

Tornado in a Bottle

What Do I Need?

1. An empty plastic bottle.
2. Few drops of washing up liquid.
3. Glitter (optional).

What Do I Do?

1. Fill the bottle to about 3/4 full with water.
2. Add a drop of washing up liquid and some glitter.
3. Hold the bottle and spin it as fast as you can - you may need to practice a few times to get a good tornado going in your bottle!

Oliver made a great one for us in a jar!
