Legend

- 1) Loss Ratio retained business: is the ratio of current year claims to current year earned premiums;
- 2) Combined Ratio retained business: is the ratio of (current year claims + operating costs + intangible assets amortization + technical charges) to current year earned premiums;
- 3) Expense Ratio retained business: is the ratio of (operating costs + intangible assets amortization + net technical charges) to current year gross premiums written;
- 4) APE: Annual Premium Equivalent, is a measure of the new business volume which includes 100% of sales of regular recurring premium business and 10% of sales of single premium business.

Dear Shareholders,

The financial statements for our 95th financial year submitted for your approval show a net profit of 139,487 thousand euro (+110.5% compared with the net profit of 66,269 thousand euro for the previous year). The year's result benefited from 44,037 thousand euro of capital gains, after tax, from the sale of Italian government bonds mainly classified as long-term portfolio allocated to Non-Life business, which took place in November 2016 with the scope to diversify the bond portfolio.

Thanks to the continuous consolidation and development of the existing portfolio, premium income is essentially aligned with last year's levels: the total premiums written on the 31st December 2016 amounted to 1,270,731 thousand euro (1,287,543 thousand euro on the 31st December 2015), an increase of 1.1% in non-life business and a decrease of 13.2% in life business, the latter was due to the strategy of containment of the revaluable single premiums products linked to segregated funds.

Motor and Non-Marine lines continue to make a profit, thanks to the continuous review of the risks in the portfolio, a cautious approach on how we underwrite new risks and a constant rate review. The technical performance trend shows a slight decrease compared to the previous year, mainly due to a reduction of profitability in the Motor T.P.L. line, due to the continuous decline of the average premium. It also highlights a recovery in Specialty lines, thanks to the efforts undertaken in previous years, targeted to the technical of balance in the Credit and Deposit lines.

The Life business showed a positive result, a slight increase compared to last year.

The loss ratio and the combined ratio for retained business are respectively: 64.6% and 89.4% (63.9% and 89.1% in the previous year). This is the result of a prudent underwriting policy and a particular and constant focus on the rationalisation of administrative costs.

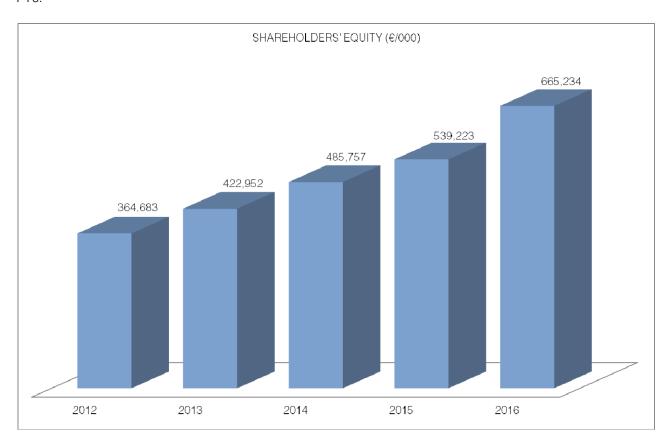

Investments, in more detail illustrated in the chapter "Investment assets", totalled 2,851,169 thousand euro (+8.2% compared with 31 December 2015).

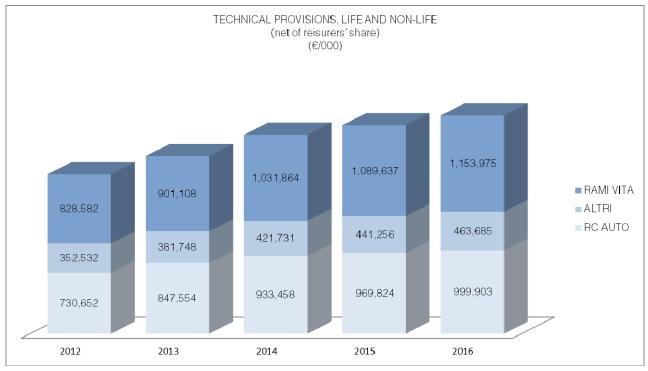

Ordinary and extraordinary income from investments with risk borne by the company totalled 114,717 thousand euro, (52,667 thousand euro at 31 December 2015), and include capital gains of 58,685 thousand euro arising from the extraordinary operation shown above. In addition, the Company has considered to be prudent to write-down 40% of the investment held in the "Fondo Atlante", value adjustments of 1,623 thousand euro. Due to the continuous economic and financial climate, the Company recorded impairment losses on investments in subsidiaries and associated companies for a total amount of 8,564 thousand euro.

Group shareholders' equity (IAS/IFRS accounting standards) totalled 745,611 thousand euro, an increase of 7.9% compared to 691,244 thousand euro recorded on 31st December 2015.

Group's net profit totalled 135,367 thousand euro (+91,7% compared with the net profit of 70,620 thousand euro for the previous year).

The following charts show local shareholders' equity trend and technical provisions amount in the last five FYs:

Strategic goals

Vittoria Assicurazioni operates in all lines of insurance business, and founds its activities on a long experience in the insurance field, gained since 1921, for the protection of individuals, families and companies.

The main objective of the company is to honour in proper time contractual commitments to policyholders, realizing a reasonable profit margin.

This goal is supported by the achievement of technical profitability, a policy of consolidation of the portfolio acquired, the loyalty of existing customers, but also by the increase in market share in non-life and the acquisition of new production in the Life business.

In carrying out its insurance activities, the company pays attention to the management of its risk profile, principally through:

- an accurate risk pricing;
- a careful diversification of risks based on customer segmentation. In particular, although
 preferring the risks of personal lines and small / medium businesses, it is not neglected segment
 of large companies, on which are provided adequate reinsurance covers;
- diversification of sales channels achieved through careful geographical segmentation of markets;
- the continuous training of the agency network that determines a careful portfolio selection and a constant search for common objectives.

Next to the insurance business, the company implements low-risk investment policies that ensure an adequate return without departing from its risk appetite goals. Investment management, led by the profile of the insurance liabilities, pays particular attention to the protection of the financial strength of the company (most of the profits are reinvested in the company), without disregarding the search for adequate returns.

Review of operating performance

The following table compares, for each line, premiums written in FYs 2016 and 2015 and their contribution to the total portfolio mix:

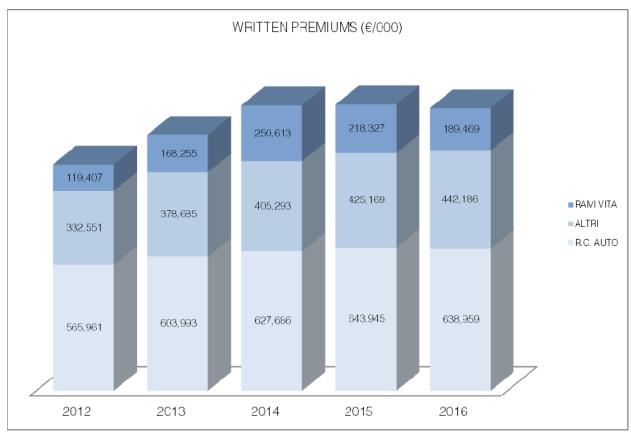

| | | | | | (€/000) |

| Grand Total | 1,270,731 | 1,287,543 | -1.3 | 100.0 | 100.0 |

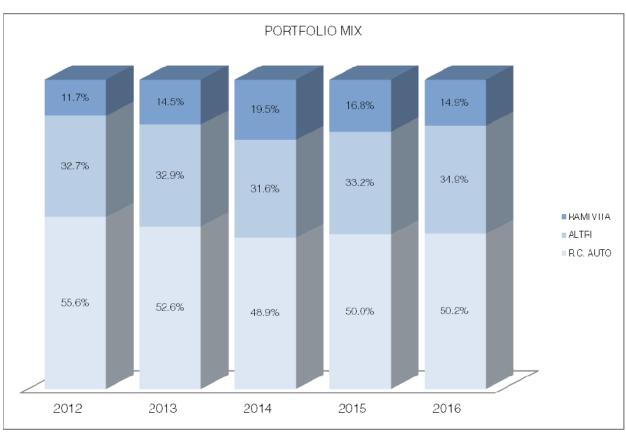

The Company operates in France on the basis of the free-provision-of-services regime; during the year there has been no significant premium collection.

With regard to the Italian insurance market, it is noted that the premiums as at 30 September 2016 (latest Ania Trends data) show, compared to the same period of last year, a decrease in life business of -10.3% and in Non-Life business of -1.6% (of which Motor Third Party Liability -5.9%).

The following charts highlight premium volume and portfolio breakdown in the last five FYs.

Italian Direct Business

Life business

The products currently offered by the company cover all insurance business lines, from savings ("revaluable" policies relating to segregated accounts), to protection (policies covering risks of death, disability, and non-self-sufficiency (i.e. long-term care) and supplementary pension plans (individual pension schemes and open-ended pension fund). The product range also includes unit-linked financial policies and composite products, which represent a new investment solution that combines return potential resulting from equity funds (Class III) and the safety of segregated fund (Class I). The strategy of containment of the products in single premiums revaluable linked to segregated funds is going on.

The lines marketed include presently policies that envisage the possibility of converting the benefit accrued into an annuity. Conversion takes place at the conditions in force when the option is exercised. The insurance pricing types used are those for endowment, whole-life and term-life policies, on both an annual and single-premium basis, and fixed term policies, plus group insurance pricings for whole/term life and/or disability policies. Contractual terms are updated constantly and are in line with those commonly offered by the market.

The key features of FY2016 are summarised in the following table, where they are compared with data for the previous FY:

LIFE Business - 2016 Results - Net of reinsurance

(€/000)

| Operating Profit before Tax | 1,670 | 48 | 1,718 | 1,407 | -97 | 1,310 | 408 | 31.1 |

| Vittoria Previdenza* | 3.40% | 69,861 | 3.90% | 51,936 |

^{*} Observation period: 01/10/2015 - 30/09/2016

_

^{**} Active since: 31/03/2016

For non-Italian readers: with the Italian "revaluable" policy, which is of the endowment type, the insurance company, at the end of each year, grants a bonus that is credited to mathematical reserves and depends on the performance of an investment portfolio. This bonus is determined in such a way that total interest credited to the insured is equal to a given percentage of the annual return of the reference portfolio and in any case does not fall below the minimum interest rate guaranteed. The "revaluable" policy is therefore of the participating type.

Premiums

The Premiums for direct Life business amounted to 189,469 thousand euro, against 218,327 thousand euro in the previous year (-13.2%) and are broken down as follows:

| | | | | | (€/000) |
|---------------------|---------|---------|-------------|-------|---------|
| | | | YoY | % (| of |
| | Year | Year | Year change | | ook |
| | 2016 | 2015 | % | 2016 | 2015 |
| | | | | | |
| Annual premiums | 56,237 | 57,898 | -2.9 | 29.7 | 26.5 |
| Single premiums | 133,232 | 160,429 | -17.0 | 70.3 | 73.5 |
| Total Life business | 189,469 | 218,327 | -13.2 | 100.0 | 100.0 |

Claims, accrued capital sums & annuities, and surrenders

The following table summarises data for direct business relating to claims, accrued capital sums and annuities and surrenders (net of liquidation expenses), compared with data of previous year.

| | | | (€/000) |
|----------------------------------|------------|------------|-----------------|
| | 31/12/2016 | 31/12/2015 | YoY change % |
| Claims | 18,623 | 23,123 | (19.5) |
| Accrued capital sums & annuities | 71,041 | 99,129 | (28.3) |
| Surrenders | 39,700 | 42,835 | (7.3) |
| Total | 129,364 | 165,087 | (21.6) |

Surrenders and claims relating to investments for which policyholders bear the risk (Classes III unit- and index-linked policies) and VI (open-ended pension fund) totalled 7,814 thousand euro vs. 13,056 thousand euro in FY2015.

Non-Life business

Technical result

The following table shows – in total and by line of business – the technical results of direct and indirect business, net of related outward reinsurance, equalisation (i.e. smoothing) reserves – compared with the same data for the previous FY. The result shown does not take allocation of investment income earned during the FY into account.

| Total N | lon-Life businesses | 116,653 | 119,626 | -2.5 |

Technical performance

The technical performance featured an outcome in line with the previous year. The Motor TPL line of business showed a decrease exclusively due to the steady decline in the average premium.

The result was positive as a result of an ongoing review of the risks in the portfolio, a careful policy of underwriting new risks and a steady tariff review. The following sets out the considerations for the different lines of business:

NON MARINE

Overall Non Marine line of business recorded an increase in premiums thanks to the acquisition of new customers and to the continuation of the policy of consolidation and development of monoline motor customers.

The overall technical result remained positive.

More specifically, each line of business featured the following technical results:

Accident: this line of business shows a growth in terms of premium, thanks to the development of the sale of the collateral injuries of the driver in combination with the motor policies.

The technical result shows a decrease compared to the previous year, due to the higher incidence of serious claims and claims from macro injury.

Health: the line registered a 5.58% increase in premiums, with a technical result improved compared to last year (+34.6%), thanks to the effects of portfolio reforms implemented in previous years.

Fire and natural events: this line of business shows an increase in premiums (+5.7%) and a positive technical result, substantially in line compared to the previous year.

Miscellaneous damages: premiums, including the risk of theft, hail and damage to electronic and technological equipment, recorded an increase compared to previous year (+5.9%). The technical result, still negative, recorded a further improvement compared to the previous year (+18.2%), thanks to the effects of actions in progress related to the tariffs revision and risks in the portfolio.

General TPL: premiums increased by 4.5%. The technical result is positive, despite the incidence of serious accidents in part referring to residual risks related to the segment of Professional TPL already decommissioned.

Various pecuniary losses: premiums remained almost unchanged. The technical result is positive, an improvement over the previous year (+4.7%), thanks to the increase of premiums linked to new Motor guarantees with a low loss ratio.

Legal protection: premiums in this line of business registered an increase (5.3%) with a positive technical result.

SPECIAL BUSINESS

This business showed a decrease in premiums of 23.3% with a negative technical balance, albeit a significant improvement compared to that recorded in the previous year.

In particular:

Credit: this line of business includes exclusively the risks related to the Salary-Backed Loans for which it has retained the right of recourse against the borrowers.

Also in 2016 we see a decrease in premiums written, a consequence of the continuation of the significant downsizing of the line of business process.

This reduced activity led to a negative technical result, even though with a significant improvement compared to the previous year.

Surety: premiums written showed a significant decrease compared to the previous year (-22.4%), the result of a thorough review of the underwriting policy that led to the acquisition of smaller risks in terms of exposure and the consequent lower average pricing. The risks taken are marginally related to the urbanization expenses sector.

The technical result is still negative but in significant improvement compared to the previous year thanks to the first results from the changed underwriting policy.

Watercraft (sea, lake and river) hulls and railway rolling stock: this line of business recorded a decrease in premiums written (-7.3%), due also to the drop in sales in the watercraft.

The technical result was broadly in balance, recording an improvement compared to the previous year.

Goods in transit: premiums advanced by 3.8%, with a positive technical result, recording an improvement compared to the previous year.

MOTOR

The business saw a 0.7% rise in the premiums written, with an overall positive technical result.

The portfolio consolidation policy continued.

In particular:

Third-party liability for land motor vehicles and for watercraft (sea, lake, and river): dedicated portfolio selection, tariff policies and careful claims management enabled the business to maintain a positive technical result. The decline in the result compared to the previous year (42.7%) is mainly attributable to the reduction in the average premium paid by policyholders (despite an overall increase in premiums written), phenomenon is recorded in the entire Motor market.

Land motor vehicle hulls: premiums reported a growth on the previous year (+6.5%). The technical result was positive, recording an improvement over the previous year.

Assistance: premiums grew by 15.9%, partly due to a renewed package of guarantees, with a positive technical result.

Claims

Reported claims

The following chart, concerning reported claims, has been prepared using data from positions opened during the year:

| Reported claims - direct business (| | | | | | | | | | | | |

| Total Non-Life businesses | 289.350 | 268.965 | 7.6% | 30.487 | 28.363 | 7.5% | 199,083 | 184,186 | 8.1% | | | |

As regards Motor TPL reported claims, the company has received n. 109,385 reports of claim events to be managed as originator (+6.6% compared to 2015) and the total cost, net of the recovery of the lump-sum paid by the debtor companies, amounted to 50,746 thousand euro (+7.7% compared to 2015).

Claims paid

The gross cost of all generations of claims, which comprises the cost of the claims handling organisation, is shown in Appendix 19 to the Explanatory Notes. The following table shows the amount of claims paid for direct business, net of recoveries, and the amount charged to reinsurers:

| | | | | | | | | | | (€/000) |
|--------------------------------|-----------------|----------------------------------|---------|---------------------|-----------------|---------------------------|---------|---------------------|-------------|-----------------|

The additional cost borne in 2016 for the road-accident victim guarantee fund was 15,320 thousand euro vs.15,267 thousand euro in the previous year.

Claims settlement speed

The following table illustrates how quickly reported claims (by number) were paid net of claims eliminated without consequences, broken down by current generation and previous generation in reference to the principal lines of business:

| (percentages | | | | |
|-------------------------------|------------|------------|----------------------|------------|
| | current g | eneration | previous generations | |
| | 31/12/2016 | 31/12/2015 | 31/12/2016 | 31/12/2015 |
| Accident insurance | 57.58 | 54.62 | 66.31 | 69.82 |
| Health insurance | 83.74 | 83.39 | 77.56 | 70.44 |
| Motor vehicle hulls | 85.07 | 85.68 | 80.33 | 81.72 |
| Fire and natural events | 83.27 | 85.20 | 74.29 | 78.81 |
| Miscellaneous damages - theft | 87.53 | 87.28 | 86.20 | 87.95 |
| Third-party motor liability | 75.52 | 75.54 | 67.82 | 64.90 |
| Third-party general liability | 71.13 | 67.64 | 37.35 | 37.64 |

Anti-fraud activities

Claims which are presumed to be possible cases of fraud are handled with anti-fraud criteria established by company's guidelines.

Savings for the year in relation to the Motor TPL business, quantified in accordance with Law 27/2012 implemented by Regulation ISVAP n. 44, amounted to 4.5 million euro.

As a result of the deepening in relation to fraud risk, savings of 3.9 million euro were achieved for claims that have been defined without result and 0.6 million euro for claims settled definitively, compared to the assessed value posted to technical reserves.

Claims reserve run-off – Retained risks

The claims reserve existing at the beginning of FY2016, compared with costs borne in the year for previous years' claim events - consisting of payments made and year-end reserving for claims yet to be paid - showed, for the only direct business, a surplus of 15,355 thousand euro, i.e. 1.5% of opening reserves, as highlighted in the following table:

| Retained Risks | | | (€/000) |
|--|--|---------------|-------------|
| | | | YoY |
| | 2016 | 2015 | change % |
| Claims reserve brought forward Amounts paid in the year related to claims occurred in previous years Balance of claims recovered or to be recovered by policyholders Claims reserve carried forward | 1,028,496 (334,002) 8,739 (687,878) | 7,771 | 12.5 |
| Aggregate profit (loss) development table %of incidence on claims reserve brought forward | 15,355 1.5 | 13,426 1.4 | 14.4 0.1 |

Reinsurance

LIFE BUSINESS

Outward reinsurance

In the Life business, with respect to Class "I", there are an excess of loss treaty and a pure commercial premiums treaty, the latter for the sale set up in 1996 and 1997.

Ceded premiums in FY16 amounted to 1,182 thousand euro (1,209 as at 31 December 2015).

Inward reinsurance

With respect to the life business, there is a traditional pure-premium treaty no longer fed with new business, which merely records changes occurring in the related portfolio.

NON-LIFE BUSINESS

Outward reinsurance

As far as outward reinsurance is concerned, the corporate policy is based on selective underwriting of risks and on book development and entity in relation to the risks covered. It aims to balance net retention. Transactions are undertaken internationally with players in the reinsurance markets featuring high ratings.

The main treaties in place are the following:

Excess claims: Accident, Motor vehicle Hulls, Marine Hulls, Cargo (goods in transit), Fire and natural events, Motor TPL and General TPL;

Pure premium: Suretyship, Legal protection, Assistance and Miscellaneous damage in relation to Hail, Engineering risks and ten year guarantees.

Ceded premiums in FY16 totalled 31,574 thousand euro (28,586 thousand euro in 2015).

Inward reinsurance

Acceptance of risks relating to the indirect business mainly arises from participation in syndicates and from acceptance of shares in Italian businesses, which are entered into voluntarily.

As regards credit risk, we highlight the fact that the company makes use of premier reinsurers. Rating companies of reference are Standard & Poor's, Moody's, Fitch and A.M. Best; the following table shows the balance sheet transactions in place as at reporting date, by rating:

(€/000) Reinsurers' Current and Total net S&P / Moody's share of % of Deposit balance sheet Rating technical breakdown items accounts reserves AA_9 573 564 1.3 25,519 AA--14,005 39,524 59.5 A+ 1,974 4.6 -606 2,580 1,774 Α -418 2,192 4.1 A3* 8,975 20.9 -1,812 10,787 Α--213 2,105 1,892 4.4 4,599 Not rated 2,415 2,184 5.2 Total -19,478 62,360 42,882 100.0

^{*} provided by Moody's

Commercial organisation

The development activity has resulted in the opening of 18 new agencies and the reorganization of other 27, while 1 agencies have been closed; as at 31 December 2016 Vittoria Assicurazioni was nationally present with 430 General Agencies (413 as at 31 December 2015) and 1,008 Sub-Agencies Professional (966 as at 31 December 2015).

The training activities are going on for the primary sales network (General Agencies), for those involved in the sale of "second level" (producers and sub-agents) and for employees of the agencies.

In particular, to the latter were dedicated training sessions to improve the knowledge Group's processes and tools.

During 2016, the training was delivered by the company's internal trainers and, for a selected number of agencies, was completed with the addition of a series of professional training courses, using external providers, selected on the basis of the requirements of Reg. 6/2014 art. 14.

The training plan was completed in 2016 with the release of modules to upgrade the products according to the following content: Non-Life - Motor, Non-Life - Accidents and Health, Multirisks commercial and travels business, and Life - Savings policies, in the insurance and reinsurance technical areas and administrative and management area.

In 2016, the company continued the training courses in the second edition (the first three-year period ended in 2013) of the Project Victory Academy, which aims to managerial development courses for Agents, sub-agents and Administrative Employees.

Products - Research and development

During the year continued the review for technical operations and regulatory compliance to industry (IVASS, COVIP, CONSOB), of the products of the Life and Non-Life business.

As part of the Non Marine business was introduced the new product "Assicurazioni Infortuni Globale", with the possibility of granting, in a single policy, the accident guarantees, disease, care and legal protection.

In the Life business, it has started the commercialization of the product "Vittoria InvestiMeglio Evoluzione Crescita", a single premium tariff linked to the new segregated fund "Vittoria Obiettivo Crescita".

It had also started the commercialization of the product composite "Vittoria InvestiMeglio-DoppiaEvoluzionePAC", a tariff with recurring premiums aim at establishing a capital accumulation plan, by combining the segregated funds advantages and the investment opportunities in the Internal Insurance Funds.

Overhead costs - direct business

The total amount of personnel costs, other costs, and depreciation & amortisation charges, before allocation to specific functions, i.e. claims handling, business production organisation, and asset administration, amounted to 103,597 thousand euro vs. 115,884 thousand euro in 2015, a decrease of 10.6% YoY.

Besides current operating expenses, these costs also include amortisation of investments in IT structures and processes aimed at containing, in future, overheads burdening the HQ and the agency network, whilst also improving services for policyholders as regards insurance cover and claims settlement.

The following table shows the breakdown of these costs, with "Other costs" consisting primarily of office operating costs, IT costs, legal and legal-entity costs, mandatory contributions, and association membership fees.

| | | | (€/000) |
|--------------------------------|------------|------------|----------|
| | 31/12/2016 | 31/12/2015 | Change % |
| | | | |
| Personnel expenses | 53,906 | 51,442 | 4.8 |
| Other costs | 41,551 | 42,223 | -1.6 |
| Depreciations | 8,140 | 22,219 | -63.4 |
| Gross Operating Costs | 103,597 | 115,884 | -10.6 |
| Percentage of Premiums Written | 8.2% | 9.0% | -0.8 |

Overheads as a percentage of direct business premiums recorded was 8.2% (9.0% as at 31 December 2015). The significant decrease in depreciations is attributable to the review of the remaining useful life of the application of management systems operated in the previous year.

The item depreciations does not include the amortization of operating buildings, such as the registered office in the Portello area of Milan. This depreciation is classified under the item "Capital and financial charges", as indicated in the explanatory notes to these financial statements.

Operating costs - direct business

The following table shows the breakdown of operating costs for direct business, calculated gross of commissions and reinsurer profit-sharing.

| | | | (€/000) |
|--|------------|------------|----------|
| | 31/12/2016 | 31/12/2015 | Change % |

| - Acquisition and collection costs | 176,464 | 174,463 | 1.1 |
| - Other acquisition costs | 18,377 | 19,926 | -7.8 |
| Total Acquisition Costs (B) | 194,841 | 194,388 | 0.2 |
| Total Overheads (A+B) | 269,295 | 262,719 | 2.5 |
| | | | |
| Percentage of Premiums Written | 21.2% | 20.4% | 0.8 |

Investments

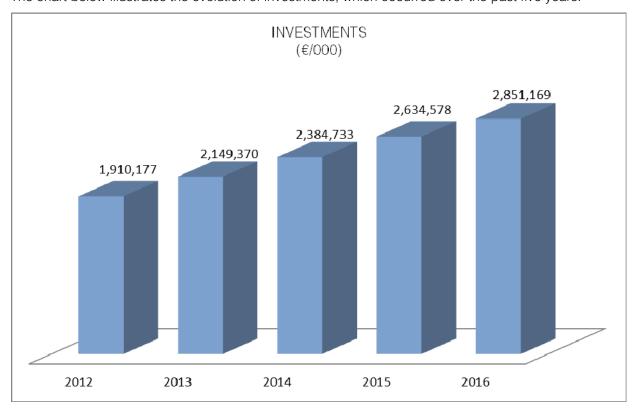

Investments reached a value of 2,851,169 thousand euro with an increase of 8.2% YoY.

Their breakdown is shown in the table below:

(€/000) 31/12/2016 Investments 31/12/2015 Change % Land and buildings 188,202 189,281 -0.6 Investments in group and other companies - Equity investments 550.386 468.162 17.6 - Loans 21,233 15,783 34.5 Other financial investments: - Unit trust units 69,624 48,408 43.8 - Bonds and other fixed-interest securities 1,954,848 1,845,030 6.0 - Loans 8.378 7.093 18.1 - Deposits with banks 2,000 2,010 -0.5 Deposits with ceding companies 149 175 -14.9 Total investments where the company bears the risk 2,794,820 2,575,942 8.5 56,349 Investments benefiting life policyholders bearing the risk 58,636 -3.9 2,851,169 2,634,578 Total investments 8.2 226,094 Bank accounts and cash-in-hand 138,206 63.6

As part of operation aimed at the diversification of the portfolio bonds, during the year, the sale of Italian Government bonds allocated to the long-term portfolio non-life; the liquidity from the sale has been reinvested in terms of adequate diversification, with the acquisition of government bonds and investment-grade corporate bonds in the Eurozone. The overall exposure of Vittoria Assicurazioni S.p.A. on Italian Government securities sector, totally assigned to life insurance, amounted to 31.8% of the total investment (69.5% in the previous year).

The chart below illustrates the evolution of investments, which occurred over the past five years.

The following table shows net income from investments by splitting them in ordinary and extraordinary part.

(€/000) 31/12/2016 31/12/2015 Ordinary and extraordinary Income on investments Amount **Amount** Change % (net of related costs) Income on equity investments 336 180 86.7 Income (cost) on other investments: - land and buildings 2,470 1,795 37.6 - bonds and other fixed-interest securities 59,280 63,192 (6.2)- income on unit trust units 1,769 399 n.s. - interest on loans 517 425 21.6 - interest on deposits with ceding companies (401)(372)7.8 - other financial investments 11 14 (20.1)63,982 Total net income 65,633 (2.5)Adjustments to investment values: - land and buildings (7,359)(7,788)(5.5)- equity investments (1,307)(13,623)n.s. - unit trust units (1,623)n.a. - bonds and other fixed-interest securities (837)(1,042)(19.7)Total net adjustments to investment values: (11, 126)(22,453)(50.4)Ordinary profit (loss) on sale of investments: - bonds and other fixed-interest securities (3,726)62 n.s. Total net profit on sale of investments (3,726)62 n.s. Total net ordinary income on investments where the company bears the risk 49,130 43,242 13.6 Extraordinary profit (loss) on sale of investments: 148 - land and buildings n.a. - equity investments 283 n.a. - unit trust units (4)33 n.s. - bonds and other fixed-interest securities 65,160 9,392 n.s. Total net extraordinary profit on sale of investments 65,587 9,425 595.9 Total net ordinary and extraordinary income on investments where the company bears the risk 114,717 52,667 117.8 Net income on investments benefiting life policyholders bearing the risk -187 4,238 n.s. **Grand Total** 114,530 56,905 n.s.

The weighted average yield of bonds and other fixed-income securities amounted to 6.4% (4.2% in 2015).

Ordinary and extraordinary investment income, a significant increase compared to the previous year, benefited from extraordinary income from the sale of Italian government bonds allocated to non-current segment of Non-Life.

As detailed in the section dedicated to the handling of the equity portfolio of the Company, value adjustments on shares related to the revaluation of the investment in the company Nuove Partecipazioni S.p.A. for 7,257 thousand euro; also they include write-downs for impairment of investments in subsidiaries and associated companies for a total of 8,564 thousand euro.

Adjustments to the value of mutual funds amounted to 1,623 relate to the write-down for impairment in value of investment in closed-end investment fund "Atlante".

Real estate

The real estate at 31 December 2016 amounted to 188,202 thousand euro (189,281 thousand euro at December 31, 2015).

The items making up the balance are as follows:

- 87,793 thousand euro relating to the company's registered office building;
- 851 thousand euro relating to own use properties;
- 82,225 thousand euro for buildings in the Portello in Milan leased to third parties;
- 5,449 thousand euro relating to real estate for free loan to the Agencies;
- 11,884 thousand euro used by third parties.

The change compared to 31 December 2015 is primarily due to the amortization for the period totaling 7,359 thousand euro, of which 3,634 thousand euro related to own-use properties and 3,725 thousand euro in real estate used by third parties; at 31 December 2016, have been purchased for use by third parties properties for 7,028 thousand euro and sold properties for use by agencies for 1,355 thousand euro. Were also capitalized expenses amounted to 607 thousand euro relating to the company's registered office building.

For more details, please refer to the Notes.

Fixed-income securities, equity investments, mutual investment funds

Bond Portfolio

During the year it has made a diversification of the bond portfolio which ended with the sale of the Italian portfolio government bonds. Cash from sales of Italian government bonds amounted to 820,135 thousand euro (500,099 thousand euro in securities assigned to the non-current segment), realizing a net gain of 65,389 thousand euro.

Investments have focused on:

- Government bonds of the euro area for 1,067,889 thousand euro (104,877 thousand euro relating to Italian government bonds) of which 661,564 thousands of euro allocated to the non-current segment;
- Bonds of investment grade corporate issuers in euro for 81,691 thousand euro, entirely allocated to the non-current segment.

The bond repayments generated net cash flows of 269,858 thousand euro, with recognition of net capital losses for 4.016 thousand euro.

As envisaged by the investment policies of the company during the year they were transferred from noncurrent segment to segment assets in fixed income securities for 249,906 thousand euro with a residual maturity of less than two years.

Mutual investment funds

During the financial year the changes relating to collective investment funds, for long-term use were as follows:

- 9,878 thousand euro were paid for fund recall and credits for the amount of 817 thousand euro were received as partial refund of units, with respect to Italian closed-end investment funds managed by Yarpa Investimenti SGR S.p.A., a 100% subsidiary of associate Yarpa S.p.A.;
- paid 11,098 thousand euro in units of closed alternative investment funds and reimbursements received for 1,373 thousand euro with recognition of 4 thousand euro of net capital losses;
- Fondo Atlante: signed a total commitment of 5,000 thousand Euros of which at year-end are paid 4,059 thousand euro. The Company has decided to write down the fund for 1,623 thousand euro for impairment loss, based on an evaluation of an independent expert appointed by the fund management company, adjusted to consider the year-end capital calls that, based on public information, were aimed at covering provisions for previous losses made by banks.

Equity Portfolio

The following were the changes during the financial year with respect to the Equity Portfolio for long-term use, excluding controlled companies, associate Companies and Subsidiaries:

- Nuove Partecipazioni S.p.A.: recorded a recovery of 7,257 thousand euro value for equity adjustments, subsequently received credit for distributing of capital to 7,822 thousand euro.

The following were the operations related to Controlled Companies, Associate Companies and Subsidiaries:

- Vaimm Sviluppo S.r.l.: paid 42,500 thousand euro, of which 1,000 thousand euro for capital increase:
- VP Sviluppo S.r.l.: 2015 paid 37,000 thousand euro, of which 1,000 thousand euro for capital increase:
- Acacia 2000 S.r.l.: shares purchased for 4.06% of the capital for an outlay of 9,714 thousand euro, thus becoming owner of a holding of 71.6% of the capital;
- Immobiliare Bilancia Prima S.r.l.: paid in capital account 2,250 thousand euro;
- Vittoria Immobiliare S.p.A.: recognized a write-down of the investment of 4,217 thousand euro for impairment loss;
- Touring Vacanze S.r.l.: recognized a write-down of 2,783 thousand euro for alignment to net assets of the company;
- Movincom Servizi S.p.A.: recognized a write-down of the investment of 1,520 thousand euro for impairment loss;
- Consorzio Movincom S.c.r.l.: recognized a write-down of 44 thousand euro for impairment loss;
- Touring Digital S.r.l.: acquired a 45% stake in the company at a cost of 270 thousand euro;
- Sint S.pA.: completely sold its stake in the company, a gain of 283 thousand euro.

Pursuant to the article 2428, paragraphs 3 and 4, it is certified that Vittoria Assicurazioni S.p.A. did not carry out any transaction, directly or indirectly, involving its own shares and shares of the Parent Company.

Securities portfolio breakdown

The following table shows the carrying value of the securities portfolio with risk borne by the company, between Life and Non-Life, by investment type (debt securities, equity securities and mutual funds) and provides some guidance in concerning financial risks and uncertainties of flows.

Investments benefiting Life policyholders who bear related risk and relating to pension fund management

As at 31 December 2016 these investments amounted to 56,349 thousand euro (58,636 thousand euro as 31 December 2015).

Of the total 7,949 thousand euro related to unit-linked policies linked to funds outside the company, 29,420 thousand euro to unit-linked policies linked to the company's internal funds, and 18,980 thousand euro to the Vittoria Formula Lavoro open-ended pension fund.

Overall net return was negative and totalled -187 thousand euro (4,238 thousand euro in 2015).

Risk Report

The Risk Report is intended to provide all the information required by IFRS 7 regarding risks arising from financial instruments and insurance products to which the Group is exposed, both information on the objectives, processes and capital management policies, according to the general principles of Solvency II regulations, which came into force on 1st January 2016.

System of Internal Control and Risk Management

The risk monitoring is carried out primarily where the risk itself originates. Therefore, the implementation of activities aimed at limiting the risks is the specific duty of every person, according to their powers. In this sense, the corporate bodies of all Group companies are required to the application of appropriate control mechanisms for the mitigation of risks related to specific operations, which would assure to all levels a structured and regular course of business, internal and external regulatory compliance as well as the principles of sound and prudent management.

The company maintains and updates over time an internal documental complex consisting of procedures and organizational requirements, as well as arrays of activities and controls, aimed to making operational management principles, lines of general behavior, organizational models, roles and responsibilities on the management processes, then adjusting the internal operations and consequently the risk management.

Roles and responsibilities

Government bodies

The company has adopted a traditional model of administration and control, where the Board of Directors is the central body of the system of corporate governance and the Board of Auditors performs control functions.

The Board is supported by specific committees created within it.

Board of Directors

Responsibility for the risk management system lies with the Board of Directors, which sets its guidelines and periodically verifies its adequacy and effectiveness, ensuring that the business risks are identified and properly managed.

The Board of Directors defines and approves policies and risk management strategies as well as the propensity, preferences and levels of tolerance to risk, defining performance targets consistent with the level of capital adequacy.

The Board ensures that senior management properly implements the risk management system in line with the guidelines provided and verify its efficiency, completeness, appropriateness and timeliness of information flows. The Board, in order to efficiently and effectively manage the risks, approves the model of powers and mandates, paying particular care to avoid an excessive concentration of powers in a single person, and puts in place monitoring tools on the exercise of delegated powers.

As a result of the identification of risks to which the Group is or could be exposed, the Board approves appropriate emergency plans in order to protect the assets and to ensure alignment with risk appetite.

Audit and Risk Committee

The main function of the Committee, as part of the management system and risk control, is to support, through adequate investigations, assessments and decisions of the Board of Directors regarding the establishment of guidelines and verification the adequacy of the management system and risk control.

Finance Committee

The main function of the Committee, as part of the risk management system, is to support the assessments and decisions of the Board of Directors with respect to the definition of investment risk management policies and strategies and in the supervision of the implementation of the same.

Strategy Committee

The Strategy Committee is responsible for supporting the Board and senior management in setting goals and business strategies.

Real Estate Committee

Real Estate Committee supervises the performance of the Group's real-estate investments, defines development strategies for the segment and periodically assesses individual investment proposals submitted in the period.

Appointments and Remuneration Committee

The Appointments and Remuneration Committee assists the Board in defining the remuneration policy of the company in accordance with the principles of sound and prudent risk management and in line with the strategic objectives, ensuring that the incentive remuneration system does not encourage excessive risk exposure.

Committee for the assessment of transactions with related parties

The Committee, as part of the risk management system, expresses a motivated opinion regarding the company interest in making transactions with related parties and the convenience and substantial correctness of the relative conditions.

The following are the roles and responsibilities of the control functions, of the main non-Board Committees and of line functions within the company risk management system.

Line controls (so-called "first level controls")

They are performed from line functions, as part of the risk management system, carrying out direct control activities, each for the scope of its competence, aiming to apply the guidelines approved by the Board of Directors, in respect of:

- risk management;
- identification of risks related to its operations;
- assessment of their impact;
- monitoring of their progress on an ongoing basis;
- disclosure of information to the relevant departments;
- where necessary, activating all the required corrective actions.

Controls performed on risks and compliance (so-called "second-level controls")

Risk Management

Risk Management oversees the events included in the risk management process related to: insurance risks, market risks, credit risks, liquidity risk, reputational risk, operational risk and risks arising from belonging to the Group.

The Risk Management function supports the top management in the identification, implementation and monitoring of a system (methods and models) of assumption, assessment and management of business risks in line with the strategies, policies and risk appetite defined by the Board of Directors for the company and its subsidiaries.

Compliance

Compliance is the business function that oversees the risk of non-compliance, in order to prevent the risk of incurring legal or administrative sanctions, financial losses or reputational damage as a result of violations of laws, regulations or decisions of the Regulatory Authority or self-regulations.

<u>Actuary</u>

The Actuarial department coordinates the calculation of both Non-Life and Life technical reserves according to Solvency II principles, assesses the adequacy of both Non-Life and Life technical reserves calculated for the purposes of preparation of the Statutory Financial Statements and Solvency II and certifies the correctness of the procedures followed. The function also checks the appropriateness of the data used in support of the assumptions and the appropriateness of the methodologies, models and assumptions used and assesses the general underwriting policies and the reinsurance arrangements, giving specific opinions.

Anti-money Laundering Department

The Anti-Money Laundering department prevents and fights money-laundering operations and the financing of terrorism, ensuring compliance with anti-money laundering laws.

With regard to the above, this department is responsible for preparing and managing the related information flows to the Supervisory Authority in the manner and timing provided about the identified doubtful operations.

Anti-fraud department

The Anti-Fraud department prevents and acts against, directly and indirectly, insurance fraud, also in cost containment perspective. To this end, the Anti-fraud department helps to define guidelines, rules and measures to prevent fraud against the company, carrying out specific activities with the aim of identifying potential frauds.

Financial Reporting Officer

Financial Reporting Officer reports to the Board of Directors periodically, also via the Control and Risk Committee in which he participates, in relation to the activities performed in the exercise of his functions, aimed at ensuring the provision of appropriate administrative and accounting procedures for the preparation of financial statements, the consolidated financial statements and all other financial documents.

Risk Management Committee

The company has established a Risk Management Committee in order to ensure the implementation and monitoring of a system of risk assumption, evaluation and management, consistent with the operations carried out by individual departments.

Anti-money Laundering Committee

The company set up an Anti-Money Laundering Committee whose purpose is to evaluate the operations reported as unexpected by the application system or by the operational departments (Management and distribution network functions), in order to support the Head of Anti-Money Laundering department in the decision to dismiss the report or to proceed with sending it to the Financial Intelligence Unit (FIU).

Steering Committee for Disaster Recovery Emergency

The company has set up a special committee with the task of ensuring the presence of a disaster recovery plan, expected to meet serious emergencies that may affect the smooth business operations. The plan also is periodically updated depending on the outcome of the annual test of Recovery.

Internal audit (so-called "third-level controls")

Internal Audit

The Internal Audit function assists in the development of the risk management system by evaluating its design and monitoring its aspects of effectiveness and efficiency. It verifies the completeness, functionality, reliability and adequacy of the internal control and risk management (including the first and second level controls) as well as the company's operations to be consistent with it.

The risk management system

The risk management system is the set of rules, processes, resources (human, technological and organizational), and the tools used to support the Group's risk management strategy and allows an adequate understanding of the nature and significance of the risks to which the Group and the individual companies are exposed. The risk management system allows the company to have a single point of view and a holistic approach to risk management as a part of the running of business.

An integral part of the risk management system are the detailed policies that allow it to decline, consistently, the approach and methodology for the management of specific risk categories, risks within specific processes, risk mitigation techniques, methods for measuring individual risk factors, their correlations and the underlying principles, monitoring and analysis methodologies.

Such risk management policies are defined and implemented with reference to the integrated view of assets and liabilities, whereas the development of techniques and asset-liability management models is crucial for the proper understanding and management of risk exposures that may result from the interrelations and the mismatch between assets and liabilities.

The processes of identification and assessment of risks are performed on an ongoing basis, to take account both of the changes in the nature and size of the business and market environment, both in the occurrence of new risks or change of the existing ones.

The risk management process of the company allows to detect, measure, monitor and possibly mitigate risk and consists of the following stages:

- Risk identification;
- Assessment of exposure to risks;
- Risk monitoring;
- Risk treatment.

Risk Appetite and Risk Appetite Framework

The risk appetite is the level of risk that the company intends to take in total and by each of the areas, and ensures an adequate level of capitalization and the pursuit of defined strategic objectives. The Framework is a set of metrics, processes and systems that support the proper management of the level and the type of risk.

The Risk Appetite adopted and reviewed periodically by the Board of Directors is defined on the basis of three dimensions: Capital, Value and Profit and results operationally in key indicators (e.g. performance and/or risk) for which appropriate thresholds are defined. The indicators are subject to continuous monitoring and the recognition of violations of the thresholds, according to different levels of early warning, allows the activation of escalation processes and of business plans revisions.

The ORSA process

The Own Risk and Solvency Assessment is an assessment of the current and prospective risk profile of the company. The evaluation is based on methodologies, processes and techniques appropriate to the nature, scope and complexity of the risks inherent in the business exercised. The results achieved allow the company to take decisions in key areas such as capital management and allocation, strategic planning, product development and design and corporate risk management.

The ORSA, representing the projection of the overall solvency needs over a period coinciding with that of the strategic plan of the company, reflects the risk profile, the risk appetite and business strategy.

Risk Identification

Significant risks of the company, whose consequences can undermine the solvency or constitute a serious obstacle to the achievement of business objectives, are set periodically by the Board of Directors. The cases considered in the context of the risk management process are mainly related to insurance risks, market risks, credit risks, liquidity risk, concentration risk, risks of regulatory non-compliance, reputational risks, operational risks and risks arising from belonging to the group.

Major Insurance Risks included in the risk management process are related to the underwriting criteria, pricing models, the quantification of reserves and risk transfer techniques. The main risks to which the company is exposed are referred to:

- a. Underwriting risk (underwriting and pricing): it reflects the risk that premiums are not sufficient to cover claims plus expenses and is derived from the selection of risks and the covered events (including catastrophe) as well as by results in the actual loss experience compared to that estimated.
- b. Reservation Risk: derives from the quantification and runoff of technical provisions and considers the possibility that the asset will not be appropriate in respect of commitments to policyholders and injured parties.
- c. Pricing risk of the Motor business: it is associated to the processes followed for the definition of the tariff to be applied to Motor policies, with particular reference to the Civil Liability guarantee.
- d. Risk of Reinsurance Retention: it derives from the definition and implementation of an inadequate reinsurance policy that may result in a less than optimal level of retention and an inefficient mitigation of exposure to risks.

The main market risks included in the risk management process are referred to:

The Interest rate risk, respect to the bond portfolio and insurance liabilities.

The debt securities are exposed to interest rate risk. The risk of the market value interest rate appears to be the risk that the value of a financial instrument will fluctuate because of changes in interest rates on the market. A decrease in interest rates would raise the market value of such securities, while an increase in rates would decrease the value.

The risk of interest rate risk on cash flows relates to possible changes of the coupons of floating rate notes.

The debt securities, fixed and floating rate, exposed to interest rate risk on market value are shown separately for Non-life and Life business, with an indication of the duration, in the underparagraph entitled "Securities portfolio breakdown", previously reported, together with the layering of the portfolio by maturity.

Life insurance contracts provide a guaranteed minimum interest rate and have a direct link between investment income and benefits to be paid to policyholders, governed by the aforementioned assets/liabilities integrated management model.

In particular, the Group manages the risk of interest rate by matching the cash flows of assets and liabilities as well as keeping a balance between the duration of liabilities and that of the investment portfolio directly related to them.

Duration is an indicator of the sensitivity of the assets and liabilities market value to changes in interest rates.

The **Equity risk** reflects the possible adverse changes in the level and volatility of the market value of financial instruments and equities. The company is exposed to equity risk with reference to shares and interests in listed and unlisted companies and units in investment funds and mutual funds.

The **Real estate risk** reflects the possible adverse changes in the level and volatility of market prices of real estate. The company is exposed to real estate risk in reference to land, buildings, rights on property and the direct or indirect investments in real estate companies. The estate properties for own use of the company are included in this type of risk.

The **Spread risk** is the possible adverse change in the level and volatility of credit spreads. The company is exposed to the spread risk in reference to bonds, to finance, to mutual debt funds, non-residential mortgages and loans. The loans to associated companies and subsidiaries are included in this type of risk.

The **Currency Risk** derives from adverse changes in the level and volatility of currency exchange rates. The company is marginally exposed to currency risk in relation to financial instruments and bank accounts denominated in foreign currencies.

The **Maturity mismatch risk** arises from the possibility that the company is unable to generate cash inflows that have a time frame aligned with the cash outflows and its risk/return goals.

The Government risk is defined as the risk arising from the possibility that the issuers of Government securities are not able to efficiently fulfill their commitments, and the risk arising from a change in the implied spread.

The **credit or default risk** reflects potential losses generated by an unexpected default, or deterioration in the credit standing, of the counterparties and debtors of the company. Company exposure to credit risk, which are not included in the spread risk, mainly refer to: reinsurance agreements (see table above in the section on reinsurance), receivables from other companies, cash at bank or at post office, receivables from intermediaries (e.g. receivables from agents) and customers (e.g. for premiums, for deductibles) and loans (residential mortgage).

The **liquidity risk** reflects possible losses arising from the difficulty of honoring the cash commitments, expected or unexpected, owed to counterparties. The risk arises mainly from the "Liquidity Mismatch Risk" i.e. the mismatch between cash inflows and cash outflows or an inadequate treasury management and

from the "Market Liquidity Risk", i.e. the sale of assets (such as less liquid assets) in unfair economic and timing conditions, accordingly influencing the Net Asset Value of the company.

As of December 31, 2016, as noted in the tables in the previous section "Securities portfolio breakdown", more than 95% of financial assets held was listed on a regulated market.

The breakdown of financial liabilities by maturity is given in the relevant section.

The **concentration risk** is represented by all risk exposures with a potential loss, enough to threaten the solvency or the financial position of the company.

The **risk of non-compliance with standards** is defined as the risk of incurring legal or administrative sanctions, significant financial losses or reputational damage as a result of violations of mandatory rules (laws, regulations), of self-regulatory standards (e.g. statutes, codes of conduct, self-regulatory codes, etc.) or the risk arising from adverse changes in the law or legal guidelines.

The **reputational risk** is defined as the risk of decrease in profits or capital arising from a negative perception of the Group by its main stakeholders (customers, shareholders, investors, lenders, regulatory authorities, employees, partners, distribution network, suppliers, general public, etc.). The appreciation judgment is usually tied to the organization's quality, the characteristics and behaviors that derive from experience, from hearsay or from the observation of past actions of the organization.

The **risk related to the group or the risk of "contagion"** is the risk that, as a result of the relationship between the company and other Group entities, difficult situations that arise in an entity of the same group can propagate with negative effects on the solvency of the company itself. In this type of risk is included the risk of conflict of interest which is regulated by the Related Parties Procedure adopted by the company which defines the rules, the procedures and principles necessary to ensure the transparency and substantial and procedural fairness of transactions undertaken with related parties of the company.

Risk assessment

The assessment phase is aimed at measuring risks through quantitative methods, where it is possible, and/or qualitative methods. The quantitative measurement of risks is performed using several procedures, which are used to determine both the present situation both the medium to long-term situation.

In addition, in order to assess its vulnerability to extreme but plausible events, the company makes use of specific quantitative techniques. In particular the stress tests allows to assess the effects on economic and financial conditions arising from specific events or from changes in a set of economic-financial and insurance variables in the event of adverse scenarios.

The quantitative techniques used by the company determine the risk profile or the risk measure actually taken and detected at a given time instant. Any deviation from the level of risk appetite is monitored, as described in the following paragraph.

In addition, the company determines through quantitative measurement techniques the Solvency Capital, being the amount of equity that the company must hold, for regulatory and capital soundness purposes, to cover risks arising from the business.

Risk Monitoring

The monitoring is based on controlling, on an ongoing basis, exposure to different types of risk and is performed by verifying:

- compliance with the principles / guidelines defined in the policies;
- compliance with risk and operational limits for specific risk categories;
- trend indicators such as those of capital value and liquidity.

The risk monitoring process is structured into three phases:

- production of a risk measurement report: the risk owner prepares reporting defined for the risk monitoring with the frequency and the operating procedures defined in the reference policy;
- analysis of the measured risk and proposal of mitigation plan: the risk owner examines data on the
 risk measurement report of its competence and prepares a report aimed at sharing its findings, at
 explaining certain phenomena encountered and possibly at proposing a plan of action to deal
 with the risk. The report and the reports are transmitted to the Risk Management;
- approval of a reaction and risk mitigation plan: the Risk Manager analyses information set out in reports, completes the exam with additional analysis deemed appropriate and makes the resulting evaluations. During the first meeting of the Risk Management Committee or, if deemed necessary, in a special session, mitigating/reacting plans, proposed by the responsible for the line of activity or the Risk Manager, are submitted for discussion and approval.

Risk treatment

The risk treatment of is to evaluate the possible options regarding the reaction to risk and then activate the one that is considered more appropriate. The choice, which also depends on the type and severity of the risk, is made between the following options: acceptance, avoidance, or attenuation and mitigation.

The acceptance option can result in the revision of risk targets, while avoidance can lead to reexamination of the objectives and business strategies.

The treatment that addresses the adverse consequences of action is called "risk mitigation"; while the one which affects the probability is defined action of "attenuation of risk." The risk treatment can create new risks or modify existing risks. Any violations of the risk profile, operating limits or tolerances are managed through the process of definition of recovery actions.

In particular the escalation process distinguishes stages and responsibilities depending on the severity of the violation:

- in cases of breach within the tolerance thresholds, the Vice President shall promptly inform the Audit and Risk Committee and, with the support of the Board Committees and the Risk Management Department and Senior Management, defines the eventual recovery plan;
- for breaches beyond the tolerance thresholds, the Vice President shall promptly inform the Board of Directors with the aim of establishing and approving the measures deemed necessary and the relative timing. In the definition of proposals to the Board of Directors the Board Committees, the Risk Management Department and the Senior Management are involved.

Reporting

The internal reporting system of the company, designed for the purpose of communicating the information needed to make timely and effective decisions even in critical situations, follows the aim of promoting, at the appropriate hierarchical levels, all assumable, undertaken and future risks in the various business segments highlighting, in an integrated logic, the correlations of the risks and interrelations with the external environment.

Information flows provided by internal reporting system, as part of the risk management system, provide for the approach:

- from the top, in relation to communications from the Board of Directors to senior management and the company structures involved;
- from below, in reference to the flow of information, for the Board and the Committees, prepared especially by the control and top management functions;
- cross, alleging the information flows between the control functions and the various business units and senior management.

Human resources

As is spelt out in the Company's Code of Business Ethics, the Vittoria Assicurazioni safeguards and enhances the value of its human resources, while assuring respect individuals' moral and professional dignity.

We pursue this objective via:

- assessment of candidacies based on the match between requirements and the professional profiles to acquired. The priority for identification of resources is internal recruitment, to aid professional growth.
 When in-house candidacies consistent with the profile sought cannot be identified, external market recruitment processes are activated to hire particularly qualified people in terms of their academic background and/or professional experience acquired in the sector;
- commitment to providing training appropriate to the role covered by each person, consistently with the Company's objectives and strategies. The Vittoria Assicurazioni Group in fact believes that human resources play a key role in the value creation process and, because of this, it pays special attention to planning training and development activities;
- preference for forms of flexibility in organising work, respecting individual/family and company needs;
- prevention of all forms of discrimination;
- adoption of a reward system based on assignment of personal or group targets to specific professional figures and the careful supervision of the pay system, implemented either through careful remuneration policy is through the allocation of business objectives, group or personal formalized, Vittoria Assicurazioni is gradually extending to the entire workforce;
- constant commitment to achieving workplaces and units that not only comply with legal safety standards, to protect the health of those using them, but are also pleasant places in which to be.

Solvency Capital Requirements

(pursuant to paragraph 7 of Article. 4 of ISVAP Regulation no. 22 of 4 April 2008, amended and supplemented by IVASS Regulatory order n.53 / 2016)

As required by the Supervisory regulations, we indicate assessments with regard to the Solvency II Capital Requirements:

| Volatility Adjustment Evaluations of euro | amounts in millions |
|---|---------------------|
| Solvency Capital Requirement | 472 |
| Minimum Capital Requirement | 212 |
| Solvency II Own Funds (net of dividend to be distributed in 2017) | 804 |

Company's own funds belong to Tier 1 for 776 million euro and to Tier 3 for 28 million euro. The solvency ratio (ratio of equity and S.C.R.) is estimated at 170.3%.

A significant increase of the Solvency Ratio might be registered, should the Supervisory Authority authorize, in due time for the issuance of the final reports, the process for the use of Undertaking Specific Parameters, which reflect the Non-life business risks of the company in a more accurate way than the Standard Formula.

Relations with the Supervisory Authority

On 2nd February 2016, the company sent to IVASS its own considerations, the overall action plan and the actions already undertaken on the in-depth inquiry on the government, management and control of investments and financial risk, advanced on 3 December 2015 by IVASS officials to the Board of Directors of the company.

During 2016 it continued the exchange of data and information between IVASS and the company, about the request made by the latter for the use of USP (Undertaking Specific Parameters). As reported above, at the date of approval of this Report, the Institute has not yet issued a final opinion on the matter. The company is waiting to receive the relevant authorization.

Management and coordination

Until the date of preparation of this Report, Vittoria Assicurazioni is not subject to others management and coordination pursuant to art. 2497 of the Civil Code, as the parent companies have only the role of holding companies.

Following the amendments to the Legislative Decree of 7 September 2005 n. 209 (Code of Private Insurance) by Legislative Decree n. 74/2015 transposing Directive 2009/138/CE (Solvency II) and the entry into force of the Regulation n. 22 IVASS of 1 June 2016 on the supervision of insurance groups, Yafa S.p.A., as the ultimate Italian parent company, has put in force a plan for the implementation of the organizational and structural adjustments needed in order to carry out the formalities required by the mentioned legislation and therefore effectively become the parent company.

The registration of Yafa S.p.A. in the parent company register provided for by art. 210-ter of the Code of Private Insurance Companies will be finalized in 2017 and will require the exercise of the direction and coordination activities for all the subsidiaries of the Group, including Vittoria Assicurazioni S.p.A..

At 31/12/2016 Vittoria Assicurazioni S.p.A., within the insurance group regulated by the above mentioned regulations, holds the role of Parent Company and performs activities of direction and co-ordination of the following companies:

Real estate companies

Vittoria Immobiliare SpA – Milan Acacia 2000 SrI – Milan Immobiliare Bilancia SrI – Milan Immobiliare Bilancia Prima SrI - Milan V.R.G. Domus SrI – Turin Vittoria Properties SrI – Milan Valsalaria SrI – Rome Vaimm Sviluppo SrI – Milan Interimmobili SrI - Rome Gestimmobili SrI – Milan VP Sviluppo 2015 S.r.I. - Milan

Service companies

Interbilancia Srl - Milan Aspevi Firenze Srl - Florence Assiorvieto Servizi S.r.l. - Orvieto Plurico Srl - Milan

Infragroup and related-party transactions

The Company has adopted a "Procedure for the management of related-party transactions" pursuant to Consob Regulation 17221 of 12 March 2010 as amended and supplemented, briefly described in the report on corporate governance and ownership structures. The full text of the procedure is available in the Governance section of the Company internet site of www.vittoriaassicurazioni.com

The Board also approved the "Policy of Inter-Group Transactions" setting the guidelines relating to inter-group transactions identified pursuant to art. 377 paragraph 2 of the Delegated Acts and Ivass Regulation no. 30 of 26 October 2016, so that they will are consistent with the principles of sound and prudent management, do not produce negative effects on the solvency and are not prejudicial to the interests of policyholders.

There were no financial or commercial transactions with the direct controlling company - Vittoria Capital S.p.A., or the indirect controlling shareholders, Yafa Holding S.p.A. and Yafa S.p.A..

The table below shows the balances resulting from the transactions carried out during the year with Group companies, involving mainly administration and management of the property portfolio, administrative and IT services, loans, and adjustments on equity investments.

| | | | | (€/000) |
|--------------------------------|--------------|------------|-------------|-------------|
| | Subsidiaries | Associated | Total as at | Total as at |
| | | | 31/12/2016 | 31/12/15 |
| Assets | | | | |
| Investments | 506,609 | 16,929 | 523,539 | 439,245 |
| Loans | 20,000 | 1,233 | 21,233 | 15,783 |
| Receivables and other assets | 2,793 | 1,811 | 4,604 | 3,960 |
| Total Assets | 529,402 | 19,973 | 549,375 | 458,987 |
| Liabilities | | | | |
| Payables and other liabilities | 5,924 | 394 | 6,318 | 6,527 |
| Total Liabilities | 5,924 | 394 | 6,318 | 6,527 |
| Dividends | - | - | - | 34 |
| Adjustments values | 4,217 | 4,348 | 8,564 | 13,623 |
| Revenues for service business | 105 | 13 | 118 | 849 |
| Costs for service business | 865 | 48 | 913 | 6,423 |
| Commissions | 1,059 | 4,644 | 5,703 | 3,938 |
| Net income on investments | 295 | 345 | 640 | 124 |

The loans receivable from subsidiaries relate to four loans, each of 5,000 thousand euro, granted to Immobiliare Bilancia Prima S.r.I., Vaimm Sviluppo S.r.I., Vittoria Immobiliare S.p.A. and VP Sviluppo 2015 S.r.I.; to associates was granted a single loan to Spefin Finanziaria S.p.A.

Receivables and other assets mainly relate to Group VAT.

Payables and other liabilities primarily related to the IRES debt, approximately 5,426 thousand euro arising from the adoption of the tax consolidation and the debts of Group VAT.

The impairment losses on shares for a total of 8,564 thousand euro (13,623 thousand euro at 31 December 2015) refer to the above information reported in the comment on the equity portfolio.

Revenues from services relate to the chargeback of administrative expenses incurred by Vittoria Assicurazioni S.p.A. on behalf of Group companies.

Costs for services provided by subsidiaries refer to the property management provided by the Companies of Vittoria Immobiliare Group and mainly by Gestimmobili.

The change compared to the previous year was due to the sale to third parties of the investment in Sint S.r.l..

Payable commissions were paid to Aspevi Roma S.r.l., Aspevi Firenze S.r.l. and Assiorvieto Servizi S.r.l..

As recommended by the CONSOB in its memorandum no. 98015375 of 27 February 1998 and its subsequent memorandum no. 6064293 of 28/07/2006, we certify that the transactions carried out with Group companies referred to the normal course of business with use of specific professional services at market rates and did not include any unusual transactions.

A description of the Companies and additional disclosures are shown in the Notes, part C – other information and in the Consolidated Financial Statements.

Report on remuneration

(pursuant to Article 123-ter of Italian Legislative Decree, No. 58/1998 and IVASS Regulation no. 39)

Information concerning remuneration policy of members of the administrative body and board of control, general director and strategically accountable managers are shown in the Report on remuneration published pursuant to Art. 123-ter of Italian Legislative Decree, No. 58/1998.

Report on corporate governance and ownership structures (pursuant to Article 123/2 of T.U.F.)

The annual report on corporate governance and ownership structures established by article 123/2 of T.U.F. can be consulted on the company's website in the section "Governance" at the following address: www.vittoriaassicurazioni.com.

Performance in early months of FY2017 and business outlook

The company's performance in the first months of 2017 is in line with the targets, with the exception of claims of Non Marine line of business of particular economic relevance, which have occurred to a greater extent with respect to the same period last year.

Allocation of earnings

Shareholders.

At the end of the Directors' Report, and considering the contents of the year-end financial statements and accounts, we submit the following allocation of the year's earnings pursuant to the article no. 20 of Social Statute as follows:

| Net profit of Non-Life Business Net profit of Life Business | 138,504,075 982,571 |
|---|------------------------|
| Total (equal to 0.9835 per share) Allocation to Life Business Legal Reserve | 139,486,646 49,129 |
| Total available net profit | 139,437,517 |
| of which: Available net profit of Non-Life Business Available net profit of Life Business | 138,504,075 933,442 |

Shareholders,

the operating plans that have been prepared lead us to make the following motion for allocation of net profit:

to each of the 67,378,924 shares constituting the entire share capital 0.21 euro for a total of 14,149,574 euro. Remaining 125,287,943 euro which we propose be allocated to increasing the Non-Life Available Reserve for 124,354,501 euro and Life Available Reserve for 933,442 euro.

The operational plans formulated to achieve the strategic objectives can predict a steady annual adjustment of dividends service.

If you agree with and approve our proposal, the dividend will be paid as from 10 May 2017 c/o custodian intermediaries with detachment of coupon no. 35 on 8 May 2017. Those who hold shares at the end of the record date of 9 May 2017, decided by the company in accordance with the Italian Stock Exchange's calendar, will be entitled to collect the dividend.

In concluding this report, we wish to thank shareholders and policyholders for the trust placed in the company, as well as employees, agents and their staff for their hard work and effort.

The Board of Directors

Milan, 15th March 2017

EXPLANATORY NOTES TO ACCOUNTS

To Our Shareholders

Together with the Balance Sheet and Income Statement for the financial year ending on 31 December 2016, we also submit for your approval these Explanatory Notes, which, pursuant to Article 2423 of the Italian Civil Code, are an integral part of the year-end financial statements.

Format and content of year-end financial statements

The financial statements, prepared in euro, are presented in the specific format envisaged for insurance companies as per the requirements of Italian Legislative Decree no. 209 of 7 September 2005 "Private Insurance Company Code". For items not covered by the aforementioned Decree or by its implementation ordinances, the provisions of the Italian Civil Code and those of Italian Legislative Decree no. 173 of 26 May 1997.

Specifically, in compliance with ISVAP Regulation no. 22 of 4 April 2008, the financial statements have been prepared as follows:

- the balance sheet and income statement are expressed in euro units. The arithmetical sum of rounding differences are recorded under captions F.IV.2) Sundry assets or G.IX.3) Sundry liabilities in the balance sheet and III.10) Extraordinary income or III.11) Extraordinary expense in the income statement;
- the Explanatory Notes to accounts, their appendices, and the restated balance sheet and income statement are presented in thousands of euro. Related rounding has been calculated to ensure consistency with the figures in euro units shown in the balance sheet, income statement and Cash flow Statements.

As is required by regulations, the Explanatory Notes consist of three parts, i.e.

Part A – Accounting policies

Part B – Information on the balance sheet and income statement

Part C – Other information and cash flow statement.

The Notes include 32 appendices that analyse the technical and financial components of insurance and financial operations.

In order to provide more complete information, it has been deemed appropriate, as already done in previous years, also to present the restated balance sheet and income statement.

Restated balance sheet captions are shown net of reinsurance effects.

Other disclosures

Vittoria Assicurazioni S.p.A. has decided to exercise its right as provided in article 70, paragraph 8 and article 71, paragraph 1-bis of the Regulations for Issuers, to waive the obligation to publish documents that are required in significant merger, split, share capital increase by transfer of assets in kind, acquisition or transfer operations.

Accounting policies

The accounting policies used to draw up year-end financial statements comply with the requirements of Articles 2426 and 2427 of the Italian Civil Code, of Italian Legislative Decree no. 209 of 7 September 2005, of Italian Legislative Decree no. 173 of 26 May 1997 (to which the "Private Insurance Company Code" refers), of the ISVAP regulation no. 22 of 4 April 2008 and of dispositions require by corporate law (Italian Legislative Decree no. 6 of 17 January 2003 and the following integrations and modifications), are described below.

In addition, the year-end financial statements comply with the requirements of Italian Legislative Decree no. 58 of 24 February 1998 (TUF) and of CONSOB (Italian securities & exchange commission) guidelines, in particular no. 11971 of 14 May 1999 and the following integrations and modifications. Unless otherwise specified, accounting policies relating to direct insurance also apply to outward reinsurance.

Taking into account the solvency ratio, the profitability of the Company and its careful management of risks, the financial statements have been prepared on a going concern basis.

Technical insurance captions

Classification of risks by business line

For the purposes of allocation of gross premiums written and of related transactions, classification of risks by business line is defined by Article 2 of Italian Legislative Decree no. 209 of 7 September 2005.

NON-LIFE

Premiums and related premium reserves are allocated to the various Non-Life Business lines analytically for single guarantee; operating costs and technical income are allocated to the various Non-Life Business lines through appropriated drivers.

Costs relating to claims are directly allocated to the individual lines if they refer to transactions relating to an individual event, since allocations are made on the basis of the type of cover involved in a claim. Costs common to several claims are allocated to the various officially defined lines according to the weight of indemnities paid during the financial year. Costs borne for claims in the current and previous financial years are allocated in proportion to the indemnities paid in the various years concerned. Only for the Motor TPL (third-party liability) line is the impact of the number of claims occurring in the year taken into account.

LIFE

Allocation of Life technical captions is done on a direct basis since the entire portfolio matches the regulatory classification.

Gross premiums

LIFE/ NON-LIFE

Premiums, together with their ancillary costs, gross of outward reinsurance are recognised as revenues upon maturity, regardless of when documents are recorded and of the date when they are effectively collected.

In the Non-Life business, cancellations of individual policies caused by technical events and by cancellations due to non-renewal are directly deducted from premiums, as long as they are issued in the same year. In the case of Non-Life business, the caption comprises all cancellations except for those relating to first-year premiums written in previous financial years.

For Non-Life business, allocation to the year is made via adjustment of the premium reserve. For the Life business, instead, it is implicit in the calculation of the mathematical reserves, of the complementary insurance premium reserve, and of other technical reserves of the life business.

Ceded and retroceded reinsurance premiums are accounted for in accordance with the contractual agreements made with reinsurers.

Operating costs

NON-LIFE/ LIFE

Operating costs include:

- acquisition commissions

They include the commissions paid on the acquisition and renewal (also tacit) of contracts. They also include extra commissions and commission bonuses commensurate with achievement of productivity targets;

- other acquisition costs

They include personnel expenses, logistics costs, costs for services and purchase of goods of the management departments involved in the assessment, issue and management of insurance contracts. They also include costs accorded to the agency network for the issuing of contracts and for extra bonuses and commission bonuses not linked to productivity targets, plus costs incurred for medical check-ups;

- changes in commissions and other acquisition costs to be amortised
 The item includes the year's portion of amortisation for acquisition commissions and other acquisition expenses;
- premium collection commissions

This item includes commissions paid for collection of premiums relating to long-term contracts:

- other administrative costs

They include personnel expenses, logistics costs, costs for services and purchase of goods of the company departments other than those relating to the other acquisition costs indicated above and those allocated to claims settlement and investment management. They also include charges incurred for the termination of agency agreements not the part not subject to compensation;

- commissions and profit participation received by reinsurers

This includes commissions and profit-participation amounts for reinsurers as established by contractual agreement for premiums ceded and retroceded.

Premium reserve

NON-LIFE

The Non-Life premium reserve is calculated on a pro-rata temporis basis, contract by contract, based on premiums written net of direct costs and of the unearned portion of premiums, i.e. pertaining to the period after December 31st in the financial year concerned.

There is an exception to this rule for the calculation of the reserve for some business lines for which risk exposure does not decrease as time elapses or for which the correlation between policy premiums and potential claim costs does not follow the usual economic and technical criteria.

The ISVAP Regulation no. 22 of 4 April 2008, title III bis, art. 23-ter, amended and supplemented by IVASS regulatory order no. 53/2016, defines the business lines and the criteria of calculation, which are recalled below:

- Bond insurance: the additional reserve follows the criteria envisaged by Annex no. 15 to ISVAP regulation no. 22/2008;
- Hail insurance: the additional reserve follows the criteria envisaged by paragraphs 13 and 14 of Annex 15 to ISVAP regulation no. 22/2008 that they define, respectively, the method of calculation and use;
- Miscellaneous asset damage (earthquake, seaquake and volcanic eruption insurance): the additional reserve follows the criteria envisaged by paragraphs 13 and 14 of Annex no. 15 to ISVAP regulation no. 22/2008;

- Nuclear risks: the additional reserve follows the criteria envisaged by paragraph 19 of Annex. 15 to ISVAP regulation no. 22/2008.

The premium reserve is supplemented by:

- The reserve for unexpired risks: this reserve is set up to cover risks incumbent upon the company after the balance sheet date, in compliance with Italian Legislative Decree no. 209 of 7 September 2005. It is a technical provision, mandatorily required by paragraph no.7 of Annex. 15 to ISVAP regulation no. 22/2008, possibily normalized to consider non-recurring events, made if, and to the extent that, the total amount of the presumed cost of expected claims – relating to in-force policies – is estimated to exceed the reserve for unearned premiums plus premiums outstanding, net of acquisition costs, for deferred-premium policies.

For the assessment of Unexpired risk reserve of the 14 line of business - Credit is not considered that the empirical method is consistent with the type of portfolio risks Vittoria which is entirely represented by the Salary-Backed Loans with the possibility of recourse.

The inadequacy of the empirical method is to use the pro rata premium reserve which assumes a linear distribution of risks. The expected loss ratio is in fact linked to the outstanding principal of outstanding contracts that is decreasing with respect to their maturity. Being a portfolio developed in the past years that today is an average of half of the period of coverage and so already today do not detect a significant new production, it was considered more appropriate to use a method of estimating the expected loss ratio.

Reinsurers' premium reserve: this is calculated applying the same criteria as those used for direct business and inward reinsurance.

Other technical reserves

NON-LIFE

This caption comprises the aging reserve for health insurance as required by Article 37 of Italian Legislative Decree no. 209 of 7 September 2005.

Calculations include all the products that, in setting premiums, do not take into account changes in the policyholder's age and contain clauses that limit the Company's ability to withdraw, as indicated by paragraphs 42-43-44 of Annex no. 15 to ISVAP Regulation no. 22 of 4 April 2008, amended and supplemented by IVASS regulatory order no. 53/2016. The estimate is based on a comparison between estimated cash inflows (all premiums expected to be collected in future years on the contracts held in portfolio at December 2016) and estimated cash outflows (all losses expected to be paid for the contracts held in portfolio at December 2016).

For consistency and as a comparison, the reserve was calculated on a lump-sum basis by setting aside 10% of gross premiums written, as envisaged by paragraph 44 of Annex no. 15 to ISVAP Regulation 16/2008, amended and supplemented by IVASS regulatory order no. 53/2016.

Equalisation reserves

NON-LIFE

Equalisation reserves comprise all sums provisioned in compliance with Article 37 of Italian Legislative Decree no. 209 of 7 September 2005 in order to smooth fluctuations in claims rate in future years or to cover special risks.

The item includes:

- the offsetting reserve for credit insurance envisaged by paragraph 39 of Annex.
 15 to ISVAP regulation no. 22/2008, amended and supplemented by IVASS regulatory order no. 53/2016;
- the equalisation reserve for risks of natural disasters; the calculation is in accordance with the Ministerial Decree no. 705 of 19/11/1996.

Equalisation reserving for FY2016, by business line, is shown in Appendix 25 to the Explanatory Notes.

Costs relating to claims paid

NON-LIFE

In the Non-Life business costs relating to claims paid include amounts paid in the year as indemnities and direct expenses, as well as claims adjustment expenses and the cost of the contribution to the guarantee fund for road-accident victims.

Direct expenses are those incurred to avoid or minimise claim damage, including litigation costs as per Article 1917, paragraph 3, of the Italian Civil Code, rescue expenses in transport and aviation insurance, and extinguishing costs in fire insurance.

Settlement costs include amounts paid to professionals appointed for the purpose, personnel expenses, logistics costs, and costs for services and goods of the company departments dedicated to claims settlement and handling.

LIFE

Costs relating to claims in the Life business include sums recognised in the financial year against capital sums and annuities accruing, surrenders, and claims, including those relating to complementary insurance.

NON-LIFE/ LIFE The amount of reinsurers' share of costs is calculated according to the provisions of provisions of contracts in place.

Recoverables

NON-LIFE

The caption includes, sums to be recovered from policyholders and third parties for remedying of claims in policies with no-claims clauses, for deductibles, and for subrogations.

The income statement recognises the difference between the amount at year-end and the amount existing on 31 December of the previous year, together with what has been recovered during the year.

Claims reserve

NON-LIFE

The claims reserve reflects the prudent evaluation of estimated indemnities and adjustment costs for claims relating to direct business that have been incurred and not yet paid, either totally or in part, as at balance sheet date. This valuation is performed considering the specific features of each line, based on all components forming the requirement for coverage of the claim's ultimate cost. "Ultimate cost" means the estimate of all foreseeable costs based on a prudent assessment of factual evidence (document examination) and forecasts (expected claims settlement time frame).

Assessment of each claim is performed according to the following phases:

- Preparation of inventory estimates for each open position by non-life claims settlement inspectors through sessions during the year;
- Analysis and checking of data and review of documentation concerning major claims by corporate management through sessions during the year.

Activities performed as part of claims assessment procedures are based on the following general criteria:

- Accurate and complete basic year-end inventory of all claims partly or totally not settled, highlighting claims that are the subject of disputes
- Analysis of claims featuring several positions in order to ascertain that proper evidence exists supporting each individual position;
- Separate indication of the quantification of bodily injury and property damage;
- Inclusion of estimated direct and settlement costs in the claims reserve.
 Settlement costs include both amounts paid to professionals taking part in claims handling and internal company costs relating to the claims handling department;
- Assessment of claims relating to credit and bond insurance in compliance with the criteria laid down in paragraphs no. 32-33-34 annex no. 15 to ISVAP

regulation no. 22/2008 amended and supplemented by IVASS regulatory order no. 53/2016.

As regards current-generation claims, case documentation is examined at least quarterly to check the claim's progress and see whether the previous assessment was correct. In addition, the "continuous reserve" operating procedure is applied, which means that, when each partial payment is made or whenever new information is gathered, the claim is reviewed.

The field claims settlement network is supported by the audit technical management. The latter checks, in terms of merit and method, that corporate house rules are properly applied.

The claims reserve includes the estimate for IBNR claims, i.e. claims pertaining to the year that have been incurred but not yet reported by year-end but pertaining to the year. Amounts are calculated considering the average cost of the current generation.

For all line of business they are used actuarial statistical methods popular on the market for estimating the number and the amounts of late claims. For TPL line estimate in question is conducted separately for each type of risk. The TPL claims are subject to verification by the actuary in charge of R.C. Car under Legislative Decree. N. 209/2005. In any case, the managerial structures perform quarterly back testing relative to the amount made in the previous budget.

The claims reserves thus calculated that relate to mass risks, insofar as they refer to positions settled in the medium-long term, are subjected to statistical and actuarial checks to assess their consistency with ultimate cost and, when necessary, are topped up.

The claims reserve for Card and No Card of TPL line comply with the requirements by paragraphs no. 30 of Annex 15 ISVAP Regulation no. 22/2008,in the case of the company would be "managing" and paragraph 2 in the case of the company would be "indebted".

The total amount of claims reserve has been calculated in compliance with paragraph no. 31 of the above regulation.

Reinsurers' claims reserve: this is calculated applying the same criteria as those used for direct business and inward reinsurance.

Mathematical reserves and other technical reserves

LIFE

Technical reserves for the Life business are calculated on the basis of the pure premiums and actuarial assumptions deemed to be appropriate as at the date when contracts were signed, insofar as they are still valid. Calculation of technical reserves is based on the rate of return determined on the basis of the related investments for respective "revaluable" benefits and on the mortality rate used to calculate pure premiums. In accordance with current regulations, the premiumscarried-forward component of mathematical reserves is calculated on a purepremium basis. The reserve for operating expenses is calculated taking operating loading as the basis and the other technical bases of the tariffs applied. For policies featuring health- and/or profession-related premium surcharges, an additional reserve is calculated equal to a full annual premium surcharge.

The premium reserve for complementary accident insurance is calculated analytically, applying the premium-carry-forward criterion to related pure premiums.

In no case is the mathematical reserve lower than surrender value.

In compliance with the requirements established by paragraph no. 36 Annex no. 14 to ISVAP regulation no. 22/2008, amended and supplemented by IVASS regulatory order no. 53/2016, an additional demographic risk reserve has been set up relating to annuity contracts and to capital contracts with a contractually guaranteed annuity conversion factor, in order to adjust the demographic bases used to calculate mathematical reserves to direct portfolio experience.

Mathematical reserves are always supplemented, when necessary, in order to take into account the time lag between the period when a contractually recognised return accrued and the time when it is accorded to the insured (paragraph no. 23 Annex no. 14 to ISVAP regulation no. 22/2008, amended and supplemented by IVASS regulatory order no. 53/2016).

In compliance with the rules established by paragraphs no. 24-32 Annex no.14 to ISVAP regulation no. 22/2008, amended and supplemented by IVASS regulatory order no. 53/2016,an ALM (Asset & Liability Management) procedure is implemented for joint analysis of asset and liability portfolios of internal separately managed accounts considered significant. The aim is to calculate forecast returns for each of them.

The reserves relating to unit-linked policies and pension funds have been calculated taking into account both the contractual commitments and the financial assets linked to these policies. They are made in compliance with paragraphs 39-41 of Annex. 14 to ISVAP regulation no. 22 of 2008, amended and supplemented by IVASS regulatory order no. 53/2016 and covering the commitments deriving from the Life business whose return is determined by reference to investments for which the insured bears the risk, or by reference to an index. It has been also set up to VI line of business (open-ended pension fund), an additional reserve, in accordance with paragraph 41 of Annex.14 to ISVAP regulation no. 22/2008 amended and supplemented by IVASS regulatory order no. 53/2016, to meet the commitments the Company have made to the policyholders including all guarantees of performance provided by contracts.

Reversals and profit participation

NON-LIFE/LIFE Profit participation includes all amounts pertaining to the year, paid and to be paid to Profit participation includes all amounts pertaining to the year, paid and to be paid to policyholders or other beneficiaries, including amounts used to increase technical reserves or reduce future premiums, as long as they constitute distribution of technical profits arising from non-life and life insurance activities, after deduction of amounts accrued in previous years' that are no longer necessary.

Reversals consist of the amounts that are partial rebates of premiums made on the basis of each contract's performance.

Other technical costs

LIFE/ NON-LIFE

Other technical costs include:

- For the Non-Life business, premiums cancelled, due to technical events, of individual policies issued in previous financial years
- For the Life business, cancellation of first-year premiums written in previous years;
- Uncollectable premiums of amounts receivable from both Non-Life and Life policyholders;
- Costs relating to goods and services purchased to complement Non-Life insurance covers;
- Costs stemming from management of the knock-for-knock system.

Other technical income

LIFE/ NON-LIFE

Other technical income includes:

- Commissions relating to cancelled premiums included in other technical costs of the Non-Life and Life businesses;
- Income relating to management of the knock-for-knock system and to the subsidy accorded by the ANIA (Italian insurers' association) to encourage scrapping of damaged vehicles in the Non-Life business.

Transfer of investment income

LIFE/ NON-LIFE

The allocation of investment income to the non-life business technical account and the transfer of the life business technical account to the non-technical account was carried out in accordance with article 55 of Legislative Decree no. 173 of 26 May 1997 and articles 22 and 23 of ISVAP Regulation no. 22 of 4 April 2008.

For the non-life business, the income to be transferred was determined by multiplying the non-life business investment income, net of capital and financial charges recorded in the non-technical account, by the percentage obtained from the ratio between the sub-total of the technical reserves net of reinsurance at the end of the current year and at the end of the previous year and the same sub-total plus the sub-total of the equity at the end of the current year and at the end of the previous year.

For the non-life business, the income to be transferred was determined by multiplying the non-life business investment income, net of capital and financial charges recorded in the non-technical account, by the percentage obtained from the ratio between the sub-total of the technical reserves net of reinsurance at the end of the current year and at the end of the previous year and at the end of the previous year and at the end of the previous year.

If the income from the investments allocated to the life business technical account is lower than the technical interest recognised by contract to the policyholders during the year, the amount to be transferred to the non-technical accounting must be correspondingly reduced, until it reaches zero, by an amount equal to this lower value.

Inward reinsurance

NON-LIFE/ LIFE

Inward life insurance is recorded on an accruals basis.

If there are no specific negative indications, the economic effects of non-life inward reinsurance are accounted for one year later than the year to which they refer, as the necessary information is not available at balance sheet date. Related financial and balance sheet movements are recorded in the balance sheet under Other assets – Other liabilities in the reinsurance suspense accounts.

Treaties concerning aircraft hulls represent an exception to the above accounting treatment as the space risk business is accounted for on a strict accruals basis. Indirect business claims reserves generally reflect those reported by the ceding insurer and Vittoria Assicurazioni supplements them when they are deemed inadequate with respect to the commitments underwritten.

Retrocession

NON-LIFE/ LIFE

Retroceded business mainly relates to Line 05 Aircraft hulls – space risks. Items relating to retrocession are measured according to the same policies as those applied to inward reinsurance.

Allocation of costs and revenues common to both the life and non-life businesses

NON-LIFE/

The company is authorised to operate in life and non-life insurance and reinsurance.

LIFE

The criteria and methods for allocating costs and revenues common to both the life and non-life businesses are indicated in the report issued in accordance with article 4 of ISVAP Regulation no. 17 of 11 March 2008. The main criteria for allocating the P&L items not directly attributable to either business are:

Other acquisition costs (including commission)

The costs for the company's sales function are allocated between the two businesses by dividing them into two distinct categories:

- the acquisition costs not directly attributable to purchase / collection commission (development plans, incentives, levies) use the mix of premiums issued at agency level as a driver.
- The remaining acquisition costs (contributions, agency rent, agent pension fund) use the mix of premiums at agency level as a driver.

The other acquisition costs also include personnel costs and overheads both of cost centres which are directly associated with acquiring policies (sales, assumptions) and those charged back to cost centres which carry out activities common to all company areas (general areas, IT). The costs can be allocated between the two businesses directly (as with the RE assumption service and the life business assumption service) or indirectly (general expenses) by using earned premiums as a driver.

Before doing this the costs are weighted in relation to the cumulative policies, in order to determine the total amounts for the life and non-life businesses.

Other administrative expenses (personnel costs and miscellaneous administrative expenses)

This category includes, in accordance with article no. 53 of Legislative Decree no. 173/95, all the remaining expenses not allocated to acquisition and liquidation costs.

For this category of costs the distinction between the two businesses is also made by using a direct criteria for all cost centres directly attributable to the non-life business or the life business, or by using the earned premiums (calculated using the same criteria adopted for other acquisition costs) as an allocation driver.

Investment captions

C I – Land and buildings

In compliance with Article no. 15, paragraph no. 2, of Italian Legislative Decree no. 173 of 26 May 1997, land and buildings are considered to be assets for enduring, long-term use, except in the case of buildings available for sale.

Refurbishments, improvements, and plant upgrades – which are all designed to extend building units' life and increase their profitability – are capitalised.

Ordinary maintenance costs are established in a long-term plan and are expensed in the income statement annually.

Market value

Measurement is based on the market value of each plot of land and building, taken from independent appraisals, which are drawn up taking into account, for property leased, the contractual lease payments required while for the head office, it was estimated a fee realizable potential in the current market conditions.

"Market value" means the price at which the plot of land or the building can be freely sold by means of an agreement between two parties (the seller and the buyer) in normal and evenly balanced conditions and, more specifically, if:

- Both parties act after have gathered the necessary information on the property's officially designated urban use, marketability, and absence of any prejudicial annotations as regards title;
- The seller is free, or otherwise, to sell and there are no economic/financial circumstances forcing him to do so;
- The buyer is not being encouraged to purchase by non-market related factors. Furthermore, the following conditions are taken into account:
- The asset has been on the market for a time reasonably long enough to permit its fair sale;
- The deed of sale has been signed after negotiations permitting the definition of price and terms.

Besides considering differences relating to age, position with respect to the importance of the zone where it is located, the valuation of each building also considers typical factors (building type and quality, and state of preservation, etc.), possible profitability, any town-planning constraints and/or restrictions imposed by the Heritage Ministry, and anything else that which may have an impact on the asset's valuation.

Valuation of leased buildings takes into account the type of contract, its expiry date and rental, also as regards possible revisions.

C II – Investments in Group companies and other investees

Pursuant to paragraph no. 2, Article no. 15 of Italian Legislative Decree no. 173 of 26 May 1997, investments in Group companies and other investee companies are considered to be long-term assets.

Group companies

Article no. 5 of Italian Legislative Decree no. 173 of 1997 define group companies as being:

- a) Parent companies;
- b) Subsidiaries;
- c) Affiliates, i.e. companies, other than those included in item b) that are controlled by the same entity controlling the parent company or subject to common management as defined by paragraph 1, Article 60, of the above decree;
- d) Associate companies.

For the purposes of this classification, the concept of "control" is as defined in Article no. 2359, paragraphs no. 1 and no. 2, of the Italian Civil Code.

Other investee companies

This item comprises companies held for their strategic function or support of the insurance business.

Investments in group and other companies are measured according to the following criteria:

- Investments denominated in euro are measured at acquisition cost inclusive of ancillary costs;
- Investments denominated in foreign currency are measured at acquisition cost, inclusive of ancillary costs, converted into euro at the exchange rate in force on transaction date.

Acquisition cost is written down to allow for any permanent impairment shown in investee companies' financial statements. If the reasons for such write-down no longer exist, the original value is reinstated in subsequent financial statements.

Dividends distributed by investee companies held are recognised when the right to collect them is established.

Information and changes concerning investments are provided in Annexes 6 and 7 to these Explanatory Notes.

C III - Other financial investments

Equity investments

This category includes short-term investments in shares and quotas. Measurement criteria are as follows:

- Listed securities are stated in year-end accounts at weighted average cost or, if lower, presumed realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist;
- Unlisted securities are stated at purchase cost, net of any losses recorded in investee companies' approved year-end accounts. Once again, this lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist.

Foreign currency investments are converted into euro as follows:

- Purchases: at the exchange rate in force on the date of transaction or subscription;
- Sales: at the exchange rate in force on transaction date;
- Fair value: at the year-end exchange rate.

Dividends distributed by these companies are recognised when the right to collect them is established.

Units in mutual investment funds

Investments in this category, allocated to the current and non-current sector, are stated in year-end accounts at weighted average cost or, if lower, at realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist.

Unlisted closed-end mutual securities investment funds and real estate investment funds are measured at acquisition cost.

The value of investments in foreign-currency mutual investment funds is converted into euro applying the following criteria:

- Purchases: at the exchange rate in force on the date of transaction or subscription;
- Sales: at the exchange rate in force on transaction date
- Fair value: at the year-end exchange rate.

Bonds and other fixed-income debt securities

In accordance with the IVASS Regulation no. 24 of 6 June 2016, the Board of Directors has issued guidelines for classification of the debt securities portfolio. Fixed-income securities are therefore classified as shown below.

Investment securities

These securities are stated at acquisition cost, inclusive of all ancillary costs. Cost is adjusted in the eventuality of permanent impairment of value. The higher or lower cost with respect to their repayment price is amortised on a straight-line basis over the period from acquisition to maturity.

These securities are held until they mature as the company has the financial resources to do this. Their classification depends on their importance and/or the expected normalisation of the rate of return of technical reserves in general and of segregated Life accounts in particular.

Trading securities

Securities in this category, recognised at purchase cost inclusive of all ancillary costs, are stated in year-end accounts at weighted average cost or, if lower, at presumed realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist. The cost of fixed-income securities is adjusted for the quota accruing in the year of margin, i.e. the difference between issue price and repayment value.

"Market trends" means, for listed securities, the price recorded on the last trading day of the financial year.

Foreign-currency securities are converted into euro applying the following criteria:

- Purchases: at the exchange rate in force on the date of transaction or subscription:
- Sales: at the exchange rate in force on transaction date
- Fair value: at the year-end exchange rate.

Fair value of financial instruments

In compliance with the requirements of Article 2427/2 of the Italian Civil Code, in Part B of the Explanatory Notes we provide information on the fair value of derivative financial instruments as well as – for non-current financial assets recognised at a value higher than their fair value (excluding investments in subsidiaries, affiliates, and joint ventures) – related carrying value and fair value, together with the reasons why carrying value has not been reduced.

The fair value of assets in Classes C II and C III, traded in regulated markets, is the price recorded on the last trading day of the financial year.

As envisaged in Article 2427/2 of the Italian Civil Code, for the definition of "financial instrument", "derivative instrument", "fair value", and "generally accepted measurement model and technique", reference is made to international accounting standards compatible with European Union rules concerning the subject.

If a market valuation is not available for the investment, fair value is determined either on the basis of another similar financial instrument's fair market value or via use of appropriate valuation techniques. The latter include use of recent transactions, discounted cash flow analysis, or models able to provide reliable estimates of presumed prices in current market transactions. If fair value cannot be reliably measured, cost is used, adjusted for any impairment loss.

Investments benefiting policyholders bearing risk

Financial investments benefiting policyholders who bear the risk of such investments are stated at fair value, i.e. at the price and exchange rate of the last trading day of the financial year in compliance with Articles 16,17 and 19 of Italian Legislative Decree no. 173 of 26 May 1997.

The concept of "policyholders bearing the investment risk" is the feature decisive for application of the fair-value accounting standard to measure assets, as it immediately reveals the relationship between the trend in technical reserves and that of assets covering such reserves.

In year-end financial statements, these investments are classified as follows:

D I - unit-linked and index-linked investments

D II - investments arising from pension fund management

Mortgages and loans

Mortgage loans granted are all expressed in euro and are shown on the basis of residual principal as they are secured by mortgages on buildings.

Loans are all expressed in euro and, if rated as collectable, are stated at the residual principal value. They are adjusted by means of appropriate bad-debt provision.

Other captions

Tangible assets

Tangible assets are recognised at purchase cost inclusive of ancillary costs. They are shown net of related cumulative depreciation. Assets are depreciated on a straight-line basis over their estimated useful lives.

Intangible assets

Intangible assets are recognised at cost and amortised on a straight-line basis as follows:

- Business and/or product trademarks = over a 10-year period;
- Over a period that takes their residual possibility of use if they are assets coming under the 2nd point of Article 2426 of the Italian Civil Code;
- Start-up and expansion costs pursuant to the 5th point of Article 2426 of the Italian Civil Code;
- Goodwill is recognised as an asset upon approval of the board of statutory auditors, if acquired against payment, within the limit of the amount paid and is amortised and it is amortized according to the residual useful life; if exceptionally it is not possible to estimate the residual useful life, is amortized over a period not exceeding 10 years.

This caption includes deferred acquisition costs to be amortised, only refer to the Life business, as from the year 2015 the acquisition costs for long-term contracts of Non-Life are charged entirely to the profit and loss account in the year in which those costs are incurred.

Acquisition costs for new contracts, for the part not outwardly reinsured, are capitalised, within the limits of their respective loading, and are amortised on a straight-line basis over the duration of the underlying contract, with the maximum

LIFE

limit of 10 years. The amortisation period is considered to be economically consistent. Residual commissions of policies cancelled during the amortisation period are expensed in the financial year when the policies are eliminated from the portfolio.

Receivables

Receivables are shown in year-end accounts at face value adjusted to presumed realisable value via bad-debt provision.

With reference to the requirements of Article 2427 of the Italian Civil Code and of Italian Legislative decree no. 173/97, if in the section analysing balance sheet items, receivables are not specifically indicated as having a residual duration of more than one year and five years, they are taken to have a duration of less than one year.

Accrued, prepaid and deferred items

Accrued income, prepaid expenses, accrued liabilities, and deferred income link costs and income to the financial year to which they refer, even although related cash movements may take place after or before 31 December.

These items include only costs and income relating to two or more financial years.

Payables

Payables are shown in year-end accounts at face value.

With reference to the requirements of Article 2427 of the Italian Civil Code and of Italian Legislative decree no. 173/97, if in the section analysing balance sheet items, payables are not specifically indicated as having a residual duration of more than one year and five years, they are taken to have a duration of less than one year.

Reserve for employee severance indemnities

The reserve for employee severance indemnities is calculated in compliance with current regulations and, as at balance sheet date, fully covers amounts ultimately payable to eligible staff.

Provisions for risks and charges

Provisions for risks and charges include provisions to cover liabilities of a predetermined nature, of a certain or probable existence, for which, however, at year-end either the amount or date of occurrence are indeterminate.

Income taxes

Income taxes for the period are recognized in accordance with the laws in force. Deferred taxes are calculated on the basis of the tax rates applicable when the temporary differences will reverse, making the necessary adjustments in case of changes in tax rates for the previous years, provided that the law that changed the tax rate has already been enacted at the balance sheet date.

Prepaid tax assets (or deferred tax assets) are recognized when there is the reasonable certainty that there is an amount of taxable profit, in the years in which the deductible temporary differences that gave rise to such deferred tax assets will reverse, at least equal to the amount of such differences.

Deferred tax liabilities, if any, are provisioned in the "Tax provision" caption of the balance sheet, whilst deferred tax assets are recorded under "Other assets".

Conversion into euro

Long term items expressed in foreign currency, are converted at spot exchange rates. For balance sheet items still existing at year-end, the exchange rate on the last trading day of the financial year is applied.

Part B

Information on Balance Sheet and Income Statement

BALANCE SHEET

ASSETS

| CLASS B - INTANGIBLE ASSETS | | | |
|-----------------------------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 14,525 | 16,295 | -1.769 |

Intangible assets are stated net of amortisation calculated as stated in "Part A - Accounting policies" of these Explanatory Notes.

The Annex 4 to these Explanatory Notes detailed changes over the year.

B.1 - Deferred Acquisition costs

| , | 31/12/2016 | 31/12/2015 | Change |
|---|------------|------------|--------|
| | 5,876 | 5,791 | +85 |

As more fully described in "Part A - Accounting Policies" of the Explanatory Notes, the deferred acquisition commissions refer only to the Life business, as from the year 2015 the acquisition costs for long-term contracts of Non-Life are charged entirely to the profit and loss account in the year in which those costs are incurred, pursuant of the regulation of the sector, which allows the policyholder to withdraw annually from the contract.

If all policies have reached their full maturity, the different duration used for amortisation vs. actual policy duration would have led to an increase in shareholders' equity, before the related tax effect, in shareholders' equity of 463 thousand euro (2015: 420 thousand euro) for the Life business.

B.1.a - Deferred acquisition commissions - Life business

| | 31/12/2016 | 31/12/2015 | Change |
|---|---------------|------------|--------|
| | 5,876 | 5,791 | +85 |
| Life business deferred acquisition commissions ch | anged due to: | | |
| commissions on policies acquired in the year | | | +1.653 |
| commissions for policies cancelled in the year | | | -487 |
| annual amortization | | | -1.081 |
| B.5 – Other deferred costs | | | |
| | 31/12/2016 | 31/12/2015 | Change |
| | 8,648 | 10,504 | -1,856 |

Deferred expenses, stated in year-end accounts at cost, are directly amortised. The decreasing over the year of 1,856 thousand euro is due to acquisitions for 4,193 thousand euro, and amortisation for 6,048 thousand euro.

| CLASS C - INVESTMENTS | | | |
|-----------------------|------------|------------|-----------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 2,794,819 | 2,575,942 | + 218,877 |

The comparison with investments' fair value is shown by type in the Annexes 4, 5 and 6 to these Explanatory Notes.

Below are shown the main investments:

C.I Land and buildings

| | 31/12/2016 188,202 | 31/12/2015 189,281 | Change -1,079 |
|---|------------------------------|------------------------------|----------------------|
| Of which: C.I 1. Operating buildings C.I 2. Buildings used by third parties | 88,645 | 91,671 | -3,026 |
| | 99,557 | 97,610 | 1,948 |

Changes over the year are shown in the following table, separately for the two types of properties:

| | | | (€/000) |
|-----------------|---------------------|---------------------------------|---------|
| | Operating buildings | Buildings used by third parties | Total |
| Amount as at 31 | | | |
| December 2015 | 91,671 | 97,610 | 189,281 |
| Acquisitions | 608 | 7,027 | 7,635 |
| Sales | - | -1,354 | -1,354 |
| Amortization | -3,634 | -3,726 | -7,360 |
| Amount as at 31 | | | |
| December 2016 | 88,645 | 99,557 | 188,202 |

The other revaluations in prior years are provided in the statement of real estate assets contained in Part C Other information to these explanatory notes.

C.II Investments in group and in other companies

| em myssiments in group and in striet | companies | | | |
|--------------------------------------|-----------|------------|------------|----------|
| | | 31/12/2016 | 31/12/2015 | Change |
| | | 571.618 | 483.945 | + 87.673 |

As required by Article 2426 of the Italian Civil Code and by Article 58 of Italian consolidated law on income tax, investments in group (subsidiaries, associated and other investee companies) shall be deemed non-current financial assets.

Any differences between acquisition value and Associated shareholder's equity are attributable to surplus values not recognised to equity, due to unrealised capital gains on properties, current and future. Any remaining differences are within a range of acceptable values and are not assessed as impairment losses.

Changes in Investments in group and in other companies are shown in Annex 5 to these Explanatory Notes.

Details about companies in which Vittoria holds an investment are shown in Annexes 6 and 7 to these Explanatory Notes.

C.II 1. Equity investments

| | 31/12/2016 | 31/12/2015 | Change |
|-----------------------|------------|------------|----------|
| | 550,386 | 468,162 | + 82,224 |
| | | | |
| | | | |
| C.II 1.b Subsidiaries | | | |
| C.II 1.b Subsidiaries | 31/12/2016 | 31/12/2015 | Change |

The investments in subsidiaries totalled 506,609 thousand euro and are allocated for 50,693 thousand euro to the life business and for 455,916 thousand euro to the non-life business.

C.II 1.d Associated companies

| 31/12/3 | 2016 31/1 | 2/2015 CI | hange |
|---------|-----------|-----------|--------|
| 15 | 5,364 | 19,882 | -4,519 |

The investments in associated companies totalled 15,364 thousand euro and are entirely allocated to the non-life business.

C.II 1.e Other investee companies

| 31/12/2010 | 31/12/2015 | Change |
|------------|------------|--------|
| 28,41. | 28,918 | -506 |

The item includes investments other than those in subsidiaries and associates, entirely allocated to the non-life business.

Change over the year in the item "Equity investments" is fully reported, as well as in the Directors' report in the comments on the equity portfolio, also in Annex 7 to these Explanatory Notes.

C.II 3. Loans to group companies

| | 31/12/2016 21,233 | 31/12/2015 15,783 | Change +5,450 |
|-----------------------|-----------------------------|-----------------------------|-------------------------|
| Of which: | | | |
| C.II 3.b Subsidiaries | | | |
| | 31/12/2016 | 31/12/2015 | Change |
| | 20.000 | 13.500 | +6.500 |

The amount as at 31 December 2016 referred to four loans each of 5,000 thousand euro, granted to the subsidiaries Vaimm Sviluppo S.r.l., V.P. Sviluppo 2015 S.r.l., Vittoria Immobiliare S.p.A. and Immobiliare Bilancia Prima S.r.l.

The loan duration is 1 year and the current interest rate applied is equal to three-month euribor.

C.II 3.d Associated companies

| om ora / locociated companies | | | |
|-------------------------------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 1,233 | 2,283 | -1,050 |

The amount as at 31 December 2016 referred to the interest bearing loan toward the associate Spefin Finanziaria S.p.A..

The loan duration is more than 1 year and the current interest rate applied is equal to three-month euribor.

C.III Other financial investments

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|----------|
| 2,034,850 | 1,902,541 | +132,309 |

The information on the breakdown and changes in other financial investments according to use and at current value are contained in Annexes 8 and 9 to these Notes.

The income and charges are shown in Annexes 21 and 23 of the Explanatory Notes.

The account refers to the following items:

C.III 2 Units in mutual investment funds

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|---------|
| 69,624 | 48,408 | +21,216 |

Investments in units in mutual funds are long-term investments. These totalled 69,624 thousand euro and are allocated as follows: 41,396 thousand euro to the life business, and 28,228 thousand euro to the non-life business.

Change over the year is fully reported, in the Directors' report in the comments on the *Units in* mutual investment funds.

C.III 3 Bonds and other fixed-income securities

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------|------------|------------|----------|
| | 1,954,848 | 1,845,030 | +109,818 |
| Of which: | | | |
| C.III 3.a Listed | 1,953,741 | 1,843,796 | +109,945 |
| C.III 3.b Not listed | 1,107 | 1,234 | -127 |

The investments in bonds and other fixed-income include short-term securities of 614,908 thousand euro and long-term securities of 1,339,940 thousand euro. These totalled 1,954,848 thousand euro and are allocated as follows: 1,028,406 thousand euro to the non-life business, and 926,442 thousand euro to the life business.

The following table provides a breakdown of the bond portfolio as at 31 December 2016:

| - | Italian government securities | 45.5% |
|---|-------------------------------|-------|
| - | Foreign government securities | 49.4% |
| - | Italian corporate bonds | 1.4% |
| - | Foreign corporate bonds | 3.7% |

At 31 December 2016, the Company holds in its portfolio no. 4 bonds with subordination clauses, for which the following table summarizes the main features:

Debt securities with subordination clauses

(€/000)

| Beneficiary | Carrying value FY 2016 | Currency | Interest rate | Expiration date | Early redemption clauses |
|-------------------------------|---------------------------|----------|---------------|-----------------|--------------------------------|
| Assicurazioni Generali S.p.a. | 1,819,017 | Euro | 4.13% | 04/05/2026 | No clause |
| Assicurazioni Generali S.p.a. | 5,160,722 | Euro | 5.50% | 27/10/2047 | Call 27/10/2027 |
| BCC Banca del Vomano | 100,000 | Euro | 6.00% | 20/06/2023 | No clause |
| Landesbank Baden-Württemberg | 695,906 | Euro | 3.63% | 16/06/2025 | No clause |
| Total | 7,775,646 | | | | |

In case of default or liquidation of the issuer, the redemption of bonds and payment of interest is achievable only after full satisfaction of senior creditors.

As indicated in Annex 9 to these Notes, during the year 249,906 thousand euro was transferred from the long-term portfolio to the short-term portfolio, in compliance with the minimum limits established for securities to be allocated to the short-term portfolio by the company's framework resolution on investments.

C.III 3.a Bonds and other fixed-income securities Listed

The change over the year is due to the following transactions:

- increase depending on normal portfolio management and trading for 1,149,480 thousand euro and decrease depending on reimbursements and sales for 1,028,393 thousand euro;
- adjustment for negative trading margins and issue differentials for 10,305 thousand euro;
- downward alignment at fair value of trading securities for 837 thousand euro.

C.III 3.b Bonds and other fixed-income securities Not listed

The change over the year is due to the decrease depending on reimbursements for 227 thousand euro and to a subscription for 100 thousand euro.

The following table provides a comparison of the financial instruments required by Article 2427/2 of the Italian Civil Code, as at 31 December 2016, of the book value with the relative «fair value» from the market trend at year end.

. _ ._ _ _ .

| | | | (€/000) |
|--|---------------|---------------------------|-------------------|
| | Account class | Carrying value FY 2016 | Fair value (*) |
| Investments - Other investee companies | | 571,619 | 646,200 |
| - Equity investments in other investee companies | C.II.1 | 550,386 | 624,967 |
| of which carried at a value higher than fair value | | 10,354 | 9,503 |

| - Bank deposits | C.III.6 | 2,000 | 2,000 |

^(*) Fair value corresponds to what is indicated in Annex 8 to the Explanatory Notes.

The shares held in the company Mediobanca S.p.A, are recorded at the date of 31 December 2016, to a carrying value equal to 8.45 euro per share, higher than the stock market price equal to 7.76 euro per share, for which, however, there are no elements such as believing that there is a impairment loss.

Operations involving repurchase agreements

During the year no operations involving repurchase agreements were carried out.

C.III 4 Loans

| | 31/12/2016 | 31/12/2015 | Change |
|--|------------|------------|--------|
| | 8,378 | 7,093 | 1,285 |
| Of which: | | | |
| C.III 4.a Secured loans | 3,145 | 2,313 | +832 |
| C.III 4.b Loans against insurance policies | 1,277 | 1,650 | -373 |
| C.III 4.c Other loans | 3,956 | 3,130 | +826 |

Details and related changes over the year involving this account are shown in Annex 10 to these Explanatory Notes.

C.III 4.a Secured loans

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 3,145 | 2,313 | +832 |

The item consists solely of mortgage loans granted by the company. The minimum interest rate applied to mortgages is 1.56%.

The amount of mortgage with a residual duration of more than 1 year and 5 years is, respectively 3,145 thousand euro and 2,959 thousand euro.

C.III 4.b Loans against insurance policies

| 31/12/2016 | 31/12/2015 | Change |
|----------------|------------|--------|
| 1,277 | 1,650 | -373 |

These are loans granted to company Life policyholders.

These loans can be considered to have a duration of more than 5 years. The current interest rate applied to the loans is equal to the rate of return of segregated founds retroceded to policyholders, increased by 2 points.

C.III 4.c Other loans

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 3,956 | 3,130 | +826 |

The item mainly consists of loans granted to company employees and agents.

The minimum interest rate applied to loans is 1.0% and relates to loans granted to the agency network to upgrade its IT facilities.

The amount of loans with a residual duration of more than 1 year and 5 years is, respectively 3,729 thousand euro and 2,429 thousand euro.

C.III 6 Other financial investments

| 31, | /12/2016 | 31/12/2015 | Change |
|-----|----------|------------|--------|
| | 2,000 | 2,010 | -10 |

The item consists of time deposit at the BCC Vomano.

C.IV Deposits with ceding companies

| 31/12/2016 | 31/12/2015 | Change |
|----------------|------------|--------|
| 149 | 175 | -26 |

The amount of these deposits relates to the technical reserves for indirect business, due to the inward reinsurance contract for Life business with Generali Italia S.p.A..

CLASS D – INVESTMENTS FOR THE BENEFIT OF LIFE POLICYHOLDERS BEARING THE RISK AND THOSE RELATING TO PENSION FUND MANAGEMENT

| 31/12/2015 | 31/12/2014 | Change |
|------------|------------|--------|
| 56,349 | 58,636 | -2,287 |

D.I Investments relating to unit- and index-linked policies

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 37,369 | 41,496 | -4,127 |

The changes occurring over the year by asset category are detailed as follows:

| Unit - Linked portfolio | -4,127 |
|---|---|
| increase due to purchase and subscription of securities decreases following sales of securities, redemptions and switch profit/loss on internal fund management alignment at fair value - write-ups alignment at fair value - write-downs | +3,837 -7,647 -368 +138 -87 |

Investments breakdown by asset category belonging to Class D.I are shown in the Annex 11 to these Explanatory Notes.

D.II Investments relating to pension fund management

| | 31/12/2016 | 31/12/2015 | Change |
|--|------------|------------|--------|
| | 18,980 | 17,140 | +1,840 |

Changes occurring over the year by asset category are detailed as follows:

| - | balance of social security management (net collection) | +1,694 |
|---|--|--------|
| - | financial management result | +414 |
| - | management expenses | -240 |
| - | substitute tax receivable | -28 |

These investments are entirely concerning to the open pension fund called "Vittoria Formula Lavoro" and are shown in the Annex 12 to these Explanatory Notes.

For further details, please refer to the Pension fund's annual report, enclosed to this annual financial report.

CLASS D bis – REINSURERS' SHARE OF TECHNICAL RESERVES 31/12/2016 31/12/2015 Change 63,481 64,017 -536

As regards their breakdown by type of reinsurance business, reference should be made to the description in Balance Sheet Liabilities - Class C - Technical Reserves.

Their breakdown by insurance segment is as follows:

| | | | (€/000) |
|------------------------------|------------|------------|---------|
| | 31/12/2016 | 31/12/2015 | Change |
| D Bis. I Non - Life business | 56,003 | 57,020 | - 1,017 |
| Of which: | | | |
| Premium reserve | 17,190 | 17,439 | - 249 |
| Claims reserve | 38,813 | 39,581 | - 768 |
| D Bis. II Life business | 7,479 | 6,997 | + 482 |
| of which: | | | |
| Mathematical reserves | 7,447 | 6,966 | + 481 |
| Other techincal reserves | 32 | 31 | + 1 |

The item Other financial reserves for Life business refers to operating expense reserves for Class 1 - Whole and term life totalled 2 thousand euro and Class IV - Health insurance totalled 30 thousand euro.

| CLASS E - RECEIVABLES | | | |
|-----------------------|------------|------------|---------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 219,882 | 259,433 | -39,551 |

The amount is payable from 2017. This item is shown net of related adjustment provisions. The changes over the year are detailed as follows:

E.I Receivables relating to direct insurance transaction

| | 31/12/2016 | 31/12/2015 | Change |
|--|------------|------------|---------|
| | 178,248 | 188,261 | -10,013 |
| Towards: | | | _ |
| E.I.1 Policyholders | 52,209 | 55,610 | -3,401 |
| E.I.2 Insurance agents and brokers | 95,772 | 98,193 | -2,421 |
| E.I.3 Insurance companies - current accounts | 6,177 | 7,394 | -1,217 |
| E.I.4 Policyholders and third parties for recoverables | 24,090 | 27,064 | -2,974 |

In particular:

E.I 1. Direct insurance receivables, for premiums due from policyholders

| 7 1 | | , | |
|--------------------------------------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 52,209 | 55,610 | -3,401 |
| Of which: | | | |
| E.I 1.a For current years' premiums | 50,367 | 52,627 | -2,260 |
| E.I 1.b For previous years' premiums | 1,842 | 2,983 | -1,141 |

This item is shown net of related adjustment provisions, which, as at 31 December 2016, totalled 10,418 thousand euro (10,991 thousand euro as at 31 December 2015), related entirely to the non-life business, due to write-downs of estimated bad debts based on previous years' experience.

The provision made in the previous year has been in line with the subsequent evidence.

E.I 2. Receivables relating to direct insurance, due from insurance agents and brokers

| En En riocontables relating to an est medianes, | ado nom modra | ioo agonto ana | DIONOIO |
|---|---------------|----------------|---------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 95,772 | 98,192 | -2,421 |

Amounts receivable from insurance agents and brokers are stated net of the related provision which, as at 31 December 2016, amounted to 15,978 thousand euro (16,012 thousand euro in the previous year), determined based on an analytical assessment of the recoverability and seniority and the implicit risk of the portfolio.

The item was adjusted by 8,140 thousand euro for the non-life business and 7,838 thousand euro for the life business.

The item includes 23,689 thousand euro for the recovery of the portfolio against leaving indemnities paid in the past to intermediaries who have ceased their activities. Of the remaining loans, totaling 72,083 thousand euro, as of 28 February 2017, 2,546 thousand euro are still to be collected.

In addition, the total amount includes receivables toward subsidiary companies, in particular, Aspevi Roma Srl for 1,800 thousand euro.

The amount of receivables with a residual duration of more than 1 years and 5 year, are respectively 20,985 thousand euro and 10,759 thousand euro.

E.I 3. Receivables relating to direct insurance, due from insurance companies – current accounts

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 6,177 | 7,394 | -1,217 |

This item primarily consists of receivables stemming from current accounts reflecting the results of technical management of co-insurance transactions, net of the related provision which, as at 31 December 2016, amounted to 562 thousand euro (650 thousand euro in the previous year).

E.I 4. Receivables relating to direct insurance, due from policyholders and third parties for recoverables

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 24,090 | 27,064 | -2,974 |

The item shows amounts receivable from policyholders and third parties for deductibles and claim subrogation.

The decrease compared to the previous year is mainly attributable to the Deposit business, where sums have been recovered during the year and for which a revision of the amounts to recover was carried out, eliminating the positions that, based on current market conditions, it is believed to be no longer recoverable.

E.II - Receivables relating to reinsurance business

| | 31/12/2016 | 31/12/2015 | Change |
|--|------------|------------|--------|
| 1. Insurance and reinsurance companies | 811 | 6,333 | -5,522 |

This item comprises receivables stemming from current accounts reflecting the results of technical management of reinsurance treaties net of related provision of 1,110 thousand euro (2,021 thousand euro as at 31 December 2015), based on expected losses for uncollectible accounts.

E.III - Other receivables

| ' | 31/12/2016 | 31/12/2015 | Change |
|---|------------|------------|---------|
| | 40,824 | 64.839 | -24,015 |

This item is shown net of related adjustment provisions of 5,041 thousand euro (5,491 thousand euro as at 31 December 2015), related entirely to the non-life business.

The most significant items forming "Other receivables" are:

- receivables from Tax Authorities for 35,229 thousand euro for tax credits on mathematical reserves in accordance with D.L. 209/2002, advance payment on Non Life business (ex D.L. 282/2004), and receivables on local tax (IRPEG and IRES) for which reimbursement has been requested including related interests; these receivables are considered collectable essentially by next year;
- receivables for insurance agreements for 1,298 thousand euro (870 thousand euro as at 31 December 2015);
- advance payments for claims for 401 thousand euro (571 thousand euro as at 31 December 2015);
- receivables from subsidiary companies for 2,176 thousand euro for tax consolidation (2,310 thousand euro as at 31 December 2015).

The amount of receivables with a residual duration of more than 1 and 5 years are, respectively, 1,753 thousand euro and 70 thousand euro.

| CLASS F - OTHER ASSETS | | | |
|------------------------|------------|------------|---------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 313,019 | 230,254 | +82,765 |

Of which:

F. I Tangible assets and inventory

| | 31/12/2016 | 31/12/2015 | Change |
|---|------------|------------|--------|
| | 7,575 | 8,117 | -542 |
| F. I.1 Office, forniture & machinery, and | | | |
| internal transport systems | 6,511 | 7,027 | -516 |
| F. I.2 Registered chattels | 155 | 90 | +65 |
| F. I.3 Plant and equipment | 897 | 1,000 | -104 |
| F. I.4 Inventory and other assets | 11 | 0 | +11 |

Assets related to the item F.I Tangible assets and inventory are stated at cost less cumulative depreciation. The change is due to the purchases during the year for 1,572 thousand euro and amortisation for 2,085 thousand euro and net disposals for 29 thousand euro.

Below, are detailed the items forming this sub-category F. I.1 Office, forniture & machinery, and internal transport systems:

| | 31/12/2016 | 31/12/2015 | Change |
|-----------------------------|------------|------------|--------|
| Forniture | 5,009 | 5,355 | -343 |
| Fittings | 965 | 988 | -23 |
| Ordinary office machinery | 453 | 587 | -134 |
| Electronic office machinery | 84 | 96 | -12 |
| Total | 6,511 | 7,027 | -516 |

Operations of financial lease

During the year no operations of financial lease were carried out.

F. II Cash & cash equivalents

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|---------|
| 226,094 | 138,206 | +87,888 |

Year-end liquidity came primarily from the agency network's remittances on December and from the cash included in Life segregated founds.

The total amount is composed for 226,094 thousand euro by bank deposits and post office current accounts and for 50 thousand euro by cheques and cash in hand.

The changes of Cash & cash equivalents is detailed in the cash flow statement enclosed to the Part C "Other information" to these Explanatory Notes.

F. IV Other assets

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 79,351 | 83,931 | -4,580 |

The main items forming this item are shown below:

- deferred tax assets relating to previous years' taxable items for 74,599 thousand euro (81,511 thousand euro as at 31 December 2015). For details, reference should be made to the schedule shown later on in the chapter "Information on the balance sheet and income statement":
- sums unavailable on current accounts as a result of foreclosures exercised by third parties to pending cases, amounted to 2,962 thousand euro;
- invoices to be issued and credit notes to be received for 86 thousand euro (216 thousand euro as at 31 December 2015).

| CLASS G - ACCRUED INCOME & PREPAID EXPENSES | | | | | |
|---|------------|------------|--------|--|--|
| | 31/12/2016 | 31/12/2015 | Change | | |
| | 29,517 | 26,032 | +3,485 | | |
| G.1 Interest | 25,106 | 22,225 | +2,881 | | |
| G.2 Rent instalments | 849 | 725 | +124 | | |
| G.3 Other accrued income & prepaid | | | | | |
| expenses | 3,562 | 3,082 | +480 | | |
| | | | | | |

G.1 Interest

This refers mainly to interest totalling 23,801 thousand euro on fixed-income securities (22,137 thousand euro as at 31 December 2015).

G.2 Rent instalments

These are prepaid expense items relating to premises owned by third parties.

G.3 Other accrued income & prepaid expenses

The item refers to prepaid expenses calculated on miscellaneous invoices.

BALANCE SHEET

LIABILITIES

| CLASS A - SHAREHOLDERS' EQUITY | | | |
|--------------------------------|------------|------------|----------|
| | 31/12/2016 | 31/12/2015 | Change |

| Total shareholders' equity | 665,234 | - | | | |
| | |] | 585,227 |] | |
| Non-distributable portion of share premium reserve (1) | | | 848 | | |
| Residual distributable portion | | | 584,379 | | |

^(*) A: for capital increases

B: to cover losses

C: for distribution to shareholders

Disclosure of equity reserves used for capital increases, as required by circular no. 8 issued by the Italian Finance Ministry on 16/03/1984:

(€ '000)

| Date of Extraordinary | Year of recognition | As per | Amount |
|--------------------------|---------------------|---------------|--------|
| shareholders' resolution | in accounts | Visentini Law | |
| 19/5/78 | 1978 | 576/75 | 258 |
| 14/5/79 | 1980 | 576/75 | 516 |
| 15/4/81 | 1982 | 576/75 | 258 |
| 28/6/88 | 1988 | 576/75 | 13 |
| 28/6/88 | 1988 | 72/83 | 1,020 |
| 28/6/88 | 1990 | 72/83 | 3,099 |
| 27/6/08 | 2008 | - | 6,370 |

⁽¹⁾ Under Article 2431 of the Italian Civil Code, the entire amount of this reserve can be distributed only if the legal reserve has reached the limit established by Article 2430 of the Italian Civil Code.

⁽²⁾ These reserves might be decreased as established by Article 2445 of the Italian Civil Code, paragraph 2 and 3.

⁽³⁾ This represents the non-distributable reserve quota earmarked for coverage of deferred costs that have not yet been amortised ex Article 2426 of the Italian Civil Code.

| CLASS C - TECHNICAL RESERVES | | | |
|------------------------------|------------|------------|----------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 2,624,694 | 2,506,099 | +118,595 |

The following tables show changes over the year of Non-Life business technical reserves:

C.I – Non-Life business

| | 31/12/2016 | 31/12/2015 | Change |
|---------------------------------|------------|------------|---------|
| | 1,519,589 | 1,468,101 | +51,488 |
| C.I.1 - Premium reserve | 394,239 | 393,875 | +364 |
| C.I.2 - Claims reserve | 1,118,633 | 1,068,076 | +50,557 |
| C.I.4 - Other technical riserve | 409 | 409 | - |
| C.I.5 - Equalisation reserve | 6,308 | 5,741 | +567 |

Information about analytical evaluation and accounting criteria of the technical reserves are enclosed in "Part A - Accounting Policies" to this financial report.

Changes over the year are shown by business line and type in Annexes 13 and 25 to these Explanatory Notes.

C.I.1 - Premium reserve

The breakdown and changes over the year of the premium reserve is shown below (in /000):

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------------|------------|------------|--------|
| For directly insured risks | 394,190 | 393,833 | + 357 |
| For inwardly insured risks | 49 | 42 | + 7 |
| Gross reserves | 394,239 | 393,875 | + 364 |
| Reinsurers' share | 17,190 | 17,439 | - 249 |
| Net reserves | 377,049 | 376,436 | + 613 |

The breakdown of the direct insurance premium reserve, calculated in accordance with the "pro-rata temporis" criterion and the specific criteria set out in "Part A - Accounting policies" for each line, is as follows:

Reserve for unearned premiums and additions to reserve

| | | | | | (€/000) |
|-------------------------------|-------------------------------------|----------------------------|-------------------------------------|----------------------------|---------|
| | Direct in | surance | Indirect | insurance | |
| Line of business | Reserve for unearned premiums | Unexpired risks reserve | Reserve for unearned premiums | Unexpired risks reserve | TOTAL |
| 01 - Accident | 25,411 | | | | 25,411 |
| 02 - Health | 5,009 | | | | 5,009 |
| 03 - Land motor vehicle hulls | 39,548 | | | | 39,548 |
| 04 - Railway rolling stock | 2 | | | | 2 |
| 06 - Marine hulls | 297 | | | | 297 |
| 07 - Cargo insurance | 479 | | | | 479 |
| 08 - Fire and natural events | 31,780 | | | | 31,780 |
| 09 - Miscellaneous damage | 16,058 | 1,740 | | | 17,798 |
| 10 - Motor TPL | 203,293 | | | | 203,293 |
| 11 - Aviation TPL | 1 | | | | 1 |
| 12 - Marine TPL | 388 | | | | 388 |
| 13 - General TPL | 19,077 | | 36 | | 19,113 |
| 14 - Credit insurance | 4,682 | 5,471 | | | 10,154 |
| 15 - Bond insurance | 10,118 | 6,092 | 7 | | 16,217 |
| 16 - Pecuniary losses | 15,699 | | | | 15,699 |
| 17 - Legal protection | 1,599 | | | | 1,599 |
| 18 - Support and assistance | 7,445 | | 6 | | 7,451 |
| Total premium reserve | 380,887 | 13,303 | 49 | - | 394,239 |

Unexpired risk reserve

Unexpired risk reserve as at 31 December 2016 is referred to 9 line of business - Miscellaneous damage and to 15 line - Bond insurance has been evaluated in accordance with the ISVAP Regulation n. 22/2008, amended by IVASS Regulatory order no. 53/2016 set out in "Part A - Accounting policies" to this financial report.

For the assessment of Unexpired risk reserve of the 14 line of business - Credit is not considered that the empirical method is consistent with the type of portfolio risks Vittoria which is entirely represented by the Salary-Backed Loans with the possibility of recourse.

It was considered, therefore, more appropriate to use a method of estimating the expected losses.

C.I.2 - Claims reserve

The breakdown and changes over the year of the claims reserve is shown below (in /000):

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------------|------------|------------|----------|
| For directly insured risks | 1,117,713 | 1,067,205 | + 50,508 |
| For inwardly insured risks | 920 | 871 | + 49 |
| Gross reserves | 1,118,633 | 1,068,076 | + 50,557 |
| Reinsurers' share | 38,460 | 39,239 | - 779 |
| Retrocessionaries' share | 353 | 342 | + 11 |
| Net reserves | 1,079,820 | 1,028,495 | + 51,325 |

Non-Life Business:

In continuity with the previous year in order to achieve an estimate of ultimate cost [for the purposes of reserving] closer to operating reality - which features a variety of cases featuring significant differences in the parameters used to measure the entity of claims - the parent company Vittoria Assicurazioni S.p.A. has decided to perform separate analysis of claims occurring before introduction of the knock-for-knock system (KFK for short) (i.e. events before 2007) and after its introduction. In doing so, it has in turn split them by type of management and by claims featuring only property damage and those involving hybrid damage (i.e. those with at least one case of bodily injury).

To do this, preliminary methodological work was done to identify an actuarial method permitting accurate estimation of ultimate-cost reserves at the level of detail indicated above.

Different methods were identified, of a different nature in order to have a more precise monitoring of the evolving dynamics of claims::

- Main method: Paid Chain Ladder: this method estimates the amount of future payments, until run-off of generations, constructing using the historical series available the triangles of cumulative amounts paid (organised by event) and calculating on the latter the observable development factors. These factors are then applied to cumulative data up to the current balance-sheet year to calculate estimated future payments. In order to verify the sensitivity of the results, this methodology was subjected to a range
 - of hypotheses and scenarios, in order to verify the sensitivity of the results.

- Alternative methods:

- o Incurred Chain Ladder: this method is similar to the previous one, except that the coefficients of development for each year of the event are calculated on the total amount of claims (payments already observed + reserves) in the various financial years. The rates are applied to the data accumulated up to the end of the current financial year, in order to estimate the total amount of future claims.
- o Fisher Lange: the method is based on the projection of the number of outstanding claims and the average cost estimate. This method consists to estimate for claim duration the vectors of claims settlement speed, rate of claims with follow-up, average cost of claims and future inflation trends. These

- performance measures are evaluated by the analysis of the triangles of run-off in the number of claims paid, reserved, without follow-up and reopened, and the average costs recorded for each generation / policy year.
- o Bornhuetter Ferguson Paid/Incurred: which method makes it possible to average the results obtained from the Chain Ladder methods described above and those of the Expected method Claims Technique. The latter provides an estimate of the total cost of claims starting from the identification of a Loss Ratio priori determined by the Expert judgment of the Company, possibly by reference to market data.

In order to obtain an adequate assessment, or rather less affected by possible modifications on shifting timing of the information in the "*room*", the above method has been also applied to IBNR payments observed, obtaining so a conjoint estimate of ultimate cost and IBNR reserve (the last one has been calculated directly with the method above mentioned).

For all the businesses, since they have sufficient historical depth, the queuing projection coefficients were estimated separately for each component analysed, in order to show the different developments (the time series were projected using appropriate regression functions).

Other risks:

For General TPL line, verifications on claims reserve (including IBNR) appropriateness have been made with Chain-Ladder method. For the valuation of risks for other businesses, the inventory was used. In addition, observable data were analysed and valued according to historical portfolio series.

IBNR claims:

Calculation of the reserve for IBNR (incurred but not reported) claims requires estimation for each business of both the number and average cost of late claims. The estimate was made using as its source the balance-sheet input forms for the years 2004-2016 taking in consideration possible gaps between prior year allocation and the final amount.

For Motor TPL, the estimate is made separately for each type of management.

C.I.4 - Other technical reserves

| 31/12/2 | 016 31/12 | 2/2015 | Change |
|---------|-----------|--------|--------|
| | 409 | 409 | _ |

These reserves refer to direct business and consist of the Health insurance ageing reserve. In order to evaluate this reserve analytical and lump sum criteria were used as described in the "Part A - Accounting Policies" to this financial report.

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 6,308 | 5,741 | +567 |

The reserves refer solely to direct business and feature the following breakdown by business line, accordance with the provisions contained in Annex n.15 of the Regulations ISVAP n.22 /2008 amended by IVASS Instruction no. 53/2016:

| | Line of business | 31/12/2016 | 31/12/2015 | Change |
|----------|---------------------------|------------|------------|--------|
| 03 | Land vehicle hulls | 3,704 | 3,364 | + 340 |
| 05 | Aircraft hulls | 138 | 138 | - |
| 07 | Cargo (goods in transit) | 118 | 114 | + 4 |
| 08 | Fire and natural elements | 1,742 | 1,587 | + 156 |
| 09 | Other property damage | 606 | 539 | + 66 |
| Total ed | jualisation reserve | 6,308 | 5,741 | + 567 |

Breakdown and changes of technical reserve for the Life business over the year are shown in the following table:

C.II - Life business

| | 31/12/2016 | 31/12/2015 | Change |
|--|------------|------------|---------|
| | 1,105,105 | 1,037,999 | +67,106 |
| C.II.1 - Mathematical reserves | 1,072,342 | 1,002,404 | +69,938 |
| C.II.2 - Complementary insurance premium reserve | 78 | 91 | -13 |
| C.II.3 - Reserve for payable amounts | 26,328 | 28,316 | -1,988 |
| C.II.4 - Profit participation and reversal reserve | 49 | 27 | +22 |
| C.II.5 - Other technical reserves | 6,308 | 7,161 | -853 |

Information about analytical evaluation and accounting criteria of technical reserves are enclosed in "Part A - Accounting Policies" to this financial report.

Changes over the year related to Mathematical reserves (class C.II.1) and to Profit participation and reversal reserve (class C.II.4) are detailed by line and type in Annex n.14 to these Explanatory Notes.

C.II.1 - Mathematical reserves

Breakdown and changes of technical reserve for the Life business over the year are shown in the following table:

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------------|------------|------------|----------|
| For directly insured risks | 1,072,193 | 1,002,231 | + 69,962 |
| For inwardly insured risks | 149 | 173 | - 24 |
| Gross reserves | 1,072,342 | 1,002,404 | + 69,938 |
| Reinsurers' share | 7,447 | 6,966 | + 481 |
| Net reserves | 1,064,895 | 995,438 | + 69,457 |

The mathematical reserves comprise an additional reserve for longevity risk relating to annuity agreements and capital agreements with a contractually guaranteed coefficient of conversion to an annuity (paragraph no. 36 of Annex14 to ISVAP regulation no. 22/2008) amounting to 1,746 thousand euro (1,827 thousand euro in the previous year); in the case of capital agreements, account is taken of the propensity to convert to an annuity when it is calculated.

The mathematical reserves also include additional reserves for the guaranteed interest rate risk (paragraph no. 22 of Annex14 to ISVAP regulation no. 22/2008) amounting to 643 thousand euro (413 thousand euro in the previous year), obtained by joint analysis of the asset and liability portfolios of the segregated internal funds "Vittoria Rendimento Mensile", "Vittoria Valore Crescente" and "Vittoria Previdenza", the average rates of return on which were used to value the "Liquinvest" funds, "Obiettivo Crescita" funds and revaluable policies.

C.II.4 - Profit participation and reversal reserve

Breakdown and changes of profit participation and reversal reserve over the year are shown in the following table:

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------------|------------|------------|--------|
| For directly insured risks | 49 | 25 | + 24 |
| For inwardly insured risks | 0 | 2 | - 2 |
| Net reserves | 49 | 27 | + 22 |

C.II.5 - Other technical reserves

The amount of this item as at 31 December 2016 is 6,308 thousand euro and refers solely to operating expenses which is expected to incur, based on conservative valuation as required by ISVAP regulation No. 21/2008.

Breakdown and changes of other technical reserves over the year are shown in the following table:

| | 31/12/2016 | 31/12/2015 | Change |
|----------------------------|------------|------------|--------|
| For directly insured risks | 6,308 | 7,161 | - 853 |
| Gross reserves | 6,308 | 7,161 | - 853 |
| Reinsurers' share | 32 | 31 | + 1 |
| Net reserves | 6,276 | 7,130 | - 854 |

The following table shows the split by line of business:

| | 31/12/2016 | 31/12/2015 | Change |
|---------------------|------------|------------|--------|
| Line of Business I | 5,801 | 6,550 | - 749 |
| Line of Business IV | 237 | 211 | + 26 |
| Line of Business V | 270 | 400 | - 130 |
| Total | 6,308 | 7,161 | - 853 |

CLASS D - TECHNICAL RESERVES WHEN INVESTMENT RISK IS BORNE BY POLICYHOLDERS AND RESERVES RELATING TO PENSION FUND MANAGEMENT

| | 31/12/2016 56,349 | 31/12/2015 58,636 | Change -2,287 |
|--|----------------------|----------------------|---------------|
| D.I – Reserves for unit- and index-linked policies D.II - Reserves relating to pension fund | 37,368 | 41,496 | -4,128 |
| management | 18,980 | 17,140 | +1,840 |

The following table shows the breakdown and changes by product type relating the class D.I:

Below are detailed the key actuarial assumptions concerning technical reserves for direct business as at 31 December 2016:

| | | | | | (€/00 |
|----------------------|---------------|-----------|---------------|------------|---------------------|
| Risk category | Capital sums, | Technical | Year of issue | · | Technical basis |
| | annuities | reserves | | financial | demographic |

| CLASS E - PROVISIONS FOR CONTINGENCIES AND OTHER CHARGES | | | | |
|--|------------|------------|---------|--|
| | 31/12/2016 | 31/12/2015 | Change | |
| | 21,395 | 6,090 | +15,304 | |
| E.2 – Tax provision | 11,839 | 998 | +10,841 | |
| E.3 – Other provisions | 9,556 | 5,092 | +4,464 | |

E.2 – Tax provision

The change mainly was due to allocation of deferred tax liabilities for 11,270 thousand euro relating to capital gains realized in 2016, and whose taxation for IRES is paid in instalments in accordance with to art. 86 of Italian consolidated law on income tax.

Changes of this item are also shown to the Annex 15 to these Explanatory Notes.

E.3 – Other provisions

The item as at 31 December 2016 is related to a provisioning for litigations in progress, attributable to normal operations of the company.

| CLASS F - DEPOSITS RECEIVED FROM REINSURERS | | |
|---|------------|--------|
| 31/12/2016 | 31/12/2015 | Change |
| 12,933 | 14,425 | -1,492 |

These deposits are related to the technical reserves of reinsured direct business.

| CLASS G - PAYABLES AND OTHER LIABILITIES | | | | | | |
|--|------------|------------|--------|--|--|--|
| | 31/12/2016 | 31/12/2015 | Change | | | |
| | 110,973 | 106,135 | +4,838 | | | |
| G.I - Payables arising from direct insurance | | | | | | |

| business | 7,504 | 8,280 | -776 | | | |
| G.VII - Reserve for employee severance | | | | | | |
| indemnities | 2,905 | 3,228 | -323 | | | |
| G.VIII - Other payables | 65,197 | 61,664 | +3,533 | | | |
| G.IX - Other liabilities | 26,913 | 24,810 | +2,103 | | | |
| | | | | | | |

Relating to G.I item, the following table shows the breakdown and change over the year:

G.I - Payables arising from direct insurance business

| | 31/12/2016 | 31/12/2015 | Change |
|---|------------|------------|--------|
| | 8,454 | 8,153 | +301 |
| Of which: | | | |
| G.I.1 – due to insurance agents and brokers | 5,029 | 3,952 | +1,077 |
| G.I.2 – due to current accounts with other insurers | 2,067 | 2,499 | -432 |
| G.I.3 – due to policyholders for performance | 1,118 | 705 | +413 |
| deposits and premiums | | | |
| G.I.4 – due to guarantee funds for policyholders | 240 | 997 | -757 |

G.I.1 Payables arising from direct insurance business, due to insurance agents and brokers

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 5,029 | 3,952 | +1,077 |

These amounts refer to balances not yet settled as at 31 December 2016 and to indemnities payable at the end of agency mandates.

The item is allocated as follows: 4,523 thousand euro to the Life business and 506 thousand euro to the Non-Life business.

G.I.2 Payables arising from direct insurance business, due to current accounts with other insurers

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 2,067 | 2,499 | -432 |

This item includes amounts payable arising from current accounts comprising the technical results of co-insurance transactions.

The item is allocated as follows: 1,968 thousand euro to the Non-Life business, and 99 thousand euro to the Life business.

G.I.3 Payables arising from direct insurance business, due to policyholders for performance deposits and premiums

| _ creps corres and processing | | | |
|-------------------------------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 1,118 | 705 | +413 |

The item refers to the performance deposits paid by policyholders for insurance coverage. The item is allocated as follows: 559 thousand euro to the Non-Life business, to both the Life business.

G.I.4 Payables arising from direct insurance business, due to guarantee funds for policyholders

| | , 3 | | |
|------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 240 | 997 | -757 |

This item is mainly referred to the amount payable to CONSAP for the contribution to the fund for road-accident victims.

G.II Payables, arising from reinsurance business, due to insurers and reinsurers

| | • | • | | |
|--|-------|------------|------------|--------|
| | | 31/12/2016 | 31/12/2015 | Change |
| | | 7,504 | 8,280 | -776 |

This item is relative to payables arising from the current accounts comprising the technical results of reinsurance dealings.

The item is allocated as follows: 7,324 to the Non-Life business and 180 thousand euro to the Life business.

G.VII Reserve for employee severance indemnities

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 2,905 | 3,228 | -323 |

The item expresses the retirement allowance provision towards personnel as at 31 December 2016, in compliance with the Italian Civil Code.

The item is allocated as follows: 2,585 to the Non-Life business, and 320 thousand euro to the Life business.

Changes are also reported to the Annex 15 to these Explanatory Notes. The overall change over the year is due to the following movements:

- decrease due to indemnities paid out for severance and to advance payouts granted for 121 thousand euro:
- increase due to provisioning for the year for 2,415 thousand euro;
- transfers to Pension Fund and Social Security fund for 2,040 thousand euro;
- recover of receivables toward Social Security fund for 73 thousand euro.

The payables in question must be taken to have a residual duration of more than 5 years.

G.VIII - Other payables

| | 31/12/2016 65,197 | 31/12/2015 61,663 | Change +3,534 |
|---|-----------------------------|--------------------------|-------------------------|
| Of which: | | | |
| G.VIII.1 – for policyholders' taxes | 23,638 | 22,790 | +848 |
| G.VIII.2 – for miscellaneous taxes | 6,711 | 2,247 | +4,464 |
| G.VIII.3 - for social security & pension agencies | 2,798 | 2,573 | +225 |
| G.VIII.4 - other sundry payables | 32,050 | 34,053 | -2,003 |

G.VIII.1 Other payables for policyholders' taxes

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 23,638 | 22,790 | +848 |

The item mainly includes amounts due from the tax authorities for taxes on insurance for premiums written, net of the advance instalments paid during the year, and the amounts due for the contribution to the National Health Service and for other tax charges payable by the policyholders.

The item is allocated as follows: 23,466 thousand euro to the Non-Life business, and 172 thousand euro to the Life business.

G.VIII.2 Other payables for miscellaneous taxes

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 6,711 | 2,247 | +4,464 |

The item is allocated as follows: 5,542 to the non-life business, and 1,249 thousand euro to the life business.

The amount as at 31 December 2016 is mainly composed as follows:

- Payables to the tax authorities for 3,680 thousand euro mainly due to IRES and IRAP taxation for the current year, which amounted respectively to 3,079 and 602 thousand euro;
- tax deduction on wages & salaries for 1,675 thousand euro (1,276 thousand euro as at 31December 2015);
- tax deduction on fees for self-employed staff and advisors for 698 thousand euro (616 thousand euro as at 31 December 2015);
- tax deduction related to policies redemptions in life business for 278 thousand euro (292 thousand euro as at 31 December 2015).

G.VIII.3 Other payables for social security & pension agencies

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 2,798 | 2,573 | +225 |

This item consists mainly of amounts payable to INPS (the state pension & welfare agency) on salaries paid in December.

| Givini i Girler Gariary payables | | | |
|----------------------------------|------------|------------|--------|
| | 31/12/2016 | 31/12/2015 | Change |
| | 32 050 | 34 053 | -2 003 |

The item is allocated as follows: 28,147 to the non-life business, and 3,903 thousand euro to the life business.

The amount as at 31 December 2016 is mainly composed as follows:

| 31/12/2016 | 31/12/2015 | Change |
|------------|------------|--------|
| 60,686 | 53,834 | +6,852 |

Current taxes set aside relate to the IRES and IRAP estimate for the current year, which was calculated in accordance with current tax rules.

With Law no. 208/2015 ("Stability Law 2016") was established a drop of 3.5% (from 27.5% to 24%) of IRES, beginning in fiscal year 2017.

The company, having already aligned with the new tax rate of 31.12.2015 active and passive deferred taxes, related to items that by law or reasonable expectation would not be subject to deduction / IRES taxation during the year 2016, it has allocated (and / or further aligned) to 24% the deferred IRES active and passive for temporary changes in the tax base as at 31.12.2016.

The total effect on the result for 2016 resulting from the alignment of the active and passive deferred taxes, amounted approximately to 66 thousand euro of higher net profit, having the two components (of opposite sign) offset almost entirely.

Reconciliation between the tax charge recognised in the financial statements and theoretical tax charge is shown below:

| | Taxable | hase | Tax | | Tax r | ate |
|--|---------|---------|---------|------------|---------|-------------|
| | IRES | IRAP | | heoretical | | theoretical |

The above schedule compares taxes related to local financial statements, apart from variances due to tax rules application in determining IRES and IRAP amounts with taxes related to tax rules compliance.

Schedules of deferred taxes pursuant to article 2427 of the civil code, are described in the tables below.

These were calculated by applying to such temporary differences the nominal rates in force at the time when they will appear, already approved at the date of these financial statements.

Detail and movement of deferred tax assets:

Finance expense allocated to balance sheet assets

Pursuant to the first paragraph, point 8, of Article 2427 of the Italian Civil Code, we declare that no finance expense was capitalised in the year in amounts posted in balance sheet assets.

Employees

The cost of salaries, related social security charges, severance indemnity provisioning, and of miscellaneous personnel-related expenses are shown in Annex 32.

Employees on the payroll as at 31 December 2016 numbered 542 heads (532 heads to 31 December 2015). The average number of employees on the payroll during the year, by category and calculated according to in-force presence, was as follows:

Disclosure of auditing fees

As required by Article 149/12 of CONSOB Regulation 11971 of 14 May 1999, below we report the fees relating to FY2016, net of VAT, for services rendered to the Company by the auditing company Deloitte & Touche SpA – and by entities forming part of its network.

| | | (€/000) |
|--|------------------|--------------------------------------|
| Type of services rendered | Auditing company | Entities forming part of its network |

Litigation

Litigation existing at the end of the period is related to the normal operation linked to the claims management.

Tax situation

In the year 2016, the Company confirmed or exercised the option for the National Tax Consolidation Regime (art. 117 and following of Presidential Decree 22 December 1986, n. 917) with the subsidiaries Immobiliare Bilancia S.r.I., Immobiliare Bilancia Prima S.r.I., Acacia 2000 S.r.I., Vaimm Sviluppo S.r.I., Vittoria Properties S.r.I., Vittoria Immobiliare S.p.A., Gestimmobili S.r.I., Interimmobili S.r.I., Interbilancia S.r.I., VRG Domus S.r.I., Valsalaria S.r.I. and VP Sviluppo 2015 S.r.I.

Consolidated IRES national tax with these subsidiaries will persist also in 2017.

With reference to the year 2016, the Company exercised the option for VAT payment at the group level under D.M. 12.13.1979, together with its subsidiaries Vittoria Immobiliare S.p.A., Gestimmobili S.r.I., Interimmobili srl, Acacia 2000 Srl, VRG Domus Srl, Vittoria Properties Srl, Immobiliare Bilancia Prima Srl, Immobiliare Bilancia Srl, Vaimm Sviluppo srl, Valsalaria srl and VP Sviluppo 2015 S.r.I..

It is noted that for the year 2017, the Company exercised this option, along with the same subsidiaries listed above.

In accordance with Law no. 147/2013, at the end of 2013 the company revalued the residential buildings in Milan and the building housing its registered office. The revaluation was declared in the UNICO 2014 tax return for the 2013 tax period. As a result, the parent company will pay a substitute tax on the gains recorded for IRES and IRAP purposes. This recognition will take effect from the 2016 tax period, unless the assets are disposed of, in which case the recognition will be postponed until 2017. The substitute tax is 16% for depreciable property and 12% for non-depreciable property.

The value recognised in the balance sheet was aligned to the fair value, determined by an independent evaluation expert. Against these greater values recognised in the balance sheet, the parent company recorded in equity a reserve equal to the revaluation less the substitute tax.

In 2009, the company was subject to a tax inspection by the Italian Tax Authorities for fiscal years 2004, 2005 and 2006, from which disputes related to IRES, IRAP and VAT have ensued.

Between 2009 and 2011 higher assessments for all three years under inspection were notified with details of higher IRES and IRAP, fines and interest for an overall amount of 101 thousand euro; regarding VAT, the higher tax rate, the fines and interest amount to 387 thousand euro.

The company has settled its tax obligations related to IRES and IRAP for all three years, while regarding VAT, has appealed against the assessments for the three years.

The company obtained a favourable judgement in the first and second instance in relation to the three years (2004, 2005 and 2006), and appeals of the Tax Authorities with the Supreme Court of Cassation are pending.

With Law no. 208/2015 ("Stability Law 2016") was established a drop of 3.5% (from 27.5% to 24%) of IRES, beginning in fiscal year 2017.

The company, having already aligned with the new tax rate of 31.12.2015 active and passive deferred taxes, related to items that by law or reasonable expectation would not be subject to deduction / IRES taxation during the year 2016, it has allocated (and / or further aligned) to 24% the deferred IRES active and passive for temporary changes in the tax base as at 31.12.2016.

The total effect on the result for 2016 resulting from the alignment of the active and passive deferred taxes, amounted approximately to 66 thousand euro of higher net profit, having the two components (of opposite sign) offset almost entirely.

The Board of Directors

Milan, 15th March 2017

Management attestation

Attestation of local annual financial statements pursuant to Article 81/3 of CONSOB Regulation no. 11971 of 14 May 1999 as subsequently amended and supplemented

- 1. The undersigned Cesare Caldarelli (as Chief Executive Officer) and Luca Arensi (as the Manager Charged with preparing the financial reports), of Vittoria Assicurazioni S.p.A., taking into consideration Article 154-bis (subparagraph 3 and 4) of Italian Legislative Decree February 24th 1998 n.58, do hereby certify:
 - the adequacy in relation to the Legal Entity features and
 - the actual application

of administrative and accounting procedures for formation of financial statements during the period 1 January 2016 - 31 December 2016.

- 2. In this respect no remarks emerged besides what already reported in Director's report to the financial report as at 31 December 2016.
- 3. It is also attested that:
 - 3.1 the financial statements as at 31 December 2016:
 - a) Having been prepared in compliance with (a) the Italian Civil Code, (b) the requirements indicated in Italian Legislative Decree no. 173 of 26 May 1997, (c) the Italian Legislative Decree no. 209 of 7 September 2005, and (d) applicable ISVAP (Italian insurance regulator now IVASS) ordinances, regulations, and circulars, are to the best of their knowledge such as to provide fair and true representation of the assets and liabilities, profit or loss, and financial position of the issuer.
 - b) Match corporate books and accounting records
 - 3.2 the directors' report contains a reliable analysis of the business outlook and management result, the financial position of the issuer and a description of the main risks and uncertain situation to which they are exposed.

Board of Statutory Auditors' Report

VITTORIA ASSICURAZIONI S.p.A.

STATUTORY AUDITORS' REPORT TO THE SHAREHOLDERS OF VITTORIA ASSICURAZIONI S.P.A. PURSUANT TO ART. 153 OF LEGISLATIVE DECREE NO. 58/98, OF LEGISLATIVE DECREE NO. 39/2010 AND ART. 2429, PARAGRAPH 3, CIVIL CODE

Dear Shareholders

During 2016, we carried out the supervisory activities as required by Law, and in particular by art. 149 of Legislative Decree N. 58/98 and by art. 2403 Civil Code, by the communications from CONSOB (the Italian stock exchange authority) and IVASS (the Italian insurance regulatory authority Institute), as well as by consolidated professional practices.

We premise that the Board of Statutory Auditors in its current composition was appointed by the Ordinary Shareholders' Meeting of 27th April 2016, which appointed the supervisory body for the period 2016/2018 partially renewing its composition.

Until that date the Board was chaired by Mr. Alberto Giussani.

In reporting the activities carried out, we expose the following.

In compliance with the tasks conferred upon the Board of Statutory Auditors by Legislative Decree. N. 58/98, we confirm that:

- we attended the meetings of the Board of Directors and obtained, at least quarterly, information on operations and on the most important economic, financial and equity transactions made by the company and its subsidiaries, ensuring that the decisions taken complied with the law and company mission and they were not in conflict of interest or in contrast with resolutions adopted in Shareholders' Meetings;
- we ascertained, insofar as it falls within our competence, compliance with the principles of proper management by the Directors in fulfilling their duties, with direct observations, gathering information from those responsible for administrative requirements and through meetings with the independent auditors aimed at sharing data and information;
- we monitored, during the financial year, the organizational structure, the internal control system and the administrative-accounting system and its reliability in correctly representing management events through:
- ✓ obtaining information from the department managers, including the manager responsible for preparing the financial reports;

- ✓ examining company documents and the reports of the Internal Audit and of the Compliance and Risk Management functions;
- ✓ periodic meetings with the independent auditor who, during the year, informed us about the outcome of quarterly checks on proper bookkeeping;
- ✓ dealing with the Supervisory Board pursuant to Legislative Decree N.
 231/01, examining the periodic reports and receiving updates on the
 activities performed;
- ✓ reviewing the minutes of the Strategies, Finance, Real Estate, Related Parties, Appointments and Compensation Committees;
- ✓ participating in the Control and Risk Committee.

Constant participation in the Control and Risks Committee enabled the Board of Statutory Auditors to coordinate with said Control and Risks Committee the execution of its Internal Control Committee functions and its auditing functions as provided by Article 19 of Legislative Decree 39/2010, and specifically to monitor:

- ✓ the financial reporting process;
- ✓ the effectiveness of internal control systems, internal audit and risk management;
- √ the profiles concerning the compliance with money laundering regulations;
- ✓ the statutory audit of annual and consolidated accounts;
- ✓ the matters relating to the independence of the external auditors, with
 particular reference to the services provided other than statutory
 audit. During the financial year three consulting services costing
 €235,000, other than statutory audit, were commissioned to Deloitte
 & Touche S.p.A., related to the process of compliance to Solvency II
 regime.

The independent auditors anticipated that the report pursuant to Article 19, Paragraph 3 of Legislative Decree 39/2010 will not highlight significant weaknesses in the internal control system with reference to the financial information process.

Based on the work that was carried out, the internal control system therefore proved to be adequate on the whole, and there were no critical issues to report.

Board of Statutory Auditors also reports that carried out, where applicable, additional special audit in compliance with IVASS legislation. In particular, the Board of Auditors acknowledges that it:

- monitored the compatibility of the general investment policies approved by the Board of Directors, pursuant to the Regulations ISVAP no. 36 of 31st January 2011 and IVASS no. 24 of 6 th June 2016, with the economic and financial balance of the Company and the compliance of the same with the management acts;
- performed the required controls on the use of derivative financial instruments;
- verified the administrative procedures for handling, custody and accounting of financial instruments allocated to cover the technical liabilities, ensuring the instructions given to the depositary entities in order to sending periodic account statements with appropriate evidence of any restrictions;
- checked during the periodic monitoring freedom from constraints and the full availability of the assets allocated to cover the technical provisions;
- found correspondence with the register of assets covering technical provisions;
- carried out audits of the procedures required in money laundering legislation;
- received, in compliance with the Regulations ISVAP no. 24 of 19th May 2008 and IVASS n. 30 of 24th March 2015, quarterly reports on complaints prepared by the Internal Audit and that they did not reveal any critical situation or organizational shortcomings;
- met the members of the Supervisory Body established pursuant to Legislative Decree. n. 231/01, which has set specific half-yearly reports to the Board of Directors and that such positions did not reveal any critical issues that need to be identified in this report;
- was directly updated by a member of this Board, member of the control body of the subsidiaries, in regard to the management, control and the general performance of their activities in accordance with art. 151, paragraph 2, of Legislative Decree no. 58/98 and CONSOB communication DAC/RM/97001574 dated 20th February 1997;
- verified that the Company has put in place regulations, procedures and structures aimed at monitoring the insurance, financial, credit and business risks, in accordance with ISVAP regulation no. 20/2008 and the changes in force since 30th June 2014 and the guidelines of the letter to market issued by IVASS on 15th April 2014;

- took note of actions taken to comply with Solvency II regulations, which took effect from 1st January 2016, as described in the Management Report, and in particular:
 - ✓ the updating of the already in place policies and the finalization of the remaining policies required by the regulations;
 - ✓ the request to IVASS for the use of USP (Undertaking Specific Parameters) in respect of which the Company is expecting to receive the necessary prior authorization;
 - ✓ the indication in the Management Report of information about the solvency situation under Solvency II metrics, in accordance with ISVAP regulation no. 22 of 4th April 2008, as amended by IVASS Instruction no. 53 of 6th December 2016;
- found the proper operation of the procedures relating to related parties;
- has determined that the Company, on 28th July 2016, adopted a new internal regulation on internal dealing, according to EU Regulation no.596/14 and that the management and communication of information concerning the Company is organically regulated and governed in accordance with it.

In compliance with CONSOB recommendations, the Statutory Auditors state that:

- information provided by the Board of Directors, also specifically regarding subsidiaries, intercompany transactions and transactions with related parties are considered adequate;
- as far as we know there were no atypical or unusual transactions carried out either with Group companies or related parties, and even with third parties, as evidenced by the Directors in the Management Reports;
- ordinary transactions with Group companies and related parties are carried out at market conditions and respond to the interest of the Company and are performed in compliance with the specific procedure approved by the Board of Directors; they are described in the Management Reports with details of their entity and their economic effects on the operating result;
- during 2016 no.22 meetings of the Board of Auditors were held, including no.10 meetings in joint with the Control and Risk Committee; the Statutory Auditors attended all of 12 meetings of the Board of Directors;

- instructions given by the Company as issuer to the subsidiaries for the fulfillment of the disclosure requirements pursuant to Article 114, paragraph 2, of Legislative Decree no. 58/98, are considered to be adequate;
- during the year under review, the Board has issued, pursuant to the law, two opinions on the remuneration of Directors with special duties;
- any significant event happened after year end has been reported;
- the Company has adopted the Corporate Governance Code established by the Committee for Corporate Governance of Listed Companies. The Board of Directors has adopted and periodically updated it by giving it concrete implementation, in the terms indicated in its related report to the Shareholders' Meeting;
- the Company verified the actual independence of the independent directors and we confirm that we have verified the correct application of the criteria and procedures adopted by the Board of Directors, as well as the persistence of our independence as required the Self-Regulation Code;
- we have no comments on the Remuneration Report for 2016 prepared in accordance with ISVAP Regulation no.39 of 9th June 2011 and submitted for approval to the Shareholders' Meeting;
- during the financial year, we did not receive any complaints pursuant to article 2408 of the Italian Civil Code and neither have any other reports been made.

The Company has drawn up the Financial Statements and the Consolidated Financial Statements according to (as required by law) the National Accounting Principles (the Financial Statements) and IAS / IFRS accounting principles, such as endorsed by the EU (Consolidated Financial Statements).

With regard to these financial statements, the independent auditor Deloitte & Touche S.p.A. today released audit reports in accordance with Articles no.14 and no.16 of Legislative Decree no. 39/10 for the Financial Statements and the Group Consolidated Financial Statements at 31st December 2016. These reports were issued with no qualifications or requests for additional disclosures, also expressing consistency judgment with the financial statements, the Management Reports and the information contained in the Report on Corporate Governance and Ownership Structure as well as the judgment of the sufficiency of technical reserves.

Dear Shareholders

taking into account the foregoing considerations, the Board sees no impediment to the approval of the financial statements at 31st December 2016, as prepared by the Board of Directors, and issues a favorable opinion on the proposal made for the allocation of profit of the year:

€49,129 to the legal reserve, €125,287,943 to available reserves and €14,149,574 as dividends.

Milan, 29th March 2017

INDEPENDENT AUDITORS' REPORT PURSUANT TO ART. 14 AND 16 OF LEGISLATIVE DECREE No. 39 OF JANUARY 27, 2010 AND WITH ARTICLE 102 OF LEGISLATIVE DECREE No. 209 OF SEPTEMBER 7, 2005

To the Shareholders of VITTORIA ASSICURAZIONI S.p.A.

Report on the Financial Statements

We have audited the financial statements of Vittoria Assicurazioni S.p.A., which comprise the balance sheet as at December 31, 2016, the income statement for the year then ended and the explanatory notes.

Management's Responsibility for the Financial Statements

The Company's Directors are responsible for the preparation of these financial statements that give a true and fair view in accordance with the Italian law governing financial statements.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISA Italia) issued pursuant to art. 11 of Italian Legislative Decree 39/10. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Vittoria Assicurazioni S.p.A. as at December 31, 2016, and of its financial performance for the year then ended in accordance with the Italian law governing financial statements.

Report on Other Legal and Regulatory Requirements

Opinion on the consistency of the report on operations and of certain information included in the report on corporate governance and ownership structure with the financial statements

We have performed the procedures indicated in the Auditing Standard (SA Italia) no 720B in order to express, as required by law, an opinion on the consistency of the report on operations and of certain information included in the report on corporate governance and ownership structure required by art. 123-bis, no 4, of Italian Legislative Decree no 58/98, which are the responsibility of the Directors of Vittoria Assicurazioni S.p.A., with the financial statements of Vittoria Assicurazioni S.p.A. as at December 31, 2016. In our opinion the report on operations and the information included in the report on corporate governance and ownership structure referred to above are consistent with the financial statements of Vittoria Assicurazioni S.p.A. as at December 31, 2016.

2

Opinion in accordance with the art. 102, n°2, of the Legislative Decree no. 209 of September 7, 2005, relating to the non-life technical reserves

In carrying out the engagement appointed by Vittoria Assicurazioni S.p.A., in accordance with the art. 102, n°2, of the Legislative Decree no. 209/2005, we have audited the items relating to the non-life insurance technical reserves, included in the liabilities of the financial statements of Vittoria Assicurazioni S.p.A. for the year ended December 31, 2016. The Company's Directors are responsible to establish technical reserves to the extent necessary to guarantee the insurance and reinsurance obligations. On the basis of the procedures performed in accordance with the art. 102, n°2, of the Legislative Decree no. 209/2005, with the ISVAP Regulation n. 22/2008, and the related guidelines included in the application document published by IVASS on January 31, 2017 on its website, the above mentioned technical reserves included in the liabilities of the financial statements of Vittoria Assicurazioni S.p.A. for the year ended December 31, 2016 are sufficient in accordance with the applicable law and regulations and correct actuarial techniques, in compliance with the principles set out in the ISVAP Regulation 22/2008.

Opinion in accordance with the art. 102, n°2, of the Legislative Decree no. 209 of September 7, 2005, relating to life technical reserves

In carrying out the engagement appointed by Vittoria Assicurazioni S.p.A., in accordance with the art. 102, n°2, of the Legislative Decree no. 209/2005, we have audited the items relating to the life insurance technical reserves, included in the liabilities of the financial statements of Vittoria Assicurazioni S.p.A. for the year ended December 31, 2016. The Company's Directors are responsible to establish technical reserves to the extent necessary to guarantee the insurance and reinsurance obligations. On the basis of the procedures performed in accordance with the art. 102, n°2, of the Legislative Decree no. 209/2005, with the ISVAP Regulation n. 22/2008, and the related guidelines included in the application document published by IVASS on January 31, 2017 on its website, the above mentioned technical reserves included in the liabilities of the financial statements of Vittoria Assicurazioni S.p.A. for the year ended December 31, 2016 are sufficient in accordance with the applicable law and regulations and correct actuarial techniques, in compliance with the principles set out in the ISVAP Regulation 22/2008.

Deloitte.

Other Matter

The determination of the technical reserves is a complex estimation process that includes many subjective variables whose change may involve a significant variation in the final result. Therefore, we have developed a range of values considered reasonable, to take into account the level of the uncertainty embedded into these variables. In order to evaluate the sufficiency of the technical reserves, we have also verified that such reserves are within this range.
