

Using Read&Write to Improve Writing

Part 3- Parents Series

Wednesday 23rd March, 6.00pm - 6.30pm

The skill of writing is primarily developed at school level. If your child struggles with this skill it can be very frustrating for them, sometimes to the point of stopping them writing altogether. This webinar will show you how with your simple direction your child can use Read&Write to help build a stronger foundation for writing.

Note: This session is the third of the Parents webinar series.
