

Quick guide

MATHEMATICS MASTERY

Alternatively, or in addition, schools may choose to utilise the **MATHEMATICS MASTERY** programme in liaison with the children/parent as a tutorial style support.

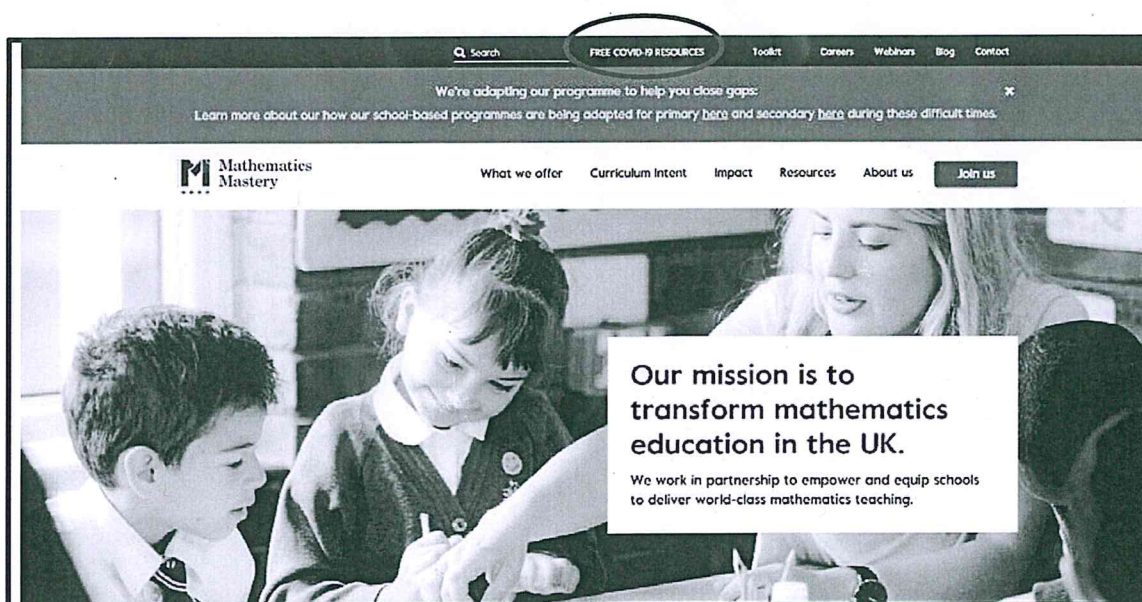

Mathematics Mastery provides a structured programme for **literacy** and **numeracy** and step by step guides for parents.

The **numeracy** activities allow opportunity for discussion and independent practical tasks which encourage mathematical thinking and video clips are also provided for support. The numeracy tasks cover aspects of number, shape and space and measures.

The **literacy** activities provide opportunity for structured activities, reading, discussion, prediction and comprehension all based on selected texts which are provided.

Parental access to the programme is straight forward, there is no need to register just access the '**Free Covid-19 Resources**' at the top of the **Mathematics Mastery** homepage:

<https://www.mathematicsmastery.org/>

There are two maths packs for each year group, one has the guidance pages and the other the pupil facing resources. Parents need to access both packs as the pupils' packs do not make sense without the guidance. To reduce printing, the guidance packs can be accessed digitally as they contain embedded video links.

There are also two literacy packs with the guidance included.

Year 5 [approximately equivalent to year 6 NIC] Printable packs
