Please submit the following with this Pre-Enrolment Application Form:

- **Reports confirming:**
 - (I) An up to date psychological assessment (within 2 years of date of application)stating the child's disability in line with the designation for ASD Special Class.
 - (II) The child's complex or severe learning need that require the support of a special class setting and the reasons why this setting is the most appropriate
 - (III) Diagnosis of ASD according to DSM IV/V or ICD 10
 - (IV) Any reports from a multi-disciplinary team or any part thereof.

- Reports should support the key considerations of:
 - (i) Diagnosis* – child must have professional reports as outlined in point (I) above
 - (ii) Integration* – child must be capable of integrating into the mainstream, at an age-appropriate level and from a health & safety point of view (where challenging behaviours can occur)
 - (iii) Appropriateness of the placement* – child must be able to access the primary school curriculum. Where a general learning disability also presents, it must fall within the “mild GLD” range to ensure the child can access the primary school curriculum when integrating into mainstream classes.
- Reports must state that an ASD special class in a mainstream school is the most appropriate setting for your child and the reasons why. Reports should differentiate between a special class setting and special school setting to ensure the needs of the child are accurately met. Consideration for special class enrolment will be provided where reports state special class provision is the most suitable placement to meet your child’s learning needs.
- All relevant reports MUST be included with this Pre-Enrolment Application Form. Failure to submit a report can result in the termination of an enrolment offer at the discretion of the Board of Management.
