

Cumarsáid leis an scoil / Communication with the school

In September 2024 Naiscoil & Scoil an Droichid will have an intake of nearly 200 pupils – tá an scoil ag dul ó neart go neart! We are delighted that the school is growing from strength to strength every year! To manage our growing school community it is important that we streamline our communication channels so that contact between parents and staff is both effective and efficient.

Please take time to read the flow chart below for home to school communication. School to home communication mainly operates through the **Seesaw App**. All parents are asked to connect to this app. Important reminders from the school office are sent to families via a text messaging service. Information is uploaded to the school website www.scoilandroichid.com. Social Media channels are used to share news and achievements at the school, but direct messaging on these platforms is not monitored.

This is separate to Child Protection reporting procedures. Parents, or any adult, concerned about the welfare of a child should follow the explicit steps given in the Child Protection Policy.

This flow chart is separate to the official complaints procedures. In the event of an official grievance the steps given in the Complaint's Procedure Policy should be followed.

Both policies are available on the school website or on request via the school office.
