Introduction

'First Aid is the initial assistance or treatment given to someone who is injured or suddenly taken ill' (The Joint First Aid Manual 8th Edition). In addition the Principal will ensure that signs are displayed throughout the School providing the following information:-

- The names of employees with First Aid qualifications;
- Location of the First Aid Box.

All members of staff will be made aware of the School's First Aid policy. No member of staff should attempt to give First Aid unless they have been trained.

Accidents involving bumps to a Pupil's head

The consequence of an injury from an accident involving a bump or blow to a pupil's head is not always evident immediately and the effects may only become noticeable after a period of time.

Where emergency treatment is not required the parent/guardian will always be informed that a child has had a bump to their head.

Transport to hospital or home

The Principal will determine the appropriate action to be taken in each case. Where the injury requires urgent medical attention an ambulance will be called and the pupil's parent or guardian will be notified. If hospital treatment is required, then the pupil's parent/guardian will be called for them to take over responsibility. If no contact can be made with parent/guardian or other designated emergency contacts then the Principal may decide to transport the pupil to the hospital.

Where the Principal makes arrangements for transporting a child then the following points will be adhered to:-

- Only staff cars insured to cover such transportation will be used;
- No individual member of staff will be alone with the pupil in a vehicle;
- A second member of staff will be present to provide supervision of the injured pupil.

Monitoring and evaluation

This policy will be reviewed and monitored in line with the school's policy review schedule or sooner in light of new guidelines.
