BALLYCLARE PRIMARY SCHOOL

ANTI-BULLYING PROCEDURES

As a school, we are very pro-active concerning the issue of bullying. All classes are taught not to engage in such behaviour, but also what to do, should it unfortunately still occur. When an incident is reported, the following will take place:

- (i) The class teacher will speak to the person displaying bullying behaviour and the target involved. Bystanders may also be involved in this discussion. Clear guidance will be given that this type of behaviour should cease immediately. If a child (target) is distressed at this level - parents will be informed. The parent of the person displaying bullying behaviour will be contacted immediately to ensure the incident is dealt with at home.
- (ii) Should this type of incident continue, the class teacher will inform the Head of Year/Vice Principal/Principal. The person displaying bullying behaviour will be punished in line with our Positive Behaviour Policy and parents will be invited into school for a meeting. No child will be permitted to persistently annoy/upset another child in our school.
- (iii) The positive ethos encouraged helps to eradicate the need for this type of behaviour but when it occurs, both the target and the bully get help to ensure it does not continue. A person displaying bullying behaviour often has other issues and these will be investigated to ensure this behaviour pattern stops.
