

29th September, 2026

Dear Parents,

In-situ Redevelopment of Saint Joseph's Primary School

We first informed parents of the launch of a major project to redevelop the current premises of St. Joseph's Primary School (SJPS) in April 2023 following the green light given by the Government for SJPS to proceed with the project. We have since engaged professional consultants in the detailed design of the new school premises. Significant progress has been made, and we are about to finalize the detailed design.

We have recently been informed by the Government that our redevelopment project has been given internal approval to move forward. Subject to the smooth sailing of the various processes involved, including design finalisation, tender and funding approval by the Legislative Council, actual demolition and construction may commence around late 2027. To enable the construction works to start at the earliest possible opportunity, we have to move to temporary accommodation at the former Lung Cheung Government Secondary School in Wong Tai Sin, which has been identified as our decanting school. The move to the decanting school will take place in August 2027 at the earliest, depending on the progress of the mentioned processes. Pending further progress, detailed plans and arrangements will be announced separately.

This is a very important milestone for the school redevelopment project. However, the tasks ahead remain enormous. We will continue to work closely with our consultants to complete the necessary work as soon as possible.

As mentioned in our earlier correspondence to parents, the redevelopment project is expected to take years to complete. We will strive to work as hard as we could to take this project forward. As we proceed along the way, we are committed to keeping parents posted on major development. We firmly believe that the redevelopment of SJPS will significantly enhance the learning environment for our students and enable us to continue to deliver a high-quality education. We thank you for your unfailing support and look forward to working with you as we continue this exciting journey.

Yours faithfully,

Maggie Lam

Principal

St. Joseph's Primary School
