Multiplication checks

The multiplication tables check (MTC) is statutory for primary schools in the 2021/22 academic year for year 4 pupils.

The purpose of the MTC is to determine whether pupils can recall their times tables fluently, which is essential for future success in mathematics. It will help schools to identify pupils who have not yet mastered their times tables, so that additional support can be provided. (Taken from DfE website)

Pass rate	%
25/25 (100%)	22% (11 children)
20- 24/25	36% (18 children)
Below 20	42% (21 children)

This is now influencing the support that we give to the children in year 4. 7 children who didn't achieve 100% are now attending maths catch up sessions.
