

We will be using the themes of Autumn/Halloween to introduce your child to different areas of learning. If you would like to follow this up at home, here are a few ideas to try.

Talking

- Talk to your child about the signs of Autumn, falling leaves, different coloured leaves, colder weather.
- What did you do at Halloween as a child- dress up, bob for apples etc.
- Discuss the possible dangers of Halloween - do not touch fire works, staying with an adult at firework displays.

Making

- Make a collage using the leaves and twigs you have collected in the garden.
- Plant a conker in the garden - it is National Tree Week in October.
- Printing with apples

Out and About

- Walking on the fallen leaves - what sound do they make?
- Look at the different colours, sizes and shapes of the leaves.
- Look for signs of Halloween - shop window / house displays.
- What clothes do we have to wear as the weather changes?
Developing awareness of changes in the weather.

Songs

5 Wicked Witches

(10 green bottles)

Five little witches sitting on a broom

Five little witches sitting on a broom

And if one wicked witch should accidentally fall,
There'd be four wicked witches sitting on the broom.

A Monster Came To Visit You

(The animals went in 2 by 2)

A monster came to visit you
He roared! He roared!
A monster came to visit you
He roared! He roared!

A monster came to visit you
His head was green and his nose was too
You could hear him roaring
Did he frighten you? NO!
