

Home Learning Ideas Week beginning 12th October 2020

Personal, Social and Emotional Development

*In Nursery the children are learning how to share with their friends. This is one of our "Teddy Bear Rules." Talk to your child about the importance of sharing with others.

- See the Sharing Problem Picture. Discuss with your child. *What should you do?*

Physical Development

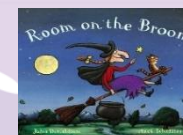

*Pouring and Filling Activities help children develop their spatial awareness and hand-eye coordination. -You could set up a box of water with different sized bowls and spoons. Add small toys (or Halloween items) for the children to scoop up.

Language Development

* "Room on the Broom," is one of our favourite Halloween stories. You can listen to it on YouTube.

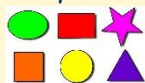

Ask questions- *Who found the witch's hat? What did the dragon want to do? What was your favourite part of the story?*

Early Mathematical Experiences

*Cut out some paper shapes for your child: circle, triangle, rectangle, square, heart, star.

Ask questions- *Can you find the heart? Which shape is round?*

-See Halloween shape picture.

The Arts

*The children are learning the Halloween songs that were posted with the October Newsletter. Have a go at singing some of these songs at home.

-Explore some Halloween songs on YouTube.

The World Around Us

*The children are learning about Halloween and festive traditions. Talk to your child about family traditions e.g. Dressing up, Trick or Treating.

-Explore the Halloween Word Mat and talk about the pictures.
