A Thuismitheoirí:

Developing literacy in Irish centres on three main areas:

- understanding words;
- understanding sentences; and
- understanding longer texts.

As the children get older, they improve their literacy by developing their vocabulary. In addition to this, it is important that the children develop their ability to find out the meanings and spellings of words by developing dictionary skills. To this end, this series of homework books gives the pupils the opportunity to become familiar with a range of topic-related vocabulary, as well as develop the pupils' understanding of alphabetical order.

An important part of sentence work focuses on punctuation, which words have capital letters, where does the full stop and question marks go?

Text work focuses on understanding what the words and sentences mean, in the context of a story or information.

This series of homework books helps the children build on what they have learned in school, by giving them the opportunity to reinforce and practise what they have learned in class. The homework over the weeks follows similar patterns so as to ensure that children and parents understand what the task is.

Typically, therefore, the week's Irish homework should look something like this:

- Monday - Alphabetical Order
- Tuesday - Comprehension (answer the questions)
- Wednesday - Vocabulary
- Thursday - Punctuation

Please check the 'Guide for Parents' at the back of the book for a translation of the task your child has each night.

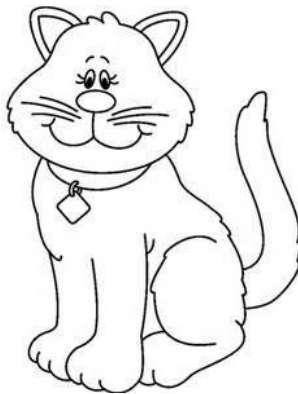

If you feel that the homework in this book is too difficult or too easy, please speak to your child's class teachers as it is vital that homework, while important, does not negatively impact on your child's attitude towards school or become a cause of distress each night.

Le meas,  
Conor
