

Week Beginning:
21st November 2022

Home Learning Ideas

Personal, Social + Emotional

*This week we are going to talk to the children about the excitement of the Birth of Jesus and read the Christmas Story.

-You could read the Nativity Story with your child or explore a version of the story on YouTube.

Physical Development

*Children love stickers, and you can use them in lots of ways. Peeling stickers from the paper provides a great opportunity to develop fine motor skills and develops pincer control.

Language Development

* The skill of writing begins with mark making. Through their marks, your child is communicating their ideas, expressing their feelings, and developing their imagination and creativity. -See the Sensory mark making tray for ideas.

Mathematical Experiences

* In Nursery we are learning about the language of height in our play; short, shortest, tall, tallest, taller etc

Challenge your child. Can they make a tower that is taller than yours with their favourite construction materials?

The Arts

* We are learning about the Christmas Star and singing the song, "Twinkle Twinkle Christmas star."

You could get creative in the Kitchen together and make a Christmas Star cookie.
-See the Recipe sheet.

The World Around Us

*The children are learning about the Nativity and Christmas Traditions. Talk to your child about family traditions e.g. setting out the Nativity Scene, putting up the tree etc.

-Explore the Christmas Word Mat and talk about the pictures.
