We have been working all year on developing a new school mission statement, school motto and core school values (see below). All the major stakeholders in the school community were consulted and we conducted lots of workshops with the staff and pupils. We are delighted to have settled upon a final draft for each of the above. We feel that they reflect what we are doing at St Brigid's and the aspects of school life which are the most important. You will see the use of the core values and school motto on school literature and on display throughout the school. We will be using them as reference points throughout the year to help reinforce the positive ethos of our school.

Important Dates:

School Closed for all children 25th -29th May
