

USEFUL WEBSITES AND APPS WITH LOTS OF TIPS AND INFORMATION TO KEEP YOUR CHILD SAFE WHILST USING DEVICES ONLINE.

internet
matters.org

This website offers a wealth of practical tips, from age-specific online safety checklists to comprehensive guides on setting parental controls. Discover the knowledge and tools you'll need to help your children safely and confidently explore the digital world.

Childnet

Childnet is a UK-based charity who empower children, young people, and those who support them in their online lives, and its mission is to work with others to make the internet a great and safe place for children and young people.

Screen Time is a parental control app that is less invasive than others and geared towards families with older children and teenagers. It will let you monitor and manage the time spent on devices and allows you to set time limits on selected apps, as well as a bedtime curfew, lights out and school time curfews.

You will have to set up a pin when you first log into the Kids Place app that is then needed to exit the app, but once logged in, it will protect your personal data and restrict your children to only use apps approved by you.
