Department of Education and Skills Primary Online Database

Dear Parents,

The Department of Education and Skills is developing an electronic database of primary school pupils called the Primary Online Database (POD) which will involve schools maintaining and returning data on pupils to the Department at individual pupil level on a live system. The database will allow the Department to evaluate progress and outcomes of pupils at primary level, to validate school enrolment returns for grant payment and teacher allocation purposes, to follow up on pupils who do not make the transfer from primary to post primary level and for statistical reporting.

In order to assist with the gathering of data, please complete **one form** for **each** of your children in CAPITAL LETTERS and return to school. This form will be retained by the primary school.

Please also find attached, a FAQ list to which you can refer, should you have any queries.

Yours sincerely,

Ciara McNamara

PLEASE TURN OVER

The Department has consulted with the Data Protection Commissioner in relation to the collection of individual pupil information for the Primary Online Database. Both religion and ethnic and cultural background are considered sensitive personal data categories under Data Protection legislation. Therefore, it is necessary for each pupil's parent/guardian to identify their child's religion and ethnic background, and to consent for this information to be transferred to the Department of Education and Skills. All other information held on POD was deemed by the Data Protection Commissioner as non-sensitive personal data.

Department of Education and Skills Primary Online Database

The Department has consulted with the Data Protection Commissioner in relation to the collection of individual pupil information for the Primary Online Database. Both religion and ethnic and cultural background are special category data under the General Data Protection Regulation (GDPR). These questions are optional. While these questions are optional, the information would be very useful to the Department for statistical and research purposes. Aggregated information on Ethnic/Cultural background will be used to track the progress of these groups, and to compare their progress with other groups, thereby identifying gaps in the system and assisting in the development and implementation of appropriate policies and interventions. Aggregated information on religion will be used for statistical purposes only. Parents/guardians are asked, if they wish to do so, to identify their children's religion and ethnic background, and to consent for this information to be transferred to the Department of Education and Skills. This page of the form will be retained by your primary school.
