

Sensory Bottle Ideas

Glitter Bottle

Materials

- *Plastic bottle/container
- *Glitter glue
- *PVA Glue
- *Warm tap water
- *Fine glitter
- *Spoon

Method

- *Fill 2/3 of your container with warm water
- *Add the glitter glue (colour your choice). The less you add the faster it will swirl.
- *Give it a good stir until it blends (may still be lumps but that is ok)
- *Add fine glitter
- *Mix the contents with a spoon
- *Add more glitter if you are still not satisfied and mix again
- *Fill the rest of the container with warm water and mix
- *Glue the lid

Sea Sensory Bottle

Materials

- *Plastic bottle/container
- *Transparent liquid soap
- *Decorations – small beads, small shells (not too heavy)
- *Food colouring
- *Tap water
- *White and blue glitter
- *PVA Glue

Method

- *Fill $\frac{1}{4}$ of the bottle with tap water
- *If your hand soap is colourless, add a few drops of food colouring (blue to make it look like the sea)
- *Add in your shells, beads and glitter
- *Fill the rest of the bottle to the very top with the hand soap
- *Glue lid on
- *Shake the bottle to mix the ingredients (when you first mix the ingredients it may not look too nice and clean. Leave it for a few hours to see how it looks once the solution has settled).

Sensory Bottle Vegetable Oil

Materials

- *Plastic bottle/container
- *Tap water
- *Liquid food colouring (red and blue)
- *Vegetable oil
- *PVA Glue

Method

- *Fill half the bottle with water
- *Add a few drops of the food colouring
- *Mix them together
- *Add your vegetable oil to top of bottle
- *Glue lid on
- *Give it a good shake and see what happens
- *Let them separate again and see how these two liquids don't mix at all

Sensory Bottles: Pom Poms/Beads/Sequins

Materials

- *3 Plastic bottles
- *Water
- *Beads
- *Sequins
- *PVA Glue
- *Baby oil
- *Food colouring
- *Pom poms
- *Glitter

Bottle One	Bottle Two	Bottle Three
<ul style="list-style-type: none"> *Fill half the bottle with baby oil *Add pom poms and glitter *Fill the remainder of the bottle with baby oil *Glue the lid shut *Shake 	<ul style="list-style-type: none"> *Add two drops of food colouring into a cup of water, mix together *Fill the bottle halfway with the coloured water *Fill remainder of bottle with baby oil *Glue lid *Shake 	<ul style="list-style-type: none"> *Fill half the bottle with baby oil *Add pom poms, sequins and beads *Fill remainder of bottle with baby oil *Glue lid *Shake

Weather Sensory Bottles

Sunny Sensory Bottle

Materials

- *Plastic bottle
- *Large yellow pom pom
- *PVA Glue
- *Picture of sun
- *Blue liquid food colouring
- *Tap water
- *Yellow tape

Method

- *Fill bottle almost to the top with water (add a drop of blue food colouring and mix)
- *Add a large yellow pom pom
- *Fill to the top with water, leaving about ¼ inch space at the top so there is room to shake
- *Cover the lid with yellow tape
- *Tape sunny picture to the top of bottle

Cloudy Sensory Bottle

Materials

- *Plastic bottle
- *Blue food colouring
- *PVA Glue
- *Cloud picture
- *Tap water
- *Cotton balls
- *Blue tape

Method

- *Fill plastic bottle with $\frac{3}{4}$ water (add a few drops of blue food colouring) mix
- *Add cotton balls (clouds)
- *Fill to the top with water, leaving $\frac{1}{4}$ inch space at the top to shake
- *Glue lid shut
- *Put blue tape around top of bottle
- *Add picture of cloud

Rainy Sensory Bottle

Materials

- *Plastic bottle
- *Tap water
- *Blue tape
- *Blue food colouring
- *Blue glitter
- *Rainy picture

Method

- *Fill bottle $\frac{3}{4}$ with water (add many drops of blue food colouring) mix
- *Add blue glitter
- *Fill to the top with water, leaving $\frac{1}{4}$ inch space at the top so there is room to shake
- *Glue lid shut
- *Cover the top with blue tap
