

# Ballymoney Model Integrated Primary School

## Literacy

In **Grammar and Punctuation** we will be learning to:

- identify verb tenses
- change verbs into adverbs
- shorten phrases using contractions
- organise information into paragraphs

In **Comprehension** we will be using:

- retrieval skills to find information in the passage
- inference skills to think about reasons for our answers
- summarising the text

In **Writing** we will be learning to:

- plan our writing using a brace map
- write a fact file all about birds
- recount writing about a recent event
- acrostic poetry based on our topic work

In **Reading** we will be sharing:

Grandpa's Great Escape – David Walliams

We will think about authorial technique and multi-modal texts.

In **Talking and Listening** we will:

- present our fact files to the class
- present a animation explaining the effects used

## Year 5 Term Two

### U ICT

In **U ICT** our focus is: using PowerPoint to create a fact file presentation and a Stop Motion animation including movement and sound.

We will be learning to:

- Add animations, transitions and effects to alter our text and images
- Copy and paste using keyboard commands
- Create our own backgrounds to use within our presentation
- Add sound and moving image to PowerPoint
- Create digital drawings using the iPad – linked to our WAU topic work

## Numeracy

In **Number** we will be learning to:

- Rounding numbers to the nearest 10 or 100
- Multiplying numbers by 10, 100 and 1000
- Use a decimal point to show tenths and hundredths
- Know a number's factors and multiples

In **Measures** we will be learning to:

- Convert between analogue and digital time
- Find the area and perimeter by measuring the sides of 2d shapes
- Reading temperatures off thermometers including negative numbers.

In **Shape and Space** we will be learning to:

- Find the area by counting squares and using the area formula.
- Identify acute and obtuse angles
- Recognise regular and irregular polygons – up to 10 sides

In **Handling Data** we will be learning to:

- Read and use information from a pictograph
- Sorting shapes, numbers and objects using a 3 hoop Venn diagram
- Create simple time graphs – including bars and lines

In **Processes** we will be starting:

- Schofield and Sims work using all number operations

Learning Together

## Our WAU topic is Up Up and Away

In **WAU** we will be learning about:

Bird species, habitats and adaptations

The History of Flight along with the Solar System and Space travel

## Other things that will be happening:

- World Book Day – dress up/school theme
- Bird/Flight related school outing or trip
