

Primary 3

Week 22nd February – WAU/Other

There are several activities to complete this week covering WAU, Art, Music, ICT and PE and RE. You can complete the activities in any order.

Our new topic for this half term is 'Incredible Inventions'.

Activity 1 – WAU

Our WAU pack is all about our new topic 'Incredible Inventions.'

Groups A, B, C and D

- First read through the PowerPoint on *Thomas Edison* (you may need an adult to help). There is a copy of this PowerPoint in your pack and in the P3 online learning section of the school website. This is one of the most famous inventors ever! He invented the lightbulb. Can you imagine not being able to just turn on a light switch?
- Then read through the report on Thomas Edison and answer the questions. Use the answer section to mark your work.

EXTENSION ACTIVITY – This week's extension activity is to Design a New Sport. Imagine being able to combine two of your favourite sports or games. I love trampolining and netball. So I'd invent a game where I could jump on a trampoline to score lots of goals in the net!

Activity 2 – PE

Take an opportunity each day to be active with at least two proper PE sessions a week. These could be in your garden or you may want to do something more structured like the suggestions below.

Games

Body Part Call Out <https://vimeo.com/451766576/a19dca9a1b>

TV Channel - <https://vimeo.com/468458459/2c7ad2a2cf>

Athletics

Throwing & Catching - <https://vimeo.com/451655104/ad7adb3570>

Jumping and landing - <https://vimeo.com/453437144/8c963b5f5f>

A good resource for daily PE lessons is [Joe Wickes](#), the Body Coach. He runs a lesson every Monday, Wednesday and Friday at 9am on his YouTube channel or can be caught up on any time. Some of you may have already given it a go so well done if you have.

Wellbeing

Breathing

Mindfulness breathing - <https://vimeo.com/459131872/e7e169ab71>

Hand breathing - <https://vimeo.com/474340343/a175b7b0d0>

Activity 3 – Music

You should have all received a Charanga login home with your packs, if not contact us via Slido and we can get you yours. If you login in you will see that there are a series of lessons you can work through at home. If you have completed 'Zootime', you could work through the dinosaur songs.

<https://charanga.com/yumu/login>

Activity 4 – ICT

Keyboard and Word Processing skills.

This is helpful for many reasons: It is easier and quicker to press a key than to form a letter, typing enhances the presentation of work

Word processing is ideal for children with handwriting difficulties; they need to develop keyboard skills. If you have access to a computer/tablet with keyboard at home, word processing skills can be developed further.

The free software 'BBC Dance Mat typing' is a really helpful resource. (link below)

Groups A, B, C and D - This week we will add another 2 letters from the top row found in Stage 3

Stage 3: r, u

Activity 5 –Art /RE

Last week we watched the cartoon story of the greatest invention ever...the world. If you didn't get a chance to watch it. Here's the link again.

<https://youtu.be/D9oh4YO8N7M>

There are some beautiful illustrations in this video. Could you draw some of the beautiful creatures that God created?

OR

You could do the creative tasks in your WAU pack. Design a lollipop or your own new sweet invention in Willy Wonka's Inventing Room. Be as creative as you can.
