

MATHEMATICS

Y2 Number and Place Value 2240

Read and write 2-digit numbers.
Partition a number into tens and units.

Equipment

Number cards (available in numbers module).
Pencil and paper.
Number line useful.

MathSphere

Concepts

In year 2 children will be expected to develop their ability to read and write numbers, including two digit numbers and whole hundreds. They will still need a lot of practice at recognising numbers, reading them aloud and writing them down in different contexts.

Number cards are very valuable - say a number and ask the child to place the appropriate cards in front of them. As they gain in confidence and speed they can hold up the numbers - but care needs to be taken that they don't reverse the digits. Number cards are available in the numbers module.

Dominoes, number lines, clock faces and coins are also useful resources.

As confidence grows children should be shown what each digit in a number represents, especially two digit numbers

eg 28 - the 2 represents two tens and the 8 represents eight ones.

Good use can also be made of the numbers all around us during the day:

- House numbers
- Telephone numbers
- Car number plates
- Calculators
- Supermarkets

Use these to talk about numbers whenever possible.

A number line is really useful for this work. A string line with numbers hanging down on pegs is a simple, but effective, way to show numbers and is cheaper than buying from a commercial source.

Using 0 to 9 cards.

All the work on this page would be done orally. The activities below are examples which can be repeated many times. Children enjoy the success that repetition brings.

1. Put forty five in front of you.
2. Put thirty in front of you.
3. Find the cards which say thirty four.
4. Find the cards which say sixty two.
5. Find a number in the nineties.
6. Find a number in the twenties.
7. Find a bigger number than twenty seven.
8. Find a bigger number than sixty five.

Then exchange cards.

9. What do these cards say?

10. What do these cards say?

and so on....

Writing numbers in figures

Hi!

Write these numbers in figures.

1. thirty four

2. sixty one

3. forty two

4. fifty three

5. twenty

6. sixteen

7. sixty five

8. eighty five

9. ninety nine

10. forty one

Writing numbers in figures

Hello again!

Write these numbers in figures.

1. twenty five

2. thirty three

3. seventy two

4. nineteen

5. thirty

6. forty five

7. eighty seven

8. fifty nine

9. ninety two

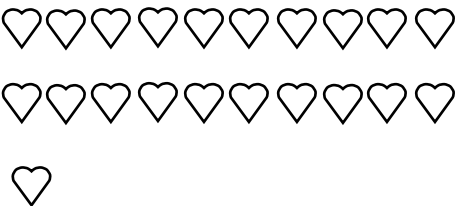

10. sixty three

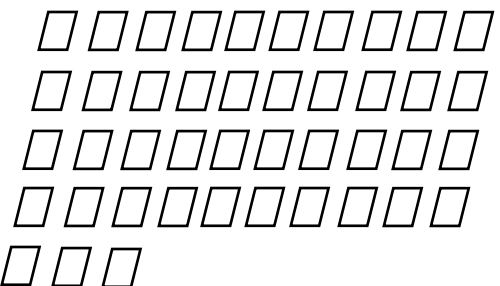

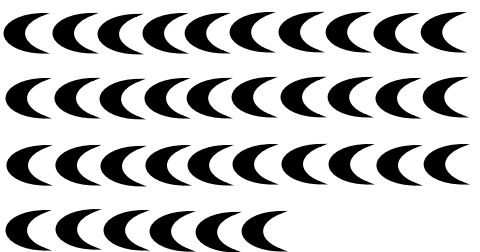

Counting and writing tens and units

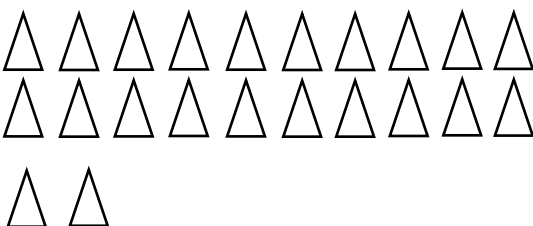

Count these shapes.
How many? Write
your answer down in
the box.

1. 

2. 

3. 

4. 

Counting and writing tens and units

Count these shapes.
How many? Write
your answer down in
the box.

- 1.

- 2.

- 3.

- 4.

Writing numbers in words

Write these numbers in words. Try to spell them correctly!

11	_____
12	_____
13	_____
14	_____
15	_____
16	_____
17	_____
18	_____
19	_____

**Writing numbers in words**

Try writing these
numbers in words.
Good luck!

20	— — — — —
30	— — — — —
40	— — — — —
50	— — — — —
60	— — — — —
70	— — — — —
80	— — — — —
90	— — — — —
100	— — — — —

Fill in the missing numbers:

20

21

23

25

26

29

31

35

36

Now colour all the **even number** shapes with your favourite colour.

Fill in the missing numbers:

A collection of 20 thought bubble shapes scattered across the page. Some contain numbers: 46, 48, 51, 55, 61, and 62. The others are empty.

Now colour all the **odd number** shapes with your favourite colour.

Counting - fill in the missing numbers

1. 18 19 20 22 25

2. 36 37 39 42

3. 25 26 27 32

4. 87 88 92 94

Well done so far, I
hope!
Keep it up!

5. 63 64 69

6. 42 43

Counting - fill in the missing numbers

1. 16 17 18 20

2. 78 79 81 84

3. 33 34 35 40

4. 18 19 23

Keep on counting,
counting,
counting!

5. 58 59 64

6. 67 68

Number lines

Fill in the gaps in these number lines:

1.

2.

3.

4.

5.

Number lines

Fill in the gaps in these number lines:

1.

2.

3.

4.

5.

The abacus

The abacus is a way of showing numbers.

This abacus has 5 in the tens and 3 in the units making 53 in all.

Write down what the abacus shows on each of these:

1.

1. -----

2.

2. -----

3.

3. -----

Write down in numbers and words what each of these shows:

Number

Words -----

Number

Words -----

Write down in numbers and words what each of these shows:

Number

Words -----

Number

Words -----

The abacus

Colour in the numbers shown on these:

1. 38

2. 61

3. 49

4. twenty nine

5. ninety three

6. sixty five

If you finished all these, well done!

The abacus

Colour in the numbers shown on these:

1. 17

2. 63

3. 47

4. fifty one

5. Eighty eight

6. nineteen

All these circles are sending me dizzy!
