

## Home Learning November Week 2

### Personal, Social and Emotional Development

We attach feelings to the things we smell. Some make us feel happy, safe and comforted whilst others make us sad, scared or sick. Have fun with the [sense of smell game](#). Chat about how each smell makes you feel.

### Physical Development

Use your sense of hearing to listen to the music and your sense of sight to see what movements you need to copy in order to be active and join in with '[Move it to the Sounds](#)' and '[Body Boogie Dance](#)'.

### Language Development

Listen to the story '[Look, Listen, Taste, Touch, Smell](#)' on YouTube. Go on a 5 Senses scavenger hunt - see resource card.

### Early Mathematical Experiences

Use your sense of sight to help you to spot the 'odd one out'. Line up objects that are the same. e.g., a set of cars, add in a truck and encourage your child to find the 'odd one out'. Watch '[Which One is Different](#)' on YouTube.

### The Arts

Tantalise your tastebuds with some edible chocolate playdough - see resource card. Make some cakes and buns, invite some guests, and have a tea party.

### The World Around Us

Have fun with your sense of touch by experimenting with chocolate - see resource card. Use the open-ended questions to encourage your child to predict, observe and conclude.
