RIGHT TO ATTEND THE SHAREHOLDERS' MEETING AND TO EXERCISE VOTING RIGHTS DURING THE SHAREHOLDERS' MEETING

Pursuant to article 83-sexies of Legislative Decree 58 of 24 February 1998, the persons who are entitled to attend the Meeting and to exercise their right to vote are those for whom the Company has received appropriate communication from an authorised intermediary based on evidence at the end of the accounting day of **Monday 18 April 2016 (record date)**, which is the seventh open market day preceding the date set for the Shareholders' Meeting on first call.

Credits and debits booked in the accounts after this date shall not be considered for the purpose of legitimising the exercise of voting rights at the Shareholders' Meeting; persons who become shareholders after this date will not therefore have a right to attend and vote at the Shareholders' Meeting.

Holders of Vittoria Assicurazioni S.p.A. shares that are not centralised by Monte Titoli S.p.A. are hereby reminded that they can only exercise their rights subject to such shares being deposited with an intermediary for registration into the centralised management system of dematerialised shares by the record date (18 April 2016).

REPRESENTATION AT THE MEETING

- Ordinary Proxy

Those who have the right to vote can be represented at the Meeting as per applicable Law, with the possibility to use for such purpose the Proxy form that is available on the Company internet website at www.vittoriaassicurazioni.com (Investor Relations - Shareholders' Meetings).

The proxy must be notified to the company in any one of the following three ways:

- (i) by post, to the registered offices in Via Ignazio Gardella 2, 20149 Milan, addressing the communication to the attention of the Corporate Service - Shareholders' Meeting
- (ii) by e-mail to the following certified mail box: assemblea.azionisti@pec.vittoriaassicurazioni.it
- (iii) by using the application for such purpose available in the same section of the above mentioned internet website.

The proxy holder attending the meeting must however attest the conformity of the copy notified to the original version.

- Proxy in favour of the company designated representative

In accordance with the applicable regulation, those shareholders with voting rights may delegate, free of charge, Mrs Camilla Poggiani as the representative designated by the Company, pursuant to article 135-undecies of the Italian Consolidated Finance Act (TUF), who may be substituted by the Mrs Rossella Cardone. The proxy must be granted by signing the applicable form, available on the internet website www.vittoriaassicurazioni.com (Investor Relations - Shareholders' Meetings).

The original form must reach the company-designated representative also by registered post in Via Agnello 18, 20121 Milan, by the second open market day preceding the date set for the Shareholders' Meeting on first call or, as applicable, on the second call (more precisely: in the case of the first call the proxy must be received by Monday 25th April 2016 and however, being a Italian public holiday, will be accepted proxies sent by that date even if received up to 12.00 p.m. on the 26th April 2016; in the case of the second call the proxy must be received by 26th April 2016). Proxy is not valid for matters for which voting instructions have not been given. The proxy and voting instructions can be revoked by the same date as set out above.

RIGHT TO ASK QUESTIONS

Shareholders may ask questions on items on the agenda even before the Shareholders' Meeting by submitting them in one of the following two ways

- (i) by post, to the registered offices in Via Ignazio Gardella 2, 20149 Milan, addressing the communication to the attention of "Servizio Societario – Assemblea degli Azionisti"
- (ii) by e-mail to the following certified mail box: assemblea.azionisti@pec.vittoriaassicurazioni.it

Questions can be submitted up to five days before the Meeting. Answers to questions received within such deadline will be provided to the applicant Shareholder and published on the internet website www.vittoriaassicurazioni.com (Investor Relations - Shareholders' Meetings) two days before the Meeting. Answers made available to the Shareholders, on paper format, at the beginning of the Shareholders' Meeting, are considered as given during the Meeting itself.

ADDITIONS TO THE AGENDA OF THE SHAREHOLDERS' MEETING AND PRESENTATION OF NEW PROPOSED RESOLUTIONS

Shareholders who, individually or jointly, represent at least one fortieth of the share capital may request the addition of an item on the agenda within ten days of the publication of this convening notice, specifying in their request the additional topics proposed, or submit proposals for resolutions on matters that are already on the agenda.

Questions, together with the certifications issued by qualified intermediary attesting that the shareholder/s hold/s at least 2.5% of the share capital and indicating the corporate rights that may be exercised, shall be submitted in writing and delivered to the Company in any one of the following two ways:

- (i) by post, to the registered offices in Via Ignazio Gardella 2, 20149 Milan, to the attention of Servizio Societario – Assemblea degli Azionisti
- (ii) by e-mail to the following certified mail box: assemblea.azionisti@pec.vittoriaassicurazioni.it,

No additions to the agenda shall be allowed in relation to topics for which resolutions have been proposed for the Meeting by the Directors in compliance with the provisions of Law, or in relation to projects or reports recommended by them, other than as provided in the first Paragraph of Article 125-ter of the Italian Consolidated Finance Act (TUF).

By the same date and in the same manner, shareholders requesting the addition of items on the agenda shall send a report to the Board of Directors with the reasons for adopting resolutions on the additional topics that they recommend for discussion, or the reasons for additional resolution proposals for matters that are already on the agenda.

Any additions to the agenda or additional resolution proposals on matters that are already on the agenda will be disclosure in the same manner as set forth by Law for convening notices, within the term set forth by the applicable regulations, i.e. by 12th April 2016. At the same time the reports of the Shareholders who requested the additions will be made available to the public together with eventual comments of the Board of Directors, as the provisions of the article 125-ter of the Italian Consolidated Finance Act (TUF).

APPOINTMENT OF THE BOARD OF DIRECTORS AND FILING OF LIST OF CANDIDATES

Lists of candidates for appointment on the Board of Directors may be presented by one or a group of shareholders who hold an overall shareholding of 2.5% of the share capital. Ownership of the minimum shareholding quota for the purpose of presenting a list of candidates is determined with reference to the shares that are registered in the name of the shareholder/s as of the day when the list is submitted to the company.

Candidate lists underwritten by those shareholders presenting them must be delivered by the **17.30 hrs of the Saturday 2nd April 2016** (twenty-five days before the Meeting) at the registered offices of the company in Milan in Via Ignazio Gardella No. 2. Candidate lists can also be filed by email at the following registered email address assemblea.azionisti@pec.vittoriaassicurazioni.it, together with information that identifies the individual depositing the list.

A list of candidates must be filed together with:

- information related to the identity of the shareholder/s presenting the list, with an indication of the overall shareholding;
- declarations of each single candidate whereby they accept the nomination and attest under their own responsibility to the fact that nothing precludes them from being elected, that there are no grounds for incompatibility, and that they have the required requisites for their respective nominations;
- a curriculum vitae with the personal and professional characteristics of each candidate including a possible indication of the characteristics that qualify them as independent.
- the relevant certificate issued by an authorised intermediary proving ownership, at the time of submission of the list, of the number of shares necessary for the presentation of the same. This certification could be filed subsequent to the submission of the list, provided by 6 April 2016.

As per the provisions of the By-laws in relation to conformance with the applicable regulation governing gender equality, those lists with a number of candidates that is equal or greater than three must include candidates of both sexes in such a way that at least one third (rounded up) of the candidates are of the least represented sex.

Candidate lists that do not conform to the above conditions shall be deemed not to have been presented. Shareholders are requested to take into account the recommendations of Consob Notice DEM/9017893 dated 26th February 2009, particularly with reference to the declaration claiming absence of any relationship, even indirect, with the shareholders that hold a controlling stake in the company.

The list of candidates presented and the relative supporting documentation will be made available to the public at the registered offices of the company and on the company internet website www.vittoriaassicurazioni.com (Investor Relations - Shareholders' meetings) by Wednesday **6th April 2016**.

For further information refer to the Explanatory Report of the Directors at item 2 of the agenda which is published together with this notice, as well as to the applicable statutory and legal provisions.

APPOINTMENT OF THE BOARD OF STATUTORY AUDITORS AND FILING OF LIST OF CANDIDATES

Lists of candidates for appointment on the Board of Statutory Auditors may be presented by one or a group of shareholders who hold an overall shareholding of 2.5% of the share capital. Ownership of the minimum shareholding quota for the purpose of presenting a list of candidates is determined with reference to the shares that are registered in the name of the shareholder/s as of the day when the list is presented to the company.

Candidate lists underwritten by those shareholders presenting the list must be delivered by **17.30 hrs of Saturday 2 April 2016** (twenty-five days before the Meeting) to the registered offices of the company in Milan in Via Ignazio Gardella No. 2. Candidate lists can also be deposited by email at the following registered email address: assemblea.azionisti@pec.vittoriaassicurazioni.it, together with information that identifies the individual depositing the list.

A list of candidates must be filed together with:

- information related to the identity of the shareholder/s presenting the list, with an indication of the overall shareholding;
- a declaration of the shareholders who do not individually or jointly hold a controlling or relative majority stake, attesting to the fact that they do not have a relationship as provided in the applicable regulations, with shareholders holding a controlling or relative majority stake.
- a detailed memorandum on the personal characteristics of the candidates, together with a declaration of the candidates where they attest to the fact that they hold the necessary requisites required by Law and that they accept the nomination, as well as a list of any administrative and auditing posts held in other companies.
- the relevant certificate issued by an authorised intermediary proving ownership, at the time of submission of the list, of the number of shares necessary for the presentation of the same. This certification could be filed subsequent to the submission of the list, provided by 6 April 2016.

In the event that at the end of the term for the presentation of lists of candidates, only one list has been presented, or there are only lists presented by shareholders with whom there exists a pro-tempore significant relationship in place for the purpose of applicable laws and regulations, then other lists may be presented up to the third day following such end of term, i.e. up to **17.30 hrs on 5th April 2016**; and in such case the aforementioned 2.5% ownership threshold for presenting a list of candidates shall be reduced to 1.25%.

The list of candidates must be made up of two sections: one for the appointment of standing Statutory Auditors and the other for the appointment of substitute Statutory Auditors. The lists must have a number of candidates that is not greater than the number of members to be appointed, listed with a progressive number.

Those lists with a number of candidates that is equal or greater than three must include candidates of both sexes in such a way that at least one fifth (rounded up) of the candidates to serve as effective members and one third (rounded up) of the candidates to serve as substitute members are of the least represented sex.

Candidate lists that do not conform to the above conditions shall be deemed not to have been presented. The list of candidates submitted and the relative supporting documentation will be made available to the public at the registered offices of the company and on the company internet website www.vittoriaassicurazioni.com (Investor Relations - Shareholders' Meetings) by Wednesday **6th April 2016**.

For further information refer to the Explanatory Report of the Directors at item 3 of the agenda which is published together with this notice, as well as to the applicable statutory and legal provisions.

Shareholders,

The financial statements for our 94th financial year submitted for your approval show a net profit of 66,269 thousand euro (-11.60% compared with the net profit of 74,935 thousand euro for the previous year).

The net result was negatively affected by the restatement of prepaid and deferred tax, following the recent reduction in IRES from 27.5% to 24.0%, with an impact of 8,974 thousand euro. Without the effect of this recalculation, the result would have amounted to 75,243 thousand euro, an increase of 0.4% compared to 31 December 2014.

The result is mainly due to the net contribution of the Non-Life business, presenting a growth of 21.1% in the technical result, which rose from 98,784 thousand euro at 31 December 2014 to 119,626 thousand euro at 31 December 2015, broken down as follows according to line of business:

<u>Thousand euro</u>	<u>2015</u>	<u>2014</u>	<u>Var%</u>
Motor lines	68,731	74,052	-7.2
Non - Marine lines	76,788	48,008	59.9
Specialty line	-25,893	-23,276	11.2

The Motor and Non-Marine lines continue to generate a very positive result. The slight decrease of the Motor lines is offset by a significant improvement in Non-Marine lines who benefited from a reduction in the loss ratio due to the increase in premiums (+ 3.8%) and lower incidence of damage from serious claims.

The situation of economic crisis persists in adversely affect the result of the credit and specialty lines , for which the company is starting a progressive rebalancing of the technical result.

The company during the year started important projects to overhaul the application system of Direction "New Age", either aimed at supporting new sales methods of insurance services through mobile devices, either to exploit the opportunities offered by the regulatory changes regarding dematerialization and electronic signature. In light of these projects, which will lead to the gradual overcoming of existing systems, it was considered necessary to review the residual life of the "New Age" system, recording higher depreciation totalling 10,880 thousand euro. Following this operation, overhead costs as a percentage of total direct insurance premiums rose from 7.8% last year to 9.0%.

The loss ratio and the combined ratio for retained business, without considering the higher amortisation described above, are respectively, 63.9% and 89.1% (65.5% and 90.7% in the previous year), which is the result of a prudent underwriting policy and a particular and constant focus on the rationalisation of administrative and commercial costs.

Thanks to the consolidation and development of the existing portfolio, premium income showed a slight increase compared to the previous year: total premiums written on 31 December 2015 amounted to 1,287,543 thousand euro (1,283,786 thousand euro at 31 December 2014) with an increase of 3.5% in the Non-Life and a decrease of 12.9% in Life business due to the revised growth strategies aimed at decreasing single premium products of segregated funds.

The period of generalised crisis had also an impact on investment that the company owns in real estate, leading to impairment of stocks and shares for a total of 12,829 thousand euro.

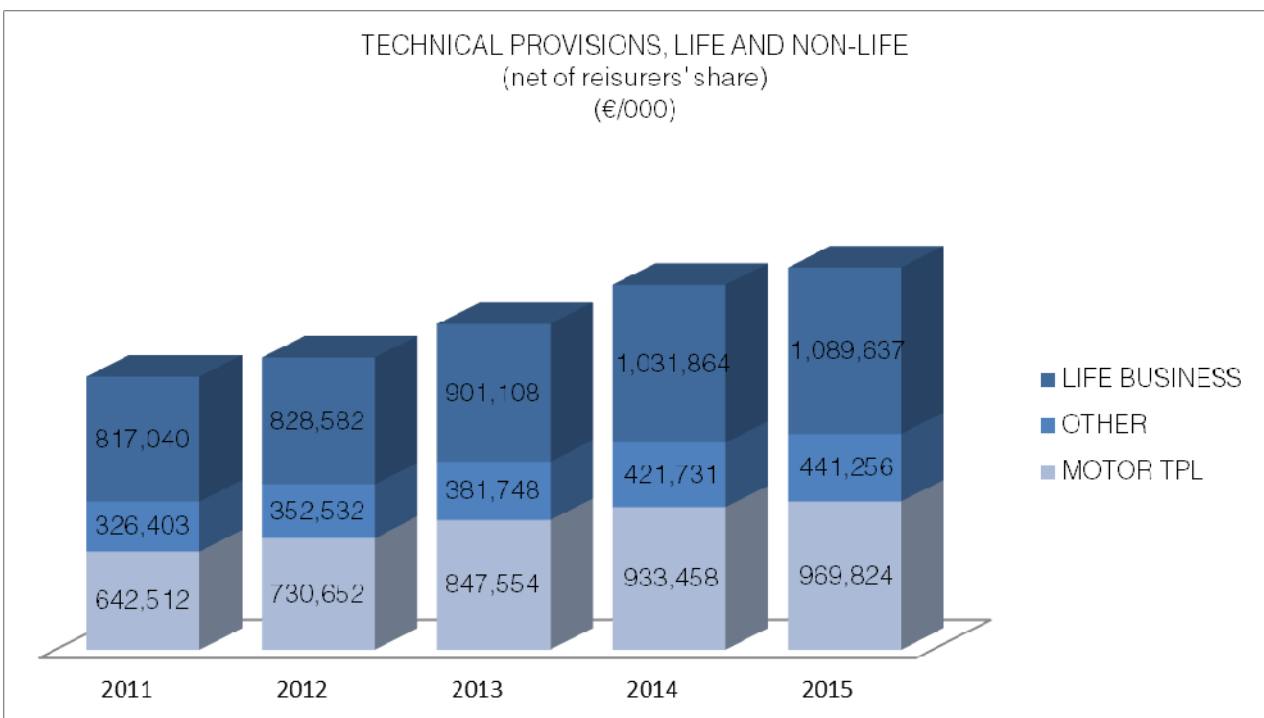

The result of the year takes advantage of extraordinary capital gains of 9,376 thousand euro following the sale of government bonds classified as long-term portfolio for 44,995 thousand euro . This operation was made in order to limit the risk associated with interest rates, steps were taken to a realignment of the portfolio's duration in Life and Non-Life business.

Investments, in more detail exhibited in the chapter "Investment assets", totalled 2,634,578 thousand euro (+10.5% compared with 31 December 2014). Ordinary and extraordinary income from investments with risk borne by the company totalled 52,653 thousand euro, down by 5.9% compared with 31 December 2014, following the impairments described above.

Group shareholders' equity (IAS/IFRS accounting standards) totalled 691,244 thousand euro, up 12.5% on the 614,528 thousand euro recorded at 31 December 2014.

Group's net profit totalled 70,620 thousand euro (-2,4% compared with the net profit of 72,329 thousand euro for the previous year).

The following charts show local shareholders' equity trend and technical provisions amount in the last five FYs:

The Strategy

The Company is managed with a view to achieving underwriting profitability and to maintaining an adequate combined ratio, a measure showing the degree of coverage of claims, commercial costs and Non-life operating costs.

On the other hand, the Company is strengthening its existing portfolio, by focusing on so-called “affinity groups” (homogeneous customer groups) and the development of customer loyalty through integrated products and services. The Company’s strategic goal is to increase its market share in the non-life market, especially the non-auto segment, the acquisition of new policies in the Life business and risk diversification in light of the segmentation of the customer portfolio. In particular, even though great attention is paid to the risks affecting people and small/medium enterprises, activities are undertaken also in the large enterprise segment, for which adequate reinsurance coverage is in place.

The Company has developed a new commercial organization model, which has allowed human resources to work on the basis of well-defined, yet flexible and dynamic, roles and guidelines. To adapt the organizational structure to the Company’s growth plans, changes were made to expand the agent network and to improve local supervision. In this way, the Company was able to meet with resolve a period of significant market challenges, obtaining substantial results, both in terms of expansion of the sales network and improvement of customer service, especially in the claim management phase.

In keeping with the commercial development plan, the Agency Network has always been considered to be strategic by the company for the purpose of achieving the objectives set. With careful and selective underwriting and a constant and continuous search for common objectives it was possible to achieve significant results, thanks also to well established roots in the territory.

At year-end 2015, the Company had 413 agencies and 966 sub-agencies (compared with 409 and 922, respectively, in the previous year) throughout Italy.

Objectives

Vittoria Assicurazioni operates in all lines of insurance, and founds its activities on a long experience in the insurance field, gained since 1921, for the protection of individuals, families and companies.

The main objective of the company is to honour in proper time contractual commitments to policyholders, realizing a reasonable profit margin.

This goal is supported by the achievement of technical profitability, a policy of consolidation of the portfolio acquired, the loyalty of existing customers, but also by the increase in market share in non-life (core business of Vittoria Assicurazioni) and the acquisition of new production in the Life business.

In carrying out its insurance activities, the company pays attention to the management of its risk profile, principally through:

- an accurate risk pricing;
- a careful diversification of risks based on customer segmentation. In particular, although preferring the risks of personal lines and small / medium businesses, it is not neglected segment of large companies, on which are provided adequate reinsurance covers;
- diversification of sales channels achieved through careful geographical segmentation of markets;
- the continuous training of the agency network that determines a careful portfolio selection and a constant search for common objectives.

Next to the insurance business, the company implements low-risk investment policies that ensure an adequate return without departing from its risk appetite goals. Investment management, led by the profile of the insurance liabilities, pays particular attention to the protection of the financial strength of the company (most of the profits are reinvested in the company), without disregarding the search for adequate returns with a positive contribution to development of assets, favouring investments in the Eurozone, in government securities with fixed yield and in the real estate segment.

The company also pursues other strategic objectives, such as:

- the comprehensive development of the Company;
- the stabilization of the real estate segment;
- the optimization of costs in the medium term;
- the realization of profit for shareholders.

Risk management

The system of risk management of the company is regularly adjusted on the basis of the changing macroeconomic and regulatory scenarios; the latter are represented, in particular, by the entry into force of Solvency II regulations.

The company determines the significance of the risks on the basis of the possible impact that these may have on:

- A. the total Solvency Capital Requirement evaluated through Solvency II Standard Formula metrics;
- B. achieving the strategic and business goals;
- C. the continuity of business operations.

A. Standard Formula Risks (Solvency II)

Both quantitative and qualitative analysis led until 2015 and the forecasts for next years, pointed out that the main risks modules are:

Underwriting Risk (underwriting and pricing) Non-Life: it reflects the possibility that premiums are not sufficient to cover claims plus expenses and it depends on the selection of risks and events covered (including catastrophe) as well as by results in the actual loss experience compared to the estimated one.
Reserving Risk Non-Life: it is derived from quantification and development of technical reserves and considers the possibility that the provisions will not be appropriate in respect of commitments to policyholders and injured parties. The claims reserve represents the ultimate cost of the company to pay off all obligations derived from claims notifications already received or estimated (IBNR claims) and is determined according to documentation and actuarial valuations available at the time of financial statement closing. Reserving risk is constantly monitored through actuarial analysis similar to those used for the determination of reserves, observing the development of the ultimate cost and varying coherently the reserves.

Equity Risk: It reflects possible adverse changes in the level and volatility of the market value of financial instruments and equities. The company is exposed to equity risk related to equities and investments in listed and unlisted companies and units in investment funds and mutual funds.

Operational Risk: possible losses resulting from inefficiencies of people, processes and systems, including those used for distance selling, or from external events, such as fraud or the activities of service providers. The operational risks of the company and of the group are linked to internal factors (e.g. inefficiency of people, inadequacy of processes, systems or internal fraud) and external events (e.g. external fraud and activities of outsourcers).

Real Estate Risk: it reflects possible adverse changes in level and volatility of market prices of real estate. The company is exposed to real estate risk with reference to lands, buildings, rights on properties and to direct and indirect investments in real estate companies. The estate properties for own use of the company are included in this type of risk.

Other minor risks

Disaster Risk Non-Life

Reinsurance cover in place to reduce the earthquake risk exposure have been calculated using the main tools available on the market, depending on the evidence of the maximum probable loss on the portfolio of the Fire and other Damage to Property (technological risks segment) calculated for a return period of 250 years, which is the one most widely used in the Italian market. The protection purchased is higher than the requirement shown for the worst-case scenario.

For exposures to hail risk a cover was purchased for exposure to the risks present in the land vehicle hulls line, far higher than the worst claim that occurred in this line.

Exposure to catastrophic flood risk was calculated based on an assessment model used by other market operators and the capacity purchased, as in the case of the earthquake risk, far exceeds the worst hypothesis of the model.

Life Business Risks

Insurance risks related to mortality, longevity, disability and long-term care, in addition to those arising from changes in contractual and business expenses and redemption related to the abnormal exit of the contracts are valued conservatively in the product pricing phase, culminating in the adoption of assumptions (the first order technical bases) that are considered the best to cover the risks taken, taking into account both the financial component for both the demographic, regulatory restrictions (eg, maximum limits financial guarantee) and the latest information on demographic trends (eg, mortality and / or survivorship) and portfolio trends (eg cancellations and surrenders, etc.).

The pricing phase, which is implemented by means of profit testing techniques, also requires the definition of further assumptions (second order assumptions) obtained from the Parent Company's own experience or from the market if not available.

These assumptions are integrated with macro-economic assumptions like trends in market interest rates, inflation, cash flow discount rates and assets' rate of return, mortality and expected portfolio trends and industrial hypothesis on levels of commercial and administrative costs and expenses.

As part of such valuations, sensitivity analyses are performed of how the result varies according to changes in the above assumptions.

A similar procedure is applied when moving from the ex-ante valuation to the ex post valuation carried out on the entire portfolio in order to check the valuations made when designing the product.

With regards to reserve calculation, this is performed according to formulae included in the notes and technical reports kept by the company as first order technical bases. The pricing structure with a greater impact on the company portfolio and those related to new products are checked on the basis of the same method of calculation.

Moreover, periodic monitoring is carried out on portfolio movement by ministerial category, through an analysis of cash inflows and outflows that determine a variation of the technical reserves from the beginning of the accounting term until the date of the new provisioning.

B. Potential threat to the strategic goals and business

The risks that could hinder the achievement of strategic objectives and business are mainly the following categories:

Risk of Non Compliance with Standards, defined as the risk of incurring legal or administrative sanctions, significant financial losses or reputational damage as a result of infringements of obligatory rules (laws, regulations), of self-regulatory standards (e.g. statutes, codes of conduct, self-regulatory codes, etc.) or the risk arising from adverse changes in the law or legal guidelines.

Reputational risk related to Risk of Non-Conformity to Standards; is the risk of impact on earnings or capital arising from a part of its main stakeholders negative perception of the Company or the Group (customers, shareholders, investors, lenders, regulatory authorities, employees, partners, distribution network, suppliers, general public, etc.). The appreciation judgment is usually tied to the organization's quality, the characteristics and behaviours that derive from experience, from hearsay or from the observation of past actions of the organization.

Risk of Asset Liability Management (A.L.M.): derived by the inadequate alignment of the characteristics of the assets with that of liabilities from which it can derive a financial and/or income unbalance.

Credit risk: reflects the possible losses generated by an unexpected default or deterioration in the credit standing of the counterparties and debtors of the company and the group. The company exposures to which the risk of default is applicable mainly regard: reinsurance agreements, receivables from other companies, cash at bank or the post office, receivables from intermediaries (e.g. receivables from agents) and customers (e.g.: for premiums, deductibles for) and loans (residential mortgage).

Liquidity risk: reflects the possible losses arising from the difficulty of honouring the cash commitments, expected or unexpected, to counterparties. The risk arises mainly from the "Liquidity Mismatch Risk", that is the lack of alignment between the cash inflows and cash outflows, or poor management of the treasury and the "Market Liquidity Risk", or the sale of assets (such as for example, less liquid assets) in economic and unfair timing conditions, accordingly impacting the Net Asset Value of the parent company.

Government risk: the risk arising from the possibility that States issuers of Government securities are not able to fulfil efficiently the commitments made through the issuance of the same, as well as the risk resulting from a change in the implied spread. The company for the management of this specific risk uses specific methodologies and monitoring activities.

Insurance Risk Retention: derives from the definition and implementation of an inadequate reinsurance policy that can lead to a sub-optimal level of retention and an inefficient mitigate exposure to risks.

Risks related to the Group or the risk of "contagion", i.e. the risk that, as a result of the relationship between the company and other group entities, difficult situations that arise in an entity of the same group can propagate with negative effects on the solvency of the company itself. In the present case it is included the risk of conflict of interest, which is managed by the Related Parties Procedure adopted by the company which defines the rules, the procedures and principles necessary to ensure the transparency and substantial and procedural fairness of transactions carried out with related parties of the parent company.

C. Business continuity Risks

The risks that might impede the business operations continuity are mainly due to these types, belonging to the category of operational risk:

- IT Risk;
- Business continuity;
- Risk of inefficiency or inadequacy of processes and people;
- Fraud risk;
- Risk of activities of outsourcers.

Capital Management

The company quantifies the capital required by supervisory regulations and its own funds eligible until 31 December 2015 with Solvency I criteria and, from 1st January 2016, based on the Solvency II regulations.

It has been prepared a specific policy and a medium-term capital management plan, which provides for the continuous monitoring of the levels of capitalization.

The Company operates in France on the basis of the free-provision-of-services regime; during the year there has been no significant premium collection.

With regard to the Italian insurance market, it is noted that the premiums as at 30 September 2015 (latest data IVASS) show, compared to the same period of last year, an increase of the life business of +4.5% and a decrease of the Non-Life business of the -2.3% (of which Motor Third Party Liability -6.5%).

The following charts highlight premium volume and portfolio breakdown in the last five FYs.

Italian Direct Business

Life business

The products currently marketed by the company cover all insurance business lines, from savings (“revaluable” policies relating to segregated accounts), protection (policies covering risks of death, disability, and non-self-sufficiency (i.e. long-term care) and supplementary pension plans (individual pension schemes and open-ended pension fund). The product range also includes unit-linked financial policies. The lines marketed include policies that envisage the possibility of converting the benefit accrued into an annuity. Conversion takes place at the conditions in force when the option is exercised. The types of tariffs used are those for endowment, whole-life and term-life policies, on both an annual and single-premium basis, and fixed term policies, plus group tariffs for whole/term life and/or disability policies. Contractual terms are updated constantly and are in line with those commonly offered by the market.

The key features of FY2015 are summarised in the following table, where they are compared with data for the previous FY:

In FY2015 the funds relating to segregated funds achieved the following returns. The rate of return allocated to policyholders complies with the specific contractual terms stipulated.

	(€/000)			
	Rate of return	Total Assets	Rate of return	Total Assets
	2015	2015	2014	2014
Vittoria Rendimento Mensile	3.21%	759,774	3.57%	644,162
Vittoria Valore Crescente	3.84%	134,916	4.00%	188,080
Vittoria Liquinvest*	4.30%	1,993	3.98%	2,393
Vittoria Previdenza*	3.90%	51,936	4.58%	34,023

* Observation period: 01/10/2014 - 30/09/2015

* For non-Italian readers: with the Italian “revaluable” policy, which is of the endowment type, the insurance company, at the end of each year, grants a bonus that is credited to mathematical reserves and depends on the performance of an investment portfolio. This bonus is determined in such a way that total interest credited to the insured is equal to a given percentage of the annual return of the reference portfolio and in any case does not fall below the minimum interest rate guaranteed. The “revaluable” policy is therefore of the participating type.

Premiums

The Premiums for direct Life business amounted to 218.327 thousand euro, against 250.613 thousand euro in the previous year (-12.9%) and are broken down as follows:

	(€/000)

Surrenders and claims relating to investments for which policyholders bear the risk (Classes III unit- and index-linked policies) and VI (open-ended pension fund) totalled 13,056 thousand euro vs. 8,102 thousand euro in FY2014.

Reinsurance

Outward reinsurance

In the Life business, the main treaties in place, which relate to Class 1 (whole/term life), are as follows:

- Excess of claims;
- Pure office premiums – treaties set up in 1996 and 1997.

Ceded premiums in the FY2015 amounted to 1,209 thousand euro vs. 1,234 thousand euro in FY2014.

Inward reinsurance

With respect to the life business, there is a traditional pure-premium treaty no longer fed with new business, which merely records changes occurring in the related portfolio and a commercial premium treaty that refers to a portfolio of policies that have revaluable annual premiums.

Non-Life business

Technical result

The following table shows – in total and by line of business – the technical results of direct and indirect business, net of related outward reinsurance, equalisation (i.e. smoothing) reserves – compared with the same data for the previous FY. The result shown does not take allocation of investment income earned during the FY into account.

The technical performance shows a positive result, an improvement compared to the previous year, thanks to a continuous review of the risks in the portfolio, a careful policy of new risks underwriting and a steady rate review.

The analysis for the different lines of business is set out below:

NON-MARINE BUSINESSES

Overall Non Marine business recorded an increase in premiums, thanks to the acquisition of new customers and to a policy of consolidation and development of monoline motor customers portfolio in Non Marine business.

The overall technical result, despite a higher incidence of claims due to atmospheric hazards, significantly improved compared to the previous year, thanks to a lower incidence of serious claims .

More specifically, individual lines of business featured the following technical results:

Accident: the business shows 5.3% growth in terms of premium compared to the previous year, thanks to the development of the sale of the collateral injuries of the driver in combination with the motor policies. The technical result shows a further improvement compared to the previous year (+47.8%), despite higher incidence of serious claims.

Health: the line registered a 3.8% increase in premiums, with a technical result improved compared to last year (+60%) despite higher incidence of serious claims.

Fire and natural events: This line of business shows an increase in premiums by 4.4% and a significant improvement in the technical result compared to the previous year (+80.8%).

Miscellaneous damages: premiums, including the risk of theft, hail and damage to electronic and technological equipment, recorded a slight decrease compared to previous year by 3.2%. The technical result, still negative, improved compared to the previous year (+12.0%), thanks to the first effects of actions previously undertaken in order to revise tariffs and risks in the portfolio.

General TPL: premiums increased by 4.1%. The technical result is positive, a marked improvement on the previous year (69.3%), thanks to the effects of reform actions in progress and to the lower incidence of major claims, mostly related to the segment of the TP of professional.

Various pecuniary losses: premiums increased by 6.9%, with a positive technical result, a significant improvement compared to the previous year (+20.2%), thanks to an increase in premiums related to new ancillary Motor products with low loss ratio.

Legal protection: Premiums in this business line registered an increase by 7.5% with a positive technical result in further improvement on the previous year (+17.1%).

SPECIALTY BUSINESSES

The businesses showed a decrease in premiums of 31.0% with a negative technical balance, worse than that recorded in the previous year (-11.2%), mainly related to deposit business. In particular:

Credit: the branch includes only the risks related to the Salary-Backed Loans for which it has retained the right of recourse against the borrowers, in compliance with the provisions of Regulation No. 29/2009 IVASS.

Even in 2015 there is a decrease in premiums written, due to the continuing process of run-off of the line. This reduced activity resulted in a negative technical balance, also for 2015.

Bond insurance: premiums written showed a significant decrease of 32.8% compared to the previous year, the result of a thorough review of the underwriting policy that led to the acquisition of smaller risks in terms of exposure and the consequent lower average pricing. The risks taken are only marginally related to the realization of works of urbanization.

The increase in the number of claims compared to 2014, resulting in negative performance of the result of the line of business, is mainly due to risks taken in previous years for which it was not possible an early exit and related to real estate seriously depressed.

Watercraft (sea, lake and river) hulls and railway rolling stock: there was a slight decrease in the premiums recorded (3.4%), due to drop in sales in the watercraft segment. The technical result was negative due to a major fire claim occurred to one of our insured shipyards.

Goods in transit: premiums advanced by 0.9%, with a positive technical result.

MOTOR BUSINESSES

The business saw a 4.1% rise in the premiums recorded, with an overall positive technical result.

The portfolio consolidation policy continued.

In particular:

Third-party liability for land motor vehicles and for watercraft (sea, lake, and river): Constant portfolio selection, tariff policies and careful claims management enabled the business to maintain a positive technical result. The decline in the result compared to the previous year is mainly attributable to the reduction in the average premium paid by policyholders (despite an overall increase in premiums written) with constant claims frequency; both phenomena are recorded in the entire Motor market.

Land motor vehicle hulls: premiums reported a growth by 10.5% on the previous year. The technical result was positive, a marked improvement over the previous year.

Assistance: premiums grew by 21.1% with a positive technical result increase compared to the previous year (+9.5%).

The additional cost borne in 2015 for the road-accident victim guarantee fund was 15.267 thousand euro vs. 14,885 thousand euro in the previous year.

Anti-fraud activities

Claims which are presumed to be possible cases of fraud are handled by the company's special Anti-fraud Unit.

Savings for the year in relation to the Motor TPL business, quantified in accordance with Law 27/2012 implemented by Regulation No IVASS. 44, amounted to 5.1 million euro. As a result of the deepening in relation to fraud risk, savings of 4.1 million euro were achieved for claims that have been defined without result and 1.0 million euro for claims settled definitively, compared to the assessed value posted to technical reserves.

Claims reserve run-off – Retained risks

The claims reserve existing at the beginning of FY2015, compared with costs borne in the year for previous years' claim events - consisting of payments made and year-end reserving for claims yet to be paid – showed, for the only direct business, a surplus of 13,426 thousand euro, i.e. 1.4% of opening reserves, as highlighted in the following table:

Reinsurance

Outward reinsurance

Corporate policies concerning outward reinsurance are based on the same selection criteria as those applied for direct underwriting. They aim for development and size of the insurance book in relation to the entity of risks covered and for achievement of balanced net retention. Transactions are undertaken internationally with highly rated reinsurers.

The main existing treaties relate to:

<i>Non-life business</i>	<i>Type of treaty</i>
Accident	Excess Claims
Motor vehicle hulls	Excess Claims
Marine hulls	Excess Claims
Cargo (goods in transit)	Excess Claims
Fire and natural events	Excess Claims
Miscellaneous damage	Pure premium for hail, single-multi-risk
	Pure premium for engineering risks
	Pure premium for ten year guarantees
Motor TPL	Excess Claims
General TPL	Excess Claims
Suretyship	Pure premium
Legal protection	Pure premium
Assistance	Pure premium

Premiums ceded in the FY2015 totalled 28,586 thousand euro (36,018 thousand euro as at 31 December 2014).

Inward reinsurance

Acceptance of risks relating to the indirect business mainly arises from participation in syndicates and from acceptance of shares in Italian businesses, which are entered into voluntarily.

Commercial organisation

Development activity took the concrete form of the inauguration of 6 new Agencies and reorganisation of another 26, while 2 Agencies have been closed. As at 31 December 2015 the Company was nationally present with 413 General Agencies (409 as at 31 December 2014) and 966 professional Sub-Agencies (922 as at 31 December 2014).

The training activities are going on for the primary sales network (General Agencies) and for "second level" operators as sales clerk (producers and sub-agents). In addition, new training sessions were launched for agency employees.

In addition to courses provided directly by the Parent Company's internal trainers, in 2015 it was granted a series of professional training courses using external providers, selected on the basis of the requirements of Reg. 6/2014 Art. 14. The courses have had the following content: Non-Life - Motor, Non-Life - Accident and Health, Life - Protection and Saving, in the insurance and reinsurance technical areas and in the administrative and managerial area.

In 2015, was launched the second edition (the first three-year period ended in 2013) of the Project "Accademia Vittoria", which offers courses in managerial growth for agents, sub-agents and administrative workers.

Products – Research and development

During the year work continued on revamping products of the Non-Life and Life Business for technical operations and regulatory compliance in the sector (IVASS, COVIP, CONSOB).

As part of Non-Marine Businesses was introduced the new product "manufactured".

In the Life business, began the sale of new product at mixed tariff, called "Vittoria InvestiMeglio DoppiaEvoluzione".

Also, began the sale of new products at mixed tariff Line I, called "Vittoria InvestiMeglio Evoluz10ne continua", "Vittoria InvestiMeglio Evoluz10ne Reinvestimento" and "Vittoria InvestiMeglio Evolu7ione Coupon".

As part of the distribution channel differentiation they were included in the range and commercialized two new products for the banking channel: "Vittoria InvestiMeglio Evoluz10ne Coupon Banks" and "Vittoria InvestiMeglio Evoluz10ne Banks."

Overhead costs – direct business

The total amount of personnel costs, other costs, and depreciation & amortisation charges, before allocation to specific functions, i.e. claims handling, business production organisation, and asset administration, amounted to 115,884 thousand euro vs. 100,523 thousand euro in 2014, with an increase of 15.3% YoY.

Besides current operating expenses, these costs also include amortisation of investments in IT structures and processes aimed at containing, in future, overheads burdening the HQ and the agency network, whilst also improving services for policyholders as regards insurance cover and claims settlement.

The following table shows the breakdown of these costs, with “Other costs” consisting primarily of office operating costs, IT costs, legal and legal-entity costs, mandatory contributions, and association membership fees.

Gross Operating Costs	115,884	100,523	15.3
Percentage of Premiums Written	9.0%	7.8%	1.2

Overheads as a percentage of direct business premiums recorded was 9.0% (7.8% as at 31 December 2014). This increase is due to higher amortization totaling 10,880 thousand euro, charged entirely to the profit and loss, arising from the review of the residual life of the "New Age" system.

The item depreciation and amortisation does not include the amortization of operating buildings, such as the registered office in the Portello area of Milan. This depreciation is classified under the item “Capital and financial charges”, as indicated in the explanatory notes to these financial statements.

The weight average ordinary return of bonds and other fixed-income securities was 4.2% (4.7% in FY2014).

The result includes extraordinary income mainly due to gains of 9,376 thousand euro, following the sale of securities assigned to the non-current segment. This transaction took place in order to mitigate the risk of interest rate, by performing a realignment of the non-life portfolio duration, resulting in the sale of Italian government investment bonds assigned to the non-current segment for 44,995 thousand euro.

Value adjustments on equity investments relate mainly to investments in subsidiaries operating in the real estate sector, which suffers from a moment of general crisis.

Real estate

As at 31 December 2015 real estate assets totalled 189,281 thousand euro (-3.7% compared to 196,510 thousand euro as at 31 December 2014).

The largest items which make up the balance are:

- 90,800 thousand euro relating to the company's registered office building;
- 85,648 thousand euro relating to the buildings in the Portello area of Milan, rented to third parties;
- 6,934 thousand euro relating to the buildings loaned free of charge to agencies;
- 5,026 thousand euro used by third parties.

The change from 31 December 2014 is chiefly due to the annual amortization for a total amount of 7,449 thousand euro, of which 3,728 thousand euro related to owner occupied properties and 3,721 thousand euro related owner not occupied properties; at December 31, 2015, they were operated write-downs on owner not occupied properties for 339 thousand euro.

Further details are provided in the explanatory notes.

Fixed-income securities, equity investments, and mutual investment funds

Bond Portfolio

Regarding the bond portfolio, new investments were concentrated in Italian Government Bonds for an amount of 495,352 thousand euro, of which 118,405 thousand euro in the non-current sector.

The redemption of bonds generated a cash flow for an amount of 364,230 thousand euro generating a net capital gains of 1,366 thousand euro.

In order to limit the risk associated with interest rates, steps were taken to a realignment of the non-life portfolio duration, that resulted in the sale of Italian government investment bonds assigned to the non-current segment for 44,995 thousand euro, generating a capital gain of 9,376 thousand euro.

As provided in the Company's investment policy, during the accounting term fixed interest securities for an amount of 113,515 thousand euro with a residual maturity of less than two years were transferred from the non-current to the current sector.

Have been cashed 16 thousand euro as partial payment of the liquidation process of Bond Swissair in default accounted as capital gains.

Mutual investment funds

During the financial year the changes relating to collective investment funds, for long-term use were as follows:

- 9,051 thousand euro were paid for fund recall and credits for the amount of 11,091 thousand euro were received as partial refund of units, with respect to Italian closed-end investment funds managed by Yarpa Investimenti SGR S.p.A., a 100% subsidiary of associate Yarpa S.p.A.;
- 13,000 thousand euro were paid for the subscription quotas of three Funds Alternative Investment open (Private Debt/Loans/High Yield fund);
- 12,423 thousand euro were paid for the subscription of closed-end investment funds and received reimbursements for 3,378 thousand euro with detection of 33 thousand euro of net capital gains.

Equity Portfolio

The following were the changes during the financial year with respect to the Equity Portfolio for long-term use, excluding controlled companies, associate Companies and Subsidiaries:

- Downall s.r.l. in liquidation: payment of 9 thousand euro for extinction of obligations for payment of share capital;
- Sofigea s.r.l. in liquidation: extinguishment of participation for 705 thousand euro for approval of the liquidation balance sheet.

The following were the operations related to Controlled Companies, Associate Companies and Subsidiaries:

- Acacia 2000 S.r.l.: subscribed share capital increase of the Subsidiarie. In this transaction Vittoria Assicurazioni S.p.A. subscribed the stake of share capital increase, not taken up by other shareholders, thus becoming owner of a holding of 65.51% of the capital at a cost of 150,000 thousand euro. It was subsequently purchased, by a third party, an additional stake of 2.03% at a price of 4,650 thousand euro;
- Vittoria Immobiliare S.p.A.: recorded a write-down of the investment by 6,000 thousand euro for impairment;
- VP Sviluppo 2015 S.r.l.: payment to the future capital increase account for 3,000 thousand euro and recorded a write-down of the investment by 3,329 thousand euro for impairment;

- Movincom Servizi S.p.a.: recorded a write-down of the investment by 756 thousand euro to cover losses;
- Consorzio Movincom S.c.r.l.: payment of 38 thousand euro to cover past losses, with relative write-down of the investment;
- joined the Consorzio Servizi Assicurativi at a cost of 0.4 thousand euro.

Pursuant to the article 2428, paragraphs 3 and 4, it is certified that Vittoria Assicurazioni S.p.A. did not carry out any transaction, directly or indirectly, involving its own shares and shares of the Parent Company.

Investments benefiting Life policyholders who bear related risk and relating to pension fund management

As at 31 December 2015 these investments amounted to 58,636 thousand euro (61,823 thousand euro as 31 December 2014).

Of the total 8,247 thousand euro related to unit-linked policies linked to funds outside the company, 33,249 thousand euro to unit-linked policies linked to the company's internal funds, and 17,140 thousand euro to the Vittoria Formula Lavoro open-ended pension fund. The index-linked policies were fully reimbursed.

Overall net return was positive and totalled 4,238 thousand euro thanks to the positive trend in financial markets (3,763 thousand euro in 2014).

Investment and financial risk management & analysis policies

Financial risk management

The financial risk management system is designed to assure the company's capital soundness via monitoring of the risks inherent in asset portfolios due to adverse market conditions. In this perspective, specific investment policies have been designed and special procedures adopted.

Investment policies: objectives

A) Life and Non-Life investments with risk borne by the company

Investments are managed according to the following objectives:

- assure the company's capital soundness;
- for the Life segment, assure a stable return higher than the technical rate envisaged by contracts in force;
- for the Non-Life segment, assure a stable return in line with the forecasts factored into product tariffs and positive cash flows;
- distribute the securities portfolio's duration taking liabilities' duration into account;
- give preference to continuity of returns rather than to achievement of high returns in limited periods of time.

As regards Life segregated accounts, the fixed-investment securities portfolio takes treasury cash flows into account, consistently with what is envisaged in the company's plans, also considering the law of lapse of the portfolio due to natural and voluntary causes. As instead regards the Non-Life business, the investment choices made by the company, in terms of fixed-investment securities, are more than supported by the expectations of surplus liquidity generated by current operations, as factored into the company's development plans, and as in fact achieved in previous FYs. These expected flows are also able to address scenarios featuring any increase in claims settlement speed.

In order to protect investments' value from exchange-rate fluctuations, the company can use financial derivatives.

The company can purchase and retain warrants received as part of capital operations undertaken by the issuers of equities held in the portfolio.

B) Life investments with risks borne by policyholders

Investments benefiting policyholders who bear related risk (index- and unit-linked policies) and those relating to pension-fund management are managed according to the objectives envisaged by relevant policies and by pension funds' regulations, with the constraint of total transparency vis-à-vis policy holders and in compliance with specific legal regulations. In order to protect investments' value from exchange-rate fluctuations, the company can use financial derivatives.

Warrants in the internal funds linked to unit-linked policies can be bought and sold, if this is expressly envisaged by the fund's regulation.

Procedures

In order to keep its exposure to financial risks under control, the company has equipped itself with a structured system of procedures and activities. These assure regular reporting able to monitor:

- the market value of assets and their consequent potential losses vs. carrying value;
- macroeconomic and market-variable trends;
- for bond portfolios, issuers' rating of the issuers and analysis of sensitivity to interest-rate risk;
- compliance with the investment limits defined by the Board of Directors;
- overall exposure to the same issuer.

The company also performs ALM (asset-liability management) analyses the main objective of which, in a medium-term perspective, is to:

- provide joint dynamic projections of cash flows and of other asset and liability features in order to show any income-statement and/or financial mismatching;
- provide an indication – for asset portfolios backing life insurance contracts - of the expected trends in asset portfolios' rates of returns compared with contractual minimum returns;
- identify the variables (financial, actuarial and commercial) that may have a greater negative impact on results by performing specific stress tests and scenario analyses.

The results of the above activities and reports are regularly reviewed by the Finance Committee. This committee has been set up within the Board of Directors and has been delegated to supervise the securities portfolio's performance and to define investment strategies within the limits established by the Board in investment policies.

Financial risk analysis

In this chapter we describe the risks to which the company is exposed in relation to financial markets' movements. These risks are grouped in the three main categories, i.e. market risk, liquidity risk, and credit risk.

The chapter does not discuss investments benefiting policyholders who bear the risk of such investments and investments relating to pension-fund management, because these are strictly connected with related liabilities.

Market risk

Market risk consists of interest rate risk, price risk and exchange rate risk.

Debt securities are exposed to interest-rate risk.

The interest-rate risk on fair value is the risk of a financial instrument's value varying due to changes in market interest rates.

A decrease in interest rates would cause an increase in the fair value of such securities, whereas an increase in rates would decrease their fair value.

The interest-rate risk on cash flows relates to possible changes in the coupons of floating-rate securities.

The carrying value of fixed-interest debt securities exposed to interest-rate risk on fair value totalled 1,801,400 thousand euro (97.6% of the bond portfolio with investment risk borne by the company), of which 1,258,002 thousand euro classified among investment securities (i.e. for long-lasting utilisation) and 543,398 thousand euro among trading securities (for temporary utilisation).

The carrying value of floating-rate debt securities exposed to interest-rate risk on cash flows totalled 43,630 thousand euro (2.4% of the bond portfolio with investment risk borne by the company), all classified to the non-current segment.

Life insurance contracts envisage a guaranteed minimum rate of interest and feature a direct link between investments and benefits to be paid to policyholders.

This direct link between obligations to policyholders and investments of assets associated with benefits is governed by means of the integrated asset-liability management (ALM) model mentioned earlier.

More specifically, the company manages interest-rate risk by matching asset and liability cash flows and by maintaining a balance between liabilities' duration and that of the securities portfolio directly related to such liabilities.

Duration is an indicator of the sensitivity of asset and liability fair value to changes in interest rates.

To complete disclosure, the following tables show the carrying value of fixed-rate securities by maturity and the carrying value of floating-rate securities by type of interest rate.

Equity securities are exposed to price risk, i.e., the possibility of their fair value varying as a result of changes arising both from factors specific to the individual instrument or issuer and from those affecting all instruments traded on the market.

As at 31 December 2015, investments in equity securities (excluding equity interests in subsidiaries, affiliates, and associates) amounted to 28,918 thousand euro, of which 10,354 thousand euro relating to listed stocks and 18,564 thousand euro to unlisted stocks.

The company is not exposed to foreign exchange risk since, as at 31/12/2015, all investments for which it bears the risk are expressed in euro, observing the principle of consistency with technical reserves.

Liquidity risk

The company is daily required to execute payments arising from insurance and investment contracts stipulated.

The liquidity risk is the risk that available funds may not be sufficient to meet obligations. It is constantly monitored by means of the ALM procedure.

This risk may also arise as a result of inability to sell a financial asset fast at an amount close to its fair value.

The greater the weight is of financial assets listed in active and regulated markets, the less likely it is that this will happen.

As at 31 December 2015, as shown in the previous section "Securities portfolio breakdown", financial assets listed in a regulated market accounted for over 96% of financial assets owned.

Credit risk

In implementing its investment policy, the company limits its exposure to credit risk by investing in highly-rated issuers.

As can be seen in the table below, as at 31/12/2015 nearly all corporate bonds held by the group were rated as investment grade.

(€/000)

Rating (Standard & Poor's)	Amounts	% of breakdown

Relations with the Supervisory Authority

From 18 May to 2 October 2015, IVASS has carried out inspections at the Company involving the government, the management and control of investments and financial risks. On 3 December 2015 IVASS officials explained to the Company's Board of Directors the outcome of the investigation by asking for further information on the above subject. On 2 February 2016, the Company sent to IVASS its considerations, the overall action plan and the actions already undertaken.

Solvency II - implementation process

The main activities performed during 2015 and in progress in 2016 with reference to Pillar I (Quantitative requirements) and Pillar III (Information to supervisory stakeholders and supervisory reporting) are as follows:

- o a specific system is in use to produce calculation and reporting data required by the supervisory authority on quarter and annual basis;
- o relating to data quality, the definition of the aspects of governance and the formalization of its policy will be completed in the course of 2016. These high level assumptions will be matched by the definition of the Guidelines on Data Quality, describing in great detail the operational activities of all the departments involved in the supply phases and / or use of business data. The definition of such guidelines have already been completed for what concerns the calculation process of Undertaking Specific Parameters (U.S.P.);
- o the process of calculating the U.S.P. is expected to be consolidated during 2016, starting from the preliminary sharing of assumptions and the scope of application. The instance for authorization by Ivass is expected to be prepared by the first half of the year.

With regard to Pillar II (Governance), in 2015 it was created the Actuarial Function and is currently in progress the update process for the guidance policies already working, as well as the finalization of the remaining policies required by law.

Also as part of the Pillar II, the Parent Company, since 2014, adopted the framework ORSA (Own Risk and Solvency Assessment), made up of all processes of analysis, decision-making and strategic implemented, as well as the methods used to assess continuously and prospectively capital requirements and the availability of capital resources. This framework is connected to the specific risk profile and appetite of the parent company.

Performance in early months of FY2016 and business outlook

Business trend of first months of 2016 is in line with the targets

In January 2016, the Company participated in the establishment of a new company called Digital Touring srl active in the development of digital services. Partners in the initiative is Touring Club Italiano that, through its subsidiary Touring Servizi Srl, will hold the newly-formed company's control. The share capital of Digital Touring srl of 2,400 thousand euro was signed for 45% by Vittoria Assicurazioni spa and for 55% by Touring Servizi srl.

Allocation of earnings

Shareholders,

EXPLANATORY NOTES TO ACCOUNTS

To Our Shareholders

Together with the Balance Sheet and Income Statement for the financial year ending on 31 December 2015, we also submit for your approval these Explanatory Notes, which, pursuant to Article 2423 of the Italian Civil Code, are an integral part of the year-end financial statements.

Format and content of year-end financial statements

The financial statements, prepared in euro, are presented in the specific format envisaged for insurance companies as per the requirements of Italian Legislative Decree no. 209 of 7 September 2005 "Private Insurance Company Code". For items not covered by the aforementioned Decree or by its implementation ordinances, the provisions of the Italian Civil Code and those of Italian Legislative Decree no. 173 of 26 May 1997.

Specifically, in compliance with ISVAP (now IVASS) Regulation no. 22 of 4 April 2008, the financial statements have been prepared as follows:

- the balance sheet and income statement are expressed in euro units. The arithmetical sum of rounding differences are recorded under captions F.IV.2) Sundry assets or G.IX.3) Sundry liabilities in the balance sheet and III.10) Extraordinary income or III.11) Extraordinary expense in the income statement;
- the Explanatory Notes to accounts, their appendices, and the restated balance sheet and income statement are presented in thousands of euro. Related rounding has been calculated to ensure consistency with the figures in euro units shown in the balance sheet and income statement.

As is required by regulations, the Explanatory Notes consist of three parts, i.e.

Part A – Accounting policies

Part B – Information on the balance sheet and income statement

Part C – Other information and cash flow statement.

The Notes include 32 appendices that analyse the technical and financial components of insurance and financial operations.

In order to provide more complete information, it has been deemed appropriate, as already done in previous years, also to present the restated balance sheet and income statement.

Restated balance sheet captions are shown net of reinsurance effects.

Other disclosures

Vittoria Assicurazioni S.p.A. has decided to exercise its right as provided in article 70, paragraph 8 and article 71, paragraph 1-bis of the Regulations for Issuers, to waive the obligation to publish documents that are required in significant merger, split, share capital increase by transfer of assets in kind, acquisition or transfer operations.

Part A

Accounting policies

The accounting policies used to draw up year-end financial statements comply with the requirements of Articles 2426 and 2427 of the Italian Civil Code, of Italian Legislative Decree no. 209 of 7 September 2005, of Italian Legislative Decree no. 173 of 26 May 1997 (to which the “Private Insurance Company Code” refers), of the IVASS regulation no. 22 of 4 April 2008 and of dispositions require by corporate law (Italian Legislative Decree no. 6 of 17 January 2003 and the following integrations and modifications), are described below.

In addition, the year-end financial statements comply with the requirements of Italian Legislative Decree no. 58 of 24 February and of CONSOB (Italian securities & exchange commission) guidelines, in particular no. 11971 of 14 May 1999 and the following integrations and modifications.

Unless otherwise specified, accounting policies relating to direct insurance also apply to outward reinsurance.

Taking into account the solvency ratio, the profitability of the Company and its careful management of risks, the financial statements have been prepared on a going concern basis.

Technical insurance captions

Classification of risks by business line

For the purposes of allocation of gross premiums written and of related transactions, classification of risks by business line is defined by Article 2 of Italian Legislative Decree no. 209 of 7 September 2005.

NON-LIFE

Premiums and related premium reserves are allocated to the various Non-Life Business lines analytically for single guarantee; operating costs and technical income are allocated to the various Non-Life Business lines through appropriated drivers.

Costs relating to claims are directly allocated to the individual lines if they refer to transactions relating to an individual event, since allocations are made on the basis of the type of cover involved in a claim. Costs common to several claims are allocated to the various officially defined lines according to the weight of indemnities paid during the financial year. Costs borne for claims in the current and previous financial years are allocated in proportion to the indemnities paid in the various years concerned. Only for the Motor TPL (third-party liability) line is the impact of the number of claims occurring in the year taken into account.

LIFE

Allocation of Life technical captions is done on a direct basis since the entire portfolio matches the regulatory classification.

Gross premiums

LIFE/ NON-LIFE

Premiums, together with their ancillary costs, gross of outward reinsurance are recognised as revenues upon maturity, regardless of when documents are recorded and of the date when they are effectively collected.

In the Non-Life business, cancellations of individual policies caused by technical events and by cancellations due to non-renewal are directly deducted from premiums, as long as they are issued in the same year. In the case of Non-Life business, the caption comprises all cancellations except for those relating to first-year premiums written in previous financial years.

For Non-Life business, allocation to the year is made via adjustment of the premium reserve. For the Life business, instead, it is implicit in the calculation of the mathematical reserves, of the complementary insurance premium reserve, and of other technical reserves of the life business.

Ceded and retroceded reinsurance premiums are accounted for in accordance with the contractual agreements made with reinsurers.

Operating costs

NON-LIFE/
LIFE

Operating costs include:

- acquisition commissions
They include the commissions paid on the acquisition and renewal (also tacit) of contracts. They also include extra commissions and commission bonuses commensurate with achievement of productivity targets;
- other acquisition costs
They include personnel expenses, logistics costs, costs for services and purchase of goods of the management departments involved in the assessment, issue and management of insurance contracts. They also include costs accorded to the agency network for the issuing of contracts and for extra bonuses and commission bonuses not linked to productivity targets, plus costs incurred for medical check-ups;
- changes in commissions and other acquisition costs to be amortised
The item includes the year's portion of amortisation for acquisition commissions and other acquisition expenses;
- premium collection commissions
This item includes commissions paid for collection of premiums relating to long-term contracts;
- other administrative costs
They include personnel expenses, logistics costs, costs for services and purchase of goods of the company departments other than those relating to the other acquisition costs indicated above and those allocated to claims settlement and investment management. They also include charges incurred for the termination of agency agreements not the part not subject to compensation;
- commissions and profit participation received by reinsurers
This includes commissions and profit-participation amounts for reinsurers as established by contractual agreement for premiums ceded and retroceded.

Premium reserve

NON-LIFE

The Non-Life premium reserve is calculated on a pro-rata temporis basis, contract by contract, based on premiums written net of direct costs and of the unearned portion of premiums, i.e. pertaining to the period after December 31st in the financial year concerned.

There is an exception to this rule for the calculation of the reserve for some business lines for which risk exposure does not decrease as time elapses or for which the correlation between policy premiums and potential claim costs does not follow the usual economic and technical criteria.

The IVASS Regulation no. 16 of 4 March 2008 defines the business lines and the criteria of calculation, which are recalled below:

- Suretyship insurance: the additional reserve follows the criteria envisaged by article no. 14 of above mentioned Regulation;
- Hail insurance: the additional reserve follows the criteria envisaged by articles no. 16 and 17 of above mentioned Regulation;
- Miscellaneous asset damage - (earthquake, seaquake and volcanic eruption insurance): the additional reserve follows the criteria envisaged by articles no. 19 and 20 of above mentioned Regulation;
- Nuclear risks: the additional reserve follows the criteria envisaged by article no. 22 of above mentioned Regulation.

The premium reserve is supplemented by:

- The reserve for unexpired risks: this reserve is set up to cover risks incumbent upon the company after the balance sheet date. It is a technical provision, mandatorily required by article no. 11 of IVASS Regulation no. 16 of 4 March 2008, possibly normalized to consider non-recurring events, made if, and to the extent that, the total amount of the presumed cost of expected claims – relating to in-force policies – is estimated to exceed the reserve for unearned premiums plus premiums outstanding, net of acquisition costs, for deferred-premium policies.

For the assessment of Unexpired risk reserve of the 14 line of business - Credit is not considered that the empirical method (Art. 11 Sec. II IVASS regulation No. 16) is consistent with the type of portfolio risks Vittoria which is entirely represented by the Salary-Backed Loans with the possibility of recourse.

The inadequacy of the empirical method is to use the pro rata premium reserve which assumes a linear distribution of risks. The expected loss ratio is in fact linked to the outstanding principal of outstanding contracts that is decreasing with respect to their maturity. Being a portfolio developed in the past years that today is an average of half of the period of coverage and so already today do not detect a significant new production, it was considered more appropriate to use a method of estimating the expected loss ratio.

Reinsurers' premium reserve: this is calculated applying the same criteria as those used for direct business and inward reinsurance.

Other technical reserves

NON-LIFE

This caption comprises the aging reserve for health insurance as required by Article 37 of Italian Legislative Decree no. 209 of 7 September 2005.

Calculations include all the products that, in setting premiums, do not take into account changes in the policyholder's age and contain clauses that limit the Company's ability to withdraw, as indicated by paragraph 1 of article 46 of IVASS Regulation 16/2008.

The estimate is based on a comparison between estimated cash inflows (all premiums expected to be collected in future years on the contracts held in portfolio at December 2015) and estimated cash outflows (all losses expected to be paid for the contracts held in portfolio at December 2015).

For consistency and as a comparison, the reserve was calculated on a lump-sum basis by setting aside 10% of gross premiums written, as envisaged by paragraph 3 of article 47 of IVASS Regulation 16/2008.

Equalisation reserves

NON-LIFE

Equalisation reserves comprise all sums provisioned in compliance with Article 37 of Italian Legislative Decree no. 209 of 7 September 2005 in order to smooth fluctuations in claims rate in future years or to cover special risks.

The item includes:

- the offsetting reserve for credit insurance as per Article 42 of IVASS Regulation no. 16/2008;
- the equalisation reserve for risks of natural disasters; the calculation is in accordance with the Ministerial Decree of 19/11/1996.

Equalisation reserving for FY2015, by business line, is shown in Appendix 25 to the Explanatory Notes.

Costs relating to claims paid

NON-LIFE

In the Non-Life business costs relating to claims paid include amounts paid in the year as indemnities and direct expenses, as well as claims adjustment expenses and the cost of the contribution to the guarantee fund for road-accident victims.

Direct expenses are those incurred to avoid or minimise claim damage, including litigation costs as per Article 1917, paragraph 3, of the Italian Civil Code, rescue expenses in transport and aviation insurance, and extinguishing costs in fire insurance.

Settlement costs include amounts paid to professionals appointed for the purpose, personnel expenses, logistics costs, and costs for services and goods of the company departments dedicated to claims settlement and handling.

LIFE Costs relating to claims in the Life business include sums recognised in the financial year against capital sums and annuities accruing, surrenders, and claims, including those relating to complementary insurance.

**NON-LIFE/
LIFE** The amount of reinsurers' share of costs is calculated according to the provisions of provisions of contracts in place.

Recoverables

NON-LIFE The caption includes, sums to be recovered from policyholders and third parties for remedying of claims in policies with no-claims clauses, for deductibles, and for subrogations.

The income statement recognises the difference between the amount at year-end and the amount existing on 31 December of the previous year, together with what has been recovered during the year.

Claims reserve

NON-LIFE The claims reserve reflects the prudent evaluation of estimated indemnities and adjustment costs for claims relating to direct business that have been incurred and not yet paid, either totally or in part, as at balance sheet date. This valuation is performed considering the specific features of each line, based on all components forming the requirement for coverage of the claim's ultimate cost. "Ultimate cost" means the estimate of all foreseeable costs based on a prudent assessment of factual evidence (document examination) and forecasts (expected claims settlement time frame).

Assessment of each claim is performed according to the following phases:

- Preparation of inventory estimates for each open position by non-life claims settlement inspectors through sessions during the year;
- Analysis and checking of data and review of documentation concerning major claims by corporate management through sessions during the year.

Activities performed as part of claims assessment procedures are based on the following general criteria:

- Accurate and complete basic year-end inventory of all claims partly or totally not settled, highlighting claims that are the subject of disputes
- Analysis of claims featuring several positions in order to ascertain that proper evidence exists supporting each individual position;
- Separate indication of the quantification of bodily injury and property damage;
- Inclusion of estimated direct and settlement costs in the claims reserve. Settlement costs include both amounts paid to professionals taking part in claims handling and internal company costs relating to the claims handling department;
- Assessment of claims relating to credit and suretyship insurance in compliance with the dictates of Section 4 of IVASS Regulation no. 16 of 4/03/2008.

As regards current-generation claims, case documentation is examined at least quarterly to check the claim's progress and see whether the previous assessment was correct. In addition, the "continuous reserve" operating procedure is applied, which means that, when each partial payment is made or whenever new information is gathered, the claim is reviewed.

The field claims settlement network is supported by the audit technical management. The latter checks, in terms of merit and method, that corporate house rules are properly applied.

The claims reserve includes the estimate for IBNR claims, i.e. claims pertaining to the year that have been incurred but not yet reported by year-end but pertaining to the year. Amounts are calculated considering the average cost of the current generation.

The claims reserves thus calculated that relate to mass risks, insofar as they refer to positions settled in the medium-long term, are subjected to statistical and actuarial checks to assess their consistency with ultimate cost and, when necessary, are topped up.

The claims reserve for Card and No Card of TPL line comply with the requirements of Article 33 IVASS Regulation no. 16 of 4 March 2008, paragraph 1 in the case of the company would be “managing” and paragraph 2 in the case of the company would be “indebted”.

The total amount of claims reserve has been calculated in compliance with article no. 34 of the above regulation.

Mathematical reserves and other technical reserves

LIFE

Technical reserves for the Life business are calculated on the basis of the pure premiums and actuarial assumptions deemed to be appropriate as at the date when contracts were signed, insofar as they are still valid. Calculation of technical reserves is based on the rate of return determined on the basis of the related investments for respective “revaluable” benefits and on the mortality rate used to calculate pure premiums. In accordance with current regulations, the premiums-carried-forward component of mathematical reserves is calculated on a pure-premium basis. The reserve for operating expenses is calculated taking operating loading as the basis and the other technical bases of the tariffs applied. For policies featuring health- and/or profession-related premium surcharges, an additional reserve is calculated equal to a full annual premium surcharge.

The premium reserve for complementary accident insurance is calculated analytically, applying the premium-carry-forward criterion to related pure premiums.

In no case is the mathematical reserve lower than surrender value.

In compliance with the requirements established by Article 50 of IVASS (Italian insurance regulator) Regulation no. 21 of 28 March 2008, an additional demographic risk reserve has been set up relating to annuity contracts and to capital contracts with a contractually guaranteed annuity conversion factor, in order to adjust the demographic bases used to calculate mathematical reserves to direct portfolio experience.

Mathematical reserves are always supplemented, when necessary, in order to take into account the time lag between the period when a contractually recognised return accrued and the time when it is accorded to the insured (Article 37 of IVASS - Regulation no. 21 of 28 March 2008).

In compliance with the rules established by Articles 38-46 of IVASS Regulation no. 21 of 28 March 2008, an ALM (Asset & Liability Management) procedure is implemented for joint analysis of asset and liability portfolios of internal separately managed accounts considered significant. The aim is to calculate forecast returns for each of them.

Reversals and profit participation

NON-LIFE/LIFE

Profit participation includes all amounts pertaining to the year, paid and to be paid to Profit participation includes all amounts pertaining to the year, paid and to be paid to policyholders or other beneficiaries, including amounts used to increase

technical reserves or reduce future premiums, as long as they constitute distribution of technical profits arising from non-life and life insurance activities, after deduction of amounts accrued in previous years' that are no longer necessary.

Reversals consist of the amounts that are partial rebates of premiums made on the basis of each contract's performance.

Other technical costs

LIFE/
NON-LIFE

Other technical costs include:

- For the Non-Life business, premiums cancelled, due to technical events, of individual policies issued in previous financial years
- For the Life business, cancellation of first-year premiums written in previous years;
- Uncollectable premiums of amounts receivable from both Non-Life and Life policyholders;
- Costs relating to goods and services purchased to complement Non-Life insurance covers;
- Costs stemming from management of the knock-for-knock system.

Other technical income

LIFE/
NON-LIFE

Other technical income includes:

- Commissions relating to cancelled premiums included in other technical costs of the Non-Life and Life businesses;
- Income relating to management of the knock-for-knock system and to the subsidy accorded by the ANIA (Italian insurers' association) to encourage scrapping of damaged vehicles in the Non-Life business.

Transfer of investment income

LIFE/
NON-LIFE

The allocation of investment income to the non-life business technical account and the transfer of the life business technical account to the non-technical account was carried out in accordance with article 55 of Legislative Decree no. 173 of 26 May 1997 and articles 22 and 23 of IVASS Regulation no. 22 of 4 April 2008.

For the non-life business, the income to be transferred was determined by multiplying the non-life business investment income, net of capital and financial charges recorded in the non-technical account, by the percentage obtained from the ratio between the sub-total of the technical reserves net of reinsurance at the end of the current year and at the end of the previous year and the same sub-total plus the sub-total of the equity at the end of the current year and at the end of the previous year.

For the non-life business, the income to be transferred was determined by multiplying the non-life business investment income, net of capital and financial charges recorded in the non-technical account, by the percentage obtained from the ratio between the sub-total of the technical reserves net of reinsurance at the end of the current year and at the end of the previous year and the same sub-total plus the sub-total of the equity at the end of the current year and at the end of the previous year.

If the income from the investments allocated to the life business technical account is lower than the technical interest recognised by contract to the policyholders during the year, the amount to be transferred to the non-technical accounting must be correspondingly reduced, until it reaches zero, by an amount equal to this lower value.

NON-LIFE/
LIFE

Inward reinsurance

Inward life insurance is recorded on an accruals basis.

If there are no specific negative indications, the economic effects of non-life inward reinsurance are accounted for one year later than the year to which they refer, as the necessary information is not available at balance sheet date. Related financial and balance sheet movements are recorded in the balance sheet under Other assets – Other liabilities in the reinsurance suspense accounts.

Treaties concerning aircraft hulls represent an exception to the above accounting treatment as the space risk business is accounted for on a strict accruals basis.

Indirect business claims reserves generally reflect those reported by the ceding insurer and Vittoria Assicurazioni supplements them when they are deemed inadequate with respect to the commitments underwritten.

Retrocession

NON-LIFE/
LIFE

Retroceded business mainly relates to Line 05 Aircraft hulls – space risks. Items relating to retrocession are measured according to the same policies as those applied to inward reinsurance.

Allocation of costs and revenues common to both the life and non-life businesses

NON-LIFE/
LIFE

The company is authorised to operate in life and non-life insurance and reinsurance.

The criteria and methods for allocating costs and revenues common to both the life and non-life businesses are indicated in the report issued in accordance with article 4 of IVASS Regulation no. 17 of 11 March 2008. The main criteria for allocating the P&L items not directly attributable to either business are:

Other acquisition costs (including commission)

The costs for the company's sales function are allocated between the two businesses by dividing them into two distinct categories:

- the acquisition costs not directly attributable to purchase / collection commission (development plans, incentives, levies) use the mix of premiums issued at agency level as a driver.
- The remaining acquisition costs (contributions, agency rent, agent pension fund) use the mix of premiums at agency level as a driver.

The other acquisition costs also include personnel costs and overheads both of cost centres which are directly associated with acquiring policies (sales, assumptions) and those charged back to cost centres which carry out activities common to all company areas (general areas, IT). The costs can be allocated between the two businesses directly (as with the RE assumption service and the life business assumption service) or indirectly (general expenses) by using earned premiums as a driver.

Before doing this the costs are weighted in relation to the cumulative policies, in order to determine the total amounts for the life and non-life businesses.

Other administrative expenses (personnel costs and miscellaneous administrative expenses)

This category includes, in accordance with article 53 of Legislative Decree 173/95, all the remaining expenses not allocated to acquisition and liquidation costs.

For this category of costs the distinction between the two businesses is also made by using a direct criteria for all cost centres directly attributable to the non-life business or the life business, or by using the earned premiums (calculated using the same criteria adopted for other acquisition costs) as an allocation driver.

Investment captions

C I – Land and buildings

In compliance with Article 15, paragraph 2, of Italian Legislative Decree no. 173 of 26 May 1997, land and buildings are considered to be assets for enduring, long-term use, except in the case of buildings available for sale.

Refurbishments, improvements, and plant upgrades – which are all designed to extend building units' life and increase their profitability – are capitalised.

Ordinary maintenance costs are established in a long-term plan and are expensed in the income statement annually.

Market value

Measurement is based on the market value of each plot of land and building, taken from independent appraisals, which are drawn up taking into account, for property leased, the contractual lease payments required while for the head office, it was estimated a fee realizable potential in the current market conditions.

“Market value” means the price at which the plot of land or the building can be freely sold by means of an agreement between two parties (the seller and the buyer) in normal and evenly balanced conditions and, more specifically, if:

- Both parties act after have gathered the necessary information on the property's officially designated urban use, marketability, and absence of any prejudicial annotations as regards title;
- The seller is free, or otherwise, to sell and there are no economic/financial circumstances forcing him to do so;
- The buyer is not being encouraged to purchase by non-market related factors.

Furthermore, the following conditions are taken into account:

- The asset has been on the market for a time reasonably long enough to permit its fair sale;
- The deed of sale has been signed after negotiations permitting the definition of price and terms.

Besides considering differences relating to age, position with respect to the importance of the zone where it is located, the valuation of each building also considers typical factors (building type and quality, and state of preservation, etc.), possible profitability, any town-planning constraints and/or restrictions imposed by the Heritage Ministry, and anything else that which may have an impact on the asset's valuation.

Valuation of leased buildings takes into account the type of contract, its expiry date and rental, also as regards possible revisions.

C II – Investments in Group companies and other investees

Pursuant to paragraph 2, Article 15 of Italian Legislative Decree no. 173 of 26 May 1997, investments in Group companies and other investee companies are considered to be long-term assets.

Group companies

Article 5 of Italian Legislative Decree no. 173 of 1997 define group companies as being:

- a) Parent companies;
- b) Subsidiaries;
- c) Affiliates, i.e. companies, other than those included in item b) that are controlled by the same entity controlling the parent company or subject to common management as defined by paragraph 1, Article 60, of the above decree;
- d) Associate companies.

For the purposes of this classification, the concept of “control” is as defined in Article 2359, paragraphs 1 and 2, of the Italian Civil Code.

Other investee companies

This item comprises companies held for their strategic function or support of the insurance business.

Investments in group and other companies are measured according to the following criteria:

- Investments denominated in euro are measured at acquisition cost inclusive of ancillary costs;
- Investments denominated in foreign currency are measured at acquisition cost, inclusive of ancillary costs, converted into euro at the exchange rate in force on transaction date.

Acquisition cost is written down to allow for any permanent impairment shown in investee companies’ financial statements. If the reasons for such write-down no longer exist, the original value is reinstated in subsequent financial statements.

Dividends distributed by investee companies held are recognised when the right to collect them is established.

Information and changes concerning investments are provided in Appendices 6 and 7 to these Explanatory Notes.

C III – Other financial investments

Equity investments

This category includes short-term investments in shares and quotas. Measurement criteria are as follows:

- Listed securities are stated in year-end accounts at weighted average cost or, if lower, presumed realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist;
- Unlisted securities are stated at purchase cost, net of any losses recorded in investee companies’ approved year-end accounts. Once again, this lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist.

Foreign currency investments are converted into euro as follows:

- Purchases: at the exchange rate in force on the date of transaction or subscription;
- Sales: at the exchange rate in force on transaction date;
- Fair value: at the year-end exchange rate.

Dividends distributed by these companies are recognised when the right to collect them is established.

Units in mutual investment funds

Investments in this category, allocated to the current and non-current sector, are stated in year-end accounts at weighted average cost or, if lower, at realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist.

Unlisted closed-end mutual securities investment funds and real estate investment funds are measured at acquisition cost.

The value of investments in foreign-currency mutual investment funds is converted into euro applying the following criteria:

- Purchases: at the exchange rate in force on the date of transaction or subscription;
- Sales: at the exchange rate in force on transaction date
- Fair value: at the year-end exchange rate.

Bonds and other fixed-income debt securities

In accordance with the IVASS Regulation no. 36 of 31 January 2011, the Board of Directors has issued guidelines for classification of the debt securities portfolio. Fixed-income securities are therefore classified as shown below.

Investment securities

These securities are stated at acquisition cost, inclusive of all ancillary costs. Cost is adjusted in the eventuality of permanent impairment of value. The higher or lower cost with respect to their repayment price is amortised on a straight-line basis over the period from acquisition to maturity.

These securities are held until they mature as the company has the financial resources to do this. Their classification depends on their importance and/or the expected normalisation of the rate of return of technical reserves in general and of segregated Life accounts in particular.

Trading securities

Securities in this category, recognised at purchase cost inclusive of all ancillary costs, are stated in year-end accounts at weighted average cost or, if lower, at presumed realisable value based on market trends. This lower value is not maintained in subsequent year-end accounts if the reasons for the adjustment no longer exist. The cost of fixed-income securities is adjusted for the quota accruing in the year of margin, i.e. the difference between issue price and repayment value.

“Market trends” means, for listed securities, the price recorded on the last trading day of the financial year.

Foreign-currency securities are converted into euro applying the following criteria:

- Purchases: at the exchange rate in force on the date of transaction or subscription;
- Sales: at the exchange rate in force on transaction date
- Fair value: at the year-end exchange rate.

Fair value of financial instruments

In compliance with the requirements of Article 2427/2 of the Italian Civil Code, in Part B of the Explanatory Notes we provide information on the fair value of derivative financial instruments as well as – for non-current financial assets recognised at a value higher than their fair value (excluding investments in subsidiaries, affiliates, and joint ventures) – related carrying value and fair value, together with the reasons why carrying value has not been reduced.

The fair value of assets in Classes C II and C III, traded in regulated markets, is the price recorded on the last trading day of the financial year.

As envisaged in Article 2427/2 of the Italian Civil Code, for the definition of “financial instrument”, “derivative instrument”, “fair value”, and “generally accepted measurement model and technique”, reference is made to international accounting standards compatible with European Union rules concerning the subject.

If a market valuation is not available for the investment, fair value is determined either on the basis of another similar financial instrument’s fair market value or via use of appropriate valuation techniques. The latter include use of recent transactions, discounted cash flow analysis, or models able to provide reliable

estimates of presumed prices in current market transactions. If fair value cannot be reliably measured, cost is used, adjusted for any impairment loss.

Investments benefiting policyholders bearing risk

Financial investments benefiting policyholders who bear the risk of such investments are stated at fair value, i.e. at the price and exchange rate of the last trading day of the financial year.

The concept of “policyholders bearing the investment risk” is the feature decisive for application of the fair-value accounting standard to measure assets, as it immediately reveals the relationship between the trend in technical reserves and that of assets covering such reserves.

In year-end financial statements, these investments are classified as follows:

D I - unit-linked and index-linked investments

D II - investments arising from pension fund management

Mortgages and loans

Mortgage loans granted are all expressed in euro and are shown on the basis of residual principal as they are secured by mortgages on buildings.

Loans are all expressed in euro and, if rated as collectable, are stated at the residual principal value. They are adjusted by means of appropriate bad-debt provision.

Other captions

Tangible assets

Tangible assets are recognised at purchase cost inclusive of ancillary costs. They are shown net of related cumulative depreciation. Assets are depreciated on a straight-line basis over their estimated useful lives.

Intangible assets

Intangible assets are recognised at cost and amortised on a straight-line basis as follows:

- Business and/or product trademarks = over a 10-year period;
- Over a period that takes their residual possibility of use if they are assets coming under the 2nd point of Article 2426 of the Italian Civil Code;
- Costs incurred for the convertible subordinate bond issue approved by shareholders at the Extraordinary Meeting on 26 April 2001 = over a 10-year period;
- Start-up and expansion costs pursuant to the 5th point of Article 2426 of the Italian Civil Code;
- Goodwill is recognised as an asset upon approval of the board of statutory auditors, if acquired against payment, within the limit of the amount paid and is amortised in 5 years. If the goodwill residual useful life is reasonably higher than five years, the amortisation period can be extended up to twenty years, giving appropriate disclosure.

This caption includes deferred acquisition costs to be amortised, only refer to the Life business, as from the year 2015 the acquisition costs for long-term contracts of Non-Life are charged entirely to the profit and loss account in the year in which those costs are incurred.

LIFE

Acquisition costs for new contracts, for the part not outwardly reinsured, are capitalised, within the limits of their respective loading, and are amortised on a

straight-line basis over the duration of the underlying contract, with the maximum limit of 10 years. The amortisation period is considered to be economically consistent. Residual commissions of policies cancelled during the amortisation period are expensed in the financial year when the policies are eliminated from the portfolio.

Receivables

Receivables are shown in year-end accounts at face value adjusted to presumed realisable value via bad-debt provision.

With reference to the requirements of Article 2427 of the Italian Civil Code and of Italian Legislative decree no. 173/97, if in the section analysing balance sheet items, receivables are not specifically indicated as having a residual duration of more than one year and five years, they are taken to have a duration of less than one year.

Accrued, prepaid and deferred items

Accrued income, prepaid expenses, accrued liabilities, and deferred income link costs and income to the financial year to which they refer, even although related cash movements may take place after or before 31 December.

These items include only costs and income relating to two or more financial years.

Payables

Payables are shown in year-end accounts at face value.

With reference to the requirements of Article 2427 of the Italian Civil Code and of Italian Legislative decree no. 173/97, if in the section analysing balance sheet items, payables are not specifically indicated as having a residual duration of more than one year and five years, they are taken to have a duration of less than one year.

Reserve for employee severance indemnities

The reserve for employee severance indemnities is calculated in compliance with current regulations and, as at balance sheet date, fully covers amounts ultimately payable to eligible staff.

Income taxes

Income taxes for the period are recognized in accordance with the laws in force. Deferred taxes are calculated on the basis of the tax rates applicable when the temporary differences will reverse, making the necessary adjustments in case of changes in tax rates for the previous years, provided that the law that changed the tax rate has already been enacted at the balance sheet date.

Deferred tax assets are recognized when there is the reasonable certainty that there is an amount of taxable profit, in the years in which the deductible temporary differences that gave rise to such deferred tax assets will reverse, at least equal to the amount of such differences.

Deferred tax liabilities are not recognised if there is little possibility of them materialising or if their amount is immaterial.

Deferred tax liabilities, if any, are provisioned in the "Tax provision" caption of the balance sheet, whilst deferred tax assets are recorded under "Other assets".

Conversion into euro

Long term items expressed in foreign currency, are converted at spot exchange rates. For balance sheet items still existing at year-end, the exchange rate on the last trading day of the financial year is applied.

Information on Balance Sheet and Income Statement

BALANCE SHEET

ASSETS

CLASS B – INTANGIBLE ASSETS

31/12/2015	31/12/2014	Change
16,295	36,245	-19,950

Intangible assets are stated net of amortisation of 16,299 thousand euro (2014: 13,299 thousand euro). Amortisation is calculated as stated in "Part A - Accounting policies" of these Explanatory Notes.

The Appendix 4 to these Explanatory Notes detailed changes over the year.

B.1 – Deferred Acquisition costs

31/12/2015	31/12/2014	Change
5,791	7,488	-1,697

As more fully described in "Part A - Accounting Policies" of the Explanatory Notes, the deferred acquisition commissions refer only to the Life business, as from the year 2015 the acquisition costs for long-term contracts of Non-Life are charged entirely to the profit and loss account in the year in which those costs are incurred, pursuant of the regulation of the sector, which allows the policyholder to withdraw annually from the contract.

The income statement impact of this change in accounting policy amounted to 921 thousand euro.

If all policies have reached their full maturity, the different duration used for amortisation vs. actual policy duration would have led to an increase in shareholders' equity, before the related tax effect, in shareholders' equity of 420 thousand euro (2014: 347 thousand euro) for the Life business.

B.1.a – Deferred acquisition commissions – Life business

31/12/2015	31/12/2014	Change
5,791	5,675	+115

Life business deferred acquisition commissions changed due to:

commissions on policies acquired in the year	+1,591
commissions for policies cancelled in the year	-436
annual amortization	-1,040

B.1.b – Deferred acquisition commissions – Non Life business

31/12/2015	31/12/2014	Change
0	1,812	-1,812

Non-Life business deferred acquisition commissions changed due to:

annual amortization	-1,812
---------------------	--------

B.4 – Goodwill

	31/12/2015	31/12/2014	Change
	0	625	-625

During the year it has been fully amortized the remaining portion of VIF arising from the SACE BT SpA's Life business.

B.5 – Other deferred costs

	31/12/2015	31/12/2014	Change
	10,504	28,132	-17,628

Deferred expenses, stated in year-end accounts at cost, are directly amortised. The decreasing over the year of 17,628 thousand euro is due to acquisitions for 2,803 thousand euro, disposals for 5 thousand euro, reclassifications for EDP under completion for 862 thousand euro and amortisation for 19,564 thousand euro.

Changes over the year are shown in the following table:

	31/12/2015	31/12/2014	Change
Software applications	10,504	25,742	-15,238
Software applications under completion	-	861	-861
Refurbishment of HQ and agency premises	-	1,529	-1,529
Total	10,504	28,132	-17,628

The item "Software applications" refers to long-term costs borne mainly for the development of IT procedures. During the year it has been considered necessary to review the remaining useful life of the NewAge System and other minor applications. This revision resulted in higher amortisation for 10,880 thousand euro.

During the year the software developed for Solvency II purposes has been completed and has started to be used.

CLASS C - INVESTMENTS

31/12/2015	31/12/2014	Change
2,575,942	2,322,909	+253,033

The comparison with investments' fair value is shown by type in the Appendices 4, 5 and 6 to these Explanatory Notes.

Below are shown the main investments:

C.I Land and buildings

	31/12/2015	31/12/2014	Change
	189,281	196,510	-7,229
<i>Of which:</i>			
C.I 1. Operating buildings	91,671	95,400	-3,729
C.I 2. Buildings used by third parties	97,610	101,111	-3,500

Changes over the year are mainly due to the annual amortization for a total amount of 7,450 thousand euro, of which 3,728 thousand euro relating to owner occupied properties and 3,721 thousand euro relating to non-owner occupied properties, to capitalization of maintenance expenses for 559 thousand euro and to impairment on properties rented to agencies for an amount of 339 thousand euro.

The other revaluations in prior years are shown in the table of changes in property.

C.II Investments in group and in other companies

	31/12/2015	31/12/2014	Change
	483,945	327,126	+156.819

As required by Article 2426 of the Italian Civil Code and by Article 58 of Italian consolidated law on income tax, investments in group (subsidiaries, associated and other investee companies) shall be deemed non-current financial assets.

Any differences between acquisition value and Associated shareholder's equity are attributable to surplus values not recognised to equity, due to unrealised capital gains on properties, current and future.

Changes in Investments in group and in other companies are shown in Appendix 5 to these Explanatory Notes.

Details about companies in which Vittoria holds an investment are shown in Appendices 6 and 7 to these Explanatory Notes.

C.II 1. Equity investments

	31/12/2015	31/12/2014	Change
	468,162	321,126	+147,036

C.II 1.b Subsidiaries

	31/12/2015	31/12/2014	Change
	419,362	271,541	+147,821

The investments in subsidiaries totalled 419,362 thousand euro and are allocated as follows: 51,751 thousand euro to the life business, including 48,256 thousand euro to the life segregated accounts, and 367,611 thousand euro to the non-life business.

Changes over the year are referred to:

- Acacia 2000 S.r.l.: paid 150,000 thousand euro for share capital increase and purchase of a further share capital for 4,650 thousand euro;
- Vittoria Immobiliare S.p.A.: recorded a write-down of the investment by 6,000 thousand euro for impairment;
- VP Sviluppo 2015 S.r.l.: payment to the future capital increase account for 3,000 thousand euro and recorded a write-down of the investment by 3,329 thousand euro for impairment;
- VAIMM Sviluppo S.r.l.: payment of capital for 3,000 thousand euro and recorded a write-down of the investment by 3,500 thousand euro for impairment.

The impairment losses are attributable to the persistence of the real estate sector crisis.

C.II 1.d Associated companies

	31/12/2015	31/12/2014	Change
	19,882	19,971	-89

The investments in associated companies totalled 19,882 thousand euro and are entirely allocated to the non-life business.

Changes over the year are mainly due to:

- Yarpa S.p.A.: reduction of the share capital through the release of members from the obligation of capital contributions and recognition of credits for 1,133 thousand euro;
- Touring Vacanze S.r.l.: purchase of a further 9% of the share capital for 1,800 thousand euro;
- Movincom Servizi S.p.a.: recorded a write-down of the investment by 756 thousand euro to cover losses;
- Consorzio Movincom S.c.r.l.: payment of 38 thousand euro to cover past losses, with relative write-down of the investment;
- joined the Consorzio Servizi Assicurativi at a cost of 0.4 thousand euro.

C.II 1.e Other investee companies

	31/12/2015	31/12/2014	Change
	28,918	29,614	-696

The investments in other investee companies totalled 28,918 thousand euro entirely allocated to the non-life business.

Change over the year is mainly due to extinguishment of participation for 705 thousand euro in Sofigea s.r.l. in liquidation for approval of the liquidation balance sheet.

C.II 3. Loans to group companies

	31/12/2015	31/12/2014	Change
	15,783	6,000	+9,783

Of which:

C.II 3.b Subsidiaries

	31/12/2015	31/12/2014	Change

<i>Of which:</i>			
Premium reserve	17,439	16,007	+ 1,432
Claims reserve	39,581	37,846	+ 1,735
D Bis. II Life business	6,997	6,648	+ 350
<i>of which:</i>			
Mathematical reserves	6,966	6,609	+ 357
Other technical reserves	31	39	- 8

The item Other financial reserves for Life business refers to operating expense reserves for Class 1 - Whole and term life totalled 2 thousand euro and Class IV - Health insurance totalled 29 thousand euro.

CLASS E - RECEIVABLES

	31/12/2015	31/12/2014	Change
	259,433	258,048	+1,385

The amount is payable from 2015. This item is shown net of related adjustment provisions. The changes over the year are detailed as follows:

E.I Receivables relating to direct insurance transaction

	31/12/2015	31/12/2014	Change
	188,261	201,936	-13,675
<i>Towards:</i>			
E.I.1 Policyholders	55,610	55,964	-354
E.I.2 Insurance agents and brokers	98,193	103,886	-5,693
E.I.3 Insurance companies – current accounts	7,394	6,541	+853
E.I.4 Policyholders and third parties for recoverables	27,064	35,545	-8,481

In particular:

E.I 1. Direct insurance receivables, for premiums due from policyholders

	31/12/2015	31/12/2014	Change
	55,610	55,964	-354
<i>Of which:</i>			
E.I 1.a For current years' premiums	52,627	54,073	-1,446
E.I 1.b For previous years' premiums	2,983	1,891	+1,092

This item is shown net of related adjustment provisions, which, as at 31 December 2015, totalled 10,991 thousand euro (13,111 thousand euro as at 31 December 2014), related entirely to the non-life business, due to write-downs of estimated bad debts based on previous years' experience.

The provision made in the previous year has been in line with the subsequent evidence.

E.I 2. Receivables relating to direct insurance, due from insurance agents and brokers

	31/12/2015	31/12/2014	Change
	98,192	103,886	-5,694

Amounts receivable from insurance agents and brokers are stated net of the related provision which, as at 31 December 2015, amounted to 16,012 thousand euro (12,617 thousand euro in the previous year), determined based on an analytical assessment of the recoverability and seniority and the implicit risk of the portfolio.

The item was adjusted by 8,174 thousand euro for the non-life business and 8,138 thousand euro for the life business.

The item includes 22,036 thousand euro for the recovery of the portfolio against leaving indemnities paid in the past to intermediaries who have ceased their activities. Of the remaining loans, totaling 76,156 thousand euro, as of 28 February 2016, 3,020 thousand euro are still to be collected.

In addition, the total amount includes receivables toward subsidiary companies, in particular, Aspevi Roma Srl for 1,624 thousand euro.

The amount of receivables with a residual duration of more than 1 years and 5 year, are respectively 19,457 thousand euro and 10,874 thousand euro.

E.I 3. Receivables relating to direct insurance, due from insurance companies – current accounts

	31/12/2015	31/12/2014	Change
	7,394	6,541	+853

This item primarily consists of receivables stemming from current accounts reflecting the results of technical management of co-insurance transactions, net of the related provision which, as at 31 December 2015, amounted to 650 thousand euro (743 thousand euro in the previous year).

E.I 4. Receivables relating to direct insurance, due from policyholders and third parties for recoverables

	31/12/2015	31/12/2014	Change
	27,064	35,545	-8,481

The caption shows amounts receivable from policyholders and third parties for deductibles and claim subrogation.

The decrease compared to the previous year is mainly attributable to the Deposit business, where sums have been recovered during the year and for which a revision of the amounts to recover was carried out, eliminating the positions that, based on current market conditions, it is believed to be no longer recoverable.

E.II - Receivables relating to reinsurance business

	31/12/2015	31/12/2014	Change
1. Insurance and reinsurance companies	6,333	4,251	+2,082

This item comprises receivables stemming from current accounts reflecting the results of technical management of reinsurance treaties net of related provision of 2,021 thousand euro (2,050 thousand euro as at 31 December 2014), based on expected losses for uncollectible accounts.

E.III – Other receivables

	31/12/2015	31/12/2014	Change
	64,839	51,860	+12,979

This item is shown net of related adjustment provisions of 5,491 thousand euro (3,100 thousand euro as at 31 December 2014), related entirely to the non-life business.

The most significant items forming “Other receivables” are:

- receivables from Tax Authorities for 57,891 thousand euro for tax credits on mathematical reserves in accordance with D.L. 209/2002, advance payment on Non – Life business (ex D.L. 282/2004), Group’s VAT receivable and receivables on local tax (IRPEG and IRES) for which reimbursement has been requested including related interests (41,726 thousand euro as at 31 December 2014); these receivables are considered collectable essentially by next year. These receivables include also receivables stemming from tax consolidation;
- receivables for insurance agreements for 870 thousand euro (867 thousand euro as at 31 December 2014);
- advance payments for claims for 571 thousand euro (326 thousand euro as at 31 December 2014);
- receivables from subsidiary companies for 2,310 thousand euro for tax consolidation (4,186 thousand euro as at 31 December 2014).

The amount of receivables with a residual duration of more than 1 and 5 years are, respectively, 3,009 thousand euro and 71 thousand euro.

CLASS F – OTHER ASSETS

	31/12/2015	31/12/2014	Change
	230,254	297,150	-66,896

Of which:

F. I Tangible assets and inventory

Electronic office machinery	96	150	-54
Total	7,027	7,627	-601

Operations of financial lease

During the year no operations of financial lease were carried out.

F. II Cash & cash equivalents

	31/12/2015	31/12/2014	Change
	138,206	174,593	-36,387

Year-end liquidity came primarily from the agency network's remittances on December and from the cash included in Life segregated funds.

The total amount is composed for 138,188 thousand euro by bank deposits and post office current accounts and for 18 thousand euro by cheques and cash in hand.

The changes of Cash & cash equivalents is detailed in the cash flow statement enclosed to the Part C "Other information" to these Explanatory Notes.

F. IV Other assets

	31/12/2015	31/12/2014	Change
	83,931	114,390	-30,459

The main items forming this caption are shown below:

- deferred tax assets relating to previous years' taxable items for 81,511 thousand euro (94,167 thousand euro as at 31 December 2014). For details, reference should be made to the schedule shown later on in the chapter "Information on the balance sheet and income statement";
- sums unavailable on current accounts as a result of foreclosures exercised by third parties to pending cases, amounted to 1,356 thousand euro;
- invoices to be issued and credit notes to be received for 216 thousand euro (461 thousand euro as at 31 December 2014).

CLASS G – ACCRUED INCOME & PREPAID EXPENSES

	31/12/2015	31/12/2014	Change
	26,032	25,188	+844
G.1 Interest	22,225	21,798	+427
G.2 Rent instalments	725	796	-71
G.3 Other accrued income & prepaid expenses	3,082	2,593	+489

G.1 Interest

This refers mainly to interest totalling 22,137 thousand euro on fixed-income securities (21,765 thousand euro as at 31 December 2014).

G.2 Rent instalments

These are prepaid expense items relating to premises owned by third parties.

G.3 Other accrued income & prepaid expenses

The item refers to prepaid expenses calculated on miscellaneous invoices.

(*) A: for capital increases

B: to cover losses

C: for distribution to shareholders

(1) Under Article 2431 of the Italian Civil Code, the entire amount of this reserve can be distributed only if the legal reserve has reached the limit established by Article 2430 of the Italian Civil Code.

(2) These reserves might be decreased as established by Article 2445 of the Italian Civil Code, paragraph 2 and 3.

(3) This represents the share premium reserve and the non-distributable quota earmarked for coverage of deferred costs that have not yet been amortised ex Article 2426 of the Italian Civil Code.

Disclosure of equity reserves used for capital increases, as required by circular no. 8 issued by the Italian Finance Ministry on 16/03/1984:

C.I.5 - Equalisation reserve	5,207	4,713	+494

Information about analytical evaluation and accounting criteria of the technical reserves are enclosed in "Part A - Accounting Policies" to this financial report.

Changes over the year are shown by business line and type in Appendices 13 and 25 to these Explanatory Notes.

C.I.1 – Premium reserve

The breakdown and changes over the year of the premium reserve is shown below (in /000):

	31/12/2015	31/12/2014	Change
For directly insured risks	393,833	378,236	+ 15,597
For inwardly insured risks	42	42	-
Gross reserves	393,875	378,278	+ 15,597
Reinsurers' share	17,439	16,007	+ 1,432
Net reserves	376,436	362,271	+ 14,165

The breakdown of the direct insurance premium reserve, calculated in accordance with the "pro-rata temporis" criterion and the specific criteria set out in "Part A - Accounting policies" for each line, is as follows:

Reserve for unearned premiums and additions to reserve

(€/000)

Line of business	Direct insurance		Indirect insurance	TOTAL
	Reserve for unearned premiums	Unexpired risks reserve	Reserve for unearned premiums	
01 - Accident	24,537		0	24,537

17 - Legal protection	1,476			1,476
18 - Support and assistance	6,915		6	6,921
Total premium reserve	381,114	12,719	42	393,875

Pro-rata temporis reserve integrations of FY2015, which totalled 12,719 thousand euro, are concerned to Bond (5,857 thousand euro), Marine TPL (38 thousand euro), Credit insurance (5,471 thousand euro) and Miscellaneous damage (1,352 thousand euro) in relation to earthquake risk.

In accordance with the IVASS clarification regarding an Additional reserve for Hail line of business, the Company did not set up this reserve considered the lack of risks existing as at 31 December 2015.

Unexpired risk reserve

Unexpired risk reserve as at 31 December 2015 is referred to Miscellaneous damage line and Marine TPL has been evaluated in accordance with the IVASS Regulation n. 16 article 11, set out in "Part A - Accounting policies" to this financial report.

For the assessment of Unexpired risk reserve of the 14 line of business - Credit is not considered that the empirical method (Art.11 Sec. II IVASS regulation No.16) is consistent with the type of portfolio risks Vittoria which is entirely represented by the Salary-Backed Loans with the possibility of recourse. It was considered, therefore, more appropriate to use a method of estimating the expected losses.

For the assessment of Unexpired risk reserve of the 15 line of business – Bond insurance has been evaluated using the empirical method (Art.11 Sec. II IVASS regulation No.16) removing by the current losses ratio the large-value claims (over 1,000 thousand euro) which believes are not recoverable. This choice is validated by an analysis of the time series of current event claims in the past four years.

Unexpired risk reserve related to the direct insurance is detailed in the following table:

(€/000)				
Line of business	Loss Ratio adjusted	Current year claims	Current year adjusted earned premiums	Unexpired risks reserve
01 - Accident	45.9	27,325	59,527	-
02 - Health	80.7	7,995	9,905	-

C.1.2 – Claims reserve

The breakdown and changes over the year of the claims reserve is shown below (in /000):

	31/12/2015	31/12/2014	Change
For directly insured risks	1,067,205	1,024,304	+ 42,901
For inwardly insured risks	871	844	+ 27
Gross reserves	1,068,076	1,025,148	+ 42,928

Net reserves	1,028,495	987,302	+ 41,193

Non-Life Business:

In continuity with the previous year in order to achieve an estimate of ultimate cost [for the purposes of reserving] closer to operating reality - which features a variety of cases featuring significant differences in the parameters used to measure the entity of claims - the parent company Vittoria Assicurazioni S.p.A. has decided to perform separate analysis of claims occurring before introduction of the knock-for-knock system (KFK for short) (i.e. events before 2007) and after its introduction. In doing so, it has in turn split them by type of management and by claims featuring only property damage and those involving hybrid damage (i.e. those with at least one case of bodily injury).

To do this, preliminary methodological work was done to identify an actuarial method permitting accurate estimation of ultimate-cost reserves at the level of detail indicated above.

Different methods were identified, of a different nature in order to have a more precise monitoring of the evolving dynamics of claims::

- Main method: Paid Chain Ladder: this method estimates the amount of future payments, until run-off of generations, constructing – using the historical series available – the triangles of cumulative amounts paid (organised by event) and calculating on the latter the observable development factors. These factors are then applied to cumulative data up to the current balance-sheet year to calculate estimated future payments. In order to verify the sensitivity of the results, this methodology was subjected to a range of hypotheses and scenarios, in order to verify the sensitivity of the results.

- Alternative methods:
 - o Incurred Chain Ladder: this method is similar to the previous one, except that the coefficients of development for each year of the event are calculated on the total amount of claims (payments already observed + reserves) in the various financial years. The rates are applied to the data accumulated up to the end of the current financial year, in order to estimate the total amount of future claims.
 - o Fisher Lange: the method is based on the projection of the number of outstanding claims and the average cost estimate. This method consists to estimate for claim duration the vectors of claims settlement speed, rate of claims with follow-up, average cost of claims and future inflation trends. These performance measures are evaluated by the analysis of the triangles of run-off in the number of claims paid, reserved, without follow-up and reopened, and the average costs recorded for each generation / policy year.
 - o Bornhuetter Ferguson – Paid/Incurred: which method makes it possible to average the results obtained from the Chain Ladder methods described above and those of the Expected method Claims Technique. The latter provides an estimate of the total cost of claims starting from the identification of a Loss Ratio priori determined by the Expert judgment of the Company, possibly by reference to market data.

In order to obtain an adequate assessment, or rather less affected by possible modifications on shifting timing of the information in the “*room*”, the above method has been also applied to IBNR payments observed, obtaining so a conjoint estimate of ultimate cost and IBNR reserve (the last one has been calculated directly with the method above mentioned).

For all the businesses, since they have sufficient historical depth, the queuing projection coefficients were estimated separately for each component analysed, in order to show the different developments (the time series were projected using appropriate regression functions).

Other risks:

For General TPL line, verifications on claims reserve (including IBNR) appropriateness have been made with Chain-Ladder method. For the valuation of risks for other businesses, the inventory was used. In addition, observable data were analysed and valued according to historical portfolio series.

IBNR claims:

Calculation of the reserve for IBNR (incurred but not reported) claims requires estimation for each business of both the number and average cost of late claims. The estimate was made using as its source the balance-sheet input forms for the years 2004-2015 taking in consideration possible gaps between prior year allocation and the final amount.

For Motor TPL, the estimate is made separately for each type of management. Motor TPL reserves have been audited by the appointed Motor TPL actuary as required by Italian Legislative Decree no. 209 of 7 September 2005.

III.14 - Taxation

	31/12/2015	31/12/2014	Change
	53,834	46,627	+7,207

Current taxes set aside relate to the IRES and IRAP estimate for the current year, which was calculated in accordance with current tax rules.

With Law no. 208/2015 ("Stability Law 2016") was established a drop of 3.5% (from 27.5% to 24%) of IRES, beginning in fiscal year 2017.

The Company has therefore recalculated the deferred and prepaid IRES already charged to 31.12.2014 and not used in the course of 2015 or usable (by law or reasonable foreseeability) in 2016. The Company has also used the rate of 24% to calculate deferred and prepaid IRES arising from temporary changes in the tax base of the year which, by law or reasonable foreseeability, will not be used in the course of the tax year 2016.

The net overall effect on the year 2015 was of 8,974 thousand euro, due to:

- recalculation (at 24%) of deferred and prepaid IRES already in place at 01.01.2015 and not used in 2015 or usable in 2016 and
- allocation (always at 24% instead of 27.5%) of deferred and prepaid IRES 2015 not usable in 2016.

Reconciliation between the tax charge recognised in the financial statements and theoretical tax charge is shown below:

If consolidated companies and Yam Invest NV had been equity-accounted using the method typical of consolidated accounts, instead of at historical cost, net capital relating to available equity (i.e. excluding the portion assigned to Life segregated accounts) would have been 29,473 thousand euro higher.

As a result of the above considerations the elements of equity rise from 509,453 thousand euro to 538,926 thousand euro, which compared to the required solvency margin amounting to 223,671 thousand euro, results in a ratio of 2.41.

Tax situation

In the year 2015, the Company confirmed or exercised the option for the National Tax Consolidation Regime (art. 117 and following of Presidential Decree 22 December 1986, n. 917) with the subsidiaries Immobiliare Bilancia Srl, Immobiliare Bilancia Prima Srl, Acacia 2000 Srl, Vaimm Sviluppo Srl, Vittoria Properties Srl, Vittoria Immobiliare SpA, Gestimmobili Srl, Interimmobili Srl, Interbilancia srl, VRG Domus Srl, Valsalaria srl, VP Sviluppo 2015 srl.

Consolidated IRES national tax with these subsidiaries will persist also in 2016.

With reference to the year 2015, the Company exercised the option for VAT payment at the group level under D.M. 12.13.1979, together with its subsidiaries Vittoria Immobiliare, Gestimmobili srl, Interimmobili srl, Acacia 2000 Srl, VRG Domus Srl, Vittoria Properties Srl, Immobiliare Bilancia Prima Srl, Immobiliare Bilancia Srl, Vaimm srl Sviluppo and Valsalaria srl. It is noted that for the year 2016, the Company exercised this option, along with the same subsidiaries listed above as well as the subsidiary VP Sviluppo 2015 srl.

In accordance with Law no. 147/2013, at the end of 2013 the company revalued the residential buildings in Milan and the building housing its registered office. The revaluation was declared in the UNICO 2014 tax return for the 2013 tax period. As a result, the parent company will pay a substitute tax on the gains recorded and the gains will be recognised for IRES and IRAP purposes. This recognition will take effect from the 2016 tax period, unless the assets are disposed of, in which case the recognition will be postponed until 2017. The substitute tax is 16% for depreciable property and 12% for non-depreciable property.

The value recognised in the balance sheet was aligned to the fair value, determined by an independent evaluation expert. Against these greater values recognised in the balance sheet, the parent company recorded in equity a reserve equal to the revaluation less the substitute tax.

In 2009, the company was subject to a tax inspection by the Italian Tax Authorities for fiscal years 2004, 2005 and 2006, from which disputes related to IRES, IRAP and VAT have ensued.

Between 2009 and 2011 higher assessments for all three years under inspection were notified with details of higher IRES and IRAP, fines and interest for an overall amount of 101 thousand euro; regarding VAT, the higher tax rate, the fines and interest amount to 387 thousand euro. The company has settled its tax obligations related to IRES and IRAP for all three years.

Regarding VAT, the parent company has appealed against the assessments for the three years (2004, 2005 and 2006), obtained a favourable judgement in the first and second instance.

Appeals of the Tax Authorities with the Supreme Court of Cassation are pending, waiting for court meeting.

With Law no. 208/2015 ("Stability Law 2016") was established a drop of 3.5% (from 27.5% to 24%) of IRES, beginning in fiscal year 2017.

The Company has therefore recalculated the deferred and prepaid IRES already charged to 31.12.2014 and not used in the course of 2015 or usable (by law or reasonable foreseeability) in 2016. The Company has also used the rate of 24% to calculate deferred and prepaid IRES arising from temporary changes in the tax base of the year which, by law or reasonable foreseeability, will not be used in the course of the tax year 2016.

The net overall effect on the year 2015 was of 8,974 thousand euro, due to:

- recalculation (at 24%) of deferred and prepaid IRES already in place at 01.01.2015 and not used in 2015 or usable in 2016 and
- allocation (always at 24% instead of 27.5%) of deferred and prepaid IRES 2015 not usable in 2016.

Notes: - Include only derivative transactions existing at the balance sheet date which imply a commitment for the company; where the derivative does not exactly match one of the above captions or relates to more than one caption, it should be included in the one more related; no offsetting is allowed if not related to purchase/sale transactions relating to the same derivative category (same contents, maturity, underlying asset, etc.).

- Derivatives involving two currency swaps should be stated only once, referring to the currency to be purchased. Derivatives involving both interest rate and currency swaps should only be included in currency swaps. Derivatives relating to interest rate swaps are classified as "purchases" or "sales" depending on whether or not they imply the fixed rate purchase or sale.

(1) Derivatives which involve or may involve capital forward exchanges should be stated at their regulated price; all other derivatives should be stated at their nominal value

(2) Indicate fair value of derivatives;

- the adequacy in relation to the Legal Entity features and
- the actual application

of administrative and accounting procedures for formation of financial statements during the period 1 January 2015 - 31 December 2015.

2. In this respect no remarks emerged besides what already reported in Director's report to the financial report as at 31 December 2015.

3. It is also attested that:

3.1 the financial statements as at 31 December 2015:

- a) Having been prepared in compliance with (a) the Italian Civil Code, (b) the requirements indicated in Italian Legislative Decree no. 173 of 26 May 1997, (c) the Italian Legislative Decree no. 209 of 7 September 2005, and (d) applicable ISVAP (Italian insurance regulator – now IVASS) ordinances, regulations, and circulars, are – to the best of their knowledge – such as to provide fair and true representation of the assets and liabilities, profit or loss, and financial position of the issuer.
- b) Match corporate books and accounting records

3.2 the directors' report contains a reliable analysis of the business outlook and management result, the financial position of the issuer and a description of the main risks and uncertain situation to which they are exposed.

Board of Statutory Auditors' Report

VITTORIA ASSICURAZIONI S.p.A.

Report of the Board of Statutory Auditors to the Shareholders' Meeting pursuant to Article 153 of the Legislative Decree No. 58/98

To the shareholders of Vittoria Assicurazioni S.p.A.

In the course of financial year 2015, we carried out the supervisory activities as required by Law, by Consob (the Italian stock exchange authority), by IVASS (the Italian insurance regulatory authority Institute), and by the so called "professional practices".

In particular, in compliance with the tasks assigned to the Board of Statutory Auditors by Legislative Decree no. 58/98, we hereby represent that:

- we participated in the meetings of the Board of Directors and obtained information on a quarterly basis on the activities carried out by the company and the company's subsidiaries and those operations that have a major effect on their economic and financial situation and their assets, ensuring that the resolutions adopted were compliant with the Law and the company mission and that they were not in conflict with resolutions adopted in Shareholders' Meetings;
- we checked, within the bounds of our responsibility, that the principles of correct administration were adhered to by the Directors in carrying out their duties, by means of direct observation, collection of information from the managers in charge of implementing the company's administrative requirements and through meetings with the External Auditor for the purpose of exchanging relevant information;
- during the financial year we monitored the adequacy of the internal accounting and administrative control systems as well as the reliability of the latter for the purpose of stating relevant events by:
 - ✓ obtaining information from the managers in charge of the various company functions, including the manager in charge of compiling company accounting records;
 - ✓ examining company documents and the reports of the "Internal Audit" and the "Compliance and Risk Management" functions;
 - ✓ meeting periodically with the External Auditor who notified us during the financial year the results of quarterly checks showing that accounting records had been regularly kept and through participation in the activities of the Control and Risks Committee.

Constant participation in the Control and Risks Committee enabled the Board of Statutory Auditors to coordinate with said Control and Risks Committee the execution of its Internal Control Committee functions and its auditing functions as provided by Article 19 of Legislative Decree 39/2010, and specifically to monitor:

- ✓ the financial disclosure process;
- ✓ the efficiency of the systems for internal control, internal audit and risk management;
- ✓ external auditing of annual single-company and consolidated accounts;
- ✓ aspects concerning the independence of the External Auditor, with particular reference to services provided by said External Auditor to the audited company other than the statutory audit itself.

During the financial year a consulting service costing 95,000 euros, other than the statutory audit, was commissioned to one of the companies belonging to Deloitte & Touche S.p.A. network, related to the process of compliance to Solvency II regime undertaken by the company.

The independent auditors have anticipated that the report pursuant to Article 19, Paragraph 3 of Legislative Decree 39/2010 will not highlight key matters arising during the audit, or significant weaknesses in the internal control system with reference to the financial information process.

Based on the work that was carried out, the internal control system therefore proved to be adequate on the whole, and there were no critical issues to report.

Furthermore, we hereby represent that:

- we performed the controls required by IVASS in relation to insurance books and registers, classification and valuation of the securities portfolio, use of financial derivatives, and checks as required by anti-money laundering regulations;
- we noted, during periodical checks, the proper and correct allocation of funds to cover technical reserves, as required by ISVAP (now IVASS) circular No. 176/1992, supplemented by Regulation 36 of 31st January 2011;
- we received the Quarterly Reports in accordance with ISVAP (now IVASS) Regulation 24 of 19th May 2008, on complaints prepared by the manager in charge of the Internal Audit of the Company that did not reveal any critical situations nor any organisational shortcomings;
- we met with the members of the Supervisory Body set up pursuant to Legislative Decree 231/01, which prepared the specific half-yearly reports for the Board of Directors, and there were no critical issues to report;
- we did not have specific meetings with the Boards of Statutory Auditors of the subsidiaries as we were updated directly by a member of this Board of Statutory Auditors who is also a member of the Boards of Statutory Auditors of the subsidiaries;
- we checked that the Company set up regulations, procedures and company structures aimed at monitoring and protecting insurance, financial, credit and business risks pursuant to ISVAP (now IVASS) Regulation 20;
- of the actions taken for the implementation of Solvency II, and in particular: the adoption of a specific calculation and reporting software, the adoption and updating of policies required by the legislation and the adoption of the framework ORSA (Own Risk and Solvency Assessment) as described in the management report;
- we noted the proper operation of the procedures regarding related parties.

In addition, also in accordance with CONSOB recommendations, the Board of Statutory Auditors represents that:

- the information provided by the Board of Directors, also specifically regarding subsidiaries, intra-group transactions and transactions with related parties was deemed adequate;
- there were no atypical or unusual transactions with subsidiaries or with related parties or with other third parties as declared by the Directors in the Management Report;
- ordinary transactions with subsidiaries or with related parties were conducted at market conditions in the best interest of the company and were conducted in compliance with the specific procedure approved by the Board of Directors; said transactions are described in the Management Report with specification of their size and the economic effect on the company results;
- no particularly important events were reported after the end of the financial year;
- in 2015 there were 14 meetings of the Board of Statutory Auditors of which 9 were held jointly with the Control and Risks Committee and 9 meetings of the Board of Directors;
- the instructions given by the Company to subsidiaries are deemed adequate for the purpose of Article 114, Paragraph 2, of the Italian Legislative Decree 58/1998 ;
- we have expressed an opinion on the remuneration of Directors with specific duties as required by Law, as well an opinion on the appointment of the new head of Risk Management and Actuarial office, whose term runs from January 2016.

The Company adhered to the Self-Regulation Code for listed companies of the Committee for Corporate Governance. It adopted its terms and put it into practice as demonstrated by the relevant report prepared for the Shareholders' Meeting. The Company verified the independence of the Directors and we confirm proper application of the assessment criteria and audit procedures used by the Board of Directors. We also confirm our independence as required by the Self-Regulation Code.

During the financial year, the Board of Statutory Auditors did not receive any reports pursuant to article 2408 of the Italian Civil Code and neither have any other reports been made. During the year, Ivass carried out inspections at the Company as reported in the Management Report.

The Company has drawn up the Financial Statements and the Consolidated Financial Statements using (as required by law) the National Accounting Principles (the Financial Statements) and IAS / IFRS accounting principles, such as endorsed by the EU (Consolidated Financial Statements).

With regard to these financial statements, independent auditor Deloitte & Touche S.p.A. today released audit reports with no comments or limitation of scope.

As regards the 2015 Financial Statements and allocation of the year's profits, we agree with the proposal of the Board of Directors, which consists of setting aside the amount of 9,464 euros to the legal reserve, allocating 52,783,344 euros to the available reserve, and 13,475,785 euros for distribution of dividends.

The Shareholders Meeting called to approve the financial statements at 31 December 2015, will have to appoint the Board of Statutory Auditors, whose mandate is due to expire at the conclusion of the three-year term.

Report on the Financial Statements

We have audited the financial statements of Vittoria Assicurazioni S.p.A., which comprise the balance sheet as at December 31, 2015, the income statement for the year then ended and the explanatory notes.

Management's Responsibility for the Financial Statements

The Company's Directors are responsible for the preparation of these financial statements that give a true and fair view in accordance with the Italian law governing financial statements.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISA Italia) issued pursuant to art. 11, n° 3, of Italian Legislative Decree 39/10. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Vittoria Assicurazioni S.p.A. as at December 31, 2015, and of its financial performance for the year then ended in accordance with the Italian law governing financial statements.

Report on Other Legal and Regulatory Requirements

Opinion on the consistency of the report on operations and of certain information included in the report on corporate governance and ownership structures with the financial statements

We have performed the procedures indicated in the Auditing Standard (SA Italia) n° 720B in order to express, as required by law, an opinion on the consistency of the report on operations and of certain information included in the report on corporate governance and ownership structures required by art. 123-bis, n° 4, of Italian Legislative Decree n° 58/98, which are the responsibility of the Directors of Vittoria Assicurazioni S.p.A., with the financial statements of Vittoria Assicurazioni S.p.A. as at December 31, 2015. In our opinion the report on operations and the information included in the report on corporate governance and ownership structures referred to above are consistent with the financial statements of Vittoria Assicurazioni S.p.A. as at December 31, 2015.
