

CURRICULUM OVERVIEW

Sharing our learning

Academic Year 2018-19

- **Year:** FS2
- **Term:** 5

Your Child's Teaching & Learning Team:

- Mrs H Darken
- Mrs A Prentice
- Mrs R D'Roza
- Mrs E Walton
- Miss McDermott

Dear Parents and Carers,

This is our fifth curriculum overview of the academic year and covers the key period of both statutory and school assessments. Good attendance is *always* important but is especially so in Term 5. **Please avoid unnecessary time off school and especially term-time holidays.**

As usual the overview contains important information about your child's curriculum. This time we have also shared the key words that the children will need to learn and use in order to grow and develop their skills and knowledge. You will also find the usual tips for helping your children at home

If you have any questions or if you require support, please do *not* hesitate to contact us. We would also really like to hear from you if you have knowledge and experiences related to our topics to share with the children or you can support us in any other way. Thank you.

Yours sincerely,

Headteacher

RE

Information about our Term 4 RE curriculum is in the 'Come and See' letter accompanying this overview.

Our Theme this Term

This term's theme relates to superheroes and growing. We will read many books, focusing particularly on vocabulary and story structure. We will learn about superheroes both real and imaginary. We will investigate the personal qualities of superheroes and link these to our own 'superpowers' by considering behaviours that make us good learners. We will consider how to ensure we eat healthily and link this to growth and change in the natural world as the weather gets warmer.

Key words we will be using are:

- ✓ resilience
- ✓ strength
- ✓ compassion
- ✓ healthy
- ✓ grow

EYFS Prime Areas

Communication & Language, Physical Development & Personal, Social & Emotional Development

Personal, Social and Emotional Development (PSED)

The children will continue to develop their independence skills. They are all familiar with the school routines and the environment and now join in with assembly. We still encourage the children to think about what they can do well and encouraging them to persevere with things they find difficult 'Never, never, never give up!'

Many of the children support and praise each other as they are learning, we call this reciprocity, and we will be encouraging these skills. Discussions, stories and everyday events provide opportunities for children to talk about their ideas thoughts and feelings. We will be encouraging the children to share their thoughts with each other, beginning to understand that not everyone feels or thinks the same about a shared event or interest. This also links with the specific area of learning – 'People and Communities'.

Communication, Language and Literacy (CLL)

We continue to have many discussions in class about the children's achievements in and out of school and your completed Tapestry updates are really valued. Children often use language to share their experiences

and we will continue to encourage this. We will be thinking about how we need to express ourselves clearly for different audiences and we will be learning lots of subject specific vocabulary related to our theme of superheroes and growing. We will also continue to focus on the need for good listening skills and how we can show someone we have understood what they have said.

Physical Development (PD)

We will continue to use the outdoor area to support children in developing their skills and ideas through the use of imaginative play, games, problem solving and physical activities. Many of the children prefer to learn outside as the weather gets warmer it is vital children have a water bottle, wear sun cream and a hat if the weather is hot. Physical activities will be supplemented by the weekly PE sessions. Fine motor skills will continue to be developed through drawing, writing, and painting, threading and manipulating small equipment. We will also think about what we need to do to be healthy and what happens to our body when we exercise. This will link to our work on superheroes and growing.

Key words we will be using are:

- ✓ independence
- ✓ resilience
- ✓ reciprocity
- ✓ sun smart
- ✓ safe

You can support your child's learning at home by:

- ✓ encouraging your child to talk about something they have enjoyed and why they liked it
- ✓ talking to your child about stories, books and their interests to support their thinking/questioning skills
- ✓ Highlight the correct formation of letter shapes, modelling where possible and giving children many opportunities for draw and write in different places.

EYFS Specific Areas

Literacy, Mathematics, Understanding the world, Expressive arts and design

We will continue to develop literacy skills through our Read Write Inc. phonics programme which means that children learn in small determined by the phonics skills/knowledge that they need to consolidate or develop.

Reading

Children will continue to take home books to support reading. It is a fantastic support for the children if they are confident with these texts. Most children should now be attempting to read school scheme books independently by applying their phonic knowledge. The children love books and we will use a selection of both books and IT resources for shared reading sessions. These will include non-fiction books, poetry, stories and information books as well as downloaded texts. Our book corner will include books about the current topic as well as favourite picture books.

Writing

Children will be encouraged to write for different purposes, using and applying their developing knowledge of phonics in order to 'sound out' words. We will help the children to think about what they write ahead of the task. In school we ensure that children write for many different reasons and so any writing completed independently at home by your child your children should also be shared with us in school.

Practise is key as writing is one of the harder skills learned during FS2. We love to see your children's writing and they will be encouraged and praised in school for writing in any forms. This term we will focus writing and drawing to create our own stories and books. As the children gain confidence in writing we will work on ensuring letters are formed correctly to ensure good handwriting and presentation.

Mathematics

In Mathematics we will continue to support the children to recognise and use numbers 1 to 20. Children will also be encouraged to *estimate* and *calculate* in a range of practical situations. They will add and subtract and will be encouraged to explain their ideas and record their findings when appropriate. Number activities will include counting orally forwards and backwards from a given number, recognising and writing numerals,

accurately counting how many in a 'set'. We will introduce counting in 2's or 10's as appropriate. We will also explore size and time in practical ways and use the vocabulary associated with this. We will also do some work on collecting and then recording information (data) as part of a tally chart.

The World

At the beginning of Term 5 we will consider the Easter story and talk to the children about the many traditions related to the time of year. At the end of Lent we will consider how we have 'grown' over the time.

We will then move on to our topic of superheroes considering how real people can show super powers of their own. This is an area of interest for many of the children and we hope the topic will inspire the children to create their own stories. We will ensure to highlight the positive behaviour of superheroes, play fighting will not be allowed. We will consider the characteristics of bravery, compassion and problem solving.

Through this topic we will talk about keeping safe and healthy. We will consider different foods and how they are grown. This work will link to the story of the Hungry Caterpillar which many of the children already know. We will look at how some insects are important to the garden and think about what different plants need to grow.

During term 5 we will use the outdoor space to observe many of the changes in nature.

Key words we will be using are:

- ✓ growth
- ✓ healthy
- ✓ cocoon
- ✓ change

You can support your child's learning at home by:

- ✓ continuing to help your child at home with reading and writing activities – please share these with us we love to see what you have been doing.
- ✓ reading or telling stories – We will be focussing on imaginative stories which have a definite pattern to them.
- ✓ counting activities using numbers up to 20 – counting forwards, backwards, counting in 2, 5s and 10s
- ✓ using our imagination to take us to different places, encouraging your children to develop their own narratives in their play and then write them down.

EYFS: Characteristics of Learning

Throughout the year we will be looking at how children develop certain 'characteristics' such as how they engage in their learning, find out, explore and 'have a go'. If they are motivated to learn by being involved, concentrating, keep trying and enjoying achieving what they set out to do.

We also consider whether they are able to develop their own ideas, make links in their learning and the ways they choose to do things, whether they plan, review or change their strategy when approaching a task. These are all attitudes to learning that children need to become successful learners.

Hopefully we will lay the foundations for these young children so they grow their skills and achieve both personally and academically.

We will be focusing on building our pupils' *learning power* across all areas of the curriculum to enable to children to continue developing into motivated and resilient learners. We will continue to 'plan, review and do' in all aspects of our work and then we will reflect on what went well.

Music

We will learn about special people as we focus on Personal, Social and Emotional Development through:

- singing echo songs
- performing movement to a steady beat
- creating and performing actions
- playing instruments to a steady beat at different speeds

PE

REAL PE

This term we are applying physical skills with a focus on coordination with equipment. Activities will teach agility, reaction and response and assess how these skills have been embedded.

Using team games, we will continue to develop the skills of running, hopping, etc, and using some small equipment.

Outdoor games

Our focus on team games/activities continues: running, hopping etc. and using some small equipment.

Key words we will be using are:

- ✓ balance
- ✓ static
- ✓ co-ordination
- ✓ agility
- ✓ team work

You can support your child's learning at home by:

- ✓ continuing to encourage your child to be independent when getting dressed /undressed and being responsible for their own belongings
- ✓ playing games in your garden or in the park, particularly running, chasing and ball skills

Assessment

All assessments throughout Foundation Stage 2 are done through observational assessment.

We will collect photos, written observations as part of our evidence.

Please continue to share any 'wow' moments with us, that occur outside of school. These can include joining in with a swimming/dance lesson for the first time and dressing independently for the first time etc.

Please feel free to add your own 'Wow' moments to the **'Tapestry Online'** journal.
