.2 Share-based payments

The Company has a share-based payments plan for eligible directors, officers, employees, consultants and service suppliers of investors' relations. The most important terms of the plan are as follows:

- i) the maximum number of shares that may be issued under the plan is limited to 10% of the issued shares at the time of the grant of the option, maximum of 30,891,634 on September 30, 2024 (maximum of 30,891,634 on June 30, 2024);
- ii) the maximum number of shares that can be reserved for a beneficiary is limited to 5% of issued and outstanding shares;
- iii) the maximum number of shares that can be reserved for a consultant during a 12-month period is limited to 2% of issued and outstanding shares;
- iv) the maximum number of shares that can be reserved for a supplier of investors' relation services during any 12-month period is limited to 2% of issued and outstanding shares; moreover, the options granted maybe exercised by steps over a period of 12 months after the grant, at the rate of 25% per quarter;
- v) the options granted to directors, officers, employees and consultants may be exercised entirely at the date of the grant.

The options term cannot exceed ten years. The option exercise price is established by the Board of Directors and may not be lower than the market price of the common shares at the time of the grant.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options in cash.

SIRIOS RESOURCES INC.

16. CAPITAL MANAGEMENT POLICIES AND PROCEDURES

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern;
- to increase the value of the assets of the business; and
- to provide an adequate return to shareholders.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flows, either with partners or by the Company's own means.

The Company monitors capital on the basis of the carrying amount of equity.

The Company is not exposed to any externally imposed capital requirements except when the Company issues flow-through shares for which an amount should be used for exploration work. See all details in Notes 10.1 and 17.

The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its activities or may slow its activities until conditions improve.

17. CONTINGENCIES AND COMMITMENTS

The Company is partially financed through the issuance of flow-through shares and, according to tax rules regarding this type of financing, the Company is engaged in realizing mining exploration work.

These tax rules also set deadlines for carrying out the exploration work, which must be performed no later than the earlier of the following dates:

- Two years following the flow-through placement;
- One year after the Company has renounced the tax deductions relating to the exploration work.

However, there is no guarantee that the Company's exploration expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in that regard. Refusal of certain expenses by the tax authorities could have a negative tax impact for investors.

As of September 30, 2024, the product of unspent funding related to flow-through financings totals \$169,788 and must be incurred before December 31, 2025 (\$585,998 on September 30, 2023).

18. SUBSEQUENT EVENT

On November 13, 2024, the Company completed the closing of a flow-through private placement for a total of \$961,999. In total, 13,742,843 flow-through shares were issued at a price of \$0.07 each.
