Page 1/2

Please submit the following with this Enrolment Application form:

- Reports confirming:

- (I) The child's disability in line with the designation for ASD Special Class
- (II) The child's complex or severe learning need that require the support of a special class setting and the reasons why this setting is the most appropriate
- (III) Diagnosis of ASD according to DSM IV/V or ICD 10
- (IV) Any reports from a multi-disciplinary team or any part thereof.

- Reports should support the key considerations of:

(i) Diagnosis – child must have professional reports as outlined in point 7(i) above

(ii) Integration – child must be capable of integrating into the mainstream, at an age appropriate level and from a health & safety point of view (where challenging behaviours can occur)

(iii) Appropriateness of the placement – child must be able to access the primary school curriculum. Where a general learning disability also presents, it must fall within the "mild GLD" range to ensure the child can access the primary school curriculum when integrating into mainstream classes

- Reports must state that consideration could be given to placement in an ASD special class in a mainstream school. Reports should differentiate between a special class setting and special school setting to ensure the needs of the child are accurately met.
- Consideration for special class enrolment will not be provided where reports state special school provision is most suitable to meet the child's learning needs.
- All relevant reports MUST be included with this Admission Form. Failure to submit a report can result in the termination of an enrolment offer at the discretion of the Board of Management.
