

Annalong Primary School and Nursery Unit Development Plan for Children

With the ideas of the whole school community, governors, teachers, teaching assistants and pupils, our school has prioritised these areas below as key ideas that we want to make better this academic year.

	What we want to make better:	What will happen to make this better:
	Make sure you are doing your very best in school!	Help you with Literacy and Numeracy when you find things difficult. Mrs Weaving and Mrs Cunningham will help you in small groups. Use new resources to help learning more enjoyable.
	Make sure you are happy and safe in school.	We will have special adults you can talk to if you don't feel safe. You can see them on the poster in your class and around the school. We will teach you how to keep yourself safe in school, at home and online. Have opportunities to have lots of exercise and learn new sports.
	Listen to what you think about the school and your learning.	Have a new School Council with people in your class to tell us your good ideas. Ask you what you enjoy about school and how we can help you before writing our Individual Education Plans.
	Let everyone know at home and in the community about your achievements.	We will use Google Classroom to let your parents see your good work. We will use our school website and Facebook page to let everyone in our community know what is happening in our school. We will work with local churches and organisations to help you get involved in your local community.
