

Home Learning Ideas Week beginning 17th May 2021

Personal, Social and Emotional Development

* This month's emotion is Jealousy. Talk about feeling jealous. Explain that we all feel like this sometimes. Discuss scenarios with your child. E.g. Feeling left out when your friends are playing a game together. *What could you do if you felt sad or jealous?*

Physical Development

* Explore some songs about wild animal on YouTube. Encourage your child to join in with the words, actions, and movements. *Can you move your body like each animal in the song?*

Language Development

* We are developing our vocabulary related to wild animals, describing their features and the noises each animal makes.

-See At The Zoo I-Spy Activity Page. Give your child clues. *E.g. I-Spy an animal that is black and white and has stripes.*

Early Mathematical Experiences

*We are learning about animal patterns and talking about similarities and differences. *Can you match the animal pattern to the correct animal?*

-See the Animal Pattern Matching sheet.

The Arts

* Talk to your child about their favourite wild animal. *Which do you like the best and why?* Discuss the features of the animal: size, colour, skin pattern etc. Your child could create an animal mask using a paper plate and paint/markers.

The World Around Us

* Discuss with your child how animals live in all different places around the world. Ask your child to talk about or draw animals you might find on the farm, animals you might find under the sea and animals you might find in the zoo/wild.
