Providing a safe environment for every child at Kells and Connor

The governors and staff of Kells and Connor Primary school fully recognise the contribution it makes to safeguarding children.

We recognise that all staff, including volunteers, have a full and active part in protecting our pupils from harm.

We believe that our school should provide a caring, positive, safe and stimulating environment which promotes the social, physical and moral development of the individual child.

Please refer to the full Safeguarding Policy which is available in school and on our website.

WHAT IS SAFEGUARDING AND CHILD PROTECTION?

Safeguarding is more than child protection. Safeguarding begins with promotion and preventative activity which enables children and young people to grow up safely and securely in circumstances where their development and wellbeing is not adversely affected. It includes support to families and early intervention to meet the needs of children and continues through to child protection.

Child protection refers specifically to the activity that is undertaken to protect individual children or young people who are suffering, or are likely to suffer significant harm.

WHAT IS CHILD ABUSE?

Child abuse can manifest in a number of ways and can involve a combination of forms of abuse. There are five main recognised types of abuse:

- Physical
- Emotional
- Sexual
- Neglect
- Exploitation
