

Week Beginning:
24th October 2022

Home Learning Ideas

Personal, Social + Emotional

Halloween brings lots of excitement for children. Discuss with your child:
Do you feel excited? Why? Are you looking forward to dressing up?

Discuss other emotions too (scared, worried) and explain how grown-ups are here to make you feel safe.

Physical Development

Fine Motor Fun-You could spray some shaving foam on the table/in a tray for your child to make marks in. You could add props such as spiders and make a Spooky Foam Web.

Language Development

You could create a Halloween Themed Recipe together. This provides lots of opportunities for your child to listen to and follow instructions.

-See Halloween Monster Face Biscuits Recipe

Mathematical Experiences

Go for a walk and collect sticks together. Ask questions: Which is short/long? Which is thick/thin?

You could decorate one of the sticks and make a Magic Wand.

The Arts

You could create some Halloween crafts or decorations for the house.

-See the Footprint Ghost Sheet for ideas

The World Around Us

You could go on a Spooky Scavenger Hunt with your child in your local park or Forest.

-See the Scavenger Hunt Sheet for ideas
