

A thuismitheoirí

Just a note to say that worksheet [An Luan 1a](#), and [An Mháirt 2a](#) deal with addition with carrying over or regrouping. This is what we call Malartú (exchange) in school. Your child has not been taught this concept in Rang 3. I

know that some children were ready to move on to Malartú just as the school closed in March. In absence of the classroom, where we would have spent lots of time on practical carrying over and regrouping, I have attached a YouTube video at the bottom of the weekly work explaining this concept in a manner very close to that used in school.

I also found the following link very useful but was unable to upload it to school website

<https://www.khanacademy.org/math/arithmetic/arith-review-add-subtract/arith-review-add-within-100a/v/addition-with-regrouping>

If your child finds it difficult to grasp this, please just use worksheet b or c on the appropriate days. These worksheets should be manageable for all, and this new concept will most definitely be taught or recapped upon when children return to school.

This week you will find two days of English Comprehension, this is because I wish to spend time discussing nouns. The children have had experience with nouns, now is time they become familiar with the terminology, particularly in English as we only had 3 short months of formal teaching. All answers have been provided at the bottom of this week's work.

I miss people, places and things. So nouns, essentially. I miss nouns.

If you feel you need to contact me about any aspect of this weeks work email me on omullen657@c2kschools.net

Le meas,

Bean Uí Mhaoláin
