

Child Friendly School Development Plan

Vision

Everyone in our school will know what we believe in and can explain it in their own words.

Literacy

We will get even better at understanding what we read, so we can enjoy stories and learn new things.

We will learn more sounds and letters, so we can read and write new words.

Numeracy

We will become confident number experts who can solve problems and know our facts!

SEN

We will try our best to meet our learning targets and celebrate our progress.

Nursery

We will make our nursery a fun and exciting place where everyone can play, explore, and learn together—inside and outside.
