

P6 Mrs. Hayes and Mrs McCullough 2021

These are the topics we want you to be familiar with by half term.

CHECK LIST

- All basic computation (- x + ÷)
- Understand how to find approximate answers - try this while out shopping or when adding some numbers
- Rounding to the nearest 10,100
- Place value up to millions
- Prime numbers 1-100
- Cube numbers
- Triangular numbers
- Square numbers
- Use a timetable to plan a journey.

After Easter we are revising **everything** again.

By the end of June all numeracy facts and literacy parts of speech (nouns, verbs, adjectives etc) should be to the forefront of your brain.

- Try to remind yourself of some vocabulary. Could you make a mini thesaurus or dictionary?
- The BEST thing to help your literacy and comprehension is READING.

PLEASE:

- Remember we will **work hard** with you after half term and Easter to catch up on any learning you may have missed. Please don't worry!

Equivalent measures

| | <u>Metres and centimetres</u> | <u>Millimetre and centimetres</u> | |
|---------------------|-------------------------------|-----------------------------------|------|
| 1 metre | 100 centimetres | 10 mm | 1 cm |
