

## Home Learning Ideas Week beginning 16<sup>th</sup> November 2020

### **Personal, Social and Emotional Development**

- \* Emotion of the Month: "Proud."
- \* The children love being the "Teacher's Helper" and show great pride when given special jobs such as collecting the cups at dinner time. Encourage your child to do special jobs for you at home too. You could send us a picture of them helping you at home!

### **Physical Development**

- \* The children are developing their gross motor skills through a range of activities during Outdoor Play.
- \* On a rainy day we have movement breaks and listen to some "Action Songs." You can explore them on YouTube and encourage your child to hop, skip, jump, stretch etc.

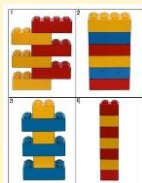

### **Language Development**

- \* The children love the story "We're going on a Bear Hunt" and enjoy joining in with the repeated phrases. You can listen to the story on YouTube. There is a lovely song about the story too.

### **Early Mathematical Experiences**

- \* The children are recognising and copying simple patterns in Nursery.
- \* You could create a simple model or pattern with Lego, Duplo or blocks and ask your child to copy it.

### **The Arts**

- \* The children have enjoyed creating Bear Caves in the Construction Area and at the STEM table. They love to be creative with a wide range of materials.
- \* You could make your own Bear Cave at home.
- See the Bear Cave sheet for ideas.

### **The World Around Us**

- \* The children love toast for snack and help by buttering their own toast in school.
- You could have a go at making a fun "Bear on Toast" Recipe together.
- See the Recipe sheet.
