

Shared Education - Shared Future

**ANNUAL REPORT
and
SUMMARY OF ACCOUNTS
of the
Board of Governors of
Roe Valley Integrated Primary School**

September 2024 - August 2025

Shared Education - Shared Future

Dear Parents/Guardians,

On behalf of the Board of Governors I am proud to present to you our school's annual general report for the academic year 2024/2025.

I would like to extend my appreciation to our Principal, Julie McDonagh and the Senior leadership Team for their excellent leadership they continue to provide to our school.

Our teachers and staff, from the front office, to the classrooms and into the specialist areas have all contributed to the creation of a caring, stable and stimulating environment in which our children continue to grow and develop. We are very fortunate to have such a dedicated and talented staff to educate and care for our children and I would like to thank each of them, on behalf of the Board of Governors, for their unreserved commitment.

I would also like to thank each member of the school's Board of Governors for the support and commitment they continue to give to the school by utilising their valuable time to ensure that our school goes from strength to strength.

Empowering our children to achieve their true potential is both the responsibility of the school and you the parent/guardian. We value your support and welcome your views and ideas on how best to develop our school.

I wish to conclude by thanking each of you for the support you have given to our school throughout the year and look forward to another successful year in 2025/2026.

I commend this report to you.

Yours sincerely

Shared Education - Shared Future

Richard Totten
Chairperson, Board of Governors

Provision for Children with Additional Needs

The Additional Needs Curriculum Leader supports the programme for children with additional needs at RVIPS. The school provides support for children who are experiencing a wide range of varying needs. Children who are experiencing challenges within their school day are placed upon a Record of Concern. Parents are consulted and made aware of the concerns staff have observed and monitored. If all reasonable adjustments are exhausted

Shared Education - Shared Future

and the child requires further specific support the teachers, then consult with the parents regarding placing their child on the Special Educational Needs Code of Practice. At Stage One the children are provided with an Education Plan and a Programme of Work specific to the needs of the child. If the child requires more specific support, or guidance from outside Agencies the child progresses to Stage Two of the Code of Practice. The school can also avail of the Education Authority referral system to access advice from the Educational Psychology Department. The Educational Psychologists provides reports, advice and in some cases after a variety of diagnostic tests and consultation with other outside agencies they will go forward for statutory assessment. Parents are also now equipped to apply to put their child forward for statutory assessment. If the child's needs meet criteria, they may receive a Statement of Special Educational Need (Stage 3). This Statement enables a variety of interventions and support to be put in place. Statemented children are assigned an Adult Assistant whose job is to assist the child with their specific needs and ensure they are included within all classroom activities.

Children's progress is regularly monitored and evaluated. Data is analysed and appropriate targets are set. The school also provides a wide range of Educational Computer Programmes and support to enable the child to succeed to the best of their ability. The school also supports pupils and families who have English as a second language and gifted and talented pupils. Roe Valley IPS is committed to providing all children with the best possible education, catering for the needs of every child and ensuring all children reach their full potential.

The Security of the Children and Staff of Roe Valley Integrated Primary School

RVIPS is a secure site. There is a safe boundary fence. Access to the school building is via main school office. All visitors must report to the school office and sign in and out. They must wear a visitor's badge for the duration of their visit.

Staff members wear the school uniform and school coat which makes them easily identifiable at all times. Staff have key fobs to access the main building.

There are 18 CCTV security cameras placed around the school premises. The monitor is situated in the school office and Principal's office, and staff can easily see any intruder who may be prowling around the grounds during the day. The camera records all activity and is regularly checked to see if there has been any intrusion out of school hours. An intruder alarm is set every evening. Any illegal entry will immediately alert the local police station, the alarm company who manage the system and the key holders of the school.

The school regularly liaises with our local community police who provide advice on how to maintain the highest safety standards to ensure the safety of the children, staff and premises.
