

Spot the
SHARK
in the **Ocean**

Packed with things
to spot and facts
to discover!

Welcome to the Ocean

There's lots to see. Come and have a look!

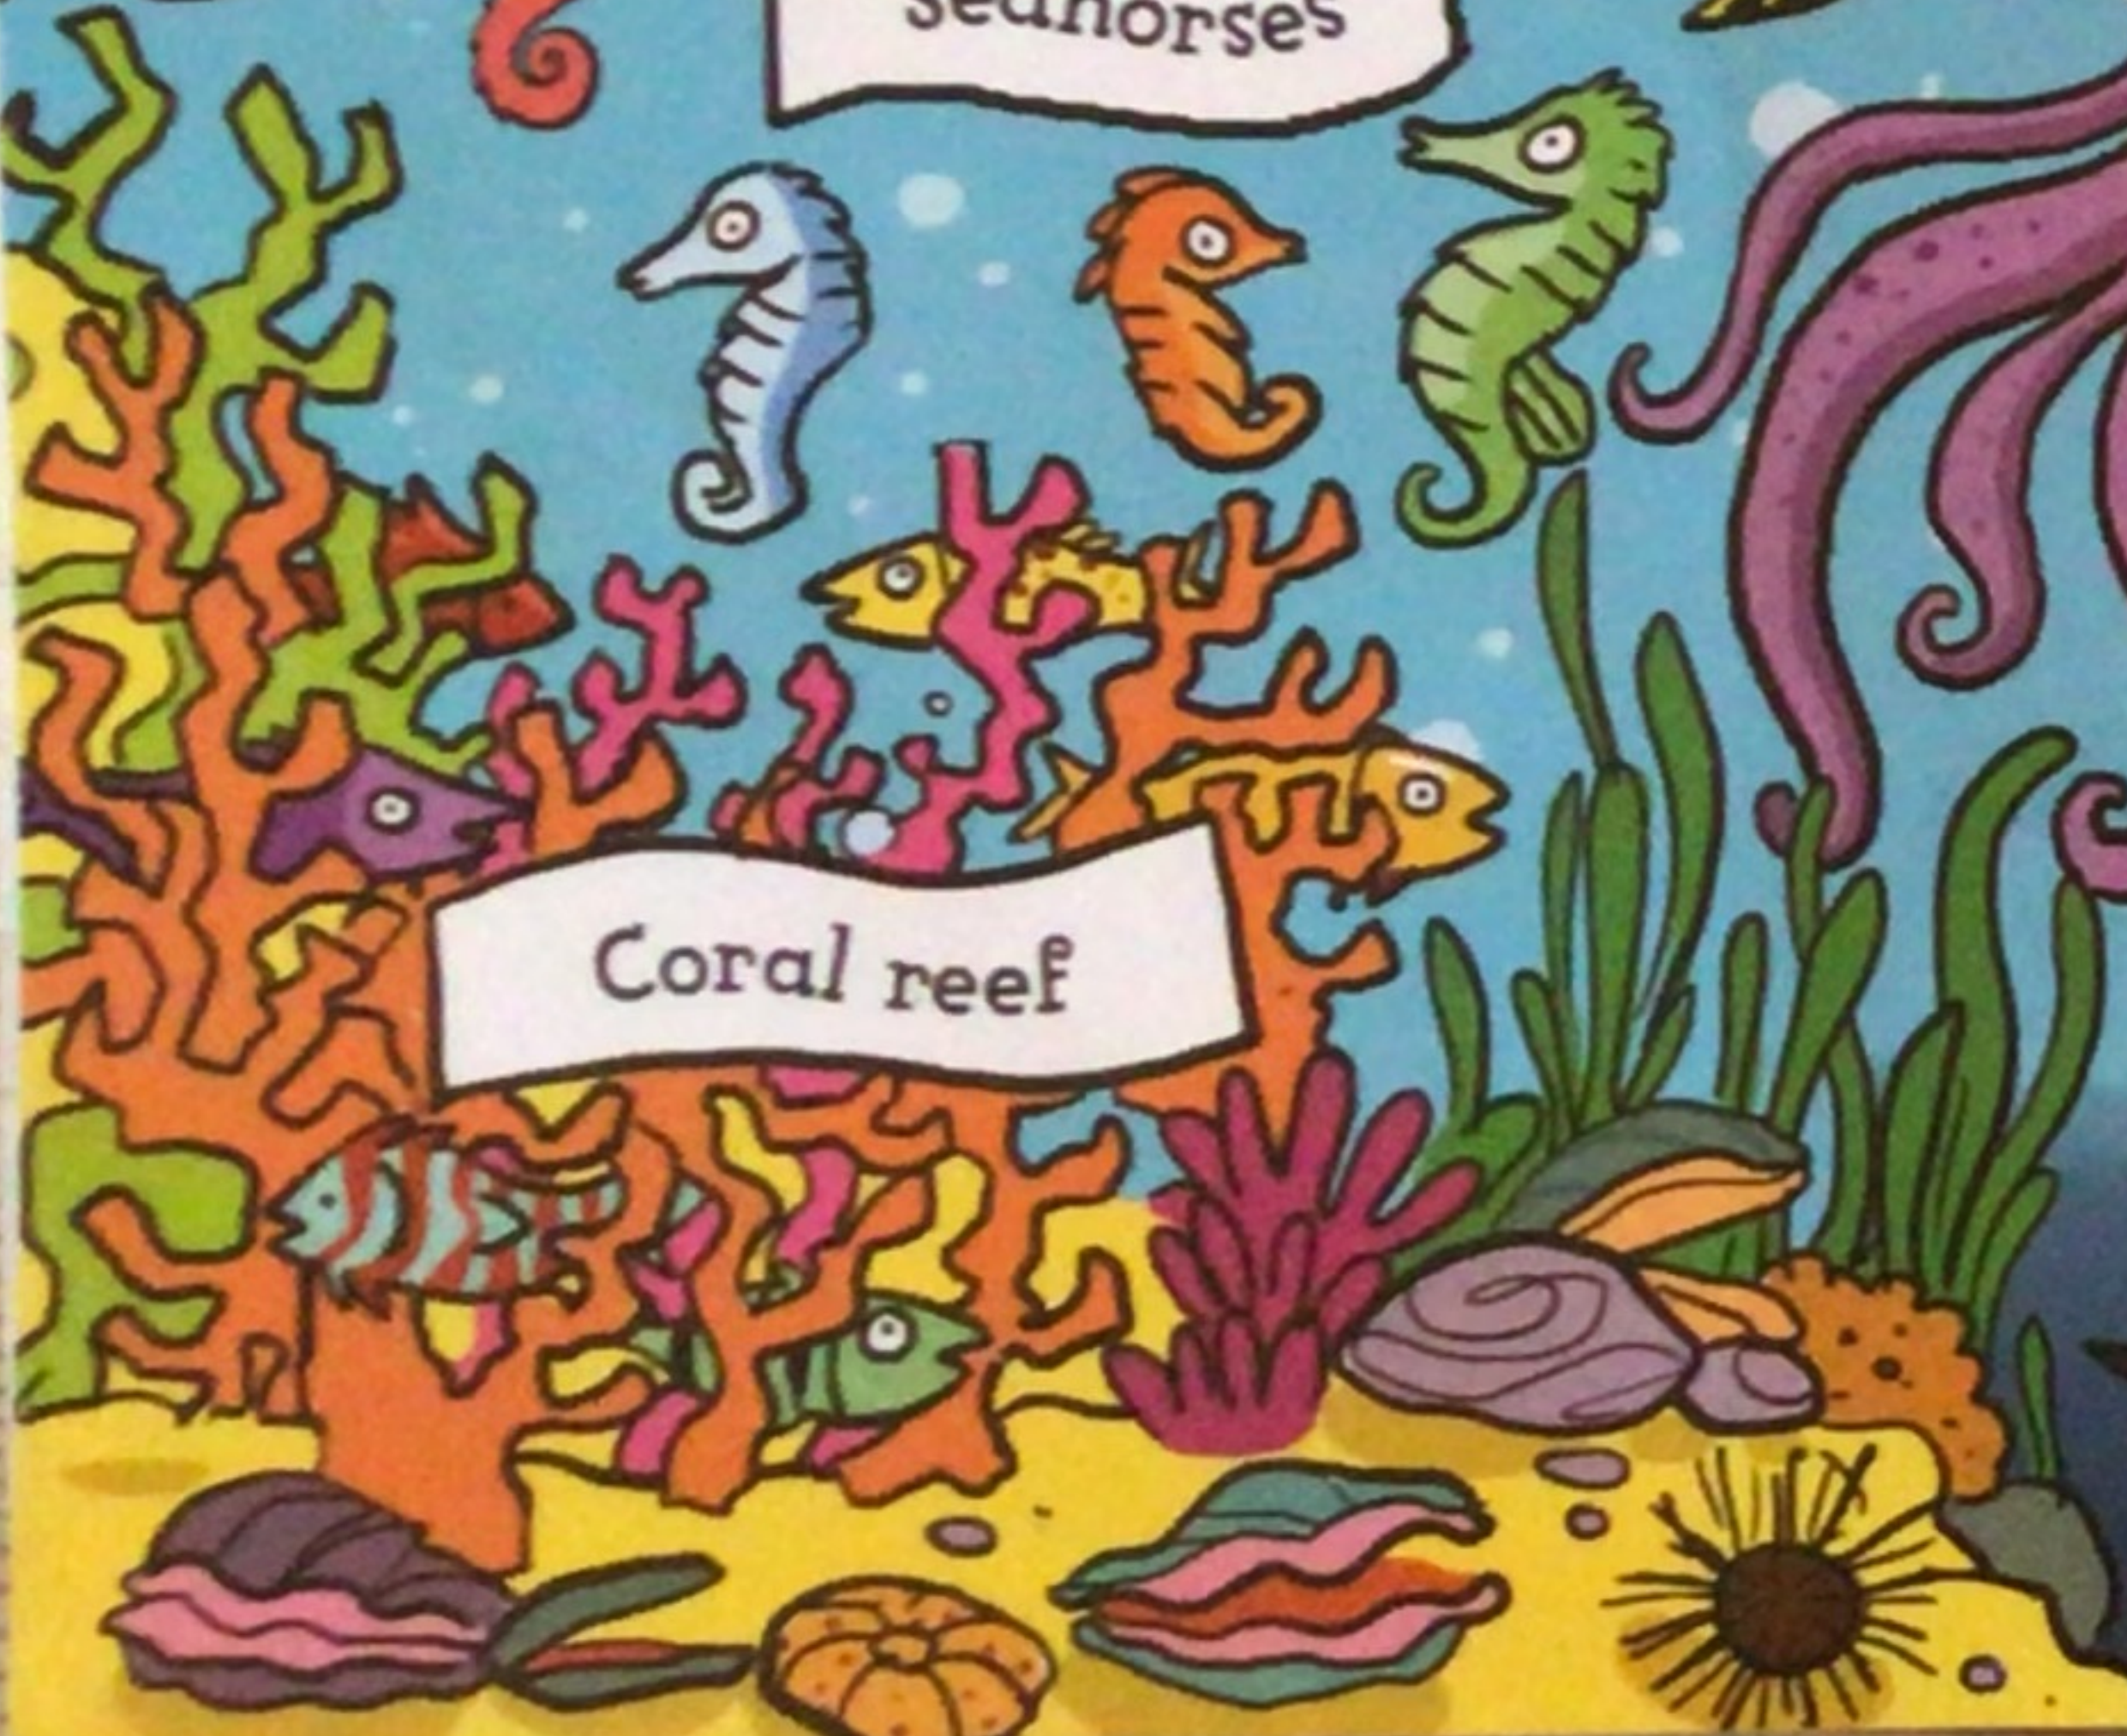

Whale sharks

Seahorses

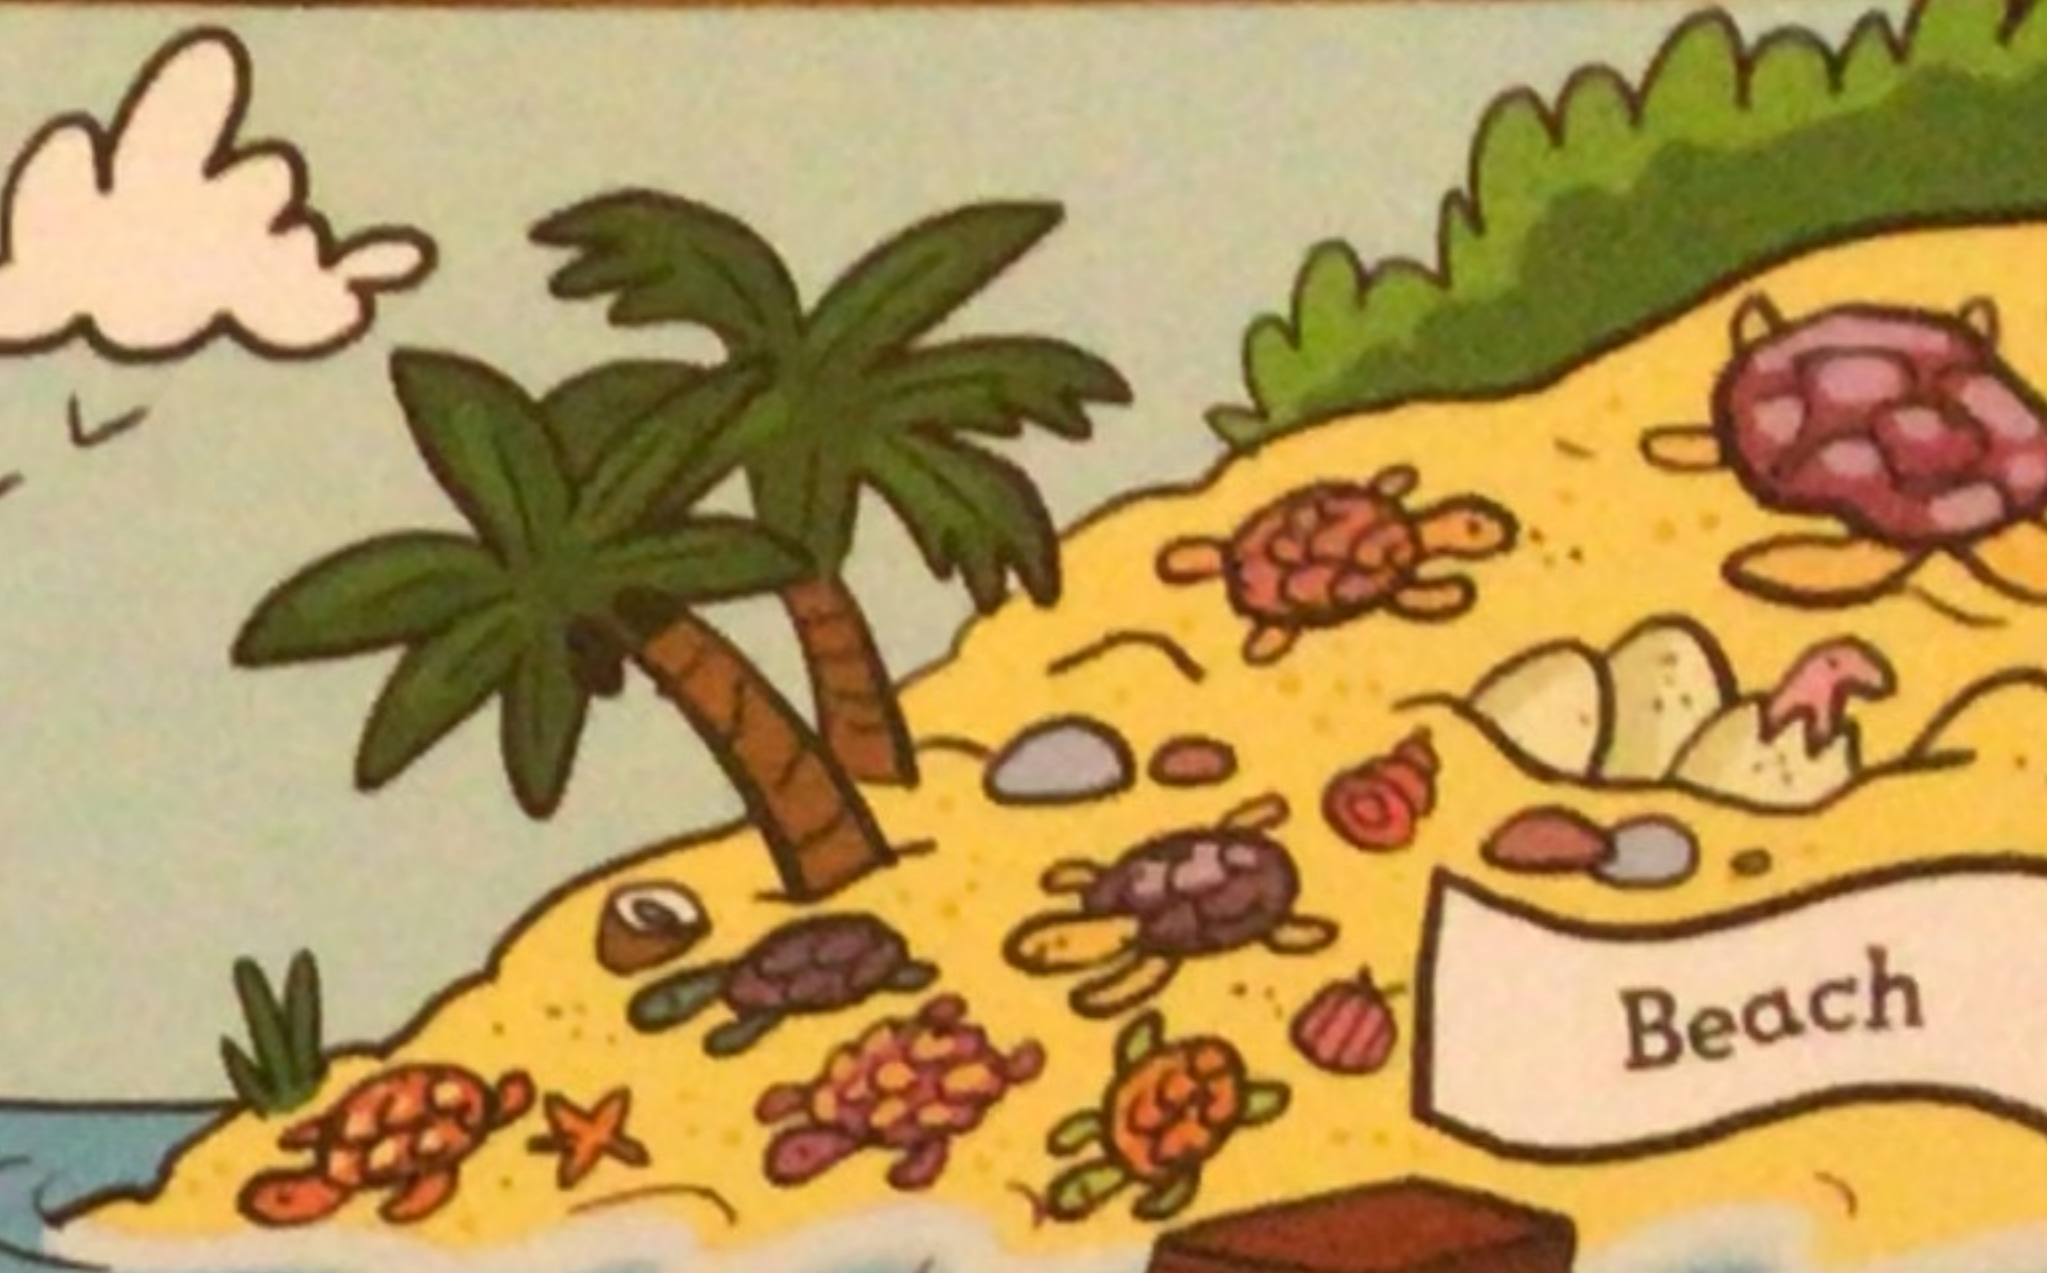

Octopuses

Coral reef

Frozen waters

Beach

Dolphins

Strange sea creatures

This baby shark is hiding inside the book. Can you find him in every scene?

Deep sea

Whale sharks
are the biggest
fish in the ocean.
They are huge
but completely
harmless to
humans.

How many
divers can
you count?

Can you spot these things?

seaweed

yellow flipper

dolphin

squid

manta ray

Why do you think they are called 'seahorses'?

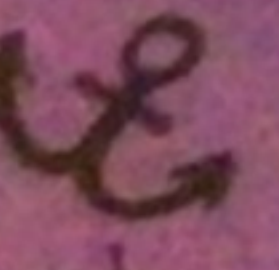

Can you spot these things?

starfish

sea urchin

anchor

sea cucumber

eel

Seahorses are little fish that swim upright. They swim very slowly as they have tiny fins.

Some of the most beautiful fish in the world live on the Great Barrier Reef near Australia.

Can you find a big white fish with red stripes?

Can you spot these things?

 lionfish	 red coral	 giant clam
 clownfish	 turtle	

How do you think polar bears keep warm?

In winter polar bears walk on the thick ice that covers the ocean around the North Pole.

Can you spot these things?

- arctic hare
- seal
- white whale
- arctic fox
- reindeer

Turtles live in the ocean but they lay their eggs on the beach. When the baby turtles hatch they have to crawl to the sea!

Can you spot these things?

				
sign	lizard	pelican	pink shell	blue crab

Which turtle is going the wrong way?

Some ocean creatures look very strange indeed!

Who do you think looks the weirdest?

Can you spot these things?

blobfish

pufferfish

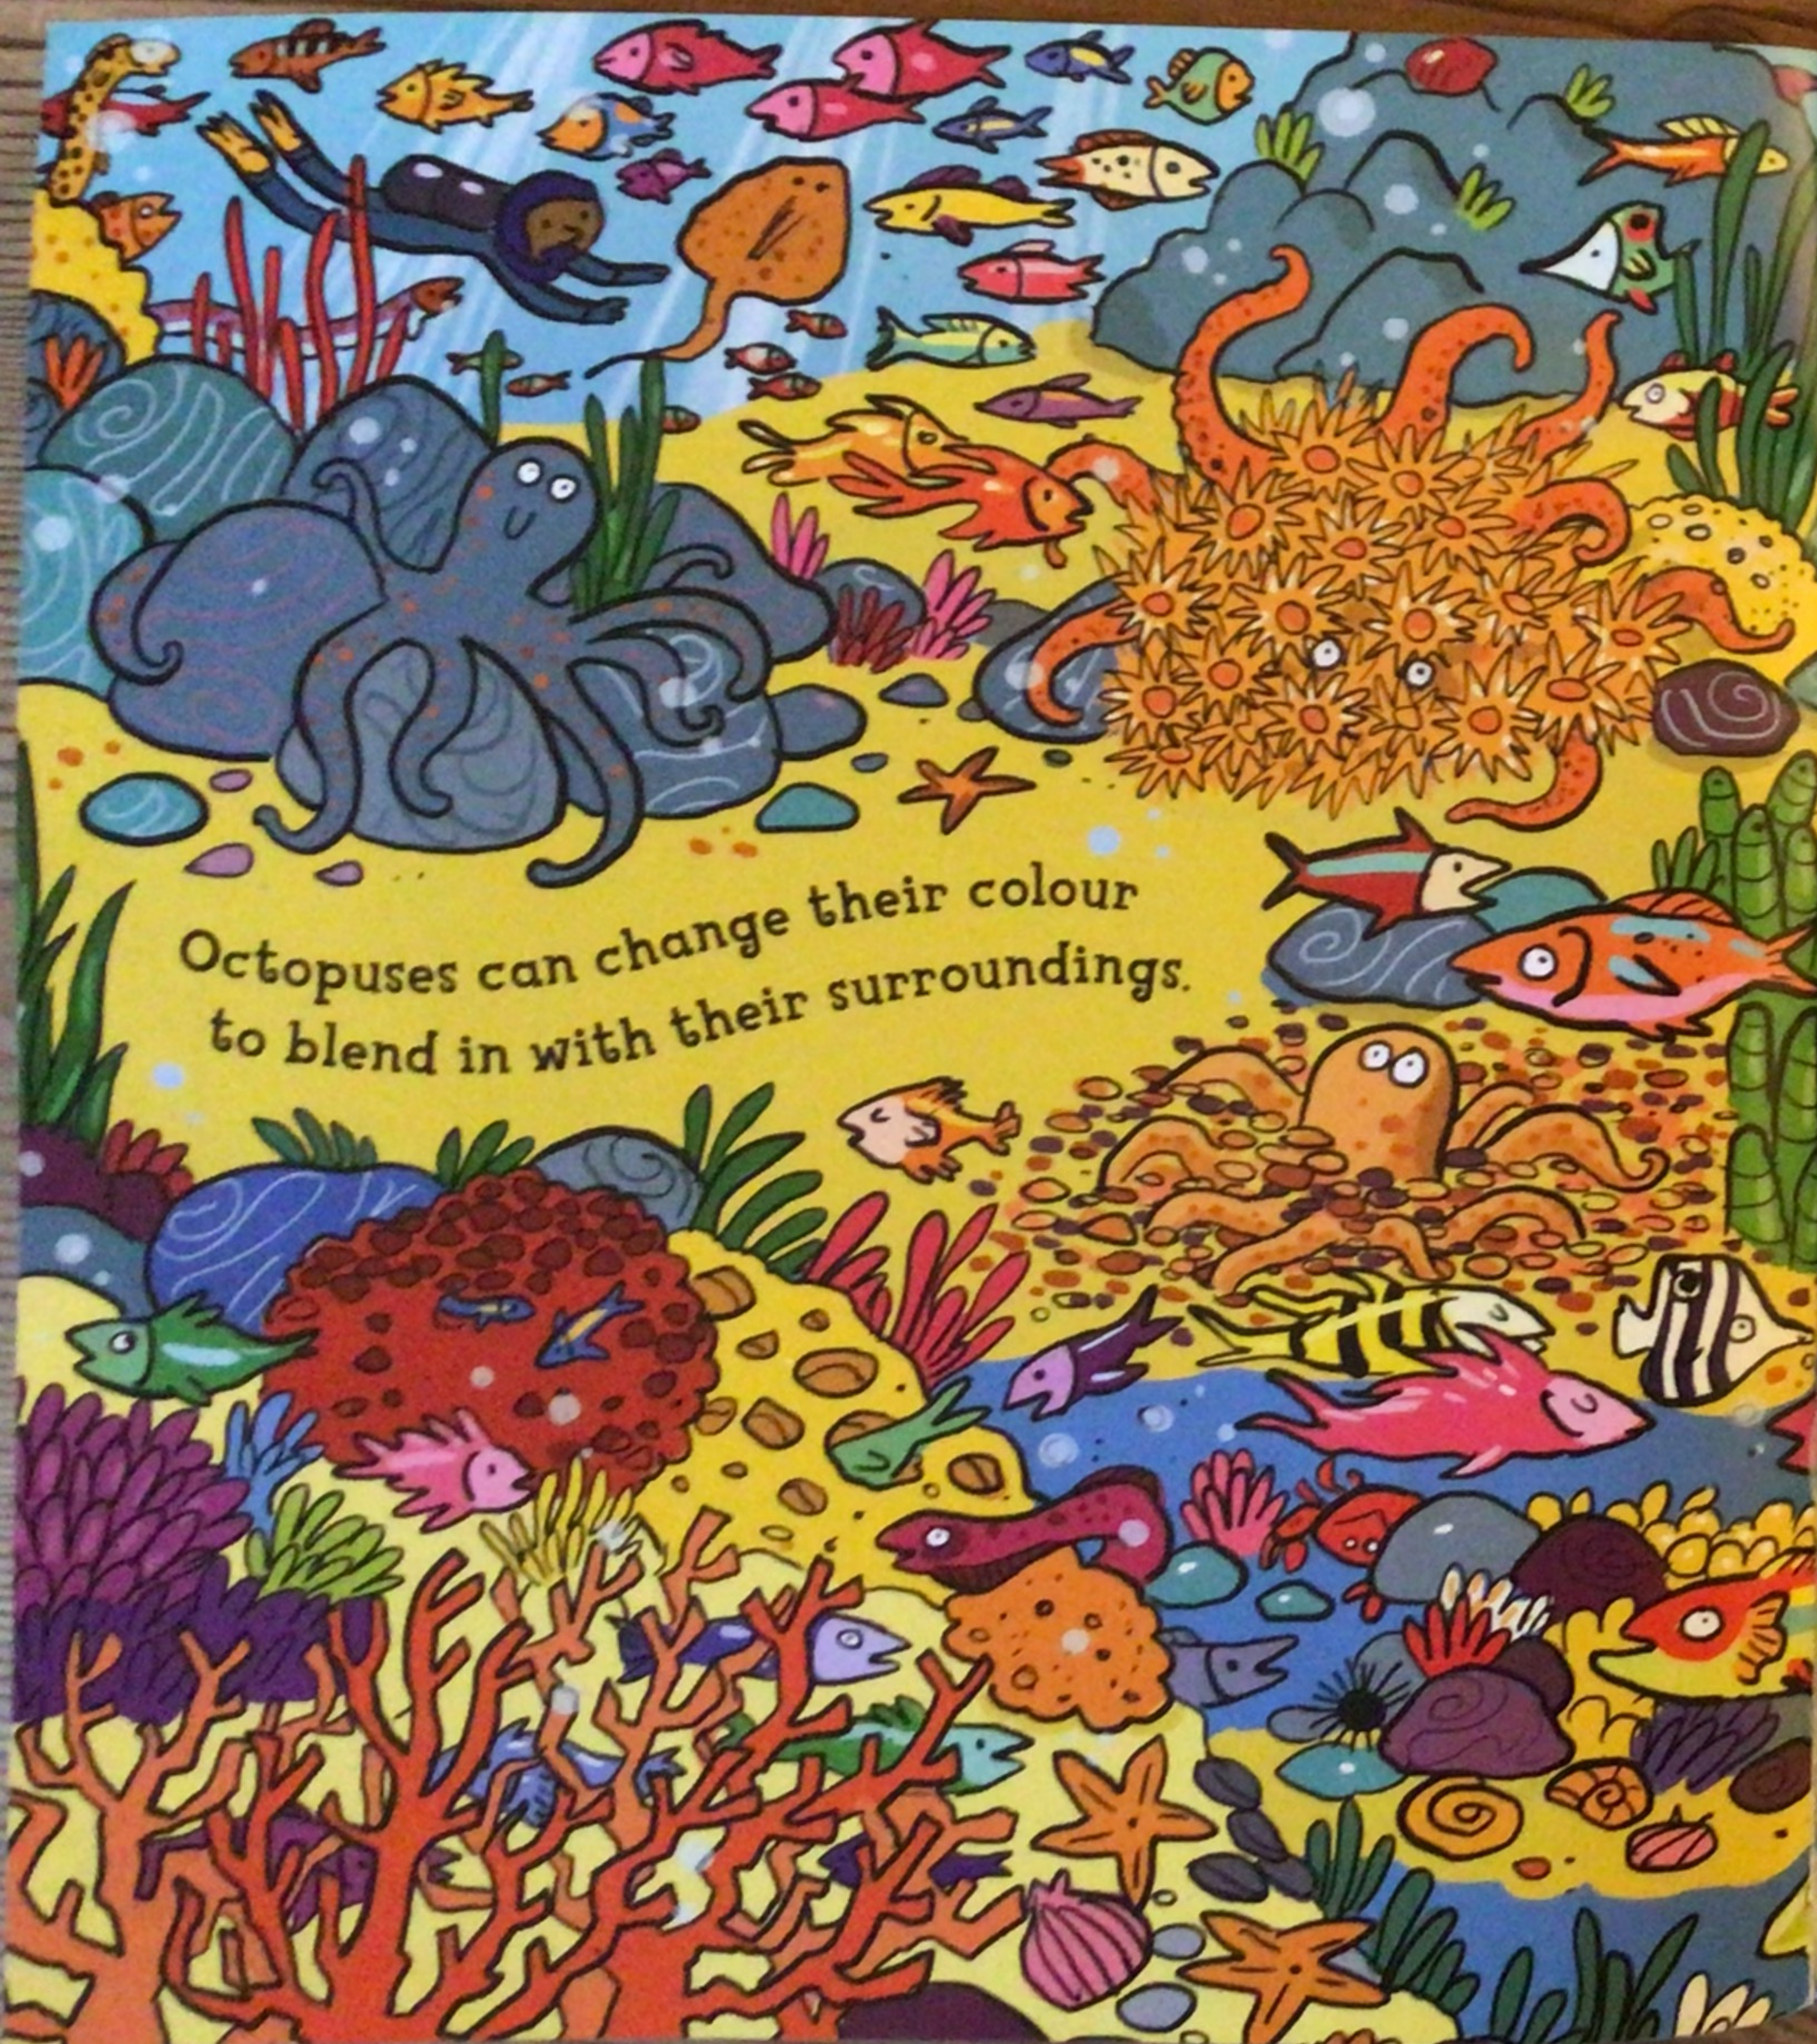

yeti crab

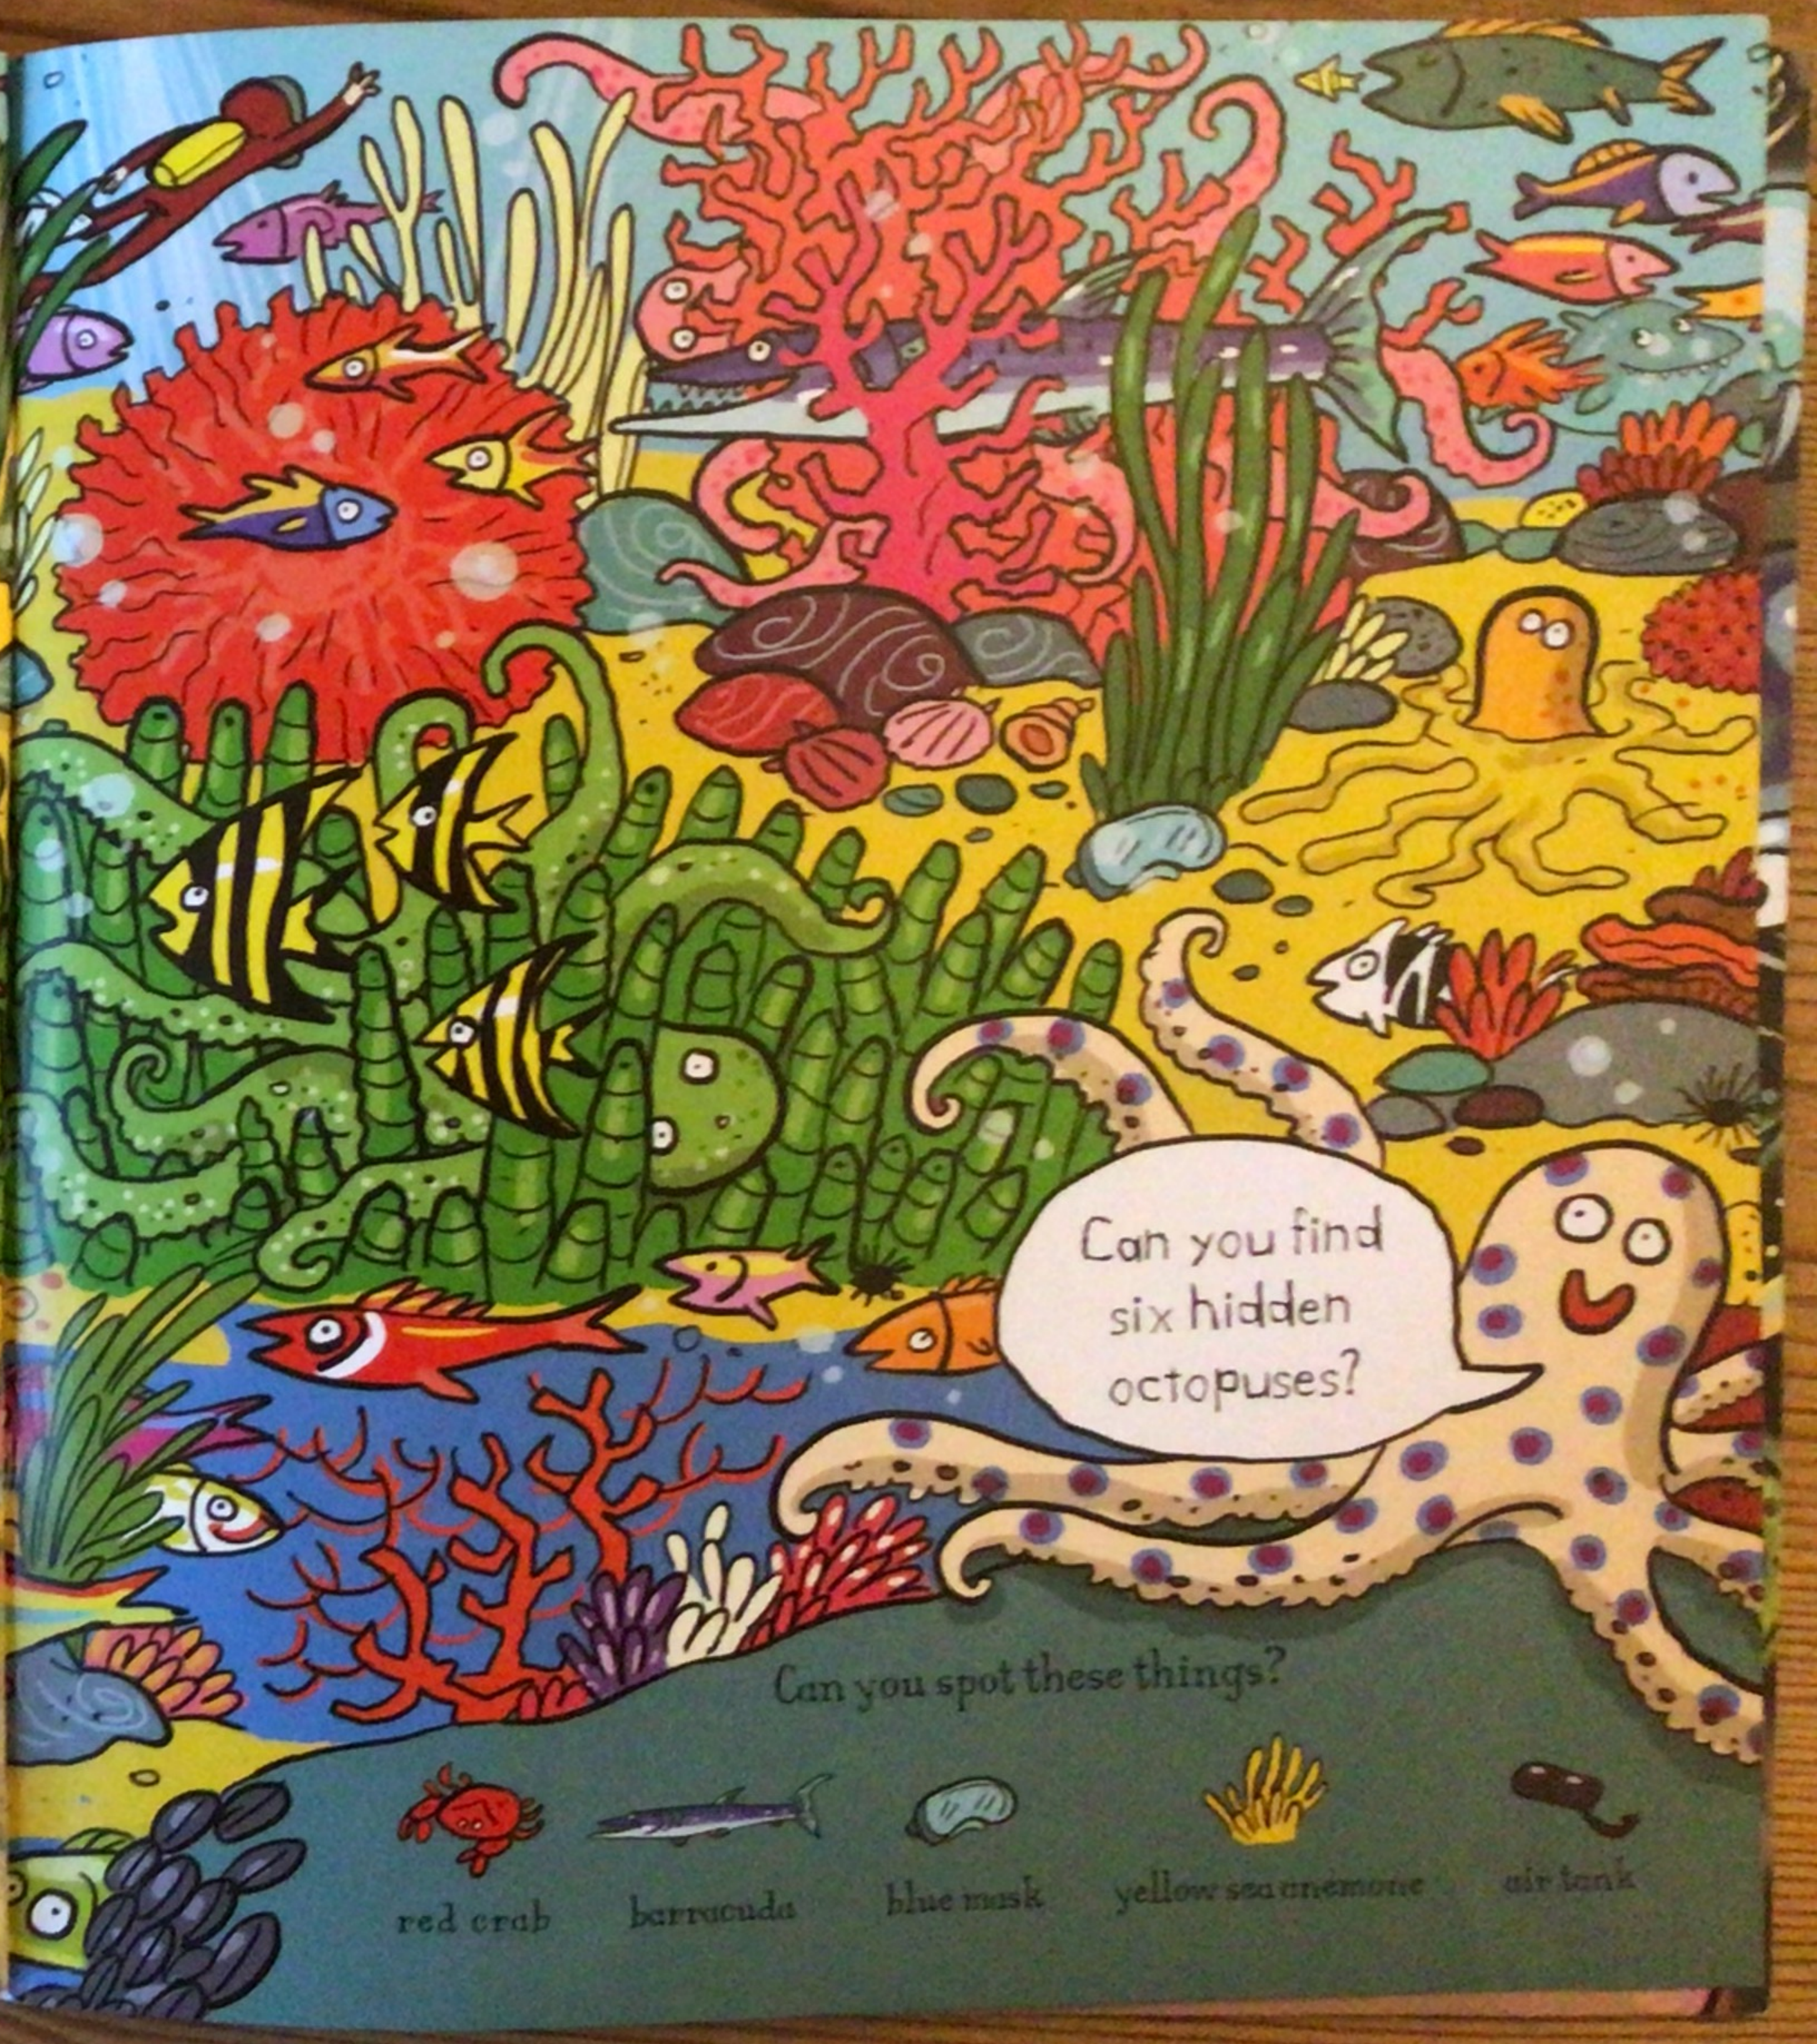

monkfish

parrot fish

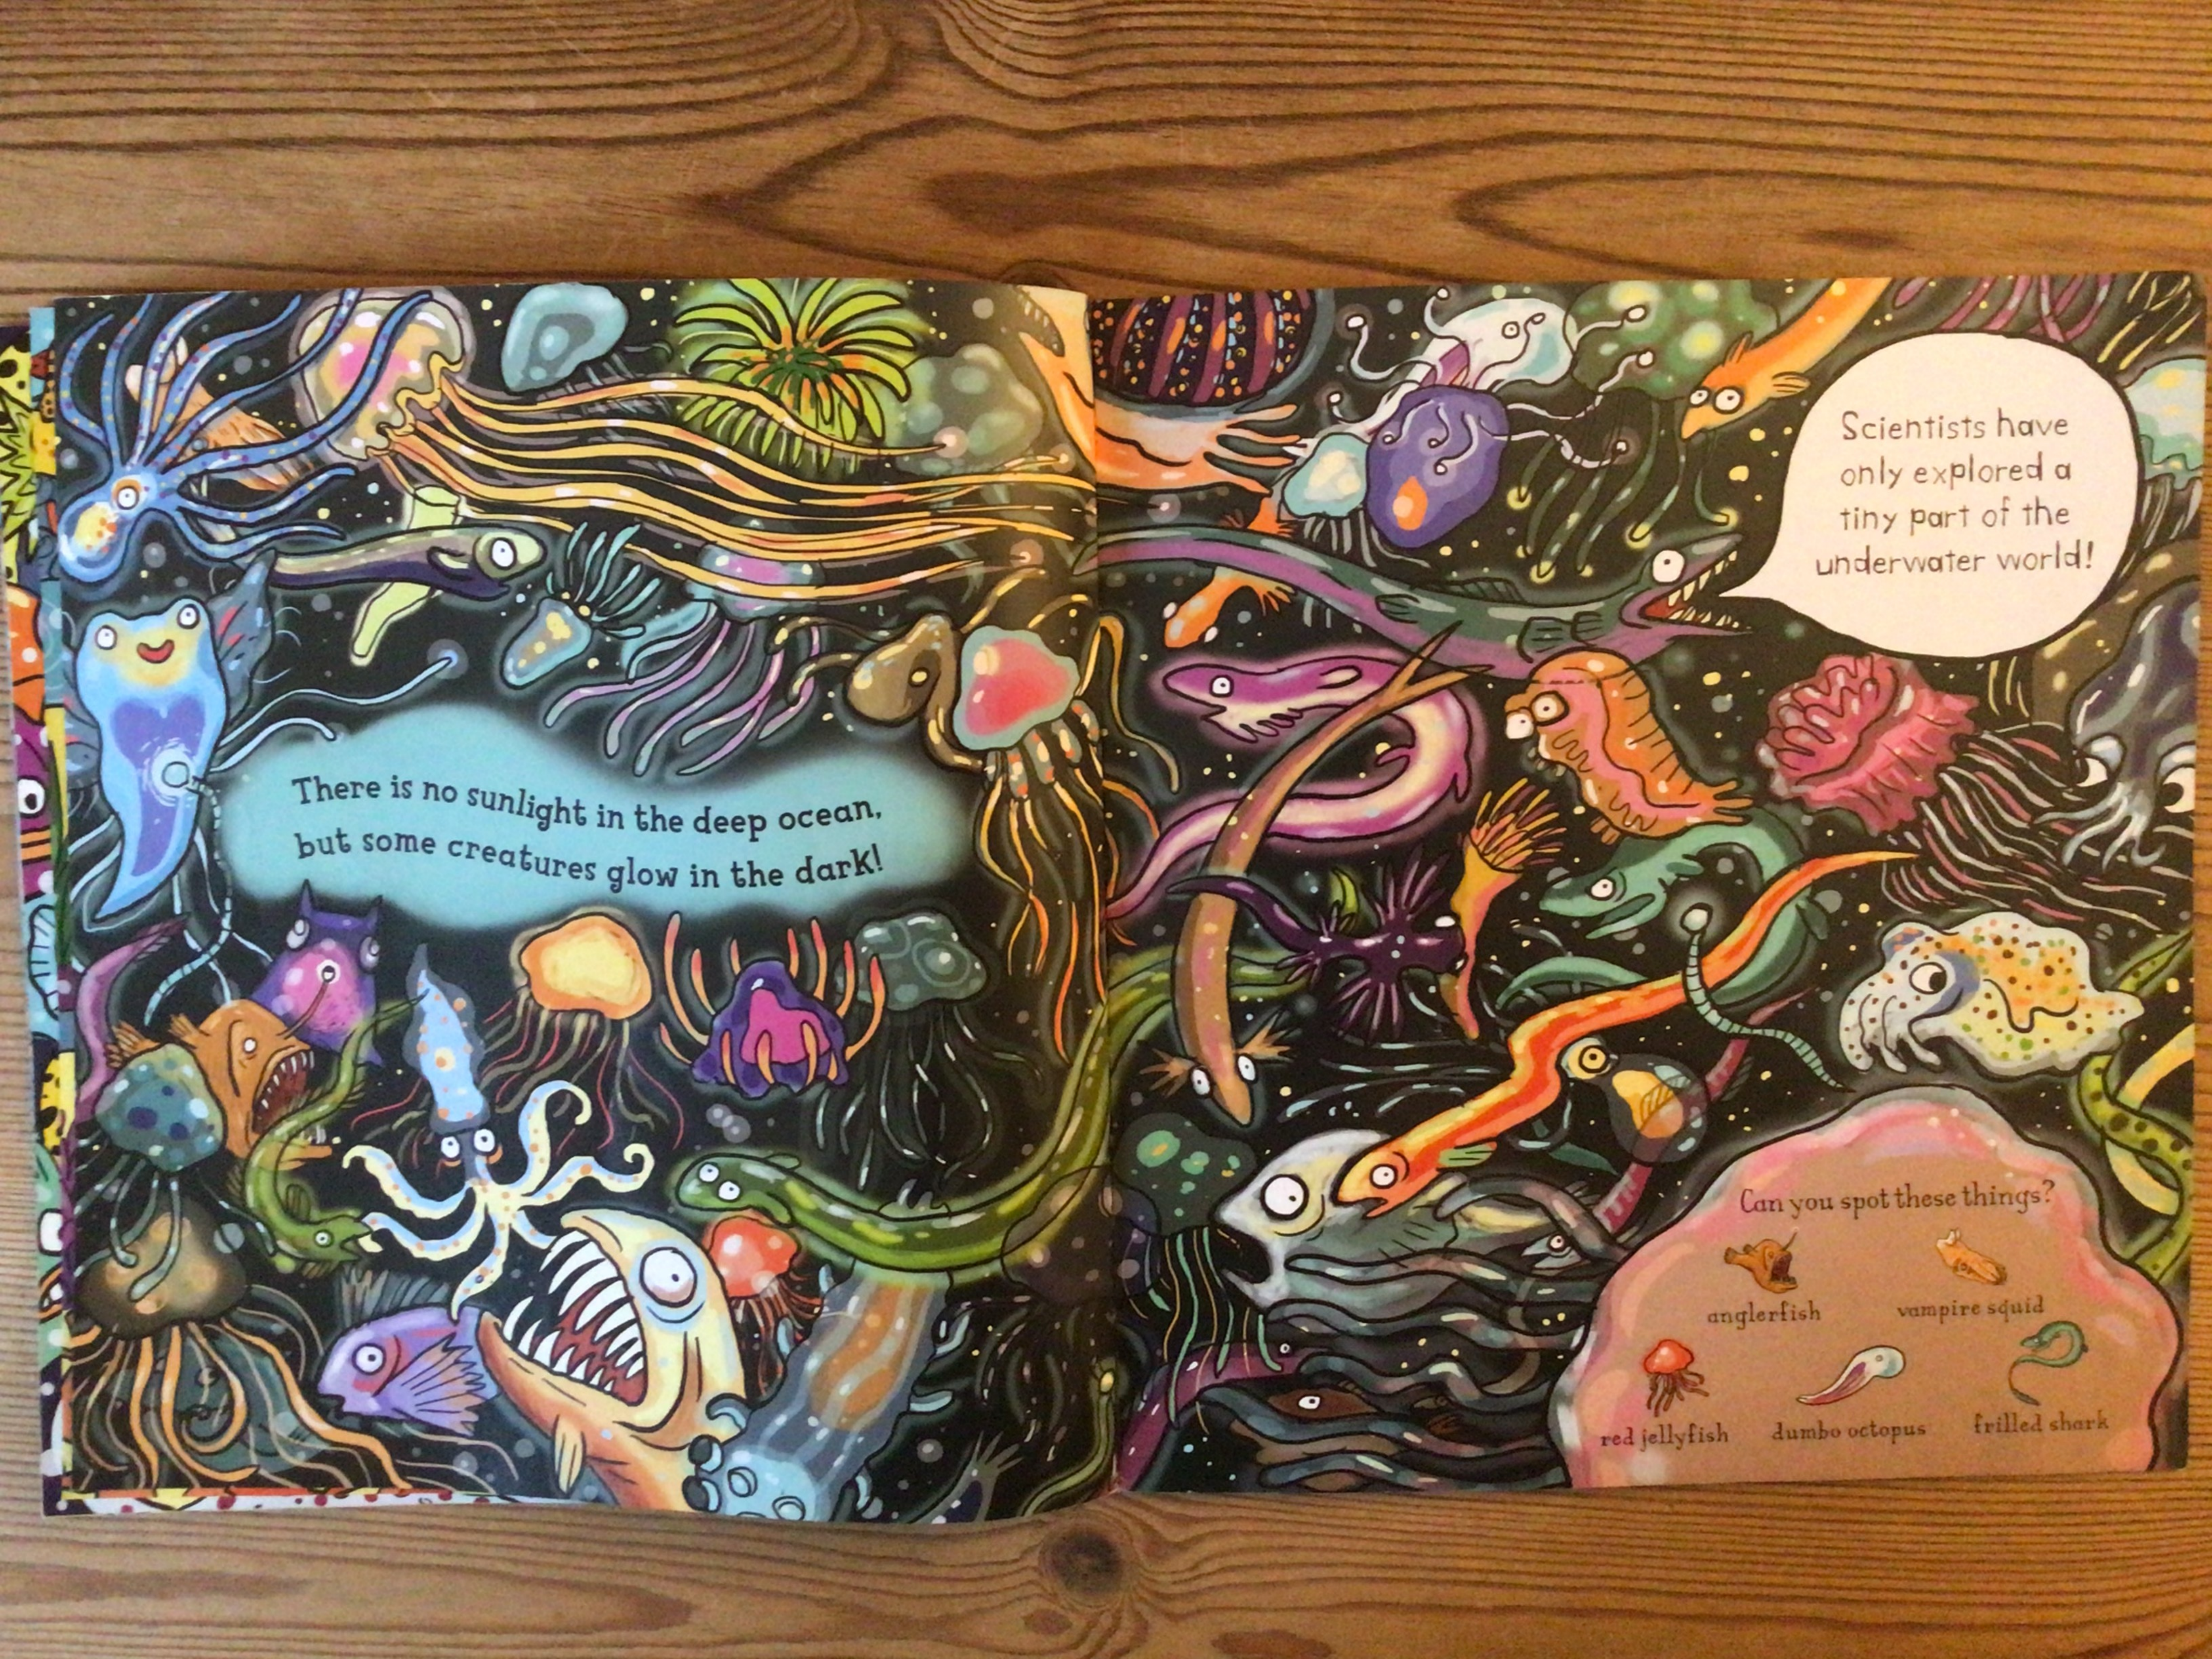

Octopuses can change their colour to blend in with their surroundings.

Can you find six hidden octopuses?

Can you spot these things?

-  red crab
-  barracuda
-  blue mask
-  yellow sea anemone
-  air tank

There is no sunlight in the deep ocean,
but some creatures glow in the dark!

Scientists have
only explored a
tiny part of the
underwater world!

Can you spot these things?

anglerfish

vampire squid

red jellyfish

dumbo octopus

frilled shark

Dolphins are very clever.
They leap and splash just
for fun, and will even make
friends with people.

Would you like
to swim with
a dolphin?

Can you spot these things?

swordfish

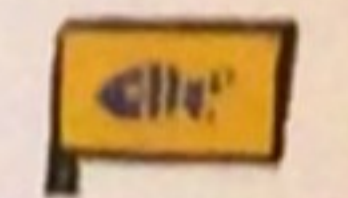

purple boat

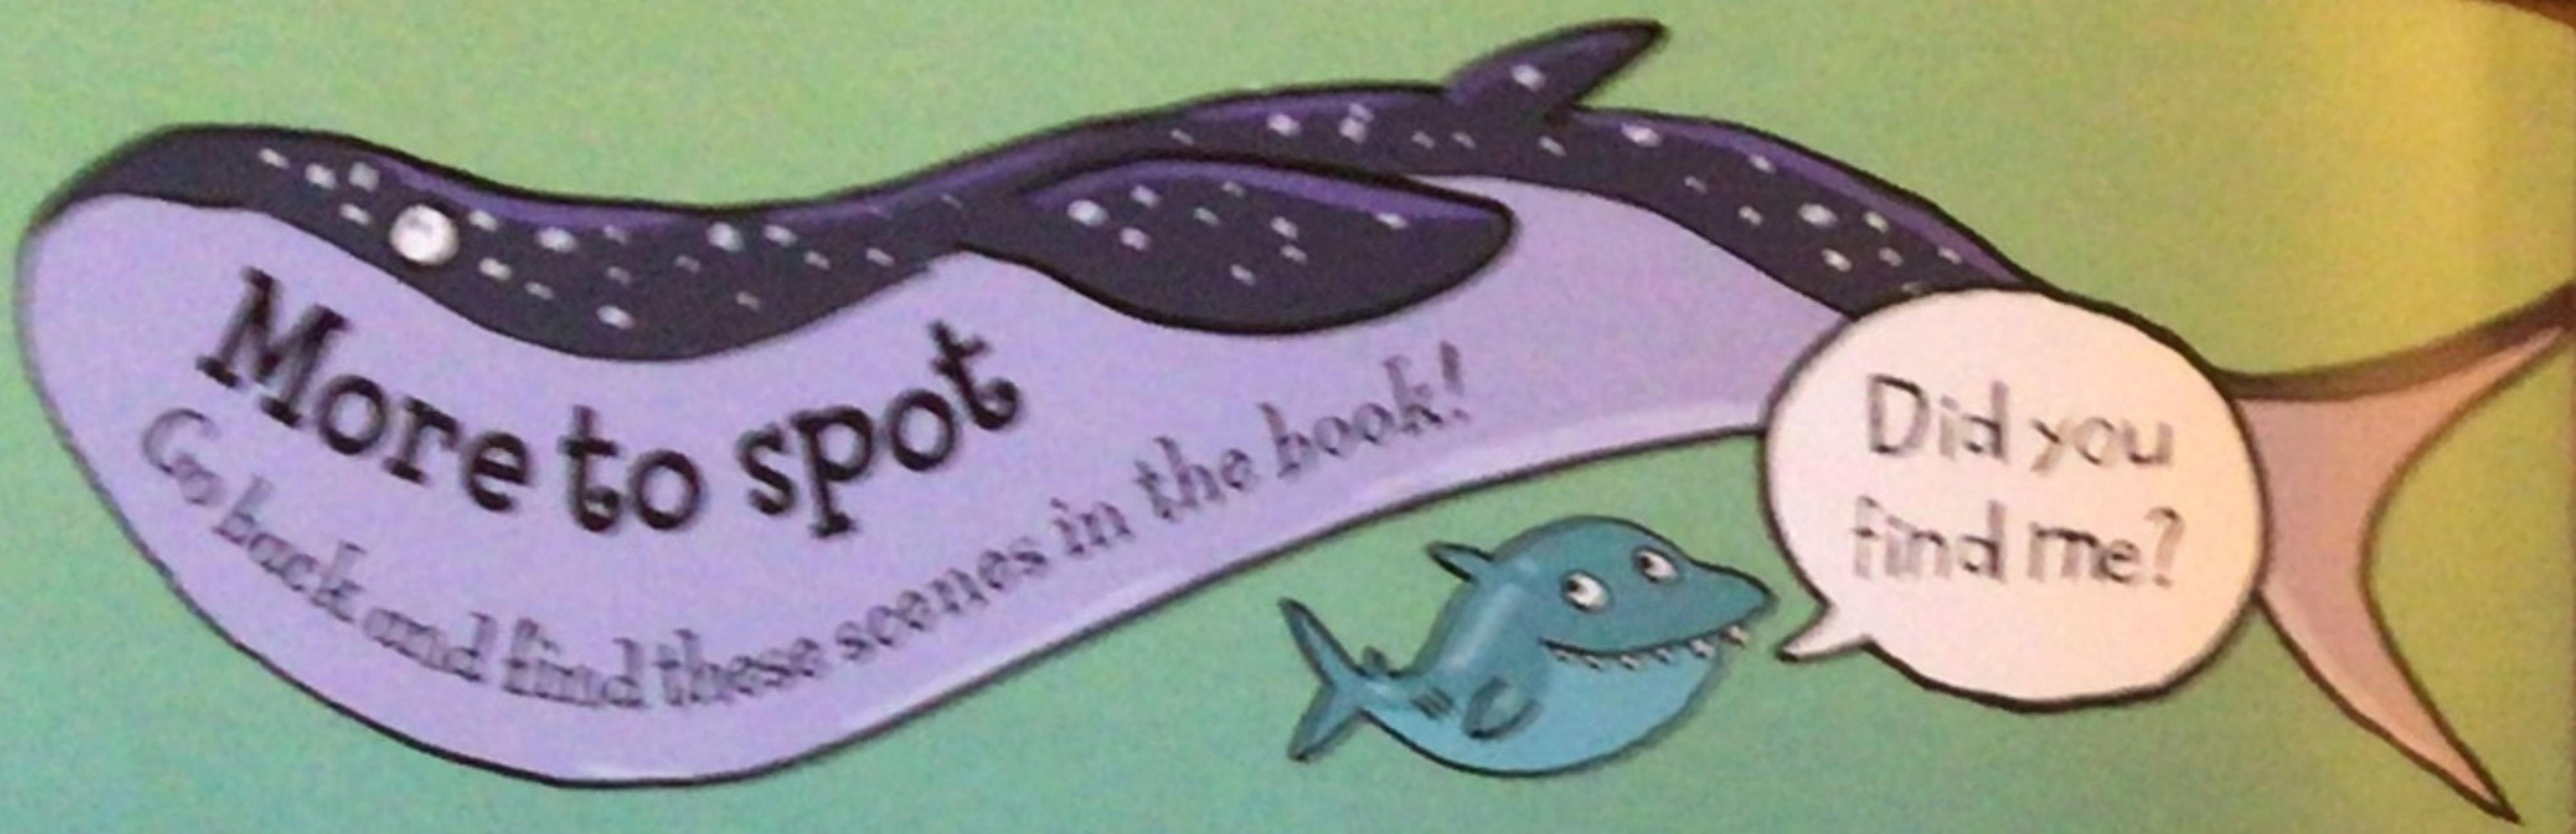

sunhat

palm tree

flag

More to spot

Go back and find these scenes in the book!

Did you know?

There are probably millions of sea creatures still waiting to be discovered!

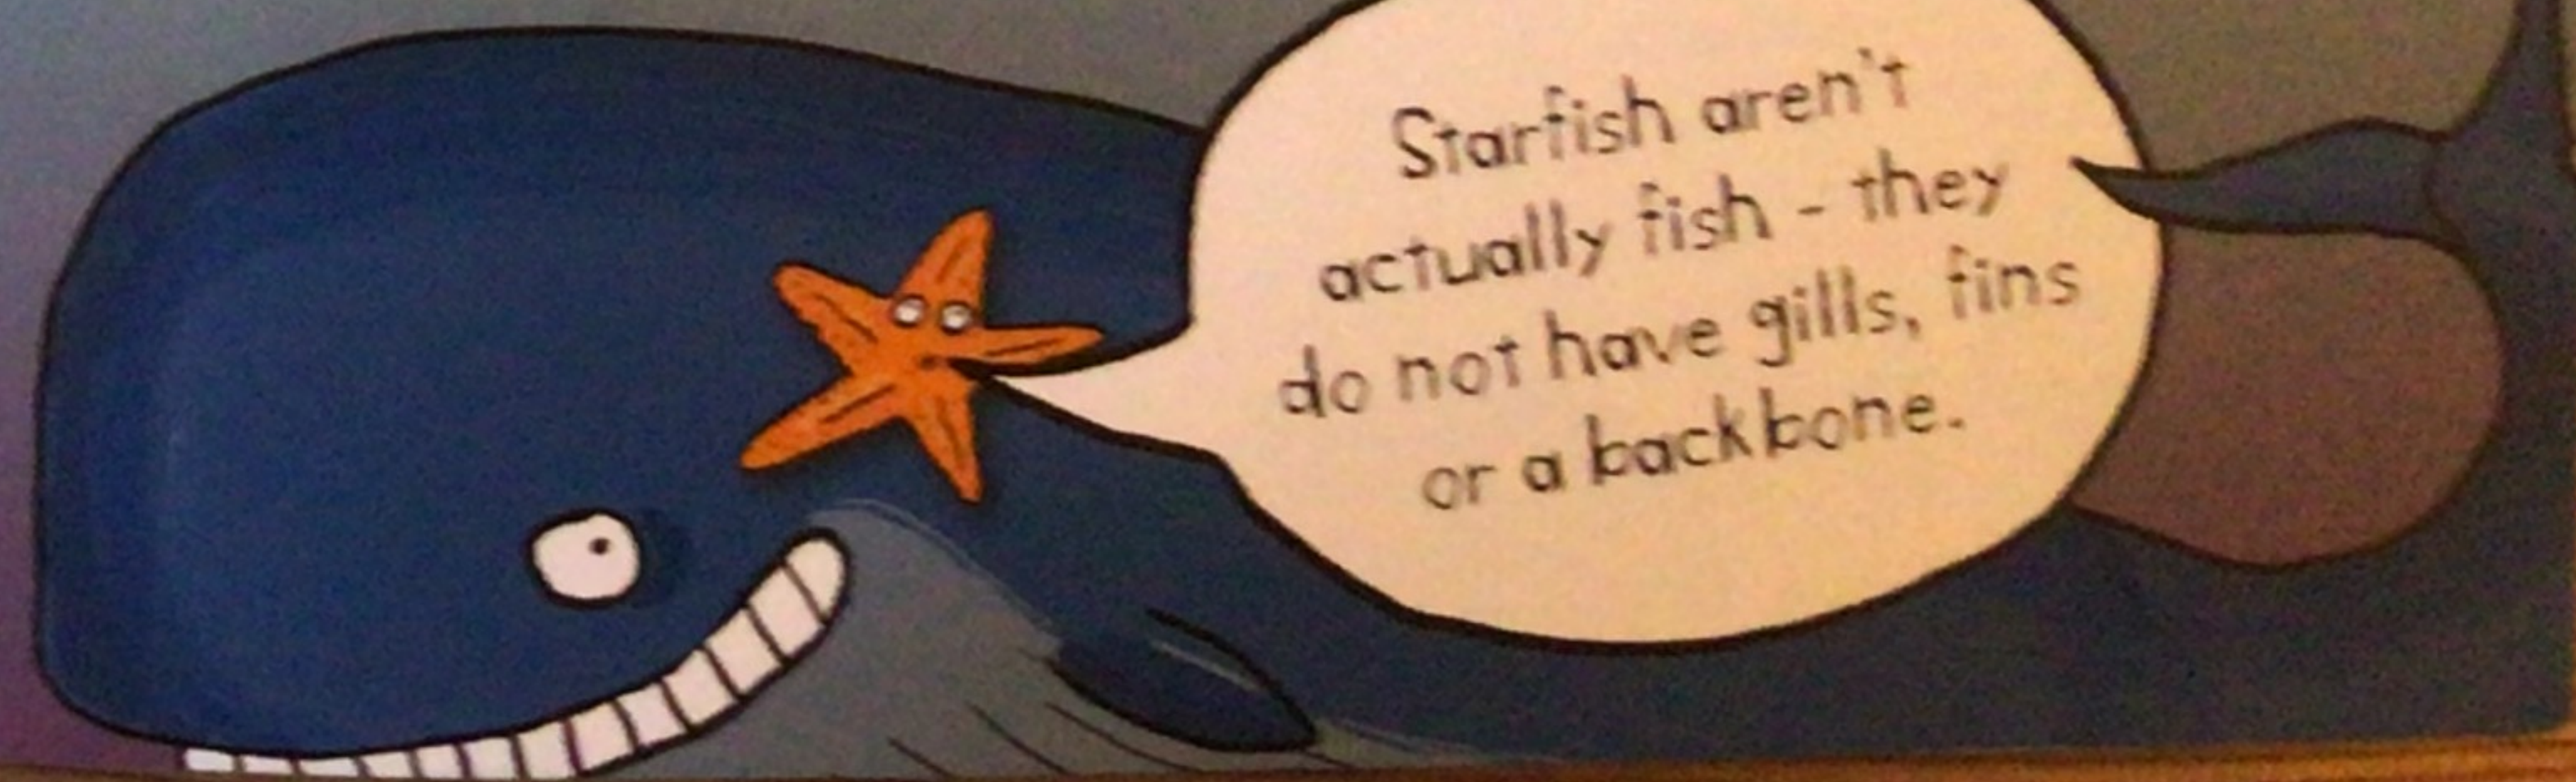

Penguins and polar bears live at opposite ends of the world. Polar bears live in the far north and most penguins live in the south.

The blue whale is the largest animal that has ever lived. It is bigger than even the largest dinosaur!

Seahorses get their name because they look like tiny horses with their arched neck, long nose and mane-like fins.

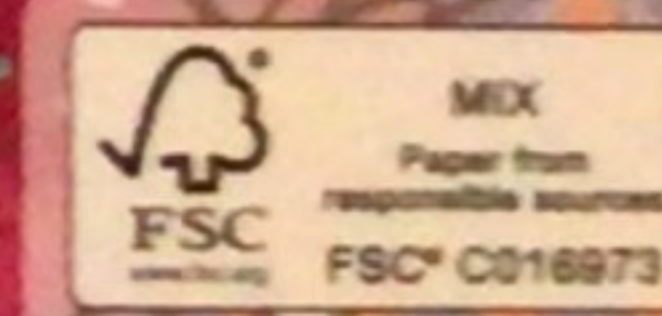

Starfish aren't actually fish - they do not have gills, fins or a backbone.

**From colourful octopuses
to diving dolphins,
there's so much to
see in the ocean!**

With a hidden baby shark to
find in every scene and fun facts to
discover throughout, step inside
for hours of entertainment.
