

Home Learning Ideas Week beginning 5th January 2021

Personal, Social and Emotional Development

* In Nursery we encourage the children to be independent. We have been focusing on putting on our own school coats for outdoor play.

-See the Dressing Hacks for Winter Clothes page for some useful tips.

Early Mathematical Experiences

* In Nursery the children explore patterns and colours through a range of activities. An activity you could do with your child at home is getting them to help you match socks.

Ask questions- Are these socks the same?
Why/ why not? Which socks are red, spotty,
stripey? Etc

Physical Development

*To support the children with their mark making skills we use a range of resources to develop their interest and engagement. Using shaving foam ("winter snow") on the table or on a tray is a fun way to encourage your child to draw and make marks.

The Arts

* Create a snowman picture.

The children love to draw with chalk, and it is always a popular choice in Nursery. Give your child some ideas or draw together: Could you draw a frosty snowy picture? Could you draw a snowman?

Language Development

*Explore some Winter themed stories on YouTube such as Guess How Much I Love you in Winter. Ask your child questions about the characters and events in the story/animations.

Did you like the story? Why? What part did you like the best? Was it a happy or sad story? Etc GUBBLION BYOU

The World Around Us

* We are learning about the signs of Winter in Nursery. You could look for signs in the garden or go on a Winter Walk with your child.

-See the Winter Word Mat and discuss the images with your child.
