

St Martins Nursery School

Dear Parents

Measles, chickenpox and shingles

Please may we ask for your co-operation in an important matter.

One of our pupils is currently receiving chemotherapy for leukaemia which puts them at risk if they are exposed to measles, chicken pox and shingles. Please let us know immediately if your child is suspected of having measles.

Our pupil is also at risk from chicken pox and would need to be given an injection within 3 days of contact. If your child is suspected of having chicken pox you should let us know immediately.

It is also important that you let us know if there is shingles in your household.

Your child is not at any risk whatsoever from this situation. However, the health and well-being of our child who is at risk, does depend on the co-operation of all other parents and we hope you can help us.

With many thanks.

Yours sincerely

Miss Boyle

(Principal)
