Parent Feedback:

Our son has learned so much since he began in the Neuro Diverse Football Club and his self-confidence is growing from strength to strength.

Could not recommend Tommy enough!!

NDFC has been a great resource for my son to “go to football training” like he hears his friends talk about. He feels comfortable in the local setting and the numbers are small so he doesn’t become overwhelmed. Tommy tailors the activities to suit and pause is built-in as standard. There are lots of opportunities to experience success and see progression.

Neurodiverse FC offers a refreshingly unique service that our wee boys and indeed we as parents have been crying out for over the years. It’s a haven where our kids can come along and join in with peers and are made to feel welcome, valued and recognised for their uniqueness and individuality.

Our Purpose:

To empower a generation to have the courage to be themselves.

Our Vision:

To establish a community where neurodiversity is celebrated so that families and children feel supported and accepted for who they are.

Mission:

Ensure the next generation never says “I just did not fit in”.
