

INTERNATIONAL SCHOOL AWARD

We are delighted to announce that after completing two international projects, and working in partnership through the ERASMUS Scheme with schools in Finland, Spain, Slovakia, Netherlands, Greece, Croatia, Italy and Turkey, St Teresa's PS has now been accredited with the International School Award

This is testament to our whole school community's commitment to embedding a rich and creative range of international work into lessons. Through these projects our staff, pupils and also parents, linked with schools, pupils and parents across Europe both in person and virtually. Even during a pandemic, our staff and pupils were committed to developing these links and continued to reach out through Zoom assemblies to the other countries. Many gifts and traditional crafts were shared with our partner schools. Sharing of good practice took place amongst staff over the last few years and the finale of the project was a visit to St Teresa's Ps by staff members from our partner schools. As a school we are committed to sustaining these global links and will continue to extend these further in the coming years through the new Erasmus/Turing schemes.
