

Cut out the number cards and animals.

There are many activities you can use these cards for – e.g

- 1- Snap
- 2- matching pairs
- 3- put them in the correct order – starting from the least to the largest number / largest number to the least/smallest.
- 4- take 1 card away – which one is missing?
- 5- using the animal cards put 2 cards together and add up how many animals there are altogether – can you find the correct numeral/write the correct numeral?
