

Week Beginning:  
17<sup>th</sup> February 2025

## Home Learning Ideas

### Personal, Social + Emotional

\* We are going to be learning all about each other with our 'All About Me' boxes. Why not get your box ready to bring in to school filled with photos, a toy, a book, a special item from a day out or holiday or anything else that is special to your child.

### Physical Development

\* A great way of promoting our fine motor skills and strength is chopping fruits or vegetables. Why not let your child chop up some vegetables for dinner or cut some fruit for a snack. This is such a fun activity that children just love but remember to use a safe and appropriate knife.

### Language Development

\* As our theme this week is all about Fruit and Vegetables we have been reading stories relating to this theme. One of our favourites is the story, 'Handa's Surprise'. Click on this link to listen to the story.

 [Kids Book Read Aloud HANDA'S SURPRISE | By Eileen Browne | StoryTime with Miss Randall - YouTube](#)

### Mathematical Experiences

\* We are sorting and matching fruiting as a math activity in school. Here is an activity on [www.tinytap.com](http://www.tinytap.com) that your child could play.

### The Arts

\* **FRUIT AND VEGETABLE PRINTING**  
With your child you could make some fruit and vegetable prints with paint from items you have at home. Talk about the shape, the colour, the size and the texture of the foods you are stamping with.

### The World Around Us

\* Please find attached for some fruity themed recipes you could make with your child at home; why not try a delicious Banana Boat or a yummy Strawberry Smoothie
