

## Primary 3 Week 12 – WAU/Other

There are several activities to complete this week covering WAU, Art, ABL, and ICT. You can complete the activities in any order.

Our new topic for this half term is 'Seaside'.

### Activity 1 - WAU

Our WAU activity this week is all about Dangers near the Sea. This activity is to spot the dangers by the sea, have a look at the picture can you find all the dangers, maybe you can even think about all possible dangers by the sea.

- Group A, B, C and D – Dangers near the sea

### Activity 2 - Art

For this week's art activity, we would like you to make some puppets. Puppet shows, such as Punch and Judy shows, were popular entertainment at seaside locations. It is up to you which materials you would like to use and whether you want to make hand puppets or string puppets. Its another great opportunity to be creative and we cannot wait to hear about what you've come up with!

- Group A, B, C and D – Create you own puppets for a performance.

### Activity 3 – ABL

This week for ABL we would like you to use your Punch and Judy style puppets you created in art to put on a performance for someone, just like you would have seen in Victorian times and may even still see at some seaside locations in the summer. Jokes are a good way to make your puppet performance even better.

- Group A, B, C and D – Make your own puppet performance for an audience

### Activity 4 - ICT

Keyboard and Word Processing skills.

This is helpful for many reasons: It is easier and quicker to press a key than to form a letter, typing enhances the presentation of work

Word processing is ideal for children with handwriting difficulties; they need to develop keyboard skills. If you have access to a computer/tablet with keyboard at home, word processing skills can be developed further.

The free software 'BBC Dance Mat typing' is a really helpful resource. (link below)

**Groups A, B, C and D - This week we will add the last 2 letters from the top row.**

**Stage 6:**

**q , p**

### Activity 5 – PE

For the month of June our PE is going to be focused on the Garden Olympics 2020, which you should have received word about via the parent app or the website. Attached to the documents part of the P3 online learning is the information you need to take part in the Garden Olympics. It is a great opportunity to try new sports and possibly win prizes for school! Good luck and enjoy, we cannot wait to hear what you get up to?
