Introduction

'First Aid is the initial assistance or treatment given to someone who is injured or suddenly taken ill' (The Joint First Aid Manual 8th Edition). Accidents Involving Bumps to a Pupil's Head

The consequence of an injury from an accident involving a bump or blow to a pupil's head is not always evident immediately and the effects may only become noticeable after a period of time.

A phone call to parents will be made to the main parent to inform about the head injury and discuss our course of action.

Transport to Hospital or Home

The principal will determine the appropriate action to be taken in each case. Where the injury requires urgent medical attention an ambulance will be called and the pupil's parent or guardian will be notified. If hospital treatment is required, then the pupil's parent/guardian will be called for them to take over responsibility. If no contact can be made with parent/guardian or other designated emergency contacts then the principal may decide to transport the pupil to the hospital.

Where the principal makes arrangements for transporting a child then the following points will be adhered to:-

- Only staff cars insured to cover such transportation will be used
- No individual member of staff will be alone with the pupil in a vehicle
- A second member of staff will be present to provide supervision of the injured pupil

Review

This policy will be reviewed September 2024.
