

Children's Toys

Amazing Fact

A study found that the average 10-year-old child in the UK owns 238 toys but plays with only 12 on any given day.

Challenge

Think about your favourite toy. Maybe it's electronic. Maybe it's cuddly. Whatever it is, write about your toy, how you feel when you play with it and where you got it from.

Draw a picture of your toy at the top.

You could also try to find out:

- which country spends the most money on toys;
- what the average pocket money is for children in your country;
- which toys have been around the longest.
