- By sending your child to an after-school club you are giving permission for your child to take part in the activities and confirm he/she is medically fit to participate. Any boys and girls staying for clubs, as an extension of the school day, behaviour expectations will be the same and our school children's code of conduct/ school's behaviour policy applies. Thank you.
- Booking school clubs through the app is essential because many activities are now delivered by outside facilitators who must plan resources, equipment, and staffing in advance. When pupils attend without booking, club leaders cannot prepare appropriately, which can impact the quality and safety of the session. Accurate numbers also ensure that adequate supervision is in place; larger groups require more adults to maintain safe ratios and provide proper support for all children. By booking through the app, families help the school manage clubs efficiently, keep sessions safe, and ensure every child can fully benefit from the experience.
