

St Mary's PS Killesher

e-Safety Policy

Signature of Chairperson of Board of Governors: Fergal Cleary

Signature of Principal: John Cunningham

Date: June 2023

Review Date: June 2024

E-SAFETY POLICY

1. INTRODUCTION

Boards of Governors have a duty to safeguard and promote the welfare of pupils (Article 17 of the Education and Libraries Order 2003 (Northern Ireland))

It is also the duty of the Board of Governors to determine the measures to be taken at a school to protect pupils from abuse (Article 18 of the Education and Libraries Order 2003 (Northern Ireland))

In the exercise of those duties, Boards of Governors must ensure that their schools have a policy on the safe, healthy, acceptable and effective use of the Internet and other digital technology tools. They must also actively promote safe and acceptable working practices for all staff and pupils: these will serve to reassure parents and guardians.

This E-safety policy contains policies in relation to use of the internet, use of mobile phones/handheld devices and use of digital/photographic images of children. It is largely based on DENI Circular 2007/1 "Acceptable Use of the Internet and Digital Technologies in Schools" , DENI Circular 2011/22 "Internet Safety" and DENI Circular 2013/25 "eSafety Guidance". It should also be read in conjunction with the Schools Child Protection Policy.

2. INTERNET SAFETY POLICY

The Internet and other digital technologies are very powerful resources which can enhance and potentially transform teaching and learning when used effectively and appropriately. The Internet is an essential element of 21st century life for education, business and social interaction. Our school provides pupils with opportunities to use the excellent resources on the Internet, along with developing the skills necessary to access, analyse and evaluate them.

The DENI circular 2007/01 states that:

"Used well, digital technologies are powerful, worthwhile educational tools; technical safeguards can partly protect users, but education in safe, effective practices is a key goal for schools."

This document sets out the policy and practices for the safe and effective use of the Internet in St Mary's PS. The policy has been drawn up by the staff of the school under the leadership of John Cunningham (Principal). It has been approved by the Board of Governors and is available to all parents via the school website and as a hard copy, if requested.

The policy and its implementation will be reviewed annually.

3. C2K

Classroom 2000 (C2k) is the project responsible for the provision of an information and communications technology (ICT) managed service to all schools in Northern Ireland. It provides a safety service which should ensure educational use made of resources is safe and secure, while protecting users and systems from abuse.

Some of these safety services include:

- o Providing all users with a unique user names and passwords
- o Tracking and recording all online activity using the unique user names and passwords
- o Scanning all C2k email and attachments for inappropriate content and viruses
- o Filters access to websites
- o Providing appropriate curriculum software.

Should the school decide to access online services through service providers other than C2k then we will ensure that effective firewalls, filtering and software monitoring mechanisms are in place.

4. Code of Safe Practice

When using the Internet, email systems and digital technologies, all users must comply with all relevant legislation on copyright, property theft, libel, fraud, discrimination and obscenity. We have a Code of Safe Practice (Appendix) for pupils and staff containing eSafety Rules which makes explicit to all users what is safe and acceptable and what is not. All staff will annually sign off upon accepting this code of Safe Practice.

The scope of the Code covers fixed and mobile Internet; school PCs, laptops, tablets and digital photography/video equipment. It should also be noted that the use of devices owned personally by staff and pupils but brought onto school premises (such as mobile phones/devices, camera phones, tablets, PDAs) is subject to the same requirements as technology provided by the school.

John Cunningham/Senior Management Team will monitor the effectiveness of the Code of Practice, particularly in the light of new developments in technology.

Code of Safe Practice for Pupils

A parental/carer consent letter (Appendix) accompanied by the code of practice for pupils is sent out to parents/carers and this consent) must be obtained before the pupil accesses the internet.

In addition, the following key measures have been adopted by St Mary's to ensure our pupils do not access any inappropriate material:

- o The school's eSafety code of practice for Use of the Internet and other digital technologies is made explicit to all pupils and eSafety guidelines are displayed prominently throughout the school;
- o Our Code of Practice is reviewed each school year and signed by pupils/parents;
- o Pupils using the Internet will normally be working in highly-visible areas of the school;
- o All online activity is for appropriate educational purposes and is supervised, where possible;
- o Pupils will, where possible, use sites pre-selected by the teacher and appropriate to their age group;
- o Pupils in Foundation, Key Stage 1 & 2 are educated in the safe and effective use of the Internet, through a number of selected websites.
- o Pupils in Key Stage 2 are educated in the safe and effective use of the Internet, by class teachers and Internet Safety workshop from the PSNI.

It should be accepted that however rigorous these measures may be, they can never be 100% effective. Neither the school nor C2K can accept liability under such circumstances. Children will be asked to inform an adult about any incidents they witness.

The use of mobile phones by pupils is not permitted on the school premises during school hours. During school hours pupils are forbidden to play computer games or access social networking sites.

Sanctions

Incidents of technology misuse which arise will be dealt with in accordance with the school's Discipline/Behaviour Policy. Minor incidents will be dealt with by class teachers and may result in a temporary or permanent ban on Internet use. Incidents involving child protection issues will be dealt with in accordance with the school's child protection policy.

Code of Practice for Staff

The following Code of Safe Practice has been agreed with staff:

- Pupils accessing the Internet should be supervised by an adult at all times.
- Staff will make pupils aware of the rules for the safe and effective use of the Internet. These are displayed in classrooms and discussed with pupils.
- All pupils using the Internet have written permission from their parents. o Deliberate/accidental access to inappropriate materials or any other breaches of the school code of practice should be reported immediately to the Principal/ICT Co-ordinator.
- In the interests of system security staff passwords should only be shared with the network manager.
- Teachers are aware that the C2K system tracks all Internet use and records the sites visited. The system also logs emails and messages sent and received by individual users.
- Teachers should be aware of copyright and intellectual property rights and should be careful not to download or use any materials which are in breach of these.
- Photographs of pupils should, where possible, be taken with a school camera and images should be stored on a centralised area on the school network, accessible only to teaching staff or under supervision for pupil work. (see Digital/Photographic Images Policy)
- School systems may not be used for unauthorised commercial transactions.

5. Internet Safety Awareness

In St Mary's Primary School we believe that, alongside having a written eSafety policy and code of practice, it is essential to educate all users in the safe and effective use of the Internet and other forms of digital communication. We see education in appropriate, effective and safe use as an essential element of the school curriculum. This education is as important for staff and parents as it is for pupils.

Internet Safety Awareness for pupils

Rules for the Acceptable Use of the Internet are discussed with all pupils and are prominently displayed in classrooms. In addition, pupils are made aware and discuss Internet Safety through structured lessons. There are various pupil resources available such as:

Gridclub

Signposts to Safety (primary and secondary versions)

Key Stage 2

KidSMART

ThinkUKnow

Childnet's Sorted website

✚ Internet Safety Awareness for staff

The ICT Co-ordinator keeps informed and updated on issues relating to Internet Safety. All teaching staff, classroom assistants and supervisory assistants are in turn made aware of the Departments policy and strategy on ICT use in teaching and learning and updated in relation to relevant changes.

The Child Exploitation and Online Protection Centre (CEOP) runs regular one-day courses for teachers in Northern Ireland. These are advertised directly to schools. Teachers can download lesson plans, teaching activities and pupils' worksheets by registering with the Thinkuknow website.

✚ Internet Safety Awareness for parents

The school will host safety awareness evenings lead by the NSPCC.

The school E-Safety policy will be available for download on the school website. Parents can also request a hard copy.

On the school website there is a dedicated e-Safety page with links to websites and digital tools.

6. Health and Safety

In St Mary's Primary School we have attempted, in so far as possible, to ensure a safe working environment for pupils and teachers using ICT resources, both in classrooms and in the ICT suite, which has been designed in accordance with health and safety guidelines. Pupils are supervised at all times when Interactive Whiteboards and Digital Projectors are being used. Guidance is also issued to pupils in relation to the safe use of computers, interactive whiteboard and projectors. Such guidance includes advice concerning correct posture, positioning of screens, ensuring pupils do not stare directly into the beam of a projector etc. We are also mindful of certain medical conditions which may be affected by use of such equipment e.g. photosensitive epilepsy.

✚ Use of Mobile Phones

Many modern mobile phones have internet connectivity. Please refer to the schools policy on the use of mobile phones.

Wireless Networks

The Health Protection Agency has advised that there is no consistent evidence of health effects from radio frequency exposures below guideline levels and therefore no reason why schools and others should not use WiFi (Wireless Fidelity) equipment. Further information on WiFi equipment is available at: the Health Protection Agency website.

7. School Web Site

The school website is used to celebrate pupils' work, promote the school and provide information. Editorial guidance will ensure that the Website reflects the school's ethos that information is accurate and well-presented and that personal security is not compromised. Senior Management ensure common values and quality control. As the school's Website can be accessed by anyone on the Internet, the school has to be very careful to safeguard the interests of its pupils and staff. The following rules apply:

- The point of contact on the Website should be the school address, school e-mail and telephone number. Staff or pupils' home information will not be published.
- The ICT co-ordinator and Principal will take overall editorial responsibility and ensure that content is accurate and appropriate.
- The Website should comply with the school's guidelines for publications.
- The copyright of all material must be held by the school, or be attributed to the owner where permission to reproduce has been obtained.

8. Social Software

This is a generic term for community networks, chat rooms, instant messenger systems, online journals, social networks, video calling and blogs (personal web journals). Social environments enable any community to share resources and ideas amongst users. Such software allows users to exchange resources, ideas, pictures and video.

The majority of activity in these on-line social sites usually causes no concern. C2k filters out these social networking sites and blocks attempts to circumvent their filters leaving it relatively safe in the school environment. Concerns in relation to inappropriate activities would tend to come from use outside the school environment.

We regard the education of pupils on the safe and responsible use of social software as vitally important and this is addressed through our Internet Safety Education for pupils. Appropriate information and indeed education will also be provided for our parents.

Instances of cyber bullying of pupils or staff will be regarded as very serious offences and dealt with according to the school's discipline policy and child protection procedures.

Pupils are aware that any misuse of mobile phones/websites/email should be reported to a member of staff immediately.

9. School Facebook Page

The St Mary's Primary School Facebook page (known as the page from here-on) is run in by the school. It is managed by the Principal & x3 Staff members.

The page is designed to:

- Inform, engage and communicate with parents, carers and other interested parties.
- Recognise, celebrate and promote the work of the school and its students.
- Communicate and reinforce school policies and good practice.

Postings will include details of school related events, pupil achievements, news. All content must align with the school's mission and values.

Teachers should use their class page on school website for all lesson news / updates.

All posts on Facebook must be approved by the Principal.

Appendix

ICT Code of Safe Practice

(Primary Pupils)

e-Safety Rules

1. I will only use ICT in school for school purposes.
2. I will only use my class e-mail address or my own school e-mail address when e-mailing.
3. I will only open e-mail attachments from people I know, or who my teacher has approved.
4. I will not tell other people my ICT passwords.
5. I will only open/delete my own files.
6. I will make sure that all ICT contact with other children and adults is responsible, polite and sensible.
7. I will not deliberately look for, save or send anything that could be unpleasant or nasty. If I accidentally find anything like this I will tell my teacher immediately.
8. I will not give out my own details such as my name, phone number or home address. I will not arrange to meet someone unless this is part of a school project approved by my teacher and a responsible adult comes with me.
9. I will be responsible for my behaviour when using ICT because I know that these rules are to keep me safe.
10. I know that my use of ICT can be checked and that my parent/ carer contacted if a member of school staff is concerned about my eSafety.

ICT Code of Safe Practice for Staff

ICT (including data) and the related technologies such as e-mail, the internet and mobile devices are an expected part of our daily working life in school. This code of practice is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to agree to this code of practice and adhere at all times to its contents. Any concerns or clarification should be discussed with J Cunningham (Principal).

e-Safety Rules

1. I will only use the school's email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed 'reasonable' by the Principal or Board of Governors.
2. I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities
3. I will not give out my own personal details, such as mobile phone number and personal e-mail address, to pupils.
4. I will only use the approved, C2k, secure e-mail system for any school business.
5. I will ensure that personal data is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely. Personal data can only be taken out of school or accessed remotely when authorised by the Principal or Board of Governors. Personal or sensitive data taken off site must be encrypted.
6. I will not install any hardware or software without permission of J. Cunningham.
7. I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.
8. Images of pupils and/ or staff will only be taken, stored and used for professional purposes in line with school policy and with written consent of the parent, carer or staff member.
9. I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to my Principal.
10. I will respect copyright and intellectual property rights.
11. I will support and promote the school's e-Safety and Data Security policies and help pupils to be safe and responsible in their use of ICT and related technologies.

I agree to follow this code of practice and to support the safe and secure use of ICT throughout the school.

Mr J Cunningham, Principal

Dear parent,

As your child progresses through St Mary's PS they will have opportunities within the controlled environment of ICT lessons to access the Internet under the supervision of their class teachers. This access is designed and intended for educational purposes only.

The Internet contains material that is inappropriate for school purposes and there is a system in place that helps to filter such material from the school.

Pupils have to accept the responsibility of not accessing the internet without a teacher's permission. We have a policy on the Acceptable Use of the Internet. This is available on the school website www.stmaryskillesher.com. If you wish to receive a hard copy please tick appropriate box below.

Could you please sign and return the slip below.

Yours sincerely,

John Cunningham

I give permission for to have access to the Internet within the controlled environment of ICT classes.

I do not give permission for to have access to the Internet within the controlled environment of ICT classes.

I wish to receive a copy of the Acceptable Use of the Internet policy.

Signed(parent/guardian)

Additional Advice for Parents with Internet Access at home

1. A home computer with Internet access should be situated in a location where parents can monitor access to the Internet.
2. Parents should agree with their children suitable days/times for accessing the Internet.
3. Parents should discuss with their children the school rules for using the Internet and implement these at home. Parents and children should decide together when, how long and what constitutes appropriate use.
4. Parents should get to know the sites their children visit and talk to them about what they are learning.
5. Parents should consider using appropriate Internet filtering software for blocking access to unsavoury materials. Further information is available from Parents' Information Network (address below).
6. It is not recommended that any child under 16 should be given unmonitored access to newsgroups or chat facilities.
7. Parents should ensure that they give their agreement before their children give out personal identifying information in any electronic communication on the Internet, such as a picture, an address, a phone number, the school name or financial information such as credit card or bank details. In this way they can protect their children and themselves from unwanted or unacceptable overtures from strangers, from unplanned expenditure and from fraud.
8. Parents should encourage their children not to respond to any unwelcome, unpleasant or abusive messages and to tell them if they receive any such messages or images. If the message comes from an Internet service connection provided by the school they should immediately inform the school.

Further advice for parents is available from the following sources:
