

# Subtraction Within 100 Function Machines

53  
72  
44

**-20**

33

Function machine with input numbers 53, 72, and 44. The operation is  $-20$ . The output is 33. There are empty shapes for more outputs.

29  
79  
33

**-9**

Function machine with input numbers 29, 79, and 33. The operation is  $-9$ . There are empty shapes for outputs.

89  
31  
55

**-22**

Function machine with input numbers 89, 31, and 55. The operation is  $-22$ . There are empty shapes for outputs.

42  
75  
98

**-38**

Function machine with input numbers 42, 75, and 98. The operation is  $-38$ . There are empty shapes for outputs.

37  
21  
62

**-15**

Function machine with input numbers 37, 21, and 62. The operation is  $-15$ . There are empty shapes for outputs.

60  
39  
64

**-35**

Function machine with input numbers 60, 39, and 64. The operation is  $-35$ . There are empty shapes for outputs.

45  
82  
69

**-25**

Function machine with input numbers 45, 82, and 69. The operation is  $-25$ . There are empty shapes for outputs.

53  
72  
81

**-22**

Function machine with input numbers 53, 72, and 81. The operation is  $-22$ . There are empty shapes for outputs.
