

FS2 MOUSE CLUB

Term 6 | Week 5

Our Books of the Week

This week we will be finding out why it is so important to look after our oceans and what happens when people do not pick up their rubbish on the beach. Two of our stories are: 'Somebody Swallowed Stanley' by Sarah Roberts and 'Rocket says Clean Up' by Nathan Bryon.

You can follow and listen to the stories here:

- [Somebody Swallowed Stanley](#) - [here](#)
- [Clean Up!](#) - [here](#)

Song of the Week is 'Ocean Jam'

Join in with this fantastic song and try to move like all the animals that we have been finding out about! Please click [here](#) and join in! Share it on Tapestry!

Ideas to try at home

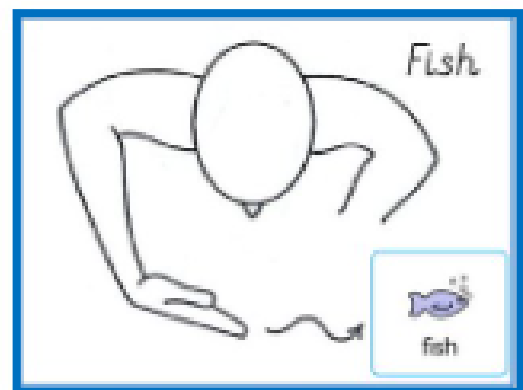

Listen to the stories and discuss why plastic in the sea is a bad thing, and dangerous for sea creatures.

- click [here](#) to listen to the author of 'Somebody Swallowed Stanley' who explains why she decided to write her wonderful book.
- Even though we do not live by the sea, have a think about some of the things we can all do, every day, to care for our environment, and look after our planet.
- You could film your child explaining how they will try to help our world (such as picking up litter, recycling, not wasting water, etc.) and put it on Tapestry, or help them draw and label a picture to show how they will look after our world, and share this too.

Our Makaton Signs of the Week

This week we will learn the Makaton actions for some of our favourite sea creatures. Please click [here](#).
